

General Policy

Marywood University (the "University") declares and reaffirms a policy of equal educational and employment opportunity and non-discrimination in its educational programs and all other activities that it operates both on and off University property. Marywood is committed to maintaining a healthy and safe learning, living and working environment for all members of the Marywood community. Marywood University does not condone and will not tolerate discrimination, harassment, or assault regardless of whether the action is based on race, sex (including sexual harassment, sexual violence and pregnancy), color, gender, national or ethnic origin, age, creed, ancestry, religion, disability, marital status, military/veteran status, genetic information, whether an individual has a GED, use of a guide or support animal, or any other characteristic protected by applicable federal, state, or local law.

Marywood University does not discriminate on the basis of sex in its educational programs and in other activities operated by the University and is required by Title IX, and specifically 34 C.F.R. Part 106.9, not to discriminate in such a manner. This extends to employees of and applicants for admission to Marywood University. Inquiries concerning the application of Title IX may be directed to the Title IX Coordinator or a Deputy Title IX Coordinator for the University, or to the Assistant Secretary for the Office of Civil Rights of the Department of Education.

Any individual who believes s/he has been subject to discrimination on the basis of sex is encouraged to file a grievance consistent with the University's Sexual Misconduct and Complaint Procedures Policy.

Marywood University is committed to taking all necessary steps to comply with any obligations it may have under Section 504 of the Rehabilitation Act, the Americans with Disabilities Act, Title IX of the Civil Rights Act of 1964, as amended Title VII of the Civil Rights Act of 1964, as amended, and the Campus SaVE Act of 2013. These are explicit civil and legal applications of the formulation of beliefs already cherished in Marywood's religious commitment, objectives, and practices.

Marywood University will make reasonable accommodations to known physical or mental limitations of otherwise qualified individuals with disabilities unless doing so would impose an undue hardship on the University. Any person who believes he or she may require such accommodation should contact the Associate Vice President for Human Resources and Affirmative Action Officer.

The Marywood University Anti-Discrimination Policy applies to all faculty, staff, administration, employees, students, volunteers and visitors on campus property. Additionally, the Policy applies to the conduct of all faculty, staff, administration, employees, students, volunteers and visitors at off-campus University-sponsored events, including, but not limited to, academic and educational programming, internships, study abroad programs, athletic events, and all other University programming, as well as to the conduct of all faculty, staff, administration, employees, students, volunteers and visitors occurring off-campus but having an effect on the University's educational environment.

History, Mission, and Organizations

History of the University and Graduate Education: Marywood Experience

Marywood College was established by the Congregation of the Sisters, Servants of the Immaculate Heart of Mary, in 1915. In 1917, the College was incorporated under the laws of the Commonwealth of Pennsylvania, and, in 1921, approval of the Middle States Association of Colleges and Schools was secured. The College expanded to include graduate study in 1921, and the charter was extended on June 26, 1922, to include the Master of Arts degree. In the intervening years, the College moved to expand graduate degree offerings in those areas where it had particularly strong resources and strong mission related needs. In the spring of 1997, the Pennsylvania Department of Education approved the request to change Marywood's status from college to university. By definition, a university is a multi-unit institution with a complex structure and diverse educational functions, including instruction, promotion of scholarship, preservation and discovery of knowledge, research, and service. In addition, a university has a broad cultural basis from which undergraduate and graduate units draw upon the arts and sciences for basic courses.

Marywood University Mission Statement

Marywood University, sponsored by the Congregation of the Sisters, Servants of the Immaculate Heart of Mary, roots itself in the Catholic intellectual tradition, the principle of justice, and the belief that education empowers people. The University integrates an enduring liberal arts tradition and professional disciplines to create a comprehensive learning experience. Our undergraduate and graduate programs promote academic excellence, advance innovative scholarship and foster leadership in service to others. Within a welcoming and supportive community, Marywood challenges individuals of all backgrounds to achieve their full potential and make choices based on spiritual and ethical values. Marywood University prepares students to seek sustainable solutions for the common good and educates global citizens to live responsibly in an interdependent world.

Goals and Objectives

- 1. Provide a values based context for university experiences.
 - A majority of students will participate in service opportunities in an ongoing way.
 - Students will demonstrate an understanding of the ethical dimensions of their fields of study.
 - A majority of students will participate in spiritual development activities.
 - Employees will demonstrate core values in the work place.
- 2. Foster an awareness and appreciation of the pluralistic nature of contemporary society.
 - Graduates will choose to study or work in multicultural settings either at home or abroad.
 - Students will demonstrate a deeper appreciation for cultural diversity and an understanding of global issues.

- Enrolled students will travel abroad during their college years.
- Employee groups and governing bodies will reflect the pluralistic nature of contemporary society.
- 3. Provide a supportive and welcoming environment to a diverse academic community.
 - Students enrolled in any program will fulfill their academic goals by successfully completing their degree work.
 - An increasing number of racially and culturally diverse students and employees will choose Marywood as a welcoming community.
 - Students from a cross-section of socio-economic groups will enroll in each incoming class.
 - Campus constituencies will express satisfaction with all campus services.
- 4. Prepare people for socially responsible leadership roles.
 - Students will participate in an internship or practicum experience.
 - Students will demonstrate a significant level of co-curricular activities.
 - Students will experience positive interactions with faculty members outside of class.
 - Employees will serve as role models of socially responsible leaders.
- 5. Provide a challenging instructional program.
 - Students will demonstrate achievement of cognitive skills at a level comparable to peers on standardized tests.
 - Students will demonstrate the ability to think critically by engaging in research activities and by developing problem solving strategies.
 - Students will demonstrate the ability to integrate the liberal arts tradition with their professional specializations.
 - Students will demonstrate competence in both information literacy skills and communications skills.
 - Faculty will provide evidence of ongoing scholarly activity.
- 6. Inspire a sense of personal responsibility for responding to social justice issues.
 - Faculty, staff, and students will participate in projects designed to address social inequities.
 - Students will demonstrate knowledge of both national and international social justice issues.
 - Faculty, students, and staff will serve as advocates for justice in their personal and professional lives.

Core Values

- 1. **Catholic Identity.** The pursuit of truth, goodness, beauty, justice, and the common good within the context of the Catholic faith tradition and in dialogue and service with persons of diverse faiths and worldviews.
- 2. **Respect.** Honoring the uniqueness and dignity of each human person; demonstrating ethical and just interactions; and caring for the earth and all creation through a commitment to sustainability.

- 3. **Empowerment.** Access to education that enables all to achieve their full potential to live as conscientious citizens in a pluralistic society.
- 4. **Service.** A commitment to promoting social responsibility which fosters community engagement to meet real needs.
- 5. **Excellence.** Manifesting Marywood University's pursuit of the highest level of achievement in support of *Sanctitas, Scientia, Sanitas*.

Faculty

Marywood University has developed an excellent three-fold faculty system to bring teaching and instruction to the highest level possible. This system involves faculty, community professional practitioners in the applied disciplines, and field site/practicum supervisors. Each of the three groups works in concert to deliver the curricula. This approach integrates and balances practice and theory in the professions, keeping the curriculum current to practice, and is reflective of the creative ideas generated in the various disciplines.

The majority of Marywood's faculty who teach graduate courses are experienced teachers and scholars. Their experience and the University's long history in adult professional and aesthetic education are factors which have led, over the years, to an open and engaging faculty-student relationship. At Marywood, the quality of faculty-student relationships, both within and outside the classroom, has become the standard by which educational excellence is measured.

Role and Practice of Scholarship

Scholarship at Marywood supports and builds upon our teaching and service activities. Faculty scholarship is frequently linked closely to teaching and becomes integrated into coursework on an ongoing basis. Faculty work with students to improve their research skills and a scholarly orientation within the professional degree programs. Joint publishing of student-faculty is an aspiration of all four colleges and the School of Architecture. Graduate programs, because of their curricular focus on the human services and the professions, stress the concrete application of theoretical and empirical findings to local, regional, national, and international needs. The role of scholarship continues to grow at Marywood with the development of annual opportunities for faculty and students to present their research findings both on campus via the Graduate Research Forum and off campus at professional meetings.

Governance

Each of the four colleges and the School of Architecture are led by a dean, aided by the advice and wisdom of the faculty, and provide specific structures and opportunities for student and community input. The standards and policies of graduate education evolve from the openness of discussion, self-criticism, and debate which graduate education embraces. The process of information gathering, judgment, and decision-making occurs through various committees and organizations including: the Policy and Operations Committees, the Graduate Curriculum Committee, various department-based advisory groups and the Graduate Student Council.

Enrollment

Marywood University has an enrollment of more than 3,000 students; enrollment at the graduate level is over 1,000 students. Graduate students, both full-time and part-time, represent a diversity of backgrounds. Actively working to increase the diversity of the student body in Marywood's graduate programs is a high priority. Marywood's size permits a closeness in faculty-student relations, uncommon in larger research-oriented graduate schools.

Campus

Marywood University is located on a scenic property of 115 acres on the edge of the city of Scranton. Visitors are impressed with the natural beauty of the campus, which has been designated a national arboretum. Nestled along scenic walkways, the campus' 26 centers of living and learning create a relaxed and aesthetically pleasing environment for studies.

Marywood's commitment to nature and an aesthetic learning environment has been enhanced over the past decade with new construction and facility renovation.

The Shields Center for Visual Arts, with its two outstanding galleries, the Suraci and the Contemporary, provides the graduate student with a variety of exhibits throughout the year. Marywood's strong heritage in music programming affords a

rich repertoire of musical performances in the Sette-LaVerghetta Center for Performing Arts. In the fall of 1999, Marywood dedicated the William G. McGowan Center for Graduate and Professional Studies. The Insalaco Center for Studio Arts was dedicated in 2001, and the O'Neill Center for Healthy Families was built in 2002. These buildings provide state-of-the-art facilities for students in the Visual Art, Athletic Training, and Nutrition and Dietetics programs, among others. To fulfill student needs for meeting places and recreation, the Nazareth Student Center provides lounges, a dining marketplace, snack bar, game room, and bookstore. Opened in 2006, the Center for Athletics and Wellness supports both athletic and academic programs, including Health and Physical Education, Athletic Training, and Sports Nutrition and Exercise Science. The building includes a 5,000 square foot fitness center, a 1500 seat arena, an indoor jogging track, dance and aerobics studio, locker rooms, athletic training room and hydro therapy room, student lounge, and a climbing wall. Open air tennis courts are nearby. The Marywood University Aquatics Center is an extension of the Center for Athletics and Wellness and includes an eight-lane pool, team locker rooms, and spectator seating for 190. The School of Architecture was dedicated in 2009 and is a spacious state-of-the-art facility with an open, shared central space and individualized space for students. The Marywood University Learning Commons, dedicated in 2015, is a flexible and open physical space which serves as the intellectual and social heart of campus. In addition to housing library services, this facility also serves as the home of the Center for Communication Arts, Entrepreneur Launch Pad, and the Center for Transformational Teaching and Learning.

Location

Marywood University is located in the Scranton/Wilkes-Barre metropolitan area with easy access to the Pocono Mountains and resort areas. It is conveniently centered at the intersection of many interstate highways. The campus is 120 miles west of New York City and 115 miles north of Philadelphia.

The University's location in a metropolitan area of more than 76,000 people, with reasonable access to the major eastern cities, provides the best of two worlds for graduate education — access and self-sufficiency. It is an area that, in recent years, has been ranked high in national studies for its quality of life and has been experiencing a strong and sustained economic emergence. The city of Scranton is rich both in natural environment and in history. It is located in the Pocono Mountains region, an area renowned for the beauty of its lakes and forests and the access it offers for all kinds of sports and other outdoor activities. Scranton has become a tourist center in the region, providing a wealth of cultural opportunities — concerts, theatre, ballet, lectures, and art shows. It celebrates its distinguished history as a labor center in museums and Steamtown National Park and is a living showcase of magnificent Victorian architecture. Marywood University, by its presence in Scranton — through its learning commons, theatre, art galleries, educational facilities and spacious campus (recognized as one of the most beautiful in the state) — continues to be a vital, valuable part of the exceptional city it calls home.

Regulations, Rules, and Policies

Marywood University maintains a *Calendar/Student Handbook* on its website. Every graduate student has a responsibility to be aware of applicable policies contained in this *University Handbook*. The *Handbook* is available online at www.marywood.edu. This catalog references some major policy statements contained in the University *Calendar/Student Handbook*.

Graduate Admission

Applicants for admission to master's level graduate courses must meet at least two minimum requirements: (1) possess a bachelor's degree from a regionally accredited college or university and (2) demonstrate potential for graduate work, ordinarily by having maintained a "B" average during undergraduate study. Additional prerequisite standards for admission and evidence of suitability for advanced study may be set by particular departments or for specific degree concentrations within departments. Students seeking admission should review the particular section or sections of the graduate catalog referring to the degree program of their interests. Students seeking admission should contact the Office of University Admissions as soon as possible. If admission test requirements, such as the Graduate Record Examination or Miller Analogies Test, are omitted from the admission application, your application may not be eligible for review. Test results are valid for five years from the test date. An applicant who has not completed an undergraduate degree at the time of application can gain provisional admission. The student will not gain full admission until the Office of University Admissions has received an official transcript showing the undergraduate degree awarded. Students who do not complete the admission process cannot gain full admission status to a graduate program and are not eligible for financial aid. Without gaining full admission status, students will be subject to all policy and rule changes affecting their degrees beyond their initial date for commencing coursework. Since degree requirements frequently change over a three-to-five-year period, the lack of full admission status could prolong a student's time and credit hours necessary for degree completion. Until a student fulfills all entry requirements to the department, a student is not fully admitted to graduate studies. Accumulated credit hours are evaluated by an academic adviser at the time of full admission to determine applicability to the degree program being pursued. After admission into Marywood, the student will receive notification to pay a non-refundable confirmation deposit. This will secure enrollment for the student and allow the student to register for classes.

Applicants for admission to the Ph.D. program must hold a master's degree and meet specific additional requirements for that program. Consult the section of this catalog related to the Ph.D. program for further details.

Applicants for admission to the Psy.D. program must present at least 18 credits of Psychology coursework at the undergraduate level. A small number of students can be admitted post-master's. Refer to the section of this catalog related to the Psy.D. program for details.

Admission of International Students

Marywood University is authorized under federal law to enroll foreign national students. An academic record of all college and university work previously completed will be required to secure admission to any field of study. Graduate students are admitted with the understanding that their work is subject to review and re-evaluation upon arrival. In some cases, additional undergraduate work will be required before acceptance as a regular matriculating graduate student.

The student should complete the application for admission, including references and official transcripts, and submit them to the Office of University Admissions. The applicant must also arrange to have the scores of any required tests, including the TOEFL or IELTS, sent directly to Marywood by the testing agency. All English Language Proficiency examinations must not be older than two years. All application materials should reach the Office of University Admissions at least three months in advance of the beginning of the term of anticipated enrollment to allow time for correspondence and the evaluation of the application. Translated, true copies should accompany original documents which are in a language other than English.

The student must submit forms documenting means for payment of tuition and fees. These forms must be returned to Marywood. Upon receipt of the deposit at Marywood, a U.S. Immigration I-20 form will be forwarded to the applicant.

New international students should contact the Office of University Admissions upon admission and the Office of International Affairs upon arrival in Scranton. All international students should feel free to consult the Office of University Admissions at any time concerning special problems.

The Registrar is the designated official relating to U.S. Immigration affairs. The Office of the Registrar is in the Liberal Arts Center.

International students should be aware of the following:

- 1. Applications from students who live outside the United States should be received three months before the semester of desired first enrollment.
- Admission to graduate standing does not imply that any financial assistance will be given. Admission means only that the student may take graduate courses. Accordingly, to be admitted, a student must be able to prove financial support availability. Scholarships are available to international students; however they do not cover the full tuition costs.
- 3. Full-time enrollment is required.
- 4. To be informed about the student's competence in reading and writing English, the University requires that the student demonstrate mastery of the English language by performing satisfactorily on the Test of English as a Foreign Language (administered by the Educational Testing Service of Princeton, New Jersey) or the International English Language Testing System. Normally TOEFL scores above 79 on the internet-based test or a band of 6.0 on the IELTS will be accepted as evidence of mastery. International students must submit TOEFL or

IELTS scores taken within the last two years. For students wishing to pursue the MS in Biotechnology a band of 6.5 on the IELTS or 81 on the TOEFL is required.

5. Students are required to carry health insurance or purchase health insurance upon arrival to campus.

Application Process

Students seeking admission to a doctoral or master's degree, certificate, or certification program must apply for admission through the Office of University Admissions. All applicants must submit the following information:

- 1. The application form properly completed, including the non-refundable application fee payment if the application is not submitted online.
- 2. Unopened official transcripts of all previous academic work, including any academic work completed at Marywood.
- Two letters of reference from persons familiar with the student's educational background and work. Doctoral applicants are required to submit three letters of recommendation.
- 4. Specific departmental requirements as listed in the department's description of the course of study for which application is being submitted.

Students seeking state certification must also contact the University's Certification Office at 570-961-4731 for specific additional requirements.

When all required materials have been received at the Office of University Admissions, they will be forwarded to the applicant's department of specialization for review. Applicants should expect a review process which may take up to 15 days from final application submission or from the published deadline for receipt of applications, whichever is later. After the departmental review and assessment of the application is completed, the applicant will be informed in writing by the Office of University Admissions of the specific action taken concerning the request for admission. The various student statuses at the graduate level are defined later in this catalog.

Late applicants who cannot or do not submit complete credentials within their applications for departmental review may take classes only under the personal enrichment or admission-in-process category. Such students are limited in the numbers of credit hours for which they may enroll. Students who are denied admission by an academic area are not permitted to pursue personal enrichment within that area of study.

Marywood University operates on a rolling admissions basis. However, certain programs have specific deadlines for admission applications. A number of programs only review applications during certain times of the year. Please contact the Office of University Admissions or the academic department to which you are applying to find out if this applies to your field of study.

Graduate courses are offered in the fall, spring, and summer sessions. Applicants to any course of study other than the Ph.D., Psy.D., Physician Assistant, or Speech-Language Pathology programs may be admitted in any of these sessions, but must check with their appropriate chairpersons to be advised properly concerning when beginning courses will be available and the consequences of being admitted in a particular semester other than the fall semester.

Students seeking admission to the Biotechnology, Counseling, Ed.S., Ph.D., Psy.D., Physician Assistant, Social Work, or Speech-Language Pathology programs should consult the section of the catalog related to their program for details on the application process.

Incoming students who wish to defer their enrollment from their intended semester of entry and have paid the non-refundable deposit will be subject to a deferral fee.

Admissions in Process/Enrichment Credit Limitations

Full admission to a course of study takes effect in the semester specified in the admission letter to the degree applicant from the Office of University Admissions. Admission to a program does not guarantee that financial aid will be available for that semester. Students may not take more than nine (9) credit hours (or as otherwise dictated by a department) prior to full admission. Individual programs of study may further limit a student to as few as six (6) credits prior to full admission. Credits taken under admission in process or enrichment status do not guarantee acceptance into a specific program, nor does it guarantee fulfillment of required coursework. Upon completion of an admissions application, completed coursework will be evaluated. Acceptance of applicable credits is completely at the discretion of the Department Chair or Administrator, and the Dean of the specified college. In addition, students taking courses under admission in process or enrichment are considered non-matriculating and therefore are not eligible for financial aid. Students should be advised that courses taken under either status and applied to a degree program will be considered in the seven-year completion time limit.

Students pursuing coursework under these statuses will be required to file an application for non-matriculating students each term of study.

All application materials should be mailed to: Marywood University Office of University Admissions Liberal Arts Center 120 2300 Adams Avenue Scranton, PA 18509-1598

Questions regarding application status should be directed to the University Admissions: <u>GoGrad@marywood.edu</u>

Retention of Application Files

Applications for admission to a master's degree, certificate, or certification program will be kept for *two years* from the original date of receipt. If the application has not been completed during this period, it will be destroyed without notice to the applicant. If the applicant subsequently decides to enter a graduate program at the University, he/she will be required to reassemble the entire application file.

Application files for applicants who have been offered admission to Marywood University will be kept for *two years* from the semester of acceptance. If a student does not register for class during this period, the application will be destroyed.

Application files for applicants who have not been offered admission to Marywood University will be kept for *two years* from the semester for which the student has applied.

Application files for applicants who formally withdraw their application prior to and after acceptance will be kept for *two years* from the semester for which the student has applied.

Applications for admission to the Ph.D., Psy.D., Physician Assistant, or Speech-Language Pathology programs are retained only for the admissions cycle of the academic year for which the student has applied.

All documents submitted in connection with an application become the property of the University.

Student Status Categories

A student may be enrolled in a Marywood University graduate program with either regular status or special status. "Regular" status refers to that of a student who is admitted by the University and who is pursuing a course of studies leading to a master's degree or doctoral degree. Students who have not yet been admitted to matriculation or who do not intend to earn a master's or doctoral degree are given "special" status. The following categories of status are used within the graduate programs:

Regular—This status is assigned to those students who are pursuing a course of study leading to a master's or doctoral degree.

Provisional—Students who have been given provisional acceptance remain in a special status category until they have fulfilled all conditions of their letter of acceptance.

Admission in Process—A student who has applied to seek a graduate level degree is in a special status, non-degree-seeking category until all necessary paperwork, letters of reference, fees, tests, and departmental evaluations have been completed. It is the student's obligation to see that the required materials for application completion are sent to the Office of University Admissions on a timely basis, normally within five months of the date of application.

Certificate Program—A student who has been accepted to pursue a program of study leading to a Marywood University certificate with no specific relationship

to state certification or any professional body is in a special status, non-degree seeking category.

Certification—A student accepted to a program of study which fulfills requirements for state certification in such areas as education, school psychology, counselor education, and special education is in a special status, non-degree seeking category.

Transfer—A visitor from another educational institution whose purpose is to transfer credit back to the home institution is in a special status, non-degree seeking category.

Enrichment—A person enrolled in a course without reference to a specific, organized goal recognized by any graduate program is in a special status, non-degree seeking category.

Certificate of Advanced Graduate Study (CAGS)

This certificate program is an individually oriented program designed to meet the needs of students for advanced study in Counseling and Art. Each student, with an assigned advisor, can plan his/her program of studies and draw up a contract which will be reviewed each semester until completion of the program.

Student Reporting Classification

A graduate student who is enrolled for six or more credits in a given semester is reported as full-time for that semester. A student who is enrolled for less than six credits in a given semester is considered as part-time for that semester. Students enrolled in three credits are reported as half-time for that semester. In certain instances, governmental or agency regulations supersede the Marywood definition.

Other Academic Regulations and Rules

Students may also reference Academic Honesty Policies in the University *Calendar/Student Handbook*.

Academic Honesty

The Marywood University community functions best when its members treat one another with honesty, fairness, and trust. The entire community, students and faculty alike, recognize the necessity and accept the responsibility for academic honesty. Students must realize that deception for individual gain is an offense against the entire community. Cheating and plagiarism are behaviors destructive of the learning process and of the ethical standards expected of all students at both the graduate and undergraduate levels.

Students have a responsibility to know and adhere to the University's *Academic Honesty* policy. Violations of this academic honesty statement or the intent of this statement carry consequences. University procedures for investigation of alleged violations of this policy ensure that students are protected from arbitrary or capricious disciplinary action. Initial sanctions for violations of academic honesty

ordinarily are determined by the course instructor. The faculty member will employ a range of sanctions, from a minimum of a failing grade for the specific coursework in which the infraction occurred to a maximum of a failing grade for the entire course. If necessary, the chairperson and/or academic dean may become involved in investigating the allegation of academic dishonesty and the determination of sanctions. The faculty member will file a report with the Office of the Provost, with a copy to the faculty member's department chairperson and the student's academic dean. An academic dean may choose at any time to inform the Assistant Vice President for Student Life of charges of academic dishonesty for adjudication in the University conduct system. Likewise, a member of the University community may submit a conduct report against a student, group of students, or student organization for alleged violations of the Academic Honesty policy to the Assistant Vice President for Student Life, who will inform the appropriate academic dean for possible adjudication. The Provost will maintain a register of established cases of academic dishonesty in order to identify an individual student's pattern of violation. Two established cases of academic dishonesty will result in suspension from the University; three established cases will result in dismissal.

In a case in which the student is involved with violations of both academic and discipline policies from the same incident, the Assistant Vice President for Student Life and the cognizant academic dean of the college or school in which the student is enrolled will confer regarding sanctions to assess their academic impact and to assure that a consistent message is communicated to the student.

Sanctions for academic and/or disciplinary reason, as determined by the Assistant Vice President for Student Life and in compliance with the judicial process, may include either suspension or dismissal from the University.

Suspension is the termination of student status for a specified period of time. Conditions of reinstatement are included in the Preliminary/Formal Hearing Results notice. A suspended student is charged fees for the semester in which the suspension occurs in accordance with the published University Withdrawal and Refund Policy Statement. A grade of "W" is assigned for the same semester courses remaining on the student transcript. A statement of the student's status is sent to the Vice President for Academic Affairs, Vice President for Enrollment Services and Student Success, and the Registrar and the record of the sanction is maintained for five years in the Office of the Assistant Vice President for Student Life. Since the majority of undergraduates are legal dependents of their parents/guardians, the University reserves the right to contact parents and/or guardians when sanctions of Removal from the University Housing or Suspension/Dismissal from the University are imposed. Independent students should notify the Assistant Vice President for Student Life of their independence and verify that status if requested.

Dismissal is the permanent termination of student status and separation from the University. A dismissed student is charged full fees for the semester in which the dismissal occurs in accordance with the published University Withdrawal and Refund Policy Statement and a grade of "W" is assigned for the same semester courses remaining on the student transcript. A statement of the student's status is

sent to the Provost, the Vice President for Enrollment Services and Academic Success and the Registrar and is recorded permanently in the Office of the Assistant Vice President for Student Life. Since the majority of undergraduates are legal dependents of their parents/guardians, the University reserves the right to contact parents and/or guardians when sanctions of Removal from the University Housing or Suspension/Dismissal from the University are imposed. Independent students should notify the Dean of Students of their independence and verify that status if requested. See *University/Student Handbook* Academic Honesty section for definitions and procedures.

The student has a right to appeal sanctions resulting from academic dishonesty. A student who decides to file a formal grievance must submit the request in writing to the departmental Chair or Dean. This is ordinarily done within thirty working days of the date an alleged incident occurred or a problem began. The necessary form is available from the Academic Dean of the college or school where the alleged problem occurred. The Provost is the final recourse in the academic appeal process.

Professional Standards of Ethics and Conduct

The University educates students to take positions of responsibility and leadership within their communities. Many of our departments and programs represent professions which adhere to established standards of behavior and ethics; we expect our students to adhere to those same standards as well. Failure to do so may result in dismissal from a program of study. For further information, consult your dean or faculty advisor.

Admission to Degree Candidacy

Admission to graduate study as a fully admitted student does not assure admission to candidacy for a degree. A separate and thorough assessment of the degree candidate's progress and work for candidacy will be made by the department within which candidacy is sought. When a department admits a student to degree candidacy, it does so as an expression of a firm belief that the quality of work that a degree-seeking student has completed gives strong evidence of significant potential for successful advanced study within the degree area. Students achieving marginally passing grades in their beginning courses may be dropped from the degree program at the time of review for failing to make a strong case for their continued candidacy.

To be eligible for candidacy a student must:

- File an application for admission to candidacy with the Chairperson or Administrator, according to the criteria of the department and upon completion of twelve hours of graduate work (30 hours in the doctoral program) with a "B" average. Application forms are available in the deans' offices and in department offices.
- 2. Meet all prerequisites required by the department as listed in this catalog and the program handbook.

Notification of admission to candidacy is given in writing by the Chairperson of the department.

Standards for Continuance

All graduate students must maintain a cumulative QPA of at least 3.00 to remain in good academic standing and to earn the degree. (NOTE: Some academic departments or programs have published requirements that are higher than the minimum University standards for good academic standing.) Additionally, a graduate student whose cumulative QPA falls below 3.00 will be placed on academic probation.

If placed on academic probation, the student is required to achieve at least a 3.00 cumulative QPA within the completion of the next three courses (typically nine credits) or s/he may be subject to dismissal. A student who obtains two failing grades ("F," "F*," and in some programs "U") in a program, for whatever reason, will be dismissed from the University.

Transfer of Credit

At least two-thirds of the degree requirements must be met at Marywood. Departments or individual programs may require more hours taken at Marywood and may limit transfer credits to fewer than this limit. Specific credits and numbers of credits accepted for transfer must be approved in writing by the department chairperson in the degree program or graduate certification program to which a student has been fully admitted.

All credits accepted for transfer must have been taken at the graduate level. Bi-level courses are generally unacceptable and must be specifically justified in the student's departmental records. All credits transferred must be equivalent to a "B" grade or better. If a course has been taken on a pass-fail basis there must be a written statement attached to the requested transfer credit that states it is the institutional policy to grant credit only for grades of "B" or better in graduate coursework. Transfer credits must parallel or integrate well, both in terms of content and quality, with current standards at the University. Ordinarily, acceptable transfer credits must have been earned within the five previous calendar years from the date of provisional or regular admission.

An applicant desiring to earn credit at Marywood for transfer to another institution should file application and submit an official statement of good academic standing from the home institution.

Marywood students desiring to register for credits at another institution to be transferred to Marywood to fulfill specific requirements of a certificate or degree program must receive prior approval of the appropriate department chairperson or administrator and obtain his or her signature on the Authorization for Transfer Credit form. Transfer Credit forms are available on the Registrar's page on the Marywood website.

Time Limitation for Degrees

All requirements for a master's or doctoral degree must be completed within seven calendar years unless a specific department requires a different time limitation or the student has been granted a leave of absence for medical or other good reason and the time period for completion extended by the Dean. This period of time is rarely extended. Written application for extension, with full documentation of serious cause, must be made to the chairperson or administrator of the department in which the student is enrolled. Any extension must have the approval of both the department and the appropriate Dean.

Leave of Absence Policy

The University will consider a serious student-initiated petition for leave of absence from studies in any degree program. Students who cannot actively pursue their degree studies for more than two consecutive semesters (including summer sessions) are well advised to seek a department approved leave of absence. Without any documented and approved leave of absence recorded, students will be held strictly accountable to the seven-year time limit for degree completion.

The time limit applies to all degree requirements including a degree candidate's professional contribution and any other degree closure experiences/requirements. Failure to return to graduate studies by the specified date from an approved leave of absence will result in the administrative withdrawal of the student from Marywood by the Registrar.

No leave of absence will be granted without the prior approval of the appropriate dean. The maximum additional time permitted through any combination of leaves of absence within one degree is two calendar years. Leave of absence petitions must generally be filed with the department/program at least two months prior to the semester they are proposed to take effect.

Withdrawal from the University

A matriculating student who desires to withdraw from Marywood must notify the Registrar's Office and appropriate dean in writing. If enrolled in classes, ordinary procedures for withdrawing from courses and the University's published time line apply. Absence from class does not constitute notice of withdrawal from a course. A student who discontinues attendance at classes without withdrawing officially will receive "F*" in all courses concerned.

Continuous enrollment and consistent progress toward a degree in each academic year is an expectation of the University for all matriculating students. A matriculating student who has not completed any credits toward the degree in a two-year period may be administratively withdrawn from the program.

Readmission

A former matriculating student who wishes to return after having been withdrawn must reapply for admission. The catalog which is current at the time of readmission

will apply. If the student's bid for readmission is successful, previously earned academic credits will be evaluated in light of their age and applicability to the current curriculum by the appropriate chairperson or administrator.

Registration, Scheduling and Program Change

Registration

Specific registration information is distributed by the Registrar prior to each academic session. Students may register either by mail, by fax (570) 961-4758, by web (if enrolled in a degree, certificate or certification program) through the MarywoodYou portal at www.marywood.edu/you or in person for each term during which they expect to attend classes. Matriculating students and those in a certificate or certification program need the approval of the chairperson/advisor, or administrator; other students need the signature of the Assistant Vice President for Student Success in the Academic Progress Office or designee.

A student may be denied further registration if progress toward the completion of his/her planned program of study becomes unsatisfactory, or in the event of financial delinquency.

Course Load

A full-time graduate student carries from 6-16 semester hours of credit in both fall and spring semesters. Credits in excess of 16 require the approval of the appropriate dean.

Cancelled Courses

Marywood reserves the right to cancel any course, revise subject matter content, or alter schedules.

Student Schedule Changes

At the beginning of each semester there is an established period during which a student may make scheduling changes. Students should follow the specific procedure for schedule changes as published by the Registrar. Students are encouraged to utilize the web system for schedule changes. Students who prefer paper processing can obtain a schedule change form at the Office of Academic Records or online at www.marywood.edu/registrar/forms.html.

Withdrawal from Courses

Students may withdraw from courses which follow session parameters at any time during the session up to the specific withdrawal deadline date, which is published each term. The Registrars Office can provide alternate deadline dates for non-standard courses. A change of schedule form is available at the Office of Academic Records or online at www.marywood.edu/registrar/forms.html. The official date of withdrawal is the date the completed form is received at that office. Students may utilize the web registration system (degree, certificate, or certification students) if

they have received advisor approval. Absence from class does not constitute notice of withdrawal. A student who discontinues attendance in a course without officially withdrawing will receive an "F*" in that course.

Auditing Courses

Upon appropriate advisement, a person who holds a bachelor's degree may register and attend graduate classes as an auditor. The fee for auditing courses is the same as when taking courses for credit. Academic credit will not be given subsequently for courses taken as an auditor.

Graduate Advisement

Upon acceptance to a Marywood University graduate program, each student is assigned a faculty advisor from the student's area of study. Each graduate student must seek academic advisement and receive course scheduling approval from the assigned graduate department advisor or chairperson before registering for courses. Students are expected to schedule advising appointments well in advance whenever possible. Students should develop a course of study plan for two semesters or more each time they meet with their advisor. Before taking any elective coursework, each student should have a conference with the advisor to discuss career interests and professional goals. Ultimately, it is the student's responsibility to meet all requirements for his or her program of study.

Graduate students who have not yet been formally accepted into a graduate program should seek academic advisement and receive course scheduling approval from the Retention and Advising Office at 570-340-6043.

Scheduling of Classes

Graduate classes taught in the regular academic year are usually scheduled in late afternoons, evenings, and on Saturdays in order to provide the opportunity for individuals engaged in full-time occupations to further their education. Graduate courses are offered during the summer terms in regular daytime and evening classes.

Course Numbering

Courses marked 500 and above are strictly graduate courses. Courses marked 1000 and above are specifically doctoral level courses (Ph.D. program) and those psychology courses in the 700 and 800 series are doctoral level (Psy.D. program). Some courses marked 400 to 499 are bi-level courses. No more than nine graduate credits of a student's total graduate program may be selected from bi-level courses. Only such 400 courses as are offered for graduate credit may be used in this way; undergraduate credits are not applicable to the master's degree. Graduate students enrolled in 400 numbered courses are expected to meet more rigorous requirements than undergraduates in the same course.

Change of Program or Field of Study

Students who wish to change from one department to another must file a reapplication with the University Admissions Office. Their applications will be reviewed by the faculty of the new department.

A student who wishes to change a field of study within a department must file an Academic Goal Change within Department Authorization Form, available on the Registrar's webpage at www.marywood.edu/registrar/forms.html.

Credit Hour Definition

Marywood University defines its credit hour in compliance with both United States and Pennsylvania Department of Education requirements. Marywood designs its academic calendar to meet or exceed the minimum standards for class meetings, assuring that there are 14 hours of classroom instruction exclusive of holidays or final examinations. The credit hour consists of one hour of classroom or direct faculty instruction per week with two hours of out of classroom work over the course of the fifteen week semester. The credit hour consists of 14 hours of classroom instruction and with a 15th week devoted to a final examination or culminating experience. In the case of a three-credit course, the student will have 45 contact hours spent in class for a total of 135 hours of work inside and outside the classroom. For all alternate instructional delivery methods, laboratories, or independent students, the credit hour represents an equivalent to the minimum requirement for classroom instruction. Online courses are conducted 100 percent online (with the exception of a possible optional in-person orientation). Courses are considered to be hybrid if 20 percent (equivalent to 3 weeks of classes) or more of the course is online. Summer sessions meet the required instructional hours per credit in the compressed timeframe of a shorter six-week session.

Grading, Records, and Transcripts

Grading System

To receive credit for a course, students must meet all course requirements. The responsibility for completing assigned work and for understanding material covered in class rests fully on the student.

Grades are recorded at the end of each semester and each summer session. Any inaccuracy must be reported in writing to the registrar immediately. Student coursework is graded according to the following scale:

A = 4.00

A = 3.67

B+ = 3.33

B = 3.00

B - 2.67

C+ = 2.33

C = 2.00

F = 0.00

F* = 0.00 Failure to resolve "I" grade; unofficial withdrawal

X = Temporary delay in reporting final grade

Incomplete

 IP - In progress (restricted; used for grading certain Professional Contributions)

S - Satisfactory

U - Unsatisfactory

W - Withdrew officially

WP - Withdrew officially with passing grade

WF - Withdrew officially with failing grade

AD - Audit

The grade average expected of graduate students is "B." Grades of "S" and "U" may be given to indicate satisfactory and unsatisfactory performance in institutes, seminars or practicum-type courses. No course in which the grade earned is less than "C" is credited toward the degree. A "B" average is needed to graduate.

The "X" indicates that credit for the session's work in the course is withheld pending completion of course requirements. Unlike the "I", the "X" is initiated by the faculty member or, in certain circumstances, the registrar. The "X" grade must be resolved in the same manner as an "I" and will become a permanent "F*" if unresolved.

The standing "Incomplete" (I) is given to a student who has done satisfactory work in a course but has not completed the course requirements because of illness or some other emergency situation. The student must submit a written request for the grade "I" to the course instructor. (Forms are available at the Office of Academic Records or online at www.marywood.edu/registrar/forms.html.) A faculty member is not permitted to assign "Incomplete" unless the student has requested it and is eligible under the above conditions. An "Incomplete" in a course taken for credit must be resolved within one month after the opening of the following semester or the grade becomes a permanent "F*" (or the grade designated by the faculty member on the "Incomplete Request Form"). The student is responsible for making satisfactory arrangements with the teacher for completion of course requirements. After an "Incomplete" or "X" has been changed to a failing grade, a student must retake the course concerned to obtain credit.

There is one exception to the "I" grade rule. This applies to Professional Contributions (555-0 credit). An "IP" will regularly be granted for up to one year in accordance with University policy.

The standing "Failure" (F or F*) indicates that the student has not obtained any credit for the semester's work. If it is a required course, it must be repeated. However, a course may be repeated only one time.

Any grade, excluding "I" and "X," is retained on the student's record, but is removed from the computation of the QPA when a student retakes the course and earns a higher grade in the retake.

Academic Appeal

The document defining the policies and procedures for grade appeals can be obtained in the deans' offices. The University Academic Appeals Process is followed for other academic related events and/or student grievances. Marywood University recognizes the need to assure students a prompt, impartial, and fair hearing of their grievances related to academic matters. A student who feels that s/he has been treated unfairly or unjustly by instructional staff, chair, or dean with regard to an academic matter has a right to grieve according to approved procedures available in deans' offices. Note: The University's Civil Rights Policy and Grade Appeals policy supersede this Student Academic Grievance policy. Students may reference the Academic Appeal section in the University Calendar/Student Handbook for academic grievance procedures or contact their dean's office.

Academic Records

A student who believes that an error has been made in assignment of a grade must initiate immediate contact with the instructor of the course; any changes made by the faculty member must be made within 90 days of the end of the semester for which the grade was assigned, or in the case of resolution of a temporary grade ("I" or "X"), within 90 days of the filing of that grade.

The student is responsible for reporting to the Office of Academic Records any other error on the academic record within 30 days after a grade or other academic record report is made available to the student. Marywood University will not be liable for unreported errors on student records.

Transcripts

A transcript is issued only upon the written request of the student. A transcript form (or letter) should be submitted for each transcript requested. Transcript forms are available at the Office of Academic Records, or on the Registrar's web page on the Marywood University website.

An official transcript (one bearing the school seal) is normally sent directly to the school district, business, etc., indicated by the student. An unofficial student copy may be sent directly to a student upon request. A fee is charged for each transcript.

Marywood University will not forward the transcript of any student who has a financial indebtedness to the institution.

Confidentiality of Student Records

Marywood University intends to comply fully with the Family Educational Rights and Privacy Act of 1974, as amended. This act was designated to protect the privacy of educational records, to establish the right of students to inspect and review their educational records, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. A policy statement explains in detail the procedures to be used by Marywood for compliance with the provisions

of the act. Copies of the policy statement can be found in the Office of the Registrar and the Offices of the Deans.

Students may also reference Policies and Procedures in the University Calendar/Student Handbook.

Graduation Requirements

Academic Standards for Degree Closure Experiences

All closure experiences must involve substantive evidence of serious reflection, adequate integration and appropriate synthesis of program learning experiences and curricular objectives. Closure experiences must also encourage and promote self-discipline, self-motivation, and self-understanding within degree candidates through the specific requirements defined by the department offering the closure experience.

Professional Contribution/Thesis/Dissertation

A Professional Contribution or Thesis is a requirement of the master's degree in most departments. The Professional Contribution constitutes a scholarly endeavor that may take the form of a minor thesis, a scholarly paper, a work of art, a recital, internship, or other form that demonstrates the student's ability to deal in depth with the sources and/or materials in the field of concentration. Copies of the guidelines for Theses or Professional Contributions may be obtained in the departmental office or the Offices of the Deans.

The Ph.D. in Human Development requires the successful completion of a doctoral dissertation. The Doctor of Clinical Psychology program requires the successful completion of a doctoral research project. Guidelines for the dissertation/doctoral research project are obtained from the faculty mentor of the research.

Comprehensive Examination

A final comprehensive examination—written, oral, or both—must be passed by the degree candidate, if required by the student's department. This examination is given once in the fall, spring, and summer. The precise dates are listed in the Marywood calendar. In case of failure in the comprehensives, a student may be given a second examination within a reasonable time at the discretion of the department chairperson and with the approval of the appropriate dean. A formal written request for permission to take the comprehensives must be sent to the Chairperson or Administrator of the department at least one month prior to the date set on the calendar for the examination.

Students will be informed in writing of the time and place of the examination two weeks prior to the date of the examination.

A record of examination results signed by the department Chairperson or Administrator will be submitted to the appropriate Dean. The student will receive written notification of the examination results from the department Chairperson or Administrator.

Quality Point Average

No student will qualify for the awarding of a degree who has not achieved a minimum 3.00 ("B") QPA. No course in which the student has earned less than a "C" shall be applied toward the degree.

Graduation Registration

At the time of enrollment for the last semester of work toward a degree, the student registers for graduation. This initiates clearance toward graduation by the department Chairperson, Administrator, and the appropriate Dean. The student is billed for the graduation fee, along with tuition and fees for the semester. Application for graduation will not be accepted after the first two weeks of the fall and spring semesters or the first week of a summer session. Students anticipating graduation must also submit an Application for Graduation in WebAdvisor via the MarywoodYou Portal.

Delivery of Services

Graduate students are expected to be familiar with and comply with the policy statements in the University *Student Handbook* which is updated annually and available on the University website. Graduate students may also refer to this catalog and *departmental handbooks* (if applicable) for more specific policy and procedural statements.

Marywood University's catalog contains information current as of the date of the catalog about Marywood's calendar, admission policies, procedures and standards, degree requirements, fees, and regulations.

Marywood University reserves the right, in its sole judgment and discretion, to make and change rules and regulations; create, change, and abolish programs; change the University's calendar, admissions policies, procedures and standards, degree requirements, fees, and academic schedule whenever necessary or desirable. Such changes include, but are not limited to, changes in course content and class schedules, canceling scheduled classes, and other academic activities. In any case the University will strive to give such notice as is reasonably practicable under the circumstances.

Marywood University assumes no liability, and expressly negates any liability, for failure to provide or for delay in providing educational or related services or facilities, or for any other failure or delay in performance arising out of or due to causes beyond its reasonable control. Such causes may include, without limitation, power failure, fire, damage caused by the elements, acts of God, and acts of public authorities. Marywood University will exercise reasonable efforts, if appropriate, to provide comparable or substantially equivalent services, facilities, or performance. Its inability or failure to do so, however, shall not subject it to liability.

Resources and Services

Financing Your Future: Investing in Graduate Education Scholarships, Assistantships, and Student Loans

Scholarships for Graduate Students Seeking Master's Degrees or the Educational Specialist Degree

Marywood University awards scholarships each year on the competitive basis of academic promise and professional focus and commitment. Scholarships are available to both full-time and part-time students who meet specified credit levels of matriculation.

Please consult the Graduate Financial Aid Section of the Marywood University website to review which academic programs award merit scholarships and the method of application based upon your academic discipline.

The endowed scholarships, generous gifts of Marywood University benefactors, provide the financial support for the IHM Graduate Scholarships for a number of our students. Prospective and current graduate students do not apply for endowed scholarships directly.

Assistantships for Graduate Students Seeking Master's Degrees, the Educational Specialist Degree, or Certifications

Marywood University provides graduate assistantships that are designed to further the educational goals of graduate students in an environment of academic excellence. Graduate assistants serve Marywood University by working with the faculty to advance research or with professional staff to enhance services.

Assistantships with twenty work hours per week afford tuition remission for eighteen graduate credits per academic year and a full assistantship stipend. Assistantships with ten work hours per week offer tuition remission for nine graduate credits per academic year and one-half of the full assistantship stipend.

The deadline for these assistantships is mid-February of each year. After your complete review of the assistantship vacancies list and the applications directions housed in the Graduate Financial Aid Section of the Marywood University Website, you may submit a professional quality resume to compete for graduate assistantships.

M.S.W. Degree Social Justice Incentive Scholarships

The Social Justice Incentive Scholarships are available only to M.S.W. Degree Program students in their advanced practice year in the Marywood University School of Social Work and Administrative Studies. Successful applicants for these scholarships must have an interest in social justice practice and preparation for practicum-based learning in a setting emphasizing social justice.

Social Justice Incentive Scholarships have an application deadline of mid-April of each year. You may apply for this opportunity online in the Graduate Financial Aid Section of the Marywood University website.

Ph.D. Human Development Doctoral Program Scholarships

Ph.D. Human Development Doctoral Program Scholarships have an application deadline of mid-April of each year. You may apply for this opportunity online in the Graduate Financial Aid Section of the Marywood University website.

Ph.D. Human Development Doctoral Program Assistantships

Ph.D. Human Development Doctoral Program Assistantships have an application deadline of mid-April of each year. You may apply for this opportunity online in the Graduate Financial Aid Section of the Marywood University website with your electronic submission of a professional quality résumé.

Psy.D. Clinical Psychology Doctoral Program Scholarships

The graduate admission application serves as the scholarship application for prospective doctoral students of the Clinical Psychology Program. The departmental academic progress file serves as the scholarship application for current doctoral students in the Clinical Psychology Program. There are no other documentation obligations for scholarship consideration for prospective and current doctoral students of the Clinical Psychology Program.

Prospective doctoral students of the Clinical Psychology Program should adhere closely to the graduate admission application deadline. Scholarship notification letters will be mailed in May to both prospective and current doctoral students of the Clinical Psychology Program.

Psy.D. Clinical Psychology Doctoral Program Assistantships are awarded through an internal departmental process.

Endowed Scholarships and Institutional Resources

Scholarship and assistantship applicants should note that when you apply to the appropriate financial aid program based on your graduate major, Marywood University considers you for both endowed and institutional funds simultaneously.

Graduate Assistantship

The Harry M. and Marie E. Pearson Fund was established in 1995 to provide support for graduate assistantships for students from the Department of Counseling and Psychology.

Endowed Scholarships

The Architectural Heritage Association (AHA) Scholarship was donated by the Architectural Heritage Association to provide support for an architecture student whose thesis project focuses on historic preservation in Lackawanna County with special preference given to a student based in Scranton.

The Dr. and Mrs. Stanley Blondek Endowed Scholarship was donated in 2012 to provide financial aid to undergraduate and graduate Physician Assistant students who may need assistance in pursuing a career in medicine.

The Saint Bridget Scholarship was donated in 1987 to provide support to students in the graduate programs on the basis of academic merit.

The William and Carmel Callahan Scholarship was donated in 1999 to provide scholarship support to students with a preference to legal residents of the Island of St. John in the US Virgin Islands.

The Harriet Chikowski '42 Scholarship was donated by Harriet Chikowski in 1995 to provide scholarship assistance based on academic merit to students in the MSW Degree Program who maintain employment in an agency that involves work with families with multiple problems and pre-delinquent child(ren).

The Deceased Members Class of 1957 Memorial Endowed Scholarship was donated in 2006 by members and friends of the class to provide scholarship support to needy undergraduate and graduate students. Preference will be given to direct descendants of the Marywood College Class of 1957.

The Marywood University Class of 1958 Scholarship was donated by members and friends of the class and shall be given to students with financial need to support their education through undergraduate and graduate study.

The Class of 1965 Scholarship was established by the members of the Class of 1965 to assist graduate/undergraduate students who demonstrate financial need.

The Class of 1995 Scholarship was donated by members and friends of the class. Preference shall be given to a recent graduate of Marywood University entering a graduate program at Marywood University on a full-time basis with demonstrated financial need.

The Sister M. Cuthbert Donovan, IHM Graduate Scholarship was donated by Sister M. Cuthbert Donovan, IHM, Dean Emerita, to provide tuition scholarships on the basis of academic merit and need to alumnae/alumni of Marywood University for attendance in the graduate programs.

The Monsignor William L. Donovan Endowed Scholarship was donated in 2006 by Monsignor Donovan to provide financial aid for undergraduate or graduate students in support of their education.

The Irěneě du Pont Scholarship was donated in 1974 to provide scholarship assistance to students of business and computer science.

The Angela and Pio Ferrario Memorial Endowed Scholarship was donated by Pia Ferrario in memory of her parents. This scholarship provides support for students pursuing their education in a setting committed to the traditions of service, family, and excellence.

The Dr. James Golden Memorial Scholarship was donated in 1990 by family, friends, and former students of the late Dr. Golden to provide scholarship support to a student pursuing a graduate degree in counseling.

The Graduate IHM Scholarship Fund was donated in 1982 by the Sisters, Servants of the Immaculate Heart of Mary, who teach in a special summer project. Their desire is to assist individuals in achieving their professional goals in graduate education.

The Graduate Student Council Scholarship was donated in 1989 by the Graduate Student Council and other friends of the University. Income from this endowment provides scholarship assistance to students on the basis of academic achievement and financial need.

The Carol E. Greenblatt Scholarship was donated in 2000 to provide assistance for graduate and undergraduate students in the School of Social Work.

The Mary S. Foran Haman '48 and Donald T. Haman Endowed Scholarship was donated by Mary and Don Haman to provide support for a promising student in need of financial assistance.

The Sister Cor Immaculatum Heffernan, IHM '54 Scholarship was donated by former students and friends of Sr. Cor Immaculatum Heffernan, IHM. This scholarship assists students in the Insalaco College of Creative and Performing Arts majoring in the M.F.A. Program for working professionals.

The Paul A. Henry Memorial Scholarship was donated in 2004 by his daughter, Dr. Ann R. Henry '73, to provide scholarship assistance to graduate and undergraduate students on the basis of financial need.

The Sister Wilhelmina Hill, IHM Memorial Scholarship was donated by Dr. Midori Yamanouchi in memory of Sister Wilhelmina Hill, IHM to assist undergraduate students who demonstrate financial need.

The Hughes Family Endowed Scholarship was donated in 1985 by Sister M. Constance Melvin, IHM, in honor of Mary M. Hughes and her parents, Mary A. and Michael Hughes, to provide scholarship assistance, on the basis of academic merit, for study in librarianship and/or media.

The Mildred Hammond Hunkele Endowed Scholarship was donated in 2001 to provide financial aid for any needy and qualified graduate or undergraduate students.

The Catherine Boylan Hussie Scholarship was donated in 1990 to provide financial aid for needy male or female students at the graduate and undergraduate levels.

The Sister Michel Keenan, IHM Endowed Scholarship was donated through the estate of her sister, the late Mary K. Hecht, to provide financial assistance to a graduate or undergraduate female music major.

The Peter Kohudic Scholarship was donated in 1995 by Peter and Nancy D. Kohudic to provide financial aid for undergraduate or graduate students, either full- or part-time who are communicants of the Orthodox Christian Faith with preference given to students from St. Tikhon's Theological Seminary. The recipient must be at least of second-year sophomore status.

The Alice Lawrence Memorial Scholarship was donated in 1991 to provide assistance to graduate and undergraduate female students over 35 years of age returning to school to complete their degree or career choices.

The Paul Levy and Ann Bronsky Levy Scholarship Fund was donated by the estate of Ann Bronsky Levy. This scholarship shall be given to graduate and undergraduate students without any restrictions to achieving academic goals.

The Robert J. Mahady Scholarship was donated in 2000 by Mrs. Betty Mahady to provide scholarship support for graduate and undergraduate students in the Department of Business and Managerial Science.

The Sister Patricia Ann Matthews, IHM, Scholarship was donated by Sister Gail Cabral, IHM, and friends. This scholarship shall be given to students with financial need to support their education through undergraduate and graduate study.

The Sister M. Bernardina McAndrew, IHM Scholarship was donated in 1974 by Sister M. Bernardina McAndrew, IHM to provide assistance to a graduate psychology student on the basis of academic merit and need.

The Charles J. and Margaret S. McCarty Endowed Scholarship was donated by Margaret "Peggy" McCarty '67, in memory of her parents to provide aid for a student from the Lehigh Valley, with preference given to one majoring in English or Communications.

The James F. Mellody Memorial Scholarship was donated in 2002 to provide assistance to graduate students in the M.S.W. Degree Program. Preference will be given to students who demonstrate financial need.

The Joan and Fred Miller Endowment Fund was donated by Drs. Joan and Fred Miller to provide financial support for graduate students pursuing a Ph.D. in Human Development.

The Dr. Fergus T. Monahan M.S.W. Degree Program Scholarship was donated in 1989 to provide assistance to students in a graduate Social Work program with priority given to those who are minorities; women, single heads of household who are supporting their children while they attend school; and students with established financial need.

The Reverend Gerald F. Mullally Memorial Scholarship Fund was donated by Gina Palko '03 to aid a student majoring in Religious Studies, Philosophy, and/or Nutrition and Dietetics.

The Honorable Marion L. Munley Endowed Scholarship was donated by Munley, Munley, and Cartwright, PC in recognition of Mrs. Munley's outstanding career as mother and first woman elected to the Legislature from Northeastern Pennsylvania. The scholarship shall be given to worthy students interested in a career in law and/or public service.

The Sister M. Johnine O'Neill, IHM Endowed Scholarship was donated in 2007 to provide financial aid to undergraduate and graduate students, either full-time or part-time, who are currently employed and wish to further their education.

The Thomas and Rosemary Halligan O'Hora, Jr. Endowed Scholarship was donated through the estate of Thomas and Rosemary Halligan O'Hora, Jr. This scholarship shall be given to graduate and undergraduate students without any restrictions.

The Pearson Scholarship was donated through the Estate of Marie E. Pearson. This scholarship shall be given to graduate students who have demonstrated academic excellence but not necessarily financial need.

The John Peragallo, Jr. Scholarship was donated by John Peragallo, III, family, and friends. This scholarship shall be given to an undergraduate or graduate music major with organ as applied performance concentration.

The Eugene L. Raymond Scholarship was donated in 1966 in memory of Eugene L. Raymond, a charter member of the Development Committee of Marywood University. This scholarship is awarded to worthy students who are being trained for work among children in the fields of psycho-education and psychotherapy.

The Helen Scanlon Ruane Scholarship was donated in 2001 to provide financial aid for students in the post baccalaureate certification in school librarianship.

The Helen Sebastianelli '53 Endowed Music Scholarship was donated by Ms. Sebastianelli's brother, Mr. Joseph Sebastianelli, and family to provide financial aid to a music major residing in Lackawanna County.

The Madeline Geiger Spitzer Endowed Scholarship was donated in 2006 to provide financial aid to a graduating senior from Marywood University who will be attending a postgraduate program in the area of education.

The Mary Donohue Stahl '36 Scholarship was donated in 1996 to provide financial aid for any student without preference or restriction. The scholarship is renewable if the recipient continues to meet the academic standards of the University.

The Thalia Ann Thomas Scholarship was donated in 1997 by Ms. Thomas to provide assistance to candidates for the M.A. degree in Art Therapy, then to candidates for the M.F.A. degree.

The John Timko, Jr. Scholarship was donated in 1980 to provide assistance to graduate students in business.

Scholarship Allocation and Usage Policies

Graduate merit scholarships or need-based grant award levels may be modified or nullified to the extent that Marywood University will be able to receive the full benefit of third-party tuition payment benefits declared by the scholarship applicant as denoted on any Marywood Graduate Scholarship Application.

Eligible graduate students may utilize either the Marywood University Religious Tuition Reduction or a Marywood University scholarship related to their program of study but not both simultaneously.

Students who will benefit from the Marywood University Tuition Reduction for the Diocese of Scranton during an academic year may not receive a Marywood University graduate scholarship during that same academic year.

If a graduate scholarship or need-based grant recipient should need to withdraw from courses before the completion of a semester of study, Marywood University will recover institutional funds from the student in proportion to the percentage of tuition refunded for that semester. If the student decides to return to his or her studies in the future, he or she will be required to reapply for financial aid.

For institutional resources designated by Marywood University to support merit scholarships and need-based grants for students in master's degree programs, the University will give priority to students seeking their first master's degree from Marywood University.

Federal Direct Student Loan Programs

To apply for a Federal Direct Loan and/or Federal Direct PLUS Graduate Loan, students must complete a Free Application for Federal Student Aid (FAFSA) online at www.fafsa.ed.gov. Students must also complete an electronic Master Promissory Note (eMPN) at www.student loans.gov. The eMPN is valid for 10 years, but the FAFSA must be completed each year. This information is also available in the financial aid section of the Marywood University website at www.marywood.edu/fin aid.

Federal Direct Unsubsidized Student Loan. Under this program, matriculating graduate students enrolled on at least a half-time basis (minimum of three credits per semester) can borrow up to \$20,500 per academic year. Interest begins accruing on the loan at the time of disbursement. The approved loan amount can never exceed the actual cost of education less any other scholarships, grants, employer reimbursement, or loans received.

Federal Direct Graduate PLUS Loan. Under this program, matriculating graduate students enrolled on at least a half-time basis (minimum of three credits per semester) can borrow the difference between the cost of education less any other scholarships, grants, employer reimbursement, or loans received. Requirements for this loan include a credit check.

Alternative Loan Sources

There are numerous types of privately financed education loans, but Marywood University recommends that students utilize the Federal Direct Unsubsidized Loan and the Federal Direct Graduate PLUS loan as their first borrowing options. To see a list of some private educational loans, go to www.elmselect.com and choose Marywood University. Requirements for these loans include a credit check.

Satisfactory Academic Progress Policy for Financial Aid Recipients

The Higher Education Act of 1965, as amended by Congress, mandates that institutions of higher education establish minimum standards of Satisfactory Academic Progress (SAP) for students receiving federal financial aid. These standards apply to all Federal Title IV aid programs including the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Federal Perkins Loan, Federal Direct Loans, Federal Direct PLUS Loans and Federal Work-Study. Please note that the PHEAA Grant program has separate guidelines for satisfactory academic progress and should be reviewed on www.pheaa.org.

The Satisfactory Academic Progress (SAP) standards apply to all students seeking federal Title IV financial aid, regardless of whether the student has received Title IV financial aid in the past. Marywood University is responsible for ensuring that all students receiving Title IV assistance are meeting these standards.

Process of Determining Satisfactory Academic Progress (SAP): For all degree seeking students, SAP will be evaluated at the end of each semester, typically in December, May, and August. This evaluation will determine if the student has made sufficient progress to be eligible for future Title IV funding.

Satisfactory Academic Progress Measurement

Qualitative Measure (cumulative Marywood QPA):

- Undergraduate freshmen students at Marywood University are expected to earn a
 minimum cumulative grade point average (QPA) of a 1.70 at the end of their first
 academic year. Upper-class undergraduate students at Marywood University must
 maintain a cumulative quality point average (QPA) of at least a 2.00 to remain in
 good academic standing.
- Graduate students must maintain a cumulative quality point average (QPA) of at least a 3.00 to remain in good academic standing.

Quantitative Measure:

Completion Rate/Pace: Pace is calculated by dividing cumulative hours the student successfully completed by cumulative hours the student has attempted. This calculation includes all attempted credits, both at Marywood and those accepted in transfer. Courses for which a student receives academic credit, withdraws, receives incomplete or repeat grades and/or fails are counted in the calculation of the completion rate/pace.

• Undergraduate students must successfully complete 67 percent of the total cumulative attempted credits;

• Graduate students must successfully complete 67 percent of the total cumulative attempted credits.

Maximum Timeframe: Maximum timeframe is defined as the required length of time it will take a student to complete his/her degree. A student may not exceed a maximum number of attempted credits in any program(s), even if aid was not received during all periods of enrollment. The maximum number of credits is 150 percent of a student's program(s) required credits. For example, if the student is pursuing a degree that requires 126 credits, the student is not eligible for further federal aid after attempting 189 credits. This includes transfer credits. Most undergraduate degrees at Marywood University require a minimum of 126 credits for graduation but there are some exceptions. Most graduate degrees require 36 credits for graduation but there are some exceptions. Refer to the catalog for specific program graduation requirements. Students in this category may submit appeals in accordance with the Appeals section of this policy.

Students who change majors are responsible for completing their degree requirements within the timeframe specified above.

Multiple Majors/Degrees: The maximum time frame will be calculated using all required credits to complete multiple majors and all credits attempted and earned will be used in the calculation of PACE.

Readmitted Students: If a student is readmitted to Marywood University, satisfactory academic progress will be based on the student's previous attendance at Marywood and credits accepted in transfer. Students who have not met the minimum requirements will be notified of their ineligibility for federal financial aid and informed of their options to regain eligibility.

Special Grades and their Use in Satisfactory Academic Progress Determination:

- I Incomplete: Student will receive no credit for an "I" grade although the "I" is counted as attempted credit(s). When the incomplete grade is resolved and a passing grade is received, the credit(s) will be counted.
- X Delay in reporting final grade: Student will receive no credit for an "X" grade although the "X" is counted as attempted credit(s). When the incomplete grade is resolved and a passing grade is received, the credit(s) will be counted.
- W, WP, WF Withdrawal, Withdrawal Passing, and Withdrawal Failing: Considered as attempted credit(s) but no credit(s) earned.
- AD Audit: Not considered as attempted credit(s)
- S/U Satisfactory/Unsatisfactory: Both are considered as attempted credit(s). QPA is not affected.

Repeat of Course: The highest grade earned is always used in calculating the QPA. If the student failed the course the first time but passes it the second time, the appropriate number of credits will be received after the second attempt. Maximum hours earned for any course cannot exceed the number of credits listed for that course in the catalog.

Summer Terms: Summer counts as any other semester. Since Marywood University evaluates after each semester, a student that has not met SAP standards

will be put on an automatic warning after the spring semester evaluation. If the student takes summer courses, he/she will be evaluated again at the end of summer and must either have made up their SAP deficiency or successfully appealed his/her failure to make up the deficiency in order to receive aid for the fall semester.

Regaining Eligibility

If a student fails to meet the satisfactory academic progress standards, but meets the standards later at some point, the student can once again be eligible to receive federal Title IV. In such cases, financial aid eligibility will begin with the academic semester after which the student re-establishes progress. It is the student's responsibility to contact the Office of Financial Aid after completing coursework that allows the student to regain eligibility for financial aid.

If a student is taking coursework at another institution to regain SAP eligibility, the student should be aware that:

- 1. An "Authorization for Transfer of Credit Form" must be completed prior to taking any courses elsewhere if the credits are to be transferred back to Marywood. The Registrar's Office must accept the transfer credits in order for those credits to be counted towards satisfactory academic progress.
- 2. Only credits transfer back to Marywood University; grades do not. If the student's deficiency is in QPA, taking courses at another institution will not resolve that deficiency. The only exception is the University of Scranton Consortium Program. Unlike transfer credits from other colleges, grades earned through consortium registration with the University of Scranton are calculated into a student's QPA.

Appeal Process: A student whose financial aid eligibility has been terminated may appeal only if s/he has experienced extenuating circumstances that affected the ability to meet the academic progress standards. In general, extenuating circumstances can include, but are not limited to, illness, injury, death of relative or friend, difficulties with accommodations for students with disabilities, and adversity due to unforeseen events. Students interested in appealing their termination of financial aid eligibility can obtain the "Academic Progress Appeal Form" in the Office of Financial Aid. The student must address in the appeal why he/she failed to make academic progress and what has changed that will allow him/her to make progress in the next semester. In addition, the student must meet with his/her advisor and submit an academic plan that outlines a reasonable plan for success. The completed form and supporting documentation should be submitted to the Director of Financial Aid no later than:

- August 15th for fall semester consideration
- December 1st for spring semester consideration
- One week after spring semester grades are posted for summer session 1 and/or summer session 2 consideration

Students will be notified of the decision regarding their appeal via their Marywood University email account.

Financial Aid Warning: Marywood University evaluates academic progress at the end of each semester. Students on a Financial Aid Warning status may continue to receive Title IV aid for one semester despite a determination that the student is not meeting SAP standards. A warning status is granted automatically and may be assigned without an appeal or other action by the student. Students are notified via their Marywood University email account of their warning status.

Financial Aid Probation: Financial Aid Probation status can be granted only after the student has appealed and has had eligibility for aid reinstated. A student on financial aid probation may receive Title IV funds for one semester only. At the completion of the probation semester, the student must have resolved his/her academic deficiency. Failure to do so will result in a loss of Title IV financial aid (including Federal Direct Loans and Federal PLUS loans) until such time as the student has resolved their academic deficiency at their own expense.

All notifications, warnings, and appeal decisions will be provided to the student in writing via their Marywood University email account.

Other Payment Options

Employer Deferred Plan: Payment of tuition may be deferred if the student has provided a completed "Application for Employer Deferment of Tuition Payment" form, signed by the student's employer. Students are required to pay all fees and any portion of tuition not covered by their employer at the Cashier's Office by the semester due date or at registration. The student is responsible for any tuition not paid by the employer within the prescribed period. Employer payments must be made directly to Marywood University and not to the student in order to qualify for this payment option. If the student or the student's employer do not make scheduled payments on time, the University reserves the right to refuse to offer this payment plan to the student for subsequent semesters.

Religious Tuition Reduction

The University grants a thirty percent reduction of tuition (exclusive of fees) to persons who have made formal permanent commitments to the service of God by pronouncement of vows or by ordination in a recognized Church, and who are actively and exclusively engaged in religious work. This benefit may be applied, at the discretion of the University, to persons in formal, full-time training for the dedicated service described above, such as seminarians and novices. In all cases, this benefit will not be granted if the tuition charges are subsidized from another source of financial aid. The tuition reduction does not extend to courses administered by other institutions for which Marywood University credit is earned. The University, the sole judge for eligibility in every case, will require proof of status or qualifications. The application for this tuition reduction is available from the Cashier's Office or on the Marywood website, www.marywood.edu/cashier.

Office of Information Technology (OIT)

The Office of Information Technology (OIT) provides computing facilities, networking access (wired and wifi all across campus), a student portal (MarywoodYou), a Marywood-branded Google Apps account (email, calendar, sites, drive), and related services in support of Marywood University's commitment to providing high-quality, usable technology for its students, faculty, and staff. This commitment includes access to the Internet and World Wide Web, as well as dozens of academic software packages in computer labs and drop-in facilities in various areas around campus. There is at least one lab in each major classroom building with a 24-hour student lab located in Loughran Hall. Labs are regularly upgraded to provide the latest in computing technology. Each lab is also equipped with a PC that includes assistive technology software.

There are several drop-in computer areas in the Learning Commons (LCM). Computer access is available to students at all times when the LCM is open: 90+hours per week, with extended hours during and prior to the week of final exams each semester.

Computer lab software includes, but is not limited to:

- Microsoft Office (Windows version includes Word, Access, Excel, PowerPoint, and Publisher)
- web page development tools
- · specialized art, business, education, music, and science software
- the statistical package, SPSS

Each lab is supported for printing needs by laser printers (there is a small fee to print) that provide high-quality printing for class assignments. In addition to the mainstream facilities for preparing classroom assignments, there are also scanners for both graphics and text. All labs are networked via fiber optic cabling to both on-campus services and the Internet. Electronic mail, web browsing, online library catalogs, bulletin board services and access to worldwide computer network resources are available to all regularly enrolled students.

Services

In addition to providing the support that constitutes the technology infrastructure of Marywood University, OIT staff also provides help in the form of:

- Trained students staff all major labs during much of the time the labs are open in order to readily provide any assistance.
- In order to answer questions and troubleshoot technology problems, assistance is also provided by calling, emailing, or visiting the Help Desk, located at the Knowledge Bar on the main floor of the Learning Commons.
- Computer workshops, held in the training room on the second floor of the LCM, help students use technology more effectively. Workshops are scheduled and presented by various members of the OIT staff. Promotional emails outlining

upcoming sessions are regularly sent to the Marywood community. All workshops are free to Marywood students, faculty, and staff.

- Documentation prepared by training staff provides simple step-by-step instructions
 on how to use various types of software. This documentation can be easily found
 on the web by selecting the Tech Help link on Marywood's home page.
- Students can work collaboratively and practice class projects by signing out one of
 the many group study and/or presentation rooms in the Learning Commons.
 Computers, laptop hook-ups, and large screen monitors are available for their use.
 Also spread across the building are other group and technology-friendly areas with
 power outlets for a range of devices.

Learning Commons

Dedicated on September 8, 2015, the Learning Commons provides an ideal venue for individual and group study with extensive technology-enabled collaborative learning spaces and with diverse types and groupings of furniture to accommodate a wide variety of learning styles. The Learning Commons is a campus hub, providing services and spaces far beyond what was available in our former Learning Resources Center. The Learning Commons also houses an expanded University Archives; the Center for Teaching and Transformational Learning; an Entrepreneurial Launch Pad; the Center for Communication Arts, including video editing and animation suites, a television studio, and the campus radio station; and the Office of Information Technology (OIT) help desk and public service staff.

The extensive electronic and print holdings of the Marywood University Learning Commons include more than 240,000 books, e-books, and bound periodicals and access to more than 40,000 distinct journals. The Library website, www.marywood.edu/library, is the place to begin using the Library Services online. It provides links to all types of information, including access to databases, electronic journals and newspapers, electronic books, research guides, research assistance, and many types of information and services.

The library provides access to over 48 subject-specific indexing/abstracting databases, including Psycinfo, Business Source Elite, ArtStor, ERIC, Cumulative Index to Nursing and Allied Health Literature, the MLA International Bibliography, and Social Work Abstracts, as well as multi-disciplinary full-text databases such as EBSCO Host's Academic Search Premier, JSTOR, Mergent, Web of Knowledge, Wiley Online Library, and LEXIS-NEXIS. The Learning Commons is fully integrated into the campus voice, data, and wireless network, and off-campus access is also available for most databases. Other resources available 24/7 from the webpage include interlibrary loan, electronic reserves, and reference assistance.

Marywood University is a member of the Pennsylvania Academic Library Consortium, Inc. (PALCI), an academic library consortium with over 75 member institutions. Through PALCI's RapidLL Interlibrary loan initiative, students and faculty can have digitized articles delivered directly to their email boxes, usually within a few hours of placing a request online. Through PALCI's E-ZBorrow

service, the monograph holdings of many academic libraries in Pennsylvania, New Jersey, and West Virginia are easily accessible for borrowing by Marywood students and faculty.

The Learning Commons offers numerous introductory workshops to the various databases and the online catalog. At faculty request, librarians present course-integrated information literacy sessions. Traditional reference assistance is available during regular library service hours. In-depth research consultation is available upon request.

Academic Computing

Academic Computing advises and assists faculty, students, and staff in the use of instructional technology for the creation, organization, analysis, and presentation of scholarly, scientific, and curricular resources. We have offices, Recording, and Production rooms on the third floor of the Learning Commons. Specifically, Academic Computing:

- Provides consultation services to faculty, students, and staff on the utilization of technology for learning by integrating academic and instructional needs into the strategic and tactical planning process
- Advises faculty and students regarding trends in instructional technology
- Assesses course management system support and use and maximizes effectiveness within the existing resources
- Provides faculty, students, and staff with graphical media services to enhance their instructional project (with the appropriate training in the utilization of technology to fit project needs)

Academic Computing services include:

- Moodle: Our campus course management system that allows faculty to post course content for students online. We provide faculty and students with technical and design support. Moodle is used for online courses, hybrid courses (supplements to traditional courses), and for special projects and campus clubs.
- Panopto: A course capture system that faculty can use in conjunction with Moodle to record class sessions or supplemental tutorials. Students can access the recordings through their Moodle course; it is keyword searchable which allows students to find the exact topic they need to review. Panopto also has a mobile app for iPhone/iPad that allows teachers and students to view and record sessions.
- Webcam & Microphone loans for class recordings/projects: Academic Computing has webcams and several different types of microphones available for faculty to use to record their classes with Panopto. We can also make the webcams/microphones available for students to use in one of our Recording/Production rooms for creation of class assignments.
- iTunes University: Audio/video repository for larger audio/video files to support coursework.

- Digital Still/Video Camera loan for class projects: Academic Computing staff will train faculty and students to use the cameras and will assist with editing and creation of audio/video files. Students must provide an authorization form signed by their faculty member before checking out equipment. Our staff also consults with students who are creating digital stories for classroom assignments.
- Audacity: Free download for PC/Mac to create podcast recordings.
- **CD/DVD duplication:** We can make copies of non-copyrighted materials for class projects. Small fee.
- Large-format color poster printing: Various sizes available; applicable fees
 depending on size and paper type. Our staff will provide students with guidelines
 for the creation of posters in PowerPoint for graduate research forums or presentations at conferences and workshops.
- Campus Electronic Bulletin Board (Marywood Information Channel): Faculty, students, and staff may submit announcements for their clubs or other campus events to the Marywood Information Channel which is displayed on Channel 18 on all TVs in public viewing spaces on campus. Please adhere to the following if you wish to submit an announcement for the Marywood Information Chanel.
 - Announcements may be submitted by e-mail to helpdesk@marywood.edu
 - A lead time of three working days should be given
 - Messages should be no more than five (5) lines in length and must include the title of the event, the date and time, a brief descriptive message, and the name and phone number of the contact person. Photo can be included in announcements. Please send as a .jpeg file
 - Announcements from student groups must be signed by an advisor
 - Messages will run for a two-week period, so please plan accordingly
 - Arrangements can be made to run video announcements
 - Academic Computing reserves the right to edit the copy

Fricchione Day Care Center

The Fricchione Day Care Center opened in September 1991 as an integral part of Marywood University. It serves children of the University community as well as children of employees of St. Joseph's Center and Our Lady of Peace Residence. Child care services are provided for children from eight weeks through six years of age, twelve months a year, Monday through Friday 6:45 a.m. - 5:45 p.m. For further information please call (570) 961-4701.

Psychological Services Center

The Psychological Services Center (PSC) is an outpatient mental health clinic. The PSC exists in order to support two important goals:

1. to train graduate students enrolled in Psychology and Counseling programs.

2. to make quality, low cost mental health services available to both the University and the local communities.

The PSC provides diagnostic outpatient evaluation, intervention, and educational services for children, adolescents, and adults; daytime and evening appointments are available. Educational and geriatric assessment services are also provided.

Evaluation services include diagnostic, interviewing procedures as well as formal psychological, personality, and educational testing. Intervention services include individual therapy, marital/couples therapy, family therapy, play therapy, parent training, and brief consultations to individuals, families, and organizations. Educational services include the delivery of informative presentations and the dissemination of written materials.

Graduate students enrolled in Psychology and Counseling practicum courses have the opportunity, pending instructor approval, to provide clinical and educational services to PSC clients. Graduate and undergraduate students enrolled in other Psychology and Counseling classes may also use the clinic, pending instructor approval, for role-play activities. Licensed faculty members closely supervise all clinical activity that is conducted by graduate students, through the use of video recordings, live observation, and individual and group supervision.

The PSC is a state-of-the-art training facility. The physical plant consists of ten clinical rooms, each of which contains video recording equipment. Each clinical room also has an adjacent observation area that affords students and faculty the opportunity to observe clinical activity. Also available in the clinic are (1) a wide assortment of psychological tests and behavior rating scales, (2) computerized scoring and interpretation programs for the more frequently used assessment tools, (3) a wide array of treatment manuals and clinically oriented references, (4) a collection of developmentally appropriate toys for play assessments and therapy, (5) biofeedback equipment, (6) electronic records system, and (7) a number of desktop and laptop computers.

All clinical activity that occurs within the PSC is practiced in accord with the ethical and legal requirements of the American Psychological Association, the American Counseling Association, the National Association of School Psychologists, and the Pennsylvania Board of Professional Psychology. To that end, strict professional standards of informed consent, privacy, and confidentiality are maintained.

The staff of the PSC consists of a full-time director, a clinic administrative assistant, graduate assistants, and graduate students who provide clinical and educational services, and the licensed Psychology and Counseling faculty, who supervise the graduate students. To make an appointment to receive services at the PSC, please call (570) 348-6269. Clinic hours and other related information may be found on the clinic website at www.marywood.edu/pcs.

Services and Programs

Tutoring Center

The Marywood University Tutoring Center, located in the Liberal Arts Center, Room 221, is an academic resource center and a general study space and lounge. Equipped with computer workstations, assistive technology, circular tables, and chalkboards, the area welcomes both individual study and collaborative group work. The Center also serves as a lounge with both a kitchenette and couch seating.

Disability Services

Students with disabilities are eligible for reasonable accommodations per Section 504 of the Rehabilitation Act of 1973 and the ADA of 1990 as amended by the ADA Amendments Act of 2008. Accommodations provide an equal opportunity for students to obtain the same level of achievement as their non-disabled peers while maintaining the standards of excellence at Marywood University. The Office of Disability Services facilitates individualized support, advising, advocacy, and accommodations to every qualified student.

Fellowships

There are a variety of scholarships and fellowships that fund graduate study in the United States and abroad for students who meet the appropriate eligibility criteria. See the fellowships website for a list of these funding opportunities and information about which faculty advisor to contact with questions and for assistance in applying.

Office of Military and Veteran Services

The Office of Military and Veteran Services assists members of the military, veterans, and their families. ROTC cadets are encouraged to utilize the services of the office. Staff answer questions pertaining to veterans' educational benefits and certify enrollment each semester. In addition, Marywood hosts a chapter of the Student Veteran Alliance, and eligible students may participate in SALUTE, the Veteran's National Honor Society.

Writing Center

The Writing Center offers individual consultation to undergraduate and master's level students. The Center supports writers at any stage of the writing process; prewriting, drafting, proofreading, or revising; however, the Center does not offer review of culminating writing projects such as qualifying papers, professional contributions, or theses.

The professional writing consultant offers phone or gmail chat options for students who are not able to meet in person.

Inquiries and individual appointments may be made by e-mailing writingcenter@marywood.edu.

Student Life Division: Mission, Services, and Programs Mission

In the context of the University's mission, Catholic identity, and core values, the Student Life Division complements the University's academic goals by engaging students through an integrated program of services and educationally purposeful learning experiences designed to enhance holistic growth and personal development.

Services and Programs Athletics and Recreation

Intercollegiate athletics and recreation are integral aspects of the total educational program. Through training, teamwork, and rigorous competition, students are provided with opportunities for development of varied skills and values.

The University is a member of the National Collegiate Athletic Association (NCAA) Division III, the Colonial States Athletic Conference (CSAC) and the Eastern College Athletic Conference (ECAC). Twenty athletic teams, eleven sports for women (basketball, cross-country, field hockey, golf, lacrosse, soccer, softball, swimming/diving, tennis, track and field, and volleyball), and nine sports for men (baseball, basketball, cross-country, golf, lacrosse, soccer, swimming/diving, tennis, and track and field) are sponsored. Graduate students may be eligible to participate in athletics and should contact the Director of Athletics and Recreation for more information

Formal and informal recreation opportunities also are provided through intramural sports, wellness classes, sports clubs, and varied fitness activities. Facilities include an indoor pool, and a state-of-the-art Athletics and Wellness Center with a climbing wall, a gymnasium and an arena, racquetball courts, a dance and aerobics studio, saunas, a sand volleyball court, tennis courts, and intercollegiate/intramural athletics fields.

Campus Ministry

The Campus Ministry Center staff serves the mission of the University by promoting a faith community among faculty, staff, and students and by encouraging spiritual development through liturgy, prayer retreats, discussions on social and moral issues, pastoral counseling, spiritual direction, community service, national and international service trips, and social justice activities. All activities are planned, organized, and administered by students under the mentorship of the Campus Ministry staff. Students are thus prepared to assume leadership roles in both church and society. All members of the community, regardless of denomination, are invited to participate in Campus Ministry activities. Graduate students are encouraged to offer suggestions about ways in which Campus Ministry can best serve their needs.

Career Services

The Career Services Office offers services and programs to support graduate students with career decisions and transitions. Career counseling and assistance with

résumé preparation, job search techniques, and employment interviews are provided. Computerized systems for assessment and access to information about vocational interests, aptitudes, values, and the work world are provided. Full-time and part-time work opportunities are listed through a job announcement service. Employer information vital to interview preparation and aids to help with decision-making are offered online along with announcements about employment fairs. The Alumni Career Network for students and graduates wishing to communicate with alumni across the country regarding employment and relocation also is provided in collaboration with the Alumni Relations Office.

Counseling/Student Development Center

The Counseling/Student Development Center (C/SDC) supports the University's mission by assisting students' personal and academic development through a variety of psychological, psychiatric, and outreach services. These services help students develop effective problem-solving and decision-making skills, to make satisfying life choices, and maximize their capacity for on-going emotional and social growth.

The professional staff and supervised graduate student trainees respond to a spectrum of needs, from providing information to assisting with serious psychological issues. In addition to individual counseling, support group sessions on important topics within the student community are offered. The C/SDC is committed to a comprehensive wellness philosophy and numerous outreach educational programs to encourage social, emotional, spiritual, intellectual, and physical well being are presented. Through the Peers on Wellness (POW) Advisors, peer education to enhance wellness throughout the community also is offered. Students normally are seen by appointment and, when possible, on a walk-in basis and/or at times when the center is not open. In addition a twenty-four hour "hotline" (570-348-6245) for emergency assistance is available. Strict professional privacy and confidentiality standards are maintained by the staff.

Assistant Vice President for Student Life

The Assistant Vice President for Student Life supervises a program of varied services and activities to increase student learning and personal development through formal and out-of-class learning experiences. Planning, policy formulation, and management of departments within the Student Life division are coordinated by the assistant vice president who is the primary administrative liaison to the student body. The Assistant Vice President for Student Life also provides oversight of the conduct policies and procedures and related services and programs.

Housing and Residence Life

The mission of the Housing and Residence Life Office is to provide a comfortable, secure, and nurturing living-learning environment, that is conducive to students' academic and personal development while intentionally fostering a sense of community, civic engagement and responsibility, and appreciation for diversity.

Year round on-campus housing is available for full-time graduate students in one of three locations on campus: McCarty Hall, Perpetual Help Hall, and the Woodland Graduate Residences. Applications should be submitted by April 15 for housing beginning in May or by July 15 for housing beginning in August. Information regarding housing available off-campus may be obtained at: www.marywood.edu/grad-housing or by phone: (570) 348-6236.

Student Activities and Leadership Development

The Student Activities and Leadership Development Office staff coordinates activities and programs to increase students' leadership skills and to enhance their personal, social, and cultural development through involvement in activities, organizations, and programs offering varied learning opportunities.

Other responsibilities of the office include the New Student Orientation Program, coordination of the formal leadership development/education program, administration of the student activities budget system, advisement of the Graduate Student Council, recognition and advisement of student organizations, and supervision of co-curricular activities and related programs.

Student Health Services

The Student Health Services Center, staffed by a registered nurse director, a nurse practitioner, a part-time physician, and a consulting nutritionist, is located in Loughran Hall. Committed to a comprehensive wellness philosophy, medical services, health information, and counseling are available on weekdays when classes are in session. Primary care (assessment and treatment) and referrals to community physicians and to campus and community resources for health education and counseling are provided. Serious emergencies are referred immediately to nearby hospitals, and a staff member is available after office hours for telephone consultation.

All students are expected to submit a completed health history and immunization record before non-emergency treatment can be provided. Resident students who do not submit the completed health history record, including evidence of all vaccinations mandated by state and federal law, may be required to live off campus.

Health insurance is mandatory for all full-time students. The primary care in the Student Health Services Center is provided without charge; however, costs of laboratory tests, emergency room, physician treatment, or hospitalization are the students' financial responsibility. The policy's annual cost appears as a separate item on the fall semester bill. Students who have comparable health insurance coverage and choose to waive enrollment in this policy must notify United Healthcare Solutions via the "Student Services, Cashier's Office" link on the Marywood homepage. To complete the waiver process, students must demonstrate proof of insurance by providing their current plan information (on the insurance ID card) at this link. Once insurance coverage is verified, the charge will be removed. Any student who does not complete the waiver process by the annual fall or spring deadline will be covered through the United Healthcare policy.

Student Honors

Recognition of Academic Excellence

The following medals are awarded to eligible graduate students:

WILLIAM G. McGOWAN MEDAL FOR EXCELLENCE IN DOCTORAL STUDIES

Established in honor of William G. McGowan, a founder of MCI Communications Corporation, by the William G. McGowan Charitable Fund.

SISTER ST. AGNES MEDAL FOR EXCELLENCE IN BUSINESS

Founded by Ms. Angela Moran in honor of her sister, Sister St. Agnes Moran, IHM.

LORETTA HAGGERTY MEDAL FOR LEADERSHIP AND ACADEMIC EXCELLENCE IN COUNSELOR EDUCATION

Established by the trustees of the estate of Loretta Haggerty.

ELLA T. RUANE MEDAL FOR EXCELLENCE IN ART

Established in memory of Ella T. Ruane by her niece, Hazel F. Ruane.

FRANCIS L. AND KATHRYN MELVIN MEDAL FOR EXCELLENCE IN SCHOLARLY INVESTIGATION

Founded by Sister M. Constance Melvin, IHM, in honor of her parents.

SISTER M. EVA CONNORS, IHM, PEACE MEDAL

Founded in memory of Sister M. Eva Connors, IHM, this medal is awarded to an undergraduate or graduate student.

SISTER DAVIDICA KILDEA, IHM, MEDAL FOR EXCELLENCE IN VOICE Established as a memorial to Sister Davidica by her nephew, this medal is awarded to an undergraduate or graduate student.

CLARENCE C. AND ELIZABETH WALTON MEDAL FOR EXCELLENCE IN PUBLIC ADMINISTRATION

Established by Dr. Clarence C. Walton to promote ethical and effective administrative leadership.

POLIZZI MEDAL FOR SCHOLARSHIP AND COMMUNITY SERVICE Founded by The Student Association, School of Social Work, in memory of Anthony C. Polizzi.

GEFFEN MEDAL FOR OUTSTANDING PERFORMANCE IN PRACTICUM EDUCATION

Founded by Friends and Co-Workers in memory of Albert Geffen.

THOMAS J. KEENAN M.D. MEDAL FOR EXCELLENCE IN PHYSICIAN ASSISTANT PROGRAM

(academically and community service) Founded by Mrs. Mary Keenan Hecht in honor of her brother, Thomas J. Keenan, M.D.

Student Organizations

Chi Sigma lota

Advisor: Dr. Shamshad Ahmed

Chi Sigma Iota is an international honor society of counseling professionals and professionals-in-training, dedicated to excellence in scholarship, research and clinical practice. The purpose of Chi Sigma Iota is to promote and recognize exemplary attainment in the study and practice of counseling. Marywood's chapter, Pi, encourages these high standards through speakers, programs and awards. Students who have completed one or more terms of full-time counselor education study or its equivalent with a GPA of 3.50 or better are eligible for nomination to this prestigious society.

Delta Mu Delta

Advisor: Mr. George Marcinek

Delta Mu Delta is the national honor society in Business Administration. The purposes of Delta Mu Delta are to promote higher scholarship in training for business and to recognize and reward scholastic attainment in business subjects. The Iota Lambda Chapter holds an annual initiation ceremony during the fall semester. Students invited to membership must have completed at least half the requirements for the graduate degree, be in the top 20 percent of their class, with minimum 3.60 at the graduate level.

Kappa Delta Pi

Advisor: Ms. Christine Fryer

Kappa Delta Pi is an international honor society in education. It is the oldest and largest honor society in education. Invitations to join are based on academic achievement, a commitment to education as a career and a professional attitude which assures the member's steady growth in the field of education.

Kappa Pi

Advisor: Ms. Susan Jenkins

Kappa Pi is an international collegiate art honor fraternity having as members those art students and graduates who, by their artistic expertise and influence, uphold the highest ideals of a liberal education. The Marywood Art Department Chapter of Kappa Pi, Zeta Omicron, provides membership for worthy graduate art students.

Pi Alpha

Advisor: Dr. Lori Swanchak

Pi Alpha is the national Physician Assistant honor society, organized for the promotion and recognition of both PA students and graduates. Membership signifies the inductees' significant academic achievement and honors them for their leadership, research, community/professional service, and other related activities. The society also encourages a high standard of character and conduct among students and graduates.

Pi Alpha Alpha

Advisor: Dr. Alexander Dawoody

Pi Alpha Alpha is the national honor society for the field of public affairs and public administration. Membership is open to students in the master's degree program in Public Administration. The purpose of this society is to encourage and recognize outstanding scholarship and accomplishment in public affairs and administration. It strives to foster integrity, professionalism, and creative performance in the conduct of governmental and related public service activities.

Pi Kappa Lambda

Advisor: Sister Joan McCusker, IHM

Outstanding music students in all undergraduate and graduate music degree programs are eligible for nomination by the faculty committee to Pi Kappa Lambda, the national music honor society.

Psi Chi

Advisor: Dr. David Palmiter

Psi Chi is the national honor society in psychology, founded for the purpose of encouraging, stimulating and maintaining excellence in scholarship and advancing the science of psychology. Membership is open to graduate and undergraduate students making the study of psychology a major interest, who meet the qualifications in academic areas and commitment. The Marywood chapter holds an annual initiation ceremony during the spring semester and is involved with other campus activities.

Sigma Phi Omega

Advisor: Dr. Alice McDonnell

Sigma Phi Omega is the national honor society to recognize the excellence of those who study gerontology/aging. Sigma Phi Omega seeks to promote scholarship, professionalism, friendship and services to older persons and to recognize exemplary attainment in gerontology/aging studies and related fields. Membership is open to undergraduate and graduate students who are majoring or minoring in gerontology/aging studies and related fields and who are in at least their second term of enrollment. Faculty, alumni, professional, and honorary memberships are also available.

Sigma Pi Epsilon Delta

Advisor: Dr. Patricia S. Arter

Sigma Pi Epsilon Delta is the National Special Education Honor Society. Membership is open for undergraduate students or graduate students majoring in special education. It operates congruently with Marywood's chapter of Student Council for Exceptional Children. Participation offers students the opportunity to participate in community service projects, develop leadership skills, and network with professionals in the field.

Colleges

Reap College of

Education and Human Development

Dean: Terri Peters, Ph.D.

Mission Statement

The Reap College of Education and Human Development is centered in the helping professions.

We explore the workings of the human mind and prepare students to meet the cognitive, emotional, and interpersonal needs of others across the life span.

We educate students to produce, evaluate, and apply research, which is the basis of best practice in professions and organization.

We challenge our faculty and students to be leaders who are:

- Ethical, just, and moral persons
- · Creative and critical thinkers
- Understanding of and responsive to human and cultural diversity
- Technologically competent

Areas of Study

Communication Sciences and Disorders: The Speech Language Pathology Program is designed to provide students with a variety of academic coursework and clinical practicum experiences, according to the standards set forth by the American Speech-Language-Hearing Association (ASHA), to prepare them, from a family-centered perspective, for professional careers as speech-language pathologists, serving children and adults who have communication disorders.

Psychology and Counseling: The Department of Psychology and Counseling provides a range of graduate programs at the master's and doctoral levels designed to serve the interests and professional orientations of varied human service practitioners.

Education: The diverse graduate programs of the Education Department are designed to incorporate the latest research-based theories on teaching and learning. Advanced programs challenge faculty and candidates to be leaders in the educational community, integrate knowledge and action, be thoughtful consumers and producers of scholarship and research, be proactive instruments of change, and innovative and reflective practitioners committed to the development of student potential.

EDUCATION PROGRAMS

Chair: Christine L. Fryer, Ed.D.

The diverse graduate programs of the Education Department are designed to incorporate the latest research-based theories on teaching and learning. Advanced programs challenge faculty and candidates to be leaders in the educational community, integrate knowledge and action, be thoughtful consumers and producers of scholarship and research, be proactive instruments of change, and innovative and reflective practitioners committed to the development of student potential. They are expected to communicate and collaborate effectively with all constituents in response to ambiguity and diversity in a technological, global community. The emphasis, therefore, in all courses is placed on strategies that teachers and leaders can employ in the classroom to bring about active involvement on the part of the learners.

Program Features

The graduate programs in Education have earned the distinction of meeting the rigorous professional standards of the National Council for Accreditation of Teacher Education. In so doing, the department demonstrates state-of-the-art facilities for library research, curriculum development, and technology. The utilization of these resources by students is woven into the carefully planned sequence of courses. The graduate programs also enjoy strong relationships with area schools and private centers and have participated in joint research projects. Area educational personnel and model teaching sites are available to strengthen the graduate experience.

1

The Education Department offers the following degree programs:

M.A.T. with PK-4 Certification

M.A.T. with Secondary/PK-12 Education Certification

M.Ed. in Instructional Leadership

M.S. in Early Childhood Intervention – Birth to Age 8

M.S. in Higher Education Administration

M.S. in Reading Education

M.S. in School Leadership

M.S. in Special Education

M.S. in Administration and Supervision of Special Education

The Education Department participates in the Ph.D. in Human Development program specialization in:

College/University Teaching

The Education Department offers teaching certification in the following disciplines:

Special Education PK-8 (second certification)

Special Education Supervisor

Speech and Language Impaired PK-12

Superintendent Letter of Eligibility

Program Requirements

The Pennsylvania Department of Education requires that certain criteria be met prior to acceptance into certification or degree programs.

NOTE: Requirements discussed in this catalog regarding admission to a program, prerequisite and requisite courses, student teaching approval, and recommendation for certification and graduation are subject to change.

All applicants interested in pursuing a graduate program in education must complete an application to the University.

All applicants must meet with the chair of the Education Department or designated department faculty member prior to admission to the department.

All applicants seeking certification must meet the following requirements:

	Application	Letters of Recommendation	Entrance Test	Baccalaureate Q.P.A
Initial Certification Program*	X	X	GRE	3.00
Advanced Certification Program*	Х	X		3.00

^{*}One-half of a student's coursework must be taken at Marywood in order to receive a recommendation for certification.

Professional Contribution

Most degree programs in education include a closure experience. This experience is referred to as a Professional Contribution (PC). Depending on the program, the PC may be a professional project, thesis, exhibit, portfolio, internship, applied research, or action research. Degree candidates work under the guidance of a faculty mentor and give a public presentation of their Professional Contribution.

Master of Science in School Leadership

30 semester hours

The program in School Leadership consists of 30 semester hours of low-residency graduate work and 24 hours of participation in the Principal Leadership Academy. The Academy provides an orientation to the Marywood campus, four on-campus Powerful Learning Experiences (PLEs) and a concluding networking experience. The courses are divided into three categories: nine semester hours in core courses, which are intended to give the student an understanding of research, organizational dynamics, and multicultural issues in schools; 15 semester hours in concentration courses, which provide an understanding of administration, current issues in education, curriculum planning, supervision and evaluation of instruction, law, finances, and an internship in a school setting, and three semester hours in elective courses.

The overall goal of the program is to develop school principals who are motivated to serve children, families, teachers, and communities by applying solid research and best practices of the discipline to their role as principal. Vital program components

are the establishment and maintenance of long-term relationships among school districts, school leaders, and mentors, as well as a focus on the candidate's personal growth using an ethical, authentic, and standards-based approach. Internships are individualized, based on needs and interests of school districts and candidates. The Educational Leadership Constituent Council (ELCC) building level standards support the courses and internship.

In addition to an initial interview with the chair of the Education Department or designated faculty member and the successful completion of coursework, the degree candidate is required to complete a Professional Contribution under the guidance of a faculty mentor and give a public presentation of the Professional Contribution. To be eligible for Pennsylvania certification, the candidate must complete state testing requirements and provide a chief school administrator's verification of the completion of three (3) years of relevant professional experience defined as "professional experience in an educational setting that is related to the instructional process."

*EDUC 593 Administrative Internship	3

III. ELECTIVES

3 semester hours

This program has been approved by the Pennsylvania Department of Education for awarding certification as a PK-12 principal.

*Certification Program in School Leadership — Persons seeking a PK-12 principal certificate in the Commonwealth of Pennsylvania, who do not wish to receive the Master of Science degree, may do so by taking only courses marked with an asterisk listed under the degree program. An initial interview is also required.

The Pennsylvania Department of Education requires that certain criteria be met prior to acceptance into certification or degree programs. Upon completion of the program, to be eligible to apply for certification, candidates must pass the School Leaders Licensure Assessment test (use Praxis SLS Bulletin to register) and have three years of certificated experience in a school setting.

NOTE: The Program requirements discussed in this section are subject to change based on guidelines established by the Pennsylvania Department of Education.

Superintendent's Letter of Eligibility

The Superintendent's Letter of Eligibility will endorse an individual for appointment as a district superintendent. Candidates for this post-master's certification shall:

- 1. Follow normal application procedures for admission to the graduate program, indicating a desire to seek this certification. Candidates must possess a 3.00 average in all prior graduate work.
- 2. Successfully complete an interview after six credits prior to formal admission.

3.	**Successfully complete a minimum of 21 semester hours in the following are	eas
	EDUC 604 School, Community, Public Relations	3
	EDUC 605 Theories of Educational Organizations	3
	EDUC 606 Labor Relations and Negotiations	3
	EDUC 607 Business and Facilities Management	3
	EDUC 608, 609 Field-Based Internship	6
	EDUC 617 School Leadership and Special Education	

At the point of admission/acceptance, the chair of the Education Department will determine if the candidate has met all competencies as outlined by the State Department of Education. If it is determined that a candidate is lacking in an area typically part of the first administrative endorsement (principalship), more than eighteen hours may be required.

Likewise, if a candidate has fulfilled some of the courses required for the Letter of Eligibility certification, the courses will not be repeated.

- 4. Provide evidence of six years of instructional, educational specialist, and supervisory and administrative service, of which at least three of the six years must have been in a supervisory or administrative capacity.
- 5. Pass the School Superintendent Assessment (use Praxis SLS Bulletin to register).
- **These courses are also a part of the Ph.D. in Human Development Degree. Please reference the Doctoral Program portion of this catalog.

NOTE: The requirements discussed in this section are subject to change based on guidelines established by the Pennsylvania Department of Education.

Supervisor of Curriculum and Instruction

The Supervisor of Curriculum and Instruction Certification will endorse an individual as a general instructional supervisor in a school district.

An educator holding a valid PA certificate as a Supervisor of Curriculum and Instruction is qualified to perform the following:

- Supervision, instruction, and evaluation of staff as designated by the school superintendent,
- Designation and development of curriculum, learning materials, and innovative educational programs,
- Conduct experimental instructional programs,

- Direct and conduct basic or applied educational research,
- Supervision of the integration of technology into curricular planning and instructional design,
- Supervision of educational technology specialist, whenever employed.

Candidates for this district-wide master's or post-master's certification shall:

- 1. Follow normal application procedures for admission to the graduate program, indicating a desire to seek this certification. Candidates must possess a 3.00 average in all prior graduate work.
- 2. Successfully complete an interview prior to formal admission to the program.
- 3. Successfully complete a minimum of eighteen semester hours in the following areas plus an internship:

EDUC 545 Administrative Theory	ı
EDUC 547 Curriculum Planning	i
EDUC 548 Supervision and Evaluation of Instruction	i
EDUC 549 School Law	i
EDUC 551 School Finances	i
EDUC 552 Personnel Leadership	i

Post-Master's — Supervisor of Curriculum and Instruction

(At this level, a master's level course in School Law is a prerequisite.)

EDUC 605 Theories of Educational Organizations3EDUC 610 Models of Teaching3EDUC 611 Instructional Design: Theories and Applications3EDUC 613 Dynamics of Leadership and Change3EDUC 614, 615 Practicum3.3

- 4. Provide a chief school administrator's verification of the completion of five years of satisfactory professional school experience, at the time of application for certification.
- 5. Pass the Educational Leadership: Administration and Supervision (5411) Praxis test.

NOTE: The requirements discussed in this section are subject to change based on guidelines established by the Pennsylvania Department of Education.

Supervisor of Pupil Personnel Services

The Supervisor of Pupil Personnel Services certification will endorse an individual as a district-wide specialist in the comprehensive pupil personnel services field (school psychology, school counseling, school health, school social work services) as supportive of the instructional process in a school district.

An educator holding a valid PA certificate as a Supervisor of Pupil Services is qualified to perform the following:

- Supervising and/or coordinating all the pupil personnel services areas and evaluating assigned staff as designated by the school superintendent;
- Designing and developing supporting materials and innovative or experimental programs affecting the delivery of pupil personnel services;
- Articulating the place and purpose of the pupil personnel services as supportive of the instructional process;
- Directing and conducting basic or applied educational research within the pupil personnel service areas.

Candidates for this post-master's certification shall:

- 1. Follow normal application procedures for admission to the graduate program, indicating the desire to seek this certification. Candidates must possess a 3.00 average in all prior graduate work.
- 2. Successfully complete an interview prior to formal admission to the program.
- 3. Successfully complete a minimum of 18 semester hours in the following areas plus an internship:

- 4. Provide a chief school administrator's verification of the completion of five years of satisfactory professional school experience at the time of application for certification.
- 5. Pass the Educational Leadership: Administration and Supervision (5411) Praxis test.

NOTE: The requirements discussed in this section are subject to change based on guidelines established by the Pennsylvania Department of Education.

Master of Science in Early Childhood Intervention (ECI) – Birth to Age Nine

36 semester hours

The program in EARLY CHILDHOOD INTERVENTION – BIRTH TO AGE NINE consists of 36 hours of graduate work. The courses are divided into two categories: twelve semester hours in core courses, which are intended to give the student an understanding of research, child development, foundations of education,

and learning theories; and 24 semester hours in concentration courses, which provide an understanding of children in inclusive child-care centers, preschools, kindergartens, and primary grades.

Administration of early childhood centers and issues in early childhood programs, learning theories, and literacy development are several areas covered in this program. The purpose of the program is to provide opportunities for the development of the administrative and interpersonal skills needed by early childhood teachers in inclusive programs. This program does **not** lead to an **initial** PA certification in PK-4. Those seeking a second certification in PK-4 may need to have additional coursework. It is strongly recommended that candidates meet with the chairperson to determine if any additional coursework is needed.

Master of Education (M.Ed.) – Instructional Leadership

33 semester hours

Master of Education (M.Ed.) with a specialization in Instructional Leadership prepares experienced PK-12 teachers for instructional leadership roles such as lead teachers, instructional supervisors, curriculum specialists, and department heads. The M.Ed. is a 33-credit hour degree (not leading to certification) for elementary and secondary teachers in both general and vocational education.

It is designed to enhance the instructional and leadership skills of candidates so that they become master teachers who can model effective practices, analyze and evaluate curriculum and instruction, and provide help and guidance to other pre-service and in-service teachers.

The Master of Education courses will focus on:

- Enabling participants to enhance skills in curriculum development
- Understanding multicultural issues that impact learning
- Developing classroom communication and management skills
- · Integrating instructional technology
- · Integrating professional ethics in the instructional environment
- Understanding appropriate instructional designs for classroom teaching
- Developing curriculum and using appropriate teaching strategies for developmental and special needs students

In addition to an initial interview with the Chair of the Education Department or designated faculty member and the successful completion of coursework, the degree candidate is required to complete a Professional Contribution under the guidance of a faculty mentor and to give a public presentation of the project.

Master of Science in Higher Education Administration

36 semester hours

The Master of Science degree in Higher Education Administration prepares individuals for a variety of mid-level careers in public and private two-year colleges, four-year institutions, and universities. Examples of career opportunities include, but are not limited to, leadership positions in student services, enrollment management, institutional advancement, alumni affairs, and institutional research. The program of study is designed to include required core courses (12 credits) as well as a concentration (electives 24 credits). An internship adds practical experience to the learning process. In general, the curriculum is designed to provide students with the appropriate knowledge about the professional field and, at the same time, it grounds students in a theoretical framework necessary to guide current and future study and career development in higher education.

The M.S. in Higher Education Administration will focus on:

- Demonstrating knowledge of the foundations and scope of higher education administration
- Demonstrating knowledge of professional practice related to an academic enterprise that includes teaching, research, and service as primary components of productivity; management skills such as problem solving, planning, delegating, budgeting, fundraising, assessing, and evaluating; human relations skills that include managing interaction, communication, and contributing to organizational and individual development.

Reading Education Program

33 semester hours

The goal of the Reading Education program is to equip teachers with the knowledge and expertise needed to teach reading to children and adults.

Each course stresses both the theories resulting from the latest research and the practical application of these theories in the classroom.

Students may obtain a Master of Science degree in Reading Education, which includes the Reading Specialist certification (PK-12), or obtain only the Reading Specialist certification (PK-12).

The program leading to a master's degree in reading consists of 33 hours of graduate coursework. The areas of study include:

- Nine semester hours in the field of education, to give the student an adequate background in research techniques, theories of learning, and foundations of education.
- 2. Twenty-four semester hours in the area of reading to give students an understanding of:
 - a. recent research in the field of reading and how it affects the teaching of reading;
 - b. tried and approved methods of teaching reading;
 - c. diagnosis and remediation of reading problems;
 - d. organization and management of the reading classroom.

L PROFESSIONAL EDUCATION AND CORE COURSES

In addition to the successful completion of designated coursework, students are required to complete a Professional Contribution under the direction of a faculty mentor and give a public presentation of their projects.

***Prerequisites: R ED 524A, 526	

Please note: coursework (3 credits) in developmental psychology or human development, (3 credits) in educational psychology, (9 credits) in special education, and (3 credits) in Teaching ESL plus an initial certification are prerequisites for this program. Students who do not have this background will need to complete any missing credits.

1

Reading Specialist Certification

A student who wishes to concentrate in the field of reading but who does not wish to pursue the master's degree program or who already holds a master's degree may obtain Reading Specialist certification by taking the 24 semester hours from concentration courses in reading. A student seeking only certification is required to take at least fifty percent of the 24 credits at Marywood University. Advanced certification candidates are required to complete an internship. Pre-requisites are the same as those required for M.S. in Reading Education.

Praxis test:

• Reading Specialist Praxis. (Required for instructional certification.)

Reading Supervisor Certification

The Reading Supervisor certification will endorse a Reading Specialist for appointment as a Reading Supervisor. Candidates for this post-master's certification shall:

- 1. Follow normal application procedures for admission to the College of Education and Human Development, indicating desire to seek this certification. Candidates must possess a 3.00 average in all prior graduate work.
- 2. Successfully complete an interview after six credits if a master's degree in reading or master's degree plus Reading Specialist certification were not awarded at Marywood University.
- 4. Provide evidence of having completed five years of satisfactory professional experience as a Reading Specialist.
- 5. Pass the Educational Leadership: Administration and Supervision (5411) Praxis test.

At the point of admission/acceptance, the Education Department will determine if the candidate has met all competencies as outlined by the State Department of Education. If it is determined that a candidate is lacking in an area typically part of the first endorsement (Reading Specialist), more than eighteen semester hours may be required.

Likewise, if a candidate has fulfilled some of the courses required for the supervision certification, the courses will not be repeated. As with all certifications, fifty percent of the required courses must be taken at Marywood.

Special Education Programs

Goals of the Special Education Programs to prepare a teaching candidate include the following:

- To be cognizant of normal growth and development patterns and the range of deviations which can occur from these patterns.
- To be able to act as an instructional leader and resource person in his/her professional situation.
- To be able to critically examine major trends and issues in the field and to apply this body of information to the professional situation.
- To be capable of employing a systematic approach to teaching and demonstrating a working knowledge of sound research skills in order to effectively measure learning performance.
- To be a guardian of the ethics of the profession and its related duties and responsibilities as described in the Code of Ethics of the Council for Exceptional Children.

Autism Spectrum Disorders Endorsement Program

The Autism Spectrum Disorders Endorsement offers educators, school psychologists, counselors, and other professionals coursework and practicum to work effectively with children and youth diagnosed with ASD. The 12-credit, fully online program is designed to develop and enhance effective educational, assessment, and collaborative practices to support educators, school districts, and community organizations. A total of 80 hours (20 hours per class) of field practicum working with individuals with ASD is required.

- 1. Follow normal application procedures for admission to graduate programs of the University, indicating the desire to seek this certification. Candidates must possess a 3.00 average in all prior graduate work.
- 2. A background in education, psychology, communication disorders, or another related discipline is recommended.
- 4. Level I or II Certification is required if seeking PA Department of Education (PDE) endorsement.

Those who do not hold Level I/II certification will not receive PDE endorsement but a certificate of completion will be issued after satisfactorily completing the ASD program.

ESL Endorsement Program Overview

The English as a Second Language (ESL) program combines in-seat and online learning to prepare teachers to support the literacy development of English Language Learners and can be completed in as little as six months. *Prerequisite:* Initial Certification

Special Education Degree Programs

Degree-seeking students are required to complete a curriculum that includes studies of major issues in the field and develops broad teacher competencies in a variety of areas. The following course sequence is suggested, but the individual's academic preparation and professional experiences may permit variations.

Master of Science in Special Education

(Degree program that builds on a previous certification not in Special Education and leads to PK-8 certification.)

36 semester hours

The assumption is that candidates seeking this degree already have core curriculum and instruction education courses including math, science, social studies, and reading methods. Candidates not meeting this requirement may be required to take additional coursework.

As paradigm shifts are occurring in the educational system and as generic skills for all personnel are being valued, this program envisions training administrators who possess broad leadership competencies, familiarity, and experience with the full array of special education services, and who can reflect upon change in all its facets. The program curriculum is closely aligned with Marywood University's School Leadership program requirements, and the shared courses are intended to integrate the knowledge base of school leadership with the administrative challenges of specialized programming. This program is committed to the training of individuals in administrative and interpersonal skills in order to ensure the development of effective education programs for all, in a variety of settings. Additionally, the program is directed at reflective practice and the development of leaders as agents and facilitators of change.

Special Education Supervisor Certification Requirements (Available with M.S. Special Education or as Post-Master's Certification):

- 1. Follow normal application procedures for admission to graduate programs of the University, indicating the desire to seek this certification. Candidates must possess a 3.00 average in all prior graduate work.
- 2. Successfully complete an interview after six (6) credits if the master's degree was not awarded at Marywood. Prerequisites are an M.S. in Special Education and five years of satisfactory teaching experience on a valid special education teaching certificate.
- 4. Pass the Educational Leadership: Administration and Supervision (5411) Praxis test.
- 5. Provide evidence of having completed five (5) years of satisfactory teaching experience on a valid special education teaching certificate at the time of application for Pennsylvania certification.

At the point of admission/acceptance, the Education Department will determine if the candidate has met all competencies as outlined by the State Department of Education. If it is determined that a candidate is lacking in any area, more than these eighteen (18) semester hours may be required.

Likewise, if a candidate has fulfilled some of the courses required for the supervisor certification, the courses will not be repeated. As with all certification, 50 percent of the required courses must be taken at Marywood University.

A practicum is a requirement in the Special Education Supervisor Certification Program. The minimum requirement for the initiation of the practicum is the completion of twelve (12) credit hours of the required certification program. At least six (6) of the credit hours must have been completed at Marywood. The practicum

must be completed at the level at which the student seeks certification. (Ordinarily this would be the district or Intermediate Unit level, with a broad range of PK-12 experiences.) The practicum includes a minimum of 300 hours of administrative experience. Practicums are usually arranged during the fall and spring semesters.

Master of Arts in Teaching and Certification in PK-4 Education

49-60 semester hours (Variable)

Prior to admission to the M.A.T./PK-4 certification program, all applicants must meet with the chair of the Education Department or designated department faculty member and the director of professional field experience.

The M.A.T./PK-4 Education program is designed for the teaching professional whose goals include initial certification in grades PK-4 education and an M.A.T. degree. This program consists of a minimum of 49 hours of graduate work. Students with no education courses may need to take up to 60 semester hours. The courses are divided into four categories:

- Eighteen semester hours in professional education courses which are intended to give the student an understanding of foundations of education, special needs youngsters, human growth and development, and the psychology of the teaching/ learning process.
- Thirty hours in specialty area courses which provide an understanding of the curriculum taught at the elementary school level.
- · Student teaching.
- Six hours in core courses, providing the student with the opportunity to integrate theory and practice in both research and learning theory.

These courses are certification requirements for those students seeking both the degree and Pennsylvania Instructional I certification. Eligibility for certification is determined by fulfillment of state requirements.

All candidates are required to fulfill field experience and student teaching requirements.

Field Experience – Education certification candidates in all programs must maintain continuous registration for field experience and sign up each semester in the Office of Professional Education Field Experience. Clearances (Criminal Background, Child Abuse Clearance; FBI Fingerprints, Mantoux test, and others required locally) must be active and on file in the Field Experience Office throughout field placement and student teaching semesters.

Level I – A three-hour block of time each week is required at the assigned school. In the early field experience placements, the candidate performs tasks that are considered legally permissible for the teacher's aide. (Minimum 40 hours required)

Level II – Candidates at this level are enrolled in supervised practicum courses. Second level field experience students are to engage in specific activities such as developing learning activities and participating in team teaching. Activities

completed in this placement level are related to the objectives of the upper level methods courses in which they are currently enrolled. (Minimum 150 hours)

Candidates are required to spend seven weeks, three hours per week, in each of two pre-student teaching placements during the semester prior to student teaching. With a successful placement and teacher and district approval, the co-operating teachers would be the same for the pre-student teaching and student teaching placement.

Student Teaching – Candidates are assigned as a full-time student teacher for one semester, usually during the last year of their program. This typically will include two placements representative of all content and levels of the certificate involved. Placements are made by the Director of Professional Education Field Experience and are within an established radius from the University. Candidates seeking PK-4 certification are required to take SPED 511: Curriculum Adaptations for Special Needs Learners during the student teaching semester; candidates seeking Special Education PK-8/PK-4 certification are required to take EDUC 520: Universal Design for Learning during the student teaching semester. No additional coursework may be taken during student teaching.

Candidates may also seek dual certification in Special Education PK-8 with the M.A.T. in PK-4 Education. The following coursework will be required for dual certification instead of EDUC 508 and EDUC 510:

SPED 500 Special Education Law and Service Delivery	. 3
SPED 536 Cognitive Assessment and Remediation	. 3
EDUC 520 Universal Design for Learning	. 3

The Pennsylvania Department of Education requires that certain criteria be met prior to acceptance into certification or degree programs. Program requirements discussed in this section are subject to change based on guidelines established by the Pennsylvania Department of Education.

Master of Arts in Teaching and Certification in Secondary/PK-12 Education

37-40 semester hours (Variable)

Prior to admission to the M.A.T. program with certification in Secondary/PK-12 Education all applicants must meet with the Chair of the Education Department or designated department faculty member and the Director of Professional Field Experience.

The M.A.T. program in Secondary/PK-12 Education is designed for the teaching candidate whose goals include initial certification in Secondary/PK-12 Education and an M.A.T. degree. This program consists of a minimum of 34 hours of graduate work. Candidates with no education courses may need to take up to 49 semester hours. Credit totals do not include any work needed in the content area. The courses include:

- Nine credits hours of coursework that give candidates an understanding of foundation of education, of human development and the psychology of the teaching/learning process.
- Seven credit hours that focus on general and specific teaching methodologies, practicum, and the reading process.
- Twelve credit hours that focus on developing candidates' understanding of working with learners with special needs.
- Student teaching
- Six credit hours in core courses, providing the candidate with the opportunity to integrate theory and practice in both research and learning theory.

These courses are certification requirements for those students seeking both the degree and Pennsylvania Instructional I certification. Eligibility for certification is determined by fulfillment of state requirements, including Pennsylvania Education Certification Tests (PRAXIS) taken upon completion of the program. Courses in the M.A.T. in Secondary/PK-12 education program fulfill these requirements.

All candidates are required to fulfill field experience and student teaching requirements.

Field Experience – Education certification candidates in all programs must maintain continuous registration for field experience and sign up each semester in

the Office of Professional Educational Field Experience. Clearances (Criminal Background, Child Abuse Clearance; FBI Fingerprints, Mantoux test, and others required locally) must be active and on file in the Field Experience Office throughout field placement and student teaching semesters.

Level I – A three-hour block of time each week is required at the assigned school. In the early field experience placements, the candidate performs tasks that are considered legally permissible for the teacher's aide. (Minimum 20 hours required)

Level II – Candidates at this level are enrolled in supervised practicum courses. Second level field experience students are to engage in specific activities such as developing learning activities and participating in team teaching. Activities completed in this placement level are related to the objectives of the upper level methods courses in which they are currently enrolled. (Minimum 150 hours)

Candidates are required to spend seven weeks, three hours per week, in each of two pre-student teaching placements during the semester prior to student teaching. With a successful placement and teacher and district approval, the co-operating teachers would be the same for the pre-student teaching and student teaching placement.

III. CONTENT AREA SPECIALTY

Semester hours vary by teacher certification program area (see following section).

NOTE: The requirements discussed in this section are subject to change based on guidelines established by the Pennsylvania Department of Education.

Teacher Certification Programs

A student who wishes to obtain a Pennsylvania Instructional I Certificate in specialized PK-12 and 7-12 areas, but who does not wish to pursue the master's degree program or who already holds a master's degree can enroll in a post-baccalaureate, certification-only program. Determination of individual student requirements for certification will be made after all previous transcripts have been evaluated. A student seeking only certification is required to take at least fifty percent of the general requirement credits at Marywood University. Eligibility for certification is determined by fulfillment of state requirements, including PRAXIS II testing (as required in each area of certification) taken upon completion of the program.

Instructional Certification Programs PK-12 or 7-12

The following are requirements for all PK-12 and 7-12 certifications in Art, Biology, Communication, English, General Science, Health & Physical Education, Mathematics, Music, Social Studies, Spanish, and Home School Visitor: (34 credits)

Courses

Education (EDUC)

Education Requirements for degree and certification areas:

EDUC 000* Field Experience (0) - Section 09

Involves weekly experience with children and youth in participating public and private local schools and service agencies. Requires registration in the Office of Educational Field Experience each semester. A minimum of 190 clock hours must be met for "satisfactory" grading.

EDUC 411A Effective Instruction in Secondary/PK-12 Education (3)

Integrates the theory and practice of teaching; topics include classroom management, planning, techniques and strategies, evaluation, reading in the content area, and instructional materials, culturally responsive teaching, and technology.

EDUC 442 Student Teaching/A-Q (4.5, 4.5)

Involves supervised, full-time classroom teaching with gradual assumption of total teaching responsibilities in two different placements according to the scope of certificate. (Select appropriate section of 442 A-Q.) Requires sign-up in the Field Experience Office. (Prerequisite: student teaching clearance by Education Department.)

EDUC 470 Curriculum and Instruction

Develops teaching strategies, PK-4 curriculum elements and instructional resources in the context of research while modeling best practice. Requires related field experience participation.

EDUC 470F Curriculum and Instruction: Mathematics (3)

Engages pre-service students in an active, materials-based, collaborative investigation of mathematics learning/teaching, in light of NCTM Standards. Students are required to pass a basic skills test in order to successfully complete the course.

EDUC 470G Curriculum and Instruction: Science (3)

Applies science theories and methodology through cooperative, hands-on teaching experiences.

EDUC 470H Curriculum and Instruction: Social Studies (3)

Encompasses strategies that promote informed, responsible citizenship in a pluralistic society. Emphasis on interdisciplinary approaches and NCSS Curriculum Standards.

EDUC 473 A, B Teaching Internship (3,3)

Students officially enrolled in Marywood's teaching intern program fulfill their student teaching requirements through participation in this semester-long course. Once an intern student secures full-time employment in a school district, he/she must register for this course. Marywood's teacher intern supervisors participate in the supervision of the intern during the semester. Student must be enrolled in Marywood University's intern certification program, must have completed all coursework and must have passed all tests in Teacher Certification:

• PRAXIS II Specialty Area (required in each area of certification)

EDUC 501 Research Theory (3)

Introduction to the methodology of research-historical, descriptive-survey, experimental design, critical interpretation, and case study techniques, with attention to specialized data-gathering procedures, such as the questionnaire, the interview, observation, etc.; introduction to statistical concepts. Directed toward the writing of a thesis or a professional contribution (PC) as a degree requirement.

EDUC 502 Multidisciplinary Foundations of Education (3)

Basic principles of educational theory derived from a study of major works and integrated theories from the history of education, philosophy, and social sciences; research of the social sciences on educational problems, processes, and values; contemporary issues and multicultural issues explored.

EDUC 511 Children's Literature for Early Childhood and Elementary School Teachers (1.5 or 2)

Presents a brief history of children's literature, the characteristics of twentieth century publications for children, with the relationship between literature read by children and the psychology of the child. Evaluation of representative current and retrospective titles for classroom use. Reading specialists must take 2 credits.

EDUC 520: Universal Design for Learning: Principles, Practice, and Leadership (3)

This course will examine the concept of Universal Design for Learning (UDL) and address the practical application of UDL in the classroom to teach and reach all students. This course will provide an overview of learner differences, brain research on learning, and the use of multimedia technologies to include all students. It will also provide participants with strategies to integrate the application of UDL into the curriculum as well as hands-on practice with multimedia technologies.

EDUC 523 Seminar: Psychology of Education (3)

Course deals with the dynamics of teacher-student-other relationships with consideration of learning and assessment. Analyzes individual differences of students in relation to the educative process. Emphasis on relating educational research to current school practice. Lesson plan and unit plan designs are covered.

EDUC 554 Contemporary Learning Theories (3)

Emphasizes the aspects of learning theory having direct bearing on the teaching learning process. Included are points of view that need to be understood by teachers so they might be discerning in their procedures in the classroom, their reading of materials in the field, and their participation in professional discussions.

EDUC 555 Professional Contribution (0)

Thesis, project, series of demonstrations, or professional performance.

EDUC 561 Methods, Materials, and Assessment for Teaching ESL (3)

This course is designed to expand the participants' knowledge of current issues related to teaching English Language Learners, as well as effective assessment practices, teaching methods, and appropriate ESL materials. Linguistic as well as socio-cultural factors affecting learning will be addressed. ESL standards, modifications for ELLs, and support services for ELLs will be discussed.

EDUC 562 Linguistics for Second Language Teachers (3)

This course will cover human language and communication, the lexical, morphological, syntactic, and phonological components of language. Focus will be on research in social and psychological aspects of language and the process of second language acquisition. Fieldwork required.

EDUC 563 Perspectives on Teaching ESL Practicum (3)

This course will help the ESL teacher develop awareness of the English Language Learner's challenges and obstacles in mastering a second language. Included in the course will be the history of theories in second language acquisition and implications of multicultural education in K-12. Participants will discuss what culture is and how it shapes perceptions and attitudes. The course will examine characteristics of the cultures represented in the ESL classroom and address ways to acclimate ELLs to U.S. culture. Fieldwork required.

EDUC 564 Structure of English for ESL (3)

This course will include analysis of the details and system of the English language with a focus on syntax and discourse and the application of analyses to grammar instruction in the second language classroom. Fieldwork required.

EDUC 565 Internship for ESL (1)

The purpose of the Internship in ESL is to provide the candidate with an opportunity for in-depth, varied and continuous experiences working with English Language Learners. These experiences will enable the intern to apply the knowledge and skills acquired through his/her study and previous experience to actual situations with English Language Learners.

EDUC 566 Developing Academic Literacies for English Learners (3)

This course will prepare the ESL teacher to develop the language and literacy skills ELLs need to be successful in academic settings and to develop a repertoire of strategies that will make content area concepts comprehensible to ELLs across a range of proficiency levels. The course will also address issues related to assessment of language and content area learning for ELLs. The goal of this course is to prepare ESL teachers not only to instruct and assess ELLs effectively, but also to serve as a resource to classroom teachers in the public school setting. Field work required.

EDUC 591 M.A.T. Student Teaching (4.5, 4.5) – Master of Arts in Teaching Students

Involves supervised, full-time classroom teaching with gradual assumption of total teaching responsibilities in two different placements. Requires registration in the Field Experience Office and approval of chair of Education Department.

School Leadership/Instructional Leadership (EDUC)

EDUC 545 Administrative Theory for School Leaders (3)

Examines the role of the administrator as instructional leader, manager, and leader of the community within the school environment. Theory is derived from leadership principles and current concepts of administration. Communication and decision-making skills are emphasized.

EDUC 546 Seminar: Current Problems and Issues in Education (3)

Examines practical issues of current concern in education.

EDUC 547 Curriculum Planning for Schools (3)

Designed to aid the school administrator, special education supervisor, and curriculum/media specialist in the role of curricular and instructional leader. Augments, through practical application, various curriculum theories and trends. Instructional design, curriculum standards, and curriculum building competencies are stressed.

EDUC 548 Supervision and Evaluation of Instruction (3)

Provides the administrator with the knowledge and skills needed to supervise faculty, including special education faculty, in evaluating quality of program instruction. Various approaches will be investigated with an emphasis on models of clinical supervision and adult development.

EDUC 549 Law and the School (3)

Includes an analysis of the legal issues, including special education mandates in school.

EDUC 551 School Finances (3)

Focuses on aspects of financing needed by school administrators. Includes areas such as budgeting, marketing, and planning.

EDUC 552 Personnel Leadership in Schools (3)

Designed to aid in the development of those skills needed for effective leadership in the area of recruitment and hiring of faculty and staff, including special education staff, and for developing relationships among faculty, students, and the community. Communication and decision-making skills are emphasized.

EDUC 593 Administrative Internship (3)

Designed to give the potential school leader practice in school administration; structured internship at a selected educational institution.

EDUC 604 (D/ED 1011) School, Community, Public Relations (3)

Examines the role of the school district in the life of the civic community. Develops public relations programs that bring about positive school-community interaction. Stresses effective relationships between central office personnel and school board.

EDUC 605 (D/ED 1012) Theories of Educational Organizations (3)

Develops communication theory first explored in principalship program. Stresses effective communication skills. Explores organizational systems and related social structures. Stresses motivation theory and change dynamics.

EDUC 606 (D/ED 1013) Labor Relations and Negotiations (3)

Explores collective bargaining, negotiation skills, union movements, and related contemporary issues critical to central office leadership.

EDUC 607 (D/ED 1014) Business and Facilities Management (3)

Examines financing and construction of educational facilities. Explores current state regulations on new and renovated facilities. Gives special emphasis to bonding initiatives and aesthetic and environmental concerns.

EDUC 608, 609 Field-Based Internship (6)

Provides an opportunity for the student participant to integrate theory and practice in the field of central school office administration. It is an individualized internship, collaboratively designed by the student, a faculty mentor, and a site supervisor, and addresses competencies explored during coursework. The internship is accomplished at a central school office site.

1

EDUC 610 (D/ED 1005) Models of Teaching (3)

Integrates learning theory and the actual practice of instruction. Models of effective teaching are explored, including methodologies and authentic assessment strategies. A major component of the course will be opportunities for actual college classroom teaching experience.

EDUC 611 (D/ED 1007, MED 524) Instructional Design: Theory and Applications (3)

Designed to explore advanced concepts of integrative curricular design. It touches such curricular issues as multiculturalism, change, society, transitions, technology, decision-making, planning, and evaluation. A variety of curriculum projects is explored.

EDUC 613 (D/ED 1015) Dynamics of Leadership and Change (3)

This course provides a thorough examination of contemporary leadership theory and styles. Essential leadership skills for 21st century institutions of learning will be explored through the use of case studies and simulations. Models of change and communication strategies will be addressed.

EDUC 614 (D/ED 1150) Practicum in Resources Utilization I (3)

This one-semester internship provides the student participant an opportunity to focus on the creative and effective utilization of faculty, parents, and community-at-large to achieve curricular purposes of the school. It addresses both staffing and staff development needs. This internship addresses competencies explored during coursework and is accomplished at a central office site.

EDUC 615 (D/ED 1151) Practicum in Resource Utilization II (3)

The one-semester internship provides the student participant an opportunity to focus on creative and effective resource allocation and budgeting procedures. It also deals with building management and resource enhancement to support curriculum initiatives. This internship addresses competencies explored during coursework and is accomplished at a central office site.

EDUC 617 (D/ED 1017) School Leadership and Special Education (3)

The course acquaints school administrators (superintendents, principals, supervisors) with professional problems associated with special education. School leaders will examine all aspects of special education, including its history; philosophy; and federal, state, and local regulations, as well as trends and strategies to accommodate diverse learners. The course focuses on special education from the perspective of school administrators.

Higher Education Administration (HE)

HE 525 (D/HE 1025) Student Issues in Higher Education (3)

This course will discuss the multifaceted issues related to a student-centered campus. It will present practical problem-solving strategies in dealing with adult learners.

HE 530 (D/HE 1030) College Finance and Strategic Planning (3)

A practical application of strategies for both financial and long-range strategic planning will be the focus of this course.

HE 605 (EDUC 605) Theories of Educational Organizations (3)

Stresses effective communication skills. Explores organizational systems and related social structures. Stresses motivation theory and change dynamics.

HE 609 (D/HE 1109) Higher Education Law and Policy (3)

This course introduces students to the legal and policy aspects of higher education. Law and policy as it relates to due process for both students and employees at colleges and universities will be emphasized.

HE 640 (D/HE 1140) Program Evaluation (3)

This course will explore traditional and non-traditional institutional programs and student outcomes/assessment designs for the purpose of heightening achievement at all levels.

HE 592 Internship in Higher Education (3 or 1.5,1.5)

An on-site, individually designed internship/practicum will conclude work in this program. Students must address at least 8 of 13 competencies in higher education administration during the internship experience. The internship is 300 hours, which may be taken full time (300 hours) in one semester or part time (150 hours) in each of two consecutive semesters. Internships are only available in fall and spring semesters. A manual is available to help students plan their experience. Students need to inform the department of their intent to begin internship by January 15 or September 15 to begin the following semester.

HE 555 Professional Contribution (0)

Thesis, project, series of demonstrations, or professional performance.

Education-Early Childhood (EDUC)

EDUC 506 Problems and Issues in Early Childhood Education/Intervention (3)

Survey of traditional and new programs with special reference to societal changes. In-depth study of selected problems in home and child-care settings.

EDUC 507 Inclusive Early Childhood Education Settings and Assessment (3)

Explores different models of early childhood settings and focuses on curriculum, methods of teaching, and activities for all children—birth through age eight. Course stresses formal and informal assessment for programming and evaluation; emphasizes planning and adaptation of learning experiences for all young children.

EDUC 508 Integrated Curriculum (3)

Focuses on learning to plan, adapt, modify, implement, and evaluate learning so all children may be involved within the range of their own abilities and styles.

EDUC 509 Administration, Organization and Supervision of Early Childhood Education/Intervention Programs (3)

Includes the physical structure, organization, and management of environments for all young children; study of professional leadership in establishing and maintaining effective programs.

EDUC 510 Emergent Literacy: An Interdisciplinary Approach (3)

The course focuses on the development of a child's literacy-related understanding from birth through age 5. Theoretical perspectives on the language and literacy development of young children are explored. Research-based strategies and appropriate assessments related to language and literacy development are modeled and practiced.

EDUC 592 Supervised Early Childhood Education Internship (3)

Coordinated, guided study in selected school setting or early childhood settings or other agency; intended for students who need practical experience in one or more of the following areas: observation, teaching, curriculum development, assessment, administration. The internship is arranged in cooperation with the Office of Field Experience.

Reading Education (RED)

RED 524A Creative Teaching of Language Arts (4)

The reading process is approached from a cognitive, linguistic, and social perspective. Students explore their own philosophy of reading and relate it to theories and models of reading derived from research studies. The main purpose of the course is to enable students to connect theory with practice, in order to be able to make enlightened instructional decisions in the classroom.

RED 526 Teaching Content Area Reading (3)

This course acquaints students with the recent theories regarding the reading process and extends their knowledge on how children read to learn. Emphasis is on the phases of reading process, the place of metacognition in the reading act, and the relationship that exists between teacher, student, and text. Instructional strategies are presented to enable the teacher to make a practical application of the theories and models presented.

RED 530 Reading Disabilities and Diagnosis (3)

The course focuses on the correlates of reading disabilities and the types of informal and formal assessments that can be employed to determine the extent of a reading problem. Students have the opportunity to test and diagnose children under the supervision of an experienced clinician. Case studies analyzing the testing information are a requirement of the course.

RED 533 Remedial Techniques (3)

Emphasis in this course is on the different methods and materials which can be used to correct the various types of reading problems. More detailed testing procedures are also introduced and administered to clients under supervision. Case studies analyzing testing results also include instructional programs designed to correct specific reading problems.

RED 540 Practicum/Seminar (3)

Students have the opportunity to test, diagnose, and implement a reading program for clients. Actual teaching of clients takes place under supervision. Practical experience includes: a. audiotaping, videotaping, and critiquing of testing and teaching; b. writing of case reports; c. interviewing of parents, including interpretation of test results and recommendations for continued improvement of clients; d. exchanging of ideas with instructor and peers.

RED 542 Organization of School Reading Programs (3)

This course explores current organizational patterns of reading instruction and the organization and administration of school reading programs. It includes "working sessions" in the development of a philosophy, goals, behavioral objectives, resources, program planning, selection procedures, in-service education, budgets, and evaluation of school reading programs.

RED 546 Reading Specialist Internship (3)

This course provides an opportunity for the integration of theory and practice in the field of reading. It is an individualized program, designed by the candidate and mentor. Experiences with instruction and assessment will be included. The internship can be accomplished under supervision at the candidate's school.

RED 593 Internship for Reading Supervisor (3)

This course provides an opportunity for the integration of theory and practice in the field of reading. It is an individualized program, designed by the candidate and a mentor. It may include experiences with curriculum development, community relations, policy determination, management, staff development, instructional design and personal professional development. The internship can be accomplished under supervision at the candidate's school.

EDUC 555 Professional Contribution (0)

Required of all students seeking the M.S. in Reading Education, this closure activity involves the completion of a thesis or project related to theteaching/learning of reading.

Special Education Courses (SPED)

SPED 500 Special Education Law and Service Delivery (3)

Presents litigation and legislation involving the rights to treatment, to a fair classification, and to education. Discusses student and teacher rights and responsibilities as well as models for delivery of services.

SPED 507 Characteristics of Students with Disabilities (3)

Detailed examination of etiology, characteristics, and intervention for those who need learning, emotional, and physical support. Emphasis on the interrelatedness of the disabilities imposed on the processes of motivation, learning, and social adaptation.

SPED 511 Curriculum Adaptations for the Special-Needs Learner (3)

A course dealing with the analysis of performance characteristics of the mildly impaired learner and with the development of remedial procedures, teaching strategies, and inclusive practices for amelioration of learning deficits.

SPED 518 Special Topics (variable)

From time to time, offered to give in-depth consideration to a topic of importance. (Prerequisite: two courses in Special Education.)

SPED 519 Practicum in Special Education (3)

Classroom experience relating theory and practice with individuals with disabilities in school settings. Required of all students seeking a second certification. Field work required. A professional portfolio will be required of all students. Registration is by permission of the chairperson.

SPED 522 Career Education Students with Disabilities (3)

An in-depth study of methods and techniques to develop career education programs for adolescents and young adults with disabilities. Designed to aid teachers, vocational counselors, administrators, and other concerned personnel in establishing and operating work-study programs and sheltered workshop experiences.

SPED 523 Programming for the At-Risk Infant/Preschool Child (3)

Explores the strategies developed for identification of the target population from birth to five years, as well as evaluation techniques and early intervention. Investigates the success and problems of established procedures.

SPED 536 Cognitive Assessment and Remediation (3)

The objective of this course is to develop the skills required to assess the level of cognitive functioning of students and to develop programs of remediation and treatment based on existing strengths and challenges.

SPED 539 Classroom Behavior Management (3)

Provides competency in individual and group technology following a format that aims at facilitating setting up and implementing a behavior-change program in applied settings. Design of intervention programs using a variety of strategies is required.

SPED 540 Administration and Supervision of Special Education Programs (3)

Consideration of the determination, establishment, and function of educational programs for exceptional children; designed for administrative and supervisory personnel.

SPED 544 Practicum in Special Education Supervision (3)

The purpose of this course is to give the student practical experience in supervision. A minimum of 100 clock hours must be spent on this assignment. This is accomplished under the supervision of a certified supervisor, according to a definite

schedule, mutually approved by the instructor and cooperating supervisor. A professional portfolio will be required of all students. (Prerequisite: SPED 540.)

SPED 545 A, B, C Individual Research in Applied Settings (0, 0, 0)

The practical application of statistical analysis and research design related to the field of special education and exceptional individuals. An individually-directed, in-depth investigation of scientific methodology is necessary in the development and implementation of a research project. Presentation of the completed investigation is required. The Master's thesis process takes a minimum of two semesters to complete. (Prerequisites: prior topic approval by department faculty; EDUC 501.)

SPED 590 Introduction to Autism Spectrum Disorders (3)

This introductory course examines the characteristics and learning traits of students with autism spectrum disorder (ASD). The etiology, assessment, identification, and diagnosis related to students with ASD are explored. Evidence based practices, interventions, and strategies for students with ASD are surveyed in the course. Emphasis is on Content Area 1 of the Pennsylvania Department of Education's Autism Endorsement. (Course requires 20 hours of a field experience in a setting serving students with ASD.)

SPED 591 Applied Behavior Analysis Basic Principles (3)

This course introduces students to the concepts and principles of Behavior Analysis, as applied to students with Autism Spectrum Disorder. (A 20-hour field based experience is required.) This course emphasizes Content Areas 2 & 3 of the Pennsylvania Department of Education's Autism Endorsement Program.

SPED 592 Advanced Interventions & Instruction in Autism Spectrum Disorders (3)

This course provides an overview of effective instructional strategies and interventions for students with Autism Spectrum Disorder (ASD). The focus will be on learning and applying evidence-based interventions and instruction to promote communication and verbal behavior, social competence, and academic success in students with ASD. A 20-hour field based experience is included. This course emphasizes Content Areas 2 & 3 of the Pennsylvania Department of Education's Autism Endorsement Program.

SPED 593 Family-School Intervention (3)

This course will provide an in-depth examination of family-systems theory and brief family interventions for school-related problems of children with Autism. The process and content of evidence-based intervention design and implementation will be highlighted. A 20-hour field based experience is included. This course emphasizes Content Areas 3 and 4 of the Pennsylvania Department of Education's Autism Endorsement Program.

PSYCHOLOGY AND COUNSELING PROGRAMS

Chairperson: Bradley Janey, Ph.D.

The Department of Psychology and Counseling provides a range of programs designed to serve the interests and professional orientations of varied human service practitioners. Marywood has been involved in the preparation of psychologists, counselors, and other mental health professionals for over 50 years.

Specifically, the Department strives:

- To educate students in understanding the complexity and diversity of human behavior.
- 2. To develop the ability to think critically, understand research, research methodology, techniques of data collection and analysis, and respect for scientifically derived knowledge.
- 3. To educate students to develop and implement assessment and intervention stratgies associated with individual and group behavior.
- 4. To facilitate students' understanding of the varied roles, obligations, and ethics of human service providers and researchers.
- 5. To develop competencies to critically evaluate and contribute to research in the fields of psychology and counseling.

Programs have sufficient flexibility to permit individual students, under advisement, to plan part-time or full-time schedules appropriate to their individual needs and professional priorities. (Please note that the Psy.D. program is available only to full-time students.) Competencies are developed through formal courses, independent study, and extensive supervised practica and internships, both on and off campus.

Student advisement and review are essential components of the overall training program. Trainee progress is monitored by the faculty during periodic student progress review sessions. In order to acquire the required competencies, a student may need more than the minimum credits required. The department has a long tradition of preparing professionals for service in the educational setting. Educational Specialist certificates and/or degree programs are available in pre-K-12 school counseling; post-master's certification in elementary and secondary school counseling; and school psychology. Those interested in a broader area of service may consider the Master of Arts in Clinical Mental Health Counseling with an applied emphasis in diverse settings or Master of Arts in Psychology. Other psychology degree options are available for those who wish to develop a systematic understanding of human behavior for purposes of self-enrichment, pre-doctoral preparation, and other related purposes. Finally, a doctoral program leading to the Psy.D. (Doctor of Psychology) degree is offered.

Graduates of the Department of Psychology and Counseling have enjoyed excellent career opportunities and placements. Graduates are employed in institutions of higher education, public and private agencies, independent practices, and elementary or secondary schools throughout the eastern United States. In addition, graduates have gone on to receive doctoral degrees at major universities across the United States.

Master's and Post-Master's Certification Programs in Psychology and Counseling

Psychology Admission Requirements

Master's degree and certification students in Counseling or Psychology must meet the general admission requirements of the University. While a strong undergraduate background in psychology is preferred, capable students with coursework in general psychology, developmental psychology, and statistics will be considered.

All applicants must submit a Graduate Record Examination Aptitude Test score. Scores at or above the 50th percentile are preferred for the Graduate Record Exam. Three academic letters of recommendation are required. Additionally, degree applicants may be required to participate in an on-campus interview. No more than **six credits** earned prior to full admission may be applied to a degree in the Department of Psychology and Counseling.

Counseling Admission Requirements

Degree seeking students in Counseling must meet the general admission requirements of the University.

Admission to the program is based upon a holistic review of undergraduate and graduate transcripts, letters of recommendation, a personal essay, and an on campus interview. No more than **six credits** earned via enrichment prior to full admission may be applied to a degree in the Department of Psychology and Counseling.

Advisement

The faculty of the Department of Psychology and Counseling believe that advisement is a critical component of graduate training. As such, faculty are available to students during posted times. While the student's advisor is an essential part of the student's progress throughout the program, students are reminded that it is the student's responsibility to schedule appointments, to register for courses in a timely manner, and to submit various departmental and graduate forms (Candidacy, Comprehensive Exams, Professional Contribution, Internship, and Graduation). Students should be very familiar with the Student Handbook in their program of study and consult with their advisor on a regular basis.

Counseling Candidacy and Degree Requirements

To be eligible for candidacy in Counseling, students must meet the following requirements:

- 1. Fulfill all admission requirements.
- 2. Complete two semesters at Marywood with a QPA of 3.00 or better.
- 3. Complete four hours of community service.
- 4. Submit a career goal statement.
- 5. Submit current clearances.
- 6. Review and write a response to a summary of faculty evaluations for all completed coursework.
- 7. Receive departmental approval of a planned 60-credit program.

Degree requirements include a successful completion of all required coursework, practicum, internship, and final comprehensive examination. Details regarding these requirements can be found in course descriptions and in the Student Handbook.

Psychology Candidacy and Degree Requirements

To be eligible for candidacy in Psychology, all students must meet the following requirements:

- 1. Fulfill all admission requirements.
- 2. Complete twelve credits at Marywood with a QPA of 3.00 or better (3.25 in Clinical Services).
- 3. Submit candidacy application.

Students seeking candidacy in the Clinical Services program must also provide the following at the time of candidacy:

- 1. Goal statement reflecting their objectives and goals upon completion of the program and specific program in which the student intends to earn a degree.
- 2. List of projected courses planned for the completion of the program, including anticipated dates of courses and projected completion date.

- 3. Letter of support from a full-time Clinical faculty member (preferred) or a licensed psychologist.
- 4. Competency rating form completed by a full-time Clinical faculty member (preferred) or a licensed psychologist.
- 5. Appropriate clearances as detailed in the Department Handbook.

Students seeking candidacy in the Clinical Services program will also be required to complete a personal interview. Note that students are not formally accepted into the Clinical Services program until they have successfully completed candidacy review.

Degree requirements include completion of 48 credits, a comprehensive examination, and a closure experience (professional contribution, thesis, or internship). Details regarding these requirements can be found in course descriptions and in the Student Handbook.

Department Requirements and Student Handbook

Grade Point Average Requirement: If a Psychology or Counseling student's QPA falls below a 3.00, that student is given one semester to bring his/her QPA up to 3.00. The Clinical Services program in the master's program requires a minimum OPA of 3.25.

Students who plan to apply for doctoral training programs after completing their master's degrees are advised to review admissions requirements for the doctoral programs that they hope to attend. Graduation requirements at the master's level may or may not meet the requirements of admissions for specific doctoral programs. Students may need to select particular electives in order to meet doctoral admissions requirements.

Specific details regarding tentative two-year course schedules, course sequencing, program, and degree requirements are outlined in student handbooks for each program of study (Counseling Programs, M.A. Psychology and School Psychology Programs, Psy.D. Program). Students can access the handbook for their program of study through the department website and should consult their handbook to insure timely completion of the program. Students should check with their advisor for information regarding access to the *Student Handbook* for their program of study.

Endorsement Policy

The faculty of the Counseling programs limits its endorsement to those students who have completed one of the CACREP accredited programs. Students will be endorsed only for the programs they have successfully completed.

Professional Conduct

The department requires students to conduct themselves as professionals-in-training. As such, students are expected to act in a manner that displays the highest regard for human dignity and ethical standards. This professional behavior is expected both in and out of the classroom.

Students enrolled in the Counselng program are required to adhere to the ethical code of the American Counseling Association (ACA). Students with a psychology major are required to adhere to the ethical code of the American Psychological Association (APA). Students with a school psychology major are required to adhere to the ethical code of the National Association of School Psychologists. Students in the Counseling programs, Clinical Services track, and School Psychology program are also required to demonstrate the requisite interpersonal and professional behavioral skills that the graduate faculty in these tracks determine to be essential to operate effectively as a clinician in contemporary society. Students who violate any of the ACA, APA, or NASP requirements or who fail to show the required interpersonal and professional behavioral skills may be placed on probation. Students who demonstrate academic or professional conduct concerns may be placed on a professional development and/or a corrective action plan (CAP). Students who do not successfully complete either plan in the time frame articulated by the plan may be dismissed from the program. In the case of egregious violations of ethical requirements, students may be dismissed immediately. Students may dispute departmental decisions in this area by following the appeals procedures of the college. Further details about this policy are contained in the student handbooks that students receive upon matriculation into the Psychology and Counseling programs.

Clearances

As part of the candidacy review process, students in counseling programs and in the Clinical Services track in psychology will be expected to obtain clearances from the Pennsylvania State Police (criminal record clearance), the Pennsylvania Department of Public Welfare (child abuse and neglect clearance), and the Federal Bureau of Investigation (fingerprint clearance); the department also reserves the right to require other local, state, or national clearances. Details are available in program handbooks. Students whose clearances contain indications of a criminal record or an allegation of child abuse or neglect that was determined to be founded may be subject to a corrective action plan or dismissal from the program. Presence of a criminal record or founded instances of child abuse or neglect may prevent the student from completing practicum and internship courses which are required for the degree.

Professional Counseling Licensure

Current Pennsylvania State regulations require a minimum of sixty (60) graduate credits to be considered for licensure as a professional counselor. Further, the applicant must possess a degree from a graduate program with a minimum of forty-eight (48) credits. These standards also require both supervised counseling experience after earning the degree and passing a national licensing exam (National Counseling Examination; NCE).

In order to assist both Psychology and Counseling graduates to academically meet these qualifications, the Psychology and Counseling Department offers a postmaster's licensure program. The program is based on the educational requirements of the State Board of Social Workers, Marriage and Family Therapists, and Professional Counselors for counseling graduates or the North American Association of Masters in Psychology (NAMP) for psychology graduates. Programs of study are developed using the educational requirements for Pennsylvania licensure which include: human growth and development, social and cultural foundations, helping relationships, group work, career and lifestyle development, appraisal, research and program evaluation, professional orientation, and clinical instruction. The post-master's licensure program is open to both Marywood and non-Marywood graduates. For further information, contact the department.

A student enrolled in the Marywood University Master of Arts in Psychology degree program with aspirations to become a Licensed Professional Counselor in Pennsylvania must complete the 48-credit program. Students are strongly encouraged to consult with their advisors as well as the Pennsylvania Department of State licensing board for Professional Counseling (http://www.dos.state.pa.us/bpoa), to facilitate the most efficient completion of licensing requirements. Students who graduate from the 48-credit psychology program will need to complete additional counseling courses as well as practicum and internship experiences in order to meet licensing requirements to become a Licensed Professional Counselor in Pennsylvania. More information about licensing issues is presented in the *Student Handbook*.

The Master of Science in pre-K-12 School Counseling and the Master of Arts in Clinical Mental Health Counseling are 60-credit graduate programs. Students in either program meet the educational requirements for Licensed Professional Counselor (LPC) in Pennsylvania.

Certification

The pre-K-12 School Counseling, and Clinical Mental Health Counseling programs are accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Graduates from these programs meet all educational requirements for National Certified Counselor (NCC) status and can complete the NCC certification examination (NCE) prior to the completion of the program. Furthermore, graduates of the pre-K-12 School Counseling program meet the requirements for the Pennsylvania Department of Education Educational Specialist I certification in school counseling. Students must receive a passing score on the Praxis II: Professional School Counselor exam, in order to be eligible for certification.

Psychological Services Center

The Psychology and Counseling Department operates a training clinic, the Psychological Services Center (PSC), which provides quality, low cost mental health services to the university and local communities while providing students with supervised training as part of their graduate studies in Psychology and Counseling. As part of their training, students in the master's programs of the department may be asked to assess and treat clients in the PSC, under appropriate supervision, to meet

course requirements. Final determination of course requirements in this regard lies with individual course instructors in consultation with the PSC Director.

Counseling Programs

Master of Science in Counselor Education (pre-K-12 School Counseling): The pre-K-12 School Counseling program, leading to the Master of Science in Counselor Education degree, is designed to provide graduates with the professional knowledge and skills for developing competencies in PK-12 professional school counseling. These include individual and group counseling, classroom guidance, educational planning, school wide programming, career development, consultation, leadership, and advocacy. This degree meets the educational requirements of the Pennsylvania Department of Education for Educational Specialist I certification as well as Pennsylvania licensure (LPC).

Master of Arts in Clinical Mental Health Counseling: The Clinical Mental Health Counseling Program, leading to the Master of Arts degree, provides graduates with the professional knowledge and skills for developing competencies in professional counseling. These include individual and group counseling, development of theoretical orientation, ethical practice, substance abuse counseling, marital and family counseling, career development, counseling techniques, human development and psychopathology, and assessment. This degree meets the educational requirements for Pennsylvania licensure (LPC)

goals of the student.

Sequence of Counseling Courses

Students are reminded that certain courses are sequential and must be taken consecutively. Students are not permitted to take Applied Practice II (Practicum) and Internship simultaneously. Students who are seeking their M.A. degrees in Clinical Mental Health Counseling must complete their degrees prior to applying for and enrolling in school certification programs. Courses that must be taken sequentially include:

COUN 518 Applied Practice COUN 525 Theories of Counseling & Psychotherapy COUN 544 Counseling Techniques COUN 522/545 Applied Practice II COUN 552/553/560 Internship

Certain courses (i.e., COUN 545, COUN 522) are not available during summer sessions. Some courses (i.e., COUN 535) are summer only courses. Internship (COUN 553/560) course availability is variable during summer sessions.

Full-time students in the Counseling Programs should expect to spend a minimum of five (5) academic semesters in order to complete their degree requirements. Admission to Applied Practice II and Internship require permission of the academic advisor or Applied Practice II/Internship instructor.

Psychology Programs

Graduate study in Psychology at Marywood attempts to provide the student with an in-depth view of the scientific foundations and professional applications of the discipline. The curriculum serves the needs of students who wish to apply psychological principles and techniques in varied professional settings. The master's level program is also an appropriate preparation for those who wish to pursue further study at the School Psychology (Ed.S.) or doctoral level in a more specialized area. Program concentrations leading to the Master of Arts in Psychology are available in the following areas:

- General/Theoretical Psychology
- · Clinical Services

A. General/Theoretical Concentration (48 credits)

This concentration is intended for those students who wish to develop a broad-based understanding of psychology for varied purposes (not necessarily involving clinical applications). Students complete 21 credits in the core courses as detailed below and select an appropriate set of elective courses from available department offerings with the approval of an advisor. The Closure Experience requirement for this concentration may involve either Psychology 555 or Psychology 554/556.

PSYC 518 Advanced Human Development
PSYC 517 Personality Psychology
PSYC 521 Social Psychology
PSYC 522 Cognitive/Affective Bases of Behavior
OR PSYC 523 Contemporary Learning Theories
3. Clinical Services Concentration (48 credits)
· · · · · · · · · · · · · · · · · · ·
This concentration is intended for those who wish to function in a mental health agency or other human services setting where the psychologist provides a range of consultative, assessment, and therapeutic functions. In consultation with the advisor, selection of electives in this concentration may focus on specific client populations and areas of expertise. A course of studies can be designed that emphasizes work with children and adolescents and/or work with adults. Students considering admission into the Psy.D. program at the post-master's level should apply for admission nto the Clinical Services program. Choice of electives and their sequencing should be discussed with the advisor and/or chairperson.
I. Assessment and Diagnostic Methods (9 credits minimum) PSYC 531 Psychopathology (required)
PSYC 532 Child Psychopathology (required)
PSYC 561 Introduction to Psychological Testing (required)
PSYC 562 Cognitive Assessment (elective)
PSYC 580 Assessment of Adult Personality and
Psychopathology (required)
OR
PSYC 581 Socio-emotional Assessment of Children and Adolescents
(required)
II. Intervention Methods (9 credits minimum)
* PSYC 571 Individual Psychotherapy (required)
* PSYC 577 Practicum (required)
* COUN 518 Applied Practice I (elective)
COUN 584 Marital Counseling and Therapy (elective)
PSYC 572 Group Psychotherapy (elective)
PSYC 573 Therapy with Children (elective)
PSYC 574 Cognitive-Behavioral Therapy (elective)
"B" grade required for this course.
V. Electives (3-9 credits) Selection of elective courses in the department is in consultation with the advisor.

V. Closure Experience (0-6 credits)

Students should note that the internship option requires permission of the advisor and the department chairperson. Further details regarding these alternatives are available in the *Student Handbook*.

Students are encouraged to complete core courses early in their program of study.

The program stresses development of competencies. Alternate courses may be approved for those who can demonstrate competency in a required area. Test-out procedures should be discussed with the advisor or department chairperson for those who seek course waivers of required courses. The student should understand that program adjustments will not diminish the number of credits required for a degree; they will, however, allow the student to take more advanced specialty courses as part of the program of study.

Psychology students are encouraged to take their comprehensive examinations upon completion of the seven required courses. Further details regarding the comprehensive exam are available in the *Student Handbook*.

C. School Psychology Educational Specialist (Ed.S.) Degree Program

The Marywood University Educational Specialist (Ed.S.) Program in School Psychology is interdisciplinary in nature and is intended for students who seek state certification as a Pre-K-12, school psychologist. The Ed.S. degree program is designed as a 75-credit graduate program for students who wish to work in schools or related agencies. Students will follow an integrated and sequential course of study beginning post-baccalaureate, earn a Master of Arts degree in psychology, complete the Educational Specialist degree, and then are recommended for state certification. The integrated and sequential program is based on national standards and the Pennsylvania Department of Education (PDE) standards.

The program is competency-based and aims to train professionals who can provide the wide range of services expected of school psychologists. Emphasis throughout the program is on a realistic integration of didactic instruction and experiential learning, with the candidate expected to demonstrate continual progress toward independent professional functioning.

Students may enter the program post-baccalaureate or post-master's degree. Those seeking entrance post-baccalaureate, earn the Master of Arts degree in Psychology upon completion of 45 credit hours and other degree requirements for the General

Theoretical concentration. Applicants seeking admission post-master's should expect to complete a minimum of 30 graduate credits. The applicability of prior graduate coursework will be evaluated in writing by the director of the School Psychology Program. Full-time students should expect to complete the program, including a 1,200-hour internship, within three academic years. Part-time students, entering post-baccalaureate, are expected to complete the program and internship hours within five years. Part-time students are expected to enroll in a minimum of 15 credits per academic year. All students will be admitted annually for the fall semester only. The Educational Specialist in School Psychology program is fully approved by the Pennsylvania Department of Education.

Educational Specialist in School Psychology Program Admission Requirements

- 1. A bachelor's or master's degree in a related area.
- 2. All undergraduate and graduate transcripts (minimum cumulative GPA of 3.25).
- 3. GRE (within past five years)
- 4. A personal statement citing the applicant's reasons for entering the profession of school psychology and giving an estimate of potential for success in the field. Include a resume of the applicant's professional experience (if any).
- 5. A personal interview with the school psychology program committee.
- 6. All application materials must be received by the application deadline (January 15th).

Those admitted to the program are expected to demonstrate continued professional growth. The progress of each candidate is reviewed yearly.

Each School Psychology student is required to complete the following course of studies. To be recommended for certification, a student must also pass the Praxis II (School Psychology) standardized examinations. Note: Program requirements and curricula are subject to change, pending Pennsylvania Department of Education Regulations and NASP Training Standards.

Transfer Credits

All credits transferred must reflect at least a "B" grade, be from a regionally accredited institution, be similar in content and demand of equivalent Marywood courses, and have been earned within the preceding five years. The Director of School Psychology must approve all transfer credits. The following criteria also must be met:

- The student has attained Full Acceptance Status in the program.
- The student has provided a syllabus of the proposed transfer course.

- The student has provided an official transcript showing an earned grade of "B" level or above in the course(s) to be transferred. Grades lower than "B" are not transferable.
- The student completed the transfer courses in the past five years prior to making this request.
- The student met with his/her academic advisor who will make a recommendation of approval of transfer.
- Transfer students applying at the master's level must complete 75 percent of the required coursework for the master's degree through Marywood University.
- Transfer students applying at the Ed.S. level can transfer a maximum of nine graduate credits of the required coursework for the Ed.S. degree through Marywood University. Transfer credits will not be applied to the following courses:

PSY 549a Practicum

PSY 549b Internship

PSY 549c Internship

PSY 551 School Psychology Law and Ethics

PSY 562 Cognitive Assessment

PSY 563 Assessment of Learning

PSY 581 Social Emotional Assessment of Children and Adolescents

Final written approval is made by the Director of School Psychology with copies of the final determination placed in the student's file and mailed to the student.

Course Sequence

Upon entering the Educational Specialist Program post-baccalaureate, students work to complete the requirements for the Master of Arts Degree in General Theoretical Psychology and gradually enroll in courses specific to school psychology certification. The M.A. degree is earned after completion of 48 core-credits and a professional contribution or Thesis (see General Theoretical Concentration). Afterwards, students continue to enroll in courses, university-based practica, and internship specific to the satisfying requirements for Educational Specialist degree.

Internship Guidelines

PSY 549A-Practicum is completed the semester immediately prior to the field-based internship experience (PSY 549B, PSY 549C). Students who do not enroll in PSY 549B the semester immediately following PSY 549A are required to retake PSY 549A during regular schedule in the upcoming academic year. Students earning a grade of C+ or lower in PSY 549A are ineligible to begin the 1200-hour field-based internship the following semester and a Corrective Action Plan will be automatically developed.

The Director of the School Psychology program provides guidance in students' selection of field-based internship sites (PSY 549B, PSY549C). Field-based internship sites must be approved the Director of the School Psychology Program prior to mailing of the memorandum of understanding to the site. To be eligible for the internship experience, the student must have successfully completed all coursework requirements (including PC/thesis) and been awarded a master's degree. The 1200-hour internship is completed on a full-time basis over the course of one academic year. The internship experience begins only in the fall semester. Students are not permitted to complete the internship experience at a site where they attended school, are/were employed, and/or are a relative or friend to a site stakeholder:

Doctoral Program in Clinical Psychology

Clinical Psychology Doctoral Program (Psy.D.)

Consistent with the mission of the University, the APA-accredited* Clinical Psychology Doctoral program endeavors to train high quality students to provide state-of-the-art, ethical, humane, and culturally-sensitive clinical services to diverse populations in contemporary society. On the way to earning a Psy.D. in clinical psychology, the program model teaches students to be research-informed practitioners with general skills who pursue development in specific areas through the selection of electives, practicum sites, research topics, internships, and post-doctoral training. The specific goals of the program are as follows:

- 1. To provide students with foundational knowledge of the field of psychology in general and clinical psychology in particular.
- 2. To teach students to view themselves as being lifelong learners while also giving them the skills necessary to be critical and sophisticated consumers of research, so that they may be able to independently and effectively apply future developments in the field to clinical practice.
- 3. To help students advance from novice to the early stages of competent clinician status in assessment, intervention, and supervision/consultation.
- 4. To prepare students for the realities of clinical practice in contemporary society and to inspire them to be mission-driven psychologists who try to advance both the organizations in which they are employed and the profession at large.
- 5. To train students to be appreciative of both cultural and individual differences in both their attitudes and in their practice, so that they may be effective clinical psychologists in an increasingly diverse and interdependent world.

Psy.D. Program Philosophy and Training Model

In accordance with Marywood University's tradition of service, the clinical psychology doctoral program follows the Vail model, training students to be

^{*}For further information about the accreditation status of this program, please contact the APA Office of Program Consultation and Accreditation, American Psychological Association, 750 First Street NE, Washington, DC 20002-4242. Phone: 202-336-5979.

scholar/practitioners. The Psy.D. program includes foundation courses in psychology and both academic and applied training in the substantive area of clinical psychology. The use of empirically-supported assessments and intervention techniques is emphasized, as well as a focus on outcome assessment. Although not designed to produce researchers, the Psy.D. program teaches students to be educated consumers of research. To reach this goal, they have both academic training and personal experience in research and statistics. An empirical master's thesis or professional contribution is required, as well as a doctoral project which is empirically-based. In addition, students complete three courses in research and statistics. This strong scholarship component is consistent with our scholar-practitioner model, as opposed to the more practice-oriented practitioner-scholar or local clinical scientist models.

Typically, eight students are admitted annually at the post-bachelor's level. These students are in residence for four years prior to internship and are awarded a master's degree (M.A. in Psychology, Clinical Services) upon degree requirement completion, typically after their second year. As the curriculum is very structured and sequential, we accept only up to 15 transfer credits which may be applied toward the master's degree. These credits must be approved by the Director of Clinical Training.

Admission Application Process

See the application materials for deadline and mailing address information. All applicants must provide the completed application form, official undergraduate/graduate transcripts, three letters of recommendation (at least two from psychologists), and a personal statement. All these materials must be sent by the application deadline. The general GRE (taken within the last five years) is required for post-bachelor's admission applicants, and scores must be received by the application deadline.

Prerequisites

Admission to the Psy.D. program requires at least 18 credits of Psychology coursework at the undergraduate level, including: statistics, experimental methods/research design, and abnormal/psychopathology. A major in Psychology is preferred. Verbal GRE scores greater than 151, Quantitative scores greater than 152, and Analytical Writing scores greater than 4.0 are preferred. A minimum overall GPA of 3.30 on a 4.00 scale is expected, for both general curriculum and Psychology courses.

Transfer Credits

Up to 15 transfer credits in graduate Psychology coursework will be accepted. All credits transferred must reflect at least a "B" grade, be from a regionally accredited institution, be similar in content and demand of equivalent Marywood courses, and have been earned within the preceding five years. The Director of Clinical Training must approve all transfer credits.

Admission Post-Master's

Up to two students will be accepted annually at post-master's degree in psychology, to join the third-year doctoral students. Students must have completed their degrees no more than five years prior to application. Demonstrated excellence in academics and clinical work is expected. Applicants also must have completed an empirical master's thesis or professional contribution (or equivalent) at the graduate institution. Students accepted post-master's must pass the Marywood Master's Comprehensive Exam upon admission, or demonstrate that they have successfully passed this examination if they earned their Master's degree at Marywood. Two of the applicant's letters of recommendation must be from full-time graduate Psychology faculty at the institution where the master's degree was completed. All other application procedures are the same as for the post-bachelor's admissions. Preference will be given to students who completed their psychology master's degree in the clinical services or the clinical child/school track at Marywood University, to assure that all master's level coursework and experiences are consistent with the Marywood Psy.D. total program.

For a post-master's application to be considered, all of the following courses (or their equivalent) must have been completed at the master's level (unless otherwise indicated) with a grade of "B" or better:

PSYC 503 Research and Statistics I	3
PSYC 504 Research and Statistics II	3
PSYC 508 Biological Bases of Behavior	3
PSYC 514 Human Development	3
PSYC 517 Personality Theories

PSYC 561 Introduction to Psychological Testing	3
PSYC 571 Introduction to Individual Psychotherapy	
PSYC 574 Cognitive-Behavioral Therapy	
PSYC 577 Practicum I	
PSYC 587 Practicum II	
OR	
PSYC 578 Internship	3

Advisement and Student Progress Evaluation

With the exception of electives, the curriculum plan for each student is structured by the Director of Clinical Training at the time of admission and implemented by the student's academic advisor. Annual written evaluations of the student's progress in the program are provided by the Director of Clinical Training, who is available to every student for consultation or advisement. Community practicum and internship site preparation and selection, as well as academic advising, occur under the guidance of the Associate Director of Clinical Training.

Continuation in the Psy.D. program is contingent upon: successful completion of coursework and other program requirements, conduct that is ethical and professional, and demonstration of appropriate clinical aptitude and skills. A Corrective Action Plan will be implemented, should there be significant areas of concern in the student's performance. Refer to the Psy.D. Student Handbook for further information. (Http://www.Marywood.edu/departments/Psyd/)

Curriculum

The Psy.D. curriculum is sequential, cumulative, increasing in complexity, and designed to prepare the student for further formal training. The program requires 117 total credits: (52.5 at the master's level; 64.5 doctoral credits).

The Psy.D. program is full-time, with required coursework scheduled during daytime and evening hours within the traditional two academic semesters (fall, spring). Professional Ethics (PSYC 700), a required course, is offered in the summer via an online format. Students may choose to fulfill some of their electives during the summer months, as well.

The three-semester (7.5 credits) on-campus practicum series builds from initial work in the Psychological Services Center (PSC) to later work in the Counseling and Student Development Center during the third year, and the provision of clinical supervision to junior Psy.D. students on work in the clinic in the fourth year. Additionally, students are involved in a two-semester community-based practicum in their fourth year of training.

The Psy.D. curriculum includes significant training in both assessment and intervention strategies. The curriculum builds from foundation courses to more specific application courses and experiences. There are opportunities for coursework and applied practice with children, adolescents, and adults. Required courses allow for training as a generalist, with elective selection providing the opportunity for focus on child or adult populations. The Psy.D. program emphasizes evidenced-based interventions, such as cognitive-behavioral therapy and interpersonal psychotherapy. Students are also exposed to other therapeutic approaches, including humanistic and couple/family therapy.

The Marywood Psy.D. program follows the guidelines for clinical training as set forth by the American Psychological Association and the National Council of Schools and Programs of Professional Psychology.

Licensure and Credentialing

The Psy.D. program meets the Association of State and Provincial Psychology Boards/National Register of Health Services Providers in Psychology "Guidelines for Defining 'Doctoral Degree in Psychology.'" Therefore, graduates of this designated program who decide to apply for licensing as psychologists typically will meet the educational requirements for licensing. However, in each jurisdiction there are additional requirements that must be satisfied. For exact information, please contact the state or provincial licensing board in the jurisdiction in which you plan to apply.

Once licensed, graduates are eligible to apply for credentialing as a Health Service Provider in Psychology. Graduation from a designated program ensures that the program you completed meets the educational requirements for credentialing by the National Register. However, there are additional requirements that must be satisfied prior to being credentialed by the National Register of Health Service Providers in Psychology©. For further information, consult the National Register's website: www.nationalregister.org.

Comprehensive Examination

Upon completion of the master's foundational core courses (21 credits), typically at the end of the second year, students are required to pass the Comprehensive Examination, consisting of questions from each of the seven core courses. This Comprehensive Examination must be completed for receipt of the master's degree and for continuation in the doctoral program. Refer to the Psy.D. Student Handbook for further information.

Qualifying Clinical Examination

At the end of the third year, students are required to pass a Qualifying Clinical Examination (QCE), involving a written case study presentation and oral examination by clinical Psy.D. faculty. Students are required to successfully pass the QCE prior to accepting an internship offer. Refer to the Psy.D. Student Handbook for further information about the QCE.

Counseling Courses (COUN)

COUN 500 Field Placement Prep (0)

Field Placement Prep is a mandated non-credit course that must be taken in the student's second semester of the first year. The course will involve group and individual meetings with the instructor to adequately prepare the student for field site selection and placement.

COUN 505 Career Development (3)

Introduction to the field of career counseling through examination of the theories of career choice and their influence upon entry into the world of work. Includes an experiential laboratory for designing and implementing career programs, with emphasis on decision-making and problem-solving strategies and life-work planning.

COUN 507 Principles and Practices of Clinical Mental Health Counseling (3)

This course explores the issues of mental health service delivery in a clinical mental health setting. The course will focus on knowledge of the principles and practices of ethical standards and codes of the counseling profession, as well as the role and function of the clinical mental health counselor within a community agency setting. Students will be exposed to current professional issues within the field of counseling and psychology.

COUN 510 Principles and Practices of Professional School Counseling (3)

An introductory course designed to provide the student with knowledge of the history, philosophies, trends, and current issues related to the school counseling profession. Topics include components of comprehensive school counseling programs, especially those of the ASCA National Model for School Counseling programs, legal and ethical issues, accountability strategies, and specific duties and responsibilities of elementary and secondary school counselors.

COUN 518 Applied Practice I (3)

Designed to provide the student with an initial exposure to counseling. Small supervisory group study of counseling problems, principally through analysis of case materials, taping and critiquing interviews, role playing, and demonstration of strategies by faculty.

COUN 522 Applied Practice II: Pre-K-12 School Counseling (3)

Initial fieldwork experience in an approved educational setting. Students are provided with individual and group supervision from a University practicum supervisor as well as from a qualified professional from the cooperating school. Supervision integrates the student's personal philosophy of counseling with theory, techniques, and skills acquired throughout the counselor training program. Students are encouraged to provide constructive feedback to one another in order to develop case conceptualization skills. Topics include: professional identity development, building relationships with on site staff, self reflection, legal and ethical issues, and cultural responsibility. (Admission by permission of chairperson.)

COUN 522A-D Applied Practice II: Pre-K-12 School Counseling Supervision (0)

Required component of the practicum experience. Students meet weekly with a university supervisor to review tapes, discuss cases, and practice counseling skills. Supervision sessions are focused on theory and technique development, intervention planning, and reinforcement of best practices, including ethical responsibilities.

COUN 525 Theories of Counseling and Psychotherapy (3)

The study of contemporary individual and group counseling theory in view of recent research developments and current trends in counseling and psychotherapy. Emphasis upon the relationship between theory and practice.

COUN 530 Ethics and Professional Conduct in Counseling and Psychotherapy (3)

This course is designed to examine the moral implications of professional clinical practice and to familiarize students with the history and development of professional ethics and standards and their legal implications in the areas of counseling and psychotherapy. Students will be introduced to moral, legal, and ethical issues and current debates on such topics as: privileged communication, confidentiality, rights of clients, civil commitment, licensure, and mental health laws. Students will become familiar with ethical standards for counselors as formulated by state and national professional associations.

COUN 531 Child and Adolescent Psychopathology (3)

This course will review the etiology, assessment, diagnosis, and treatment of common psychological disorders and developmental issues in children and adolescents. The majority of this course will focus on the defining features, associated characteristics, prevalence, course, theories, causes, and treatments associated with disorders or circumstances for which children and adolescents are most often referred for counseling services. This course is likely to be beneficial for all students who interact with or are interested in children and adolescents.

COUN 532 Multicultural Issues for Counseling Professionals (3)

This course explores the issues of clinical mental health service delivery to culturally distinct clients. This course will focus on ethnicity, gender, and other salient personal characteristics, and the effects of these elements on the counseling process and outcome. Skill development will include a more flexible frame of reference for

relating to and dealing with diverse clients and their cultural traditions, values, and styles.

COUN 535 Consultation, Collaboration, and Critical Issues (3)

This course is designed to address three areas that are critical to the transformed role of the professional school counselor and to the success of comprehensive school counseling programs. The first, an overview of school-based consultation will expose students to roles, models, and theories of effective collaboration with educational partners. Secondly, significant issues impacting the academic and life success of children and adolescents will be explored. Finally, the essential elements of designing and facilitating data-driven school-based interventions will be demonstrated. Emphasis will be placed on the services comprising the Delivery System of the ASCA National Model for School Counseling Programs.

COUN 538 Psychopharmacology (3)

An in-depth, systematic study of the properties and behavioral effects of psychoactive drugs. Emphasis on the appropriate role of the nonmedical professional in therapeutic programming involving drugs.

COUN 540 Developing and Managing a Successful School Counseling Program (3)

The primary purpose of this advanced specialization course is to provide students with the necessary knowledge and skills to plan, implement, and evaluate a successful, comprehensive school counseling program that is designed to meet all students' academic, career, and personal/social needs; that is grounded in collaboration, advocacy, and leadership; and is connected to the academic mission of the school district.

COUN 543 Group Process in Counseling (3)

Provides candidates with the opportunity for involvement and participation in group experience in which they will be able to utilize the resources of their peers and the influence of their opinions, judgments, and insights.

COUN 544 Counseling Techniques (3)

An experiential laboratory course designed to provide the counselor-in-training with a variety of strategies and techniques necessary for the effective counseling of individuals and groups. (Prerequisites: COUN 518, 525)

COUN 545 Applied Practice II Clinical Mental Health (3)

Integrates all facets of the student's personal philosophy of counseling with theory, techniques, and skills acquired throughout the counselor training program. A field experience that emphasizes counseling skills via audiotaping and videotaping, critiquing, and test interpretation. A minimum of 100 hours of field work in a clinical mental health-type setting is required. (Admission by permission of chairperson.)

COUN 545A-D Applied Practice II Clinical Mental Health Supervision (0)

Integrates all facets of the student's personal philosophy of counseling with theory, techniques, and skills acquired throughout the counselor training program. A field

experience that emphasizes counseling skills via audiotaping and videotaping, critiquing, and test interpretation. A minimum of 100 hours of field work in a clinical mental health-type setting is required. (Admission by permission of chairperson)

COUN 550 Directed Readings (1-3)

A program of individually directed readings designed to meet the needs of the student. Offered as required.

COUN 553 Internship in Clinical Mental Health Counseling (variable credit: 0, 1.5, 3)

Field work in an approved institutional or agency setting under the direction of Counseling faculty and qualified on-site personnel. The student will become familiar with the agency, hospital, correctional, or private practice setting, especially the role of the professional counselor. This experience follows the formal educational and preparation program. It is at this point that practica, field experiences, and the whole preparation program come together, and the intern is given the freedom and independence to demonstrate acquired competencies in a real counseling situation. The internship includes activities that a regularly employed professional counselor should be expected to perform.

COUN 554 Extended Internship – Clinical Mental Health Counseling (3)

Elective fieldwork course which includes additional experience in an approved educational, institutional, or agency setting under the supervision of counseling faculty and qualified on-site personnel. Admission by permission of program coordinator is required at least 30 days prior to registration. Approval will depend on (1) availability in the group supervision internship course, per CACREP regulations. Priority will be given to students who are enrolled in the required 600-hour internship group supervision course. (2) availability of site supervisors. In particular, students enrolled in the required 600-hour internship will be given priority at on-campus site locations (i.e., Counseling Student Development Center, Psychological Services Center). If approved, the student will have a maximum of two semesters to complete the elective 300 hours. Semesters include Fall, Spring, and Summer. Summer I and II will be counted as 1 semester. If completing the Internship over two semesters, the student must complete a minimum of 150 hours per semester.

COUN 560 Internship in Pre-K-12 School Counseling (variable credit: 0, 1.5, 3)

Field work experience in an approved education setting, under the direction of an Internship Supervisor from the Department of Psychology and Counseling and qualified professional from the cooperating school. The student will become familiar with the school setting, especially the role of the school counselor, counseling department, and school counseling program. Students pursuing dual certification in elementary and secondary school counseling are expected to obtain a minimum of 300 hours at each level. This experience follows the formal educational

and preparation program. It is at this point that practica, field experiences, and the whole preparation program come together, and the intern is given the freedom and independence to demonstrate acquired competencies in a real counseling situation. The internship includes activities that a regularly employed school counselor should be expected to perform.

COUN 561 Introduction to Psychological Testing (3)

Provides background in psychometric and measurement issues that are the basis for psychological testing (reliability, validity, structural analysis of tests, normative approaches). Introduction to various types of psychological tests (e.g., cognitive ability tests, achievement tests, personality tests, neuropsychological tests, career and interest tests, selection procedures). Covers ethical and legal issues related to psychological testing. Includes laboratory exposure to testing materials.

COUN 562 Extended Internship Pre-K-12 School Counseling (3)

Elective fieldwork course which includes additional experience in an approved educational, institutional, or agency setting under the supervision of counseling faculty and qualified on-site personnel. Admission by permission of program coordinator is required at least 30 days prior to registration. Approval will depend on (1) availability in the group supervision internship course, per CACREP regulations. Priority will be given to students who are enrolled in the required 600-hour internship group supervision course. (2) availability of site supervisors. In particular, students enrolled in the required 600-hour internship will be given priority at on-campus site locations (i.e., Counseling Student Development Center, Psychological Services Center). If approved, the student will have a maximum of two semesters to complete the elective 300 hours. Semesters include Fall, Spring, and Summer. Summer I and II will be counted as one semester. If completing the Internship over two semesters, the student must complete a minimum of 150 hours per semester.

COUN 582 Counseling the Abuser of Drugs and Alcohol (3)

Explores the current techniques utilized by the counseling profession in the treatment of the abuser of drugs and alcohol. An insight into the personal dynamics of this clientele. (Prerequisite: PSYC 514 and COUN 525 or PSYC 517)

COUN 584 Marital Counseling and Therapy (3)

Studies theoretical approaches to marital therapy, couple therapy, and marital group therapy; also describes therapeutic processes and techniques. (Prerequisite: COUN 525 or equivalent)

COUN 586 Chemical Dependence (3)

An investigation of the dynamics of mood-altering chemical substance use, abuse, and dependence.

COUN 598: Special Topics in Professional Counseling

Explores current trends, innovative techniques, special populations, and best practices in the counseling field.

COUN 599: Independent Study in Counseling

Allows students to work with a faculty member to gain an in-depth understanding of a relevant topic in professional counseling. Students must prepare a proposal of intended study for approval by Counseling faculty. (Admission by permission of chairperson.)

Psychology Courses (PSYC)

PSYC 501 Research Methods (3)

This course presents research methodologies and statistics in an integrated manner so that students may attain a comprehensive view of psychological research. A conceptual understanding of statistics will be emphasized while the mathematical aspects will be minimized. While the primary emphasis will be on experimental and correlational research designs, exploratory and descriptive techniques will also be considered. Recommended for students who plan to take only one Research/ Statistics course (e.g., Art Therapy, Biotechnology).

PSYC 503 Research Methods and Statistics I (3)

This is the first in a two-course sequence which presents research methods and statistical applications in the behavioral sciences. Emphasis on conceptual integration of statistical concepts as well as application and interpretation of data analyses. Development of critical analysis skills in hypothesis development, measurement tool assessment, operationalizing constructs, and analysis strategies. Primary emphasis on correlational and experimental research with some coverage of quasi-experimental and descriptive methods.

PSYC 504 Research Methods and Statistics II (3)

This is the second in a two-course sequence which presents research methods and statistical applications in the behavioral sciences. Emphasis on conceptual integration of statistical concepts as well as application and interpretation of data analyses. Development of critical analysis skills in hypothesis development, measurement tool assessment, operationalizing constructs, and analysis strategies. Primary emphasis on correlational and experimental research with some coverage of quasi-experimental and descriptive methods. (Prerequisite: PSYC 503)

PSYC 508 Biological Bases of Behavior (3)

This course focuses on the structure and function of the nervous system, as well as the biological bases of perception, memory, language, and psychological disorders. Special emphasis is placed on the behavioral expression of dysfunction in these areas.

PSYC/COUN 514 Human Development (3)

An examination of human development throughout the lifespan, with in-depth coverage of developmental theories and research methods. Critique of empirical studies required. Previous coursework in developmental psychology suggested.

PSYC 517 Personality Psychology (3)

In-depth coverage of major theories of personality with an emphasis on psychodynamic, humanistic, behavioral, cognitive, trait and biologically-based theories. Examination of research-based theories that deal with specific aspects of human personality such as anxiety, aggression, self-concept. Critical evaluation of empirical support for theories and their applications in the human services.

PSYC 518 Advanced Human Development (3)

A review of recent literature in the field of developmental psychology, including perception, cognition, social and personality development. Students will search and critique empirical studies in an area of interest, discuss empirical literature in a seminar format, and analyze and synthesize research and theory.

PSYC 521 Social Psychology (3)

Examines social influences on thought and behavior. Covers multicultural and crosscultural differences in social thought and behavior, interpersonal relationships and attraction, attitudes and behavior, prejudice, group dynamics, and the interaction between personality and social influences on behavior. Considers basic theories, research findings, and applications to improve social interactions. Includes reading, reviewing, and applying findings of original source journal articles along with text readings.

PSYC 522 Cognitive/Affective Bases of Behavior (3)

A review of core theories of Cognition and Affect examining how humans process information and organize their knowledge and emotional experiences. Topics include models of memory, attention, language, and amnesia, and the impact of emotion on memory (e.g., flashbulb memories, repression). Includes primary-source readings on applied aspects of cognition (amnesia, emotional expression, aging).

PSYC 523 Contemporary Learning Theories (3)

An in-depth evaluation of contemporary learning theories, with emphasis on major issues, research findings, and application of learning principles to human functioning.

PSYC 525 Industrial/Organizational Psychology (3)

Survey of theory, research, and practice of industrial/organizational psychology. Topics include diversity and multicultural issues in the workplace, personality and its relationship to personnel selection, retention, productivity, job satisfaction, organizational structure and development, culture, intervention strategies, change management, power, motivation, leadership, quality of worklife, group/team processes, employment law, recruitment techniques, and performance management.

PSYC 530 Ethics and Professional Conduct in Counseling and Psychology (3)

This course is designed to examine the moral implications of professional clinical practice and to familiarize students with the history and development of professional ethics and standards and their legal implications in the areas of

counseling and psychotherapy. Students will be introduced to moral, legal, and ethical issues and current debates on such topics as: privileged communication, confidentiality, right of clients, civil commitment, licensure, and mental health laws. Student will become familiar with ethical standards for psychologists as formulated by state and national professional associations.

PSYC 531 Psychopathology (3)

An in-depth examination of the range of emotional disorders. Emphasis is placed on major cognitive, affective, personality, and character disturbances in adults. Integration of the psychodynamic, behavioral, and cognitive perspectives. Etiology, research findings, intervention implication, and classification issues.

PSYC 532 Child Psychopathology (3)

An examination of the behavioral disturbances common to childhood and adolescence, with stress on their etiology and on the roles of the family and school in the child's total functioning and therapeutic programming. Stresses distinction between child and adult adaptive criteria. (Prerequisite: PSYC 514)

PSYC 538 Psychopharmacology (3)

An in-depth, systematic study of the properties and behavioral effects of psychoactive drugs. Emphasis on the appropriate role of the nonmedical professionals in therapeutic programming involving drugs. Previous coursework in physiological psychology preferred.

PSYC 539 Behavior Management Approaches (3)

Explores principles of behavior analysis and modification. Provides competency in individual and group technology following a format that aims at facilitating development and implementation of behavior-change programs in applied settings. Design of intervention programs using a variety of strategies is required by class participants.

PSYC 547 Introduction to School Psychology (3)

This course will introduce the participant to the profession of school psychology. The professional responsibilities of the school psychologist are explored in relation to history and systems, ethical and legal aspects; state and federal legislation; dynamics and organization of regular and special education; issues in multicultural and exceptional child education; and the provision of assessment, placement, and intervention services in public school.

PSYC 549 Field Work Experience—School Psychology

549A Practicum (3 credit hours)

Students engage in a closely supervised practicum experience with children, youth, parents, and teachers (if available), completed at Marywood University's Psychological Services Center and a school-based setting (when available). Students will demonstrate their knowledge base and clinical competencies through a team approach to complete comprehensive case studies of referred children and youth with learning and/or behavior problems. Case planning, implementation, diagnostic

staffing, and follow-up consultation with parents and children and youth (if appropriate) will be the primary focus of the practicum.

549B, 549C Internship (6 credit hours)

This course is designed to provide school psychologist candidates opportunity to further apply and refine their competencies for professional preparation. An approved off-campus professional setting is utilized and university-based and on-site supervisors are necessary. A total of 1200 clock hours are required. (The total practicum and internship experience will be nine graduate credits.)

PSYC 550 Directed Readings (1-3)

A program of individually directed readings designed to meet the needs of the student.

PSYC 551 School Psychology Law and Ethics (3)

This course covers legal and ethical foundations for the role of School Psychologist. Emphasis will be on exposing students to federal legislation, state regulations, pertinent court cases, and ethical principles of governing bodies, including the National Association of School Psychologists (NASP) and the American Psychological Association (APA).

PSYC 552 School-Based Consultation Methods (3)

This course covers the rationale, theory, and methods of various models of consultation. Students will develop competencies in consultation with teachers, parents, students/clients, and other program staff. These competencies include problem identification, problem analysis, treatment development and implementation, and evaluation of treatment outcomes. Consultation will be considered from the vantage point of organizational and systems level factors that impact on effectiveness of consultation in schools and mental health programs.

PSYC 554 Master's Thesis Proposal (0-3 credits)

Development of an acceptable master's thesis proposal. Involves mentoring experience by a faculty member and committee. Development of literature review, methodology, and hypothesis statement into an accepted proposal for master's thesis. Taken the semester prior to completion of PSYC 556, Master's Thesis.

PSYC 555 Professional Contribution (0)

Involves mentoring experiences by a faculty member, leading to completion of an approved project, demonstration, or other acceptable product of the student's professional competence. Course meets Professional Contribution requirement.

PSYC 556 Master's Thesis (3)

Completion of an acceptable thesis involving a quantitative research design. Involves mentoring experience by a faculty member and committee. Recommended for students with doctoral degree aspirations. Meets Professional Contribution requirement. (Prerequisite: successful completion of PSYC 554 and accepted thesis proposal)

PSYC 561 Introduction to Psychological Testing (3)

Provides background in psychometric and measurement issues that are the basis for psychological testing (reliability, validity, structural analysis of tests, normative approaches). Introduction to various types of psychological tests (e.g., cognitive ability tests, achievement tests, personality tests, neuropsychological tests, career and interest tests, selection procedures). Covers multicultural, ethical, and legal issues related to psychological testing. Includes laboratory exposure to testing materials.

PSYC 562 Cognitive Assessment (3)

Provides an overview of contemporary theories and methods of cognitive assessment. Students will develop skills in the assessment of pre-school and school age children, adolescents, and adults, using a variety of instruments including the Wechsler scales, the Stanford Binet, and the Woodcock Johnson Psycho-Educational Test Battery. (Prerequisite: PSYC 561 or equivalent)

PSYC 563 Assessment of Learning (3)

The course is designed to provide students with knowledge and skills needed to measure academic skills and progress. Students will have the opportunity to administer, score, and interpret selected individually administered tests of academic achievement and implement survey assessment measures. Best practices in principles of assessment will be emphasized along with the utility of assessment results in relation to intervention planning. (Prerequisite: PSYC 561 or equivalent)

PSYC 566 Contemporary Methods In Projective Personality Testing (3)

This course will teach the student how to administer, score, and interpret projective tests. A primary emphasis will be on the Rorschach, but coverage will also be given to the Thematic Apperception Test. Methods for integrating findings from projective and objective tests will be covered. Consideration of current empirical literature which both supports and challenges the use of projective testing in contemporary practice. (Prerequisite: PSYC 561; either PSYC 531 or 531; either PSYC 580 or 581)

PSYC 571 Introduction to Individual Psychotherapy (3)

An examination of contemporary systems of therapy, with emphasis on major insight-oriented, behavioral, cognitive, and eclectic approaches. Role-playing, audiovisual aids, and other applications included.

PSYC 572 Introduction to Group Psychotherapy (3)

An investigation of the theoretical assumptions, research support, and applications of major group-oriented therapeutic modalities. Appropriate training aids integrated with instruction. (Prerequisites: PSYC 517, PSYC 531, or admission through chairperson)

PSYC 573 Therapy With Children (3)

An investigation of the rationale and utility of varied therapeutic strategies with concentration in play and expressive approaches. Case studies, tapes, demonstrations provided. (Prerequisite: COUN 518 OR PSYC 571. Recommended: PSYC 532)

1

PSYC 574 Cognitive-Behavioral Therapy (3)

Investigation of behavioral and cognitive intervention strategies. Covers traditional behavioral therapies (e.g., token economy, systematic desensitization), cognitive-behavioral therapies (modeling, stress inoculation training, Beck's cognitive therapy), and "third wave" approaches including mindfulness and psychotherapy integration. Training in the use of specific assessment and intervention strategies (tapes, demonstrations, pre-practicum experiences). (Prerequisite: PSYC 517 and 571)

PSYC 575 Forensic Psychology (3)

Examines the nature of forensic evaluations, reports, and expert witness testimony and the professional and ethical responsibilities involved. Surveys the primary areas of law including family law, mental health law, criminal law, child abuse, juvenile law, and personal injury law. Covers evaluation and treatment of accused persons and working effectively with the criminal justice system.

PSYC 576 Professional Seminar (1-3)

Issues involving the expectations, role, and identity of the mental health professional. Topics included: relationship to other professionals, ethics, legal constraints and obligations, consultation, case conceptualization, and other current issues. Intended for the clinical services trainee.

PSYC 577 Practicum I (3)

Required for students in clinical services tracks, this is an applied clinical experience that is designed to extend for the entire semester. Students will schedule at least four hours of activity per week. One hour a week will be spent doing pre-treatment assessments and psychotherapy. Three hours a week will be spent in small group supervision. Additional individual supervision will be scheduled on an as-needed basis. Students will be expected to complete 15 clinical contact hours. Other opportunities for learning may be added at the discretion of the course instructor. (Prerequisites: PSYC 571 or COUN 518; PSYC 531 or PSYC 532; candidacy in clinical services or child clinical/school concentration.) Minimum grade of "B" required; if a student earns a grade lower than "B" this course will need to be repeated until the student earns a grade of "B".

PSYC 578 Internship (variable credit)

Supervised field work experience in an approved clinical setting. Available to students in the Clinical Services concentration. Requires permission of advisor and department chairperson. Meets Professional Contribution requirement. (Prerequisite: PSYC 577)

PSYC 580 Assessment of Adult Personality and Psychopathology (3)

Principles and applications of structured assessment of adult personality and psychopathology. Integration of theory and practical application. Focus will be on objective measures of assessment, with some exposure to projective measures. Class will involve lecture, discussion, and practicum elements, involving test-taking, scoring, and interpretation. (Prerequisites: PSYC 561 and 531)

1

PSYC 581 Socio-emotional Assessment of Children and Adolescents (3)

Utilizes a comprehensive problem-solving and ecological model of assessment for children and adolescents. Geared toward the child clinical and school mental health provider, this course focuses on the integration of psychological, behavioral, and family assessment information. Emphasis on the critical link between assessment and effective intervention. (Prerequisites: PSYC 561 and PSYC 532 or COUN 572)

PSYC 585 Family-School Interventions (3)

This course will provide an in-depth examination of family-systems theory and brief family interventions for school related problems. The process and content of intervention design and implementation will be highlighted and an off-campus practicum experience is included.

PSYC 587 Practicum II (3)

This is an elective experience for students in Clinical Services tracks. Operating in sequence with, and as an extension of, Practicum 577, this course allows students to continue doing clinical work under supervision for a second semester. Course obligations and expectations are the same as PSYC 577. (Prerequisite: PSYC 577)

Doctoral Level Courses (PSYC)

Research, Evaluation, and Basic Science

PSYC 611 Advanced Statistical Analysis I (3)

This course is part of a two-semester sequence designed to introduce students to a variety of statistical analyses with emphasis on application of statistics appropriate to complex research designs. In the first course of the sequence, topics pertaining to the fundamental issues related to ANOVA, ANCOVA, MANOVA, and MANCOVA are covered. The majority of the statistical work will be covered with the use of SPSS. Versatility with the use of this statistical program and interpretation of the output relevant to the various advanced statistics covered in the course constitute the primary focus of the course.

PSYC 895 A, B Doctoral Project (3, 3)

The doctoral project may involve: quantitative surveys; empirical analyses of archival data (e.g., meta-analysis); outcome research; a collection of ten or more empirical case studies (e.g., ABAB or multiple baseline designs); or, group-based nomothetic investigations. Topics appropriate for this project must be related to theory and practice in clinical psychology.

PSYC 895C Doctoral Project Continuation (1)

Following successful completion of PSYC 895A and B, students are required to register for Doctoral Project Continuation for each subsequent academic semester until completion of the doctoral project, as determined by the research mentor.

Consultation/Education

PSYC 801 Advanced Psychopharmacology (3)

For Doctoral Students (Psy.D.). This course provides an introduction to medications used to treat psychological disorders. The course covers issues pertaining to drug safety and effectiveness, their mechanism of action, and their clinical application to the most commonly occurring disorders. The course also addresses topics specific to doctoral level psychologists including consultation with physicians and issues associated with gaining prescription privileges in states where they are granted.

Relationship

PSYC 704 Multicultural Issues in Psychology (3)

This course explores the issues of mental health service delivery to culturally distinct clients. Focus will be on ethnicity, gender, and other salient personal characteristics, and the effects of these elements on the psychotherapy process and outcome. Skill development will include a more flexible frame of reference for relating to and dealing with diverse clients and their cultural traditions, values, and styles.

PSYC 802 Marital and Family Therapy (3)

This course provides an overview of the history and contemporary application of behavioral and systems based marital and family therapy. Particular focus will be placed on the empirical support for using psychotherapeutic approaches to treat a variety of disorders, ethical, legal, and professional issues in marital and family psychotherapy. Learning methods will include reading, didactic presentation, discussion, role play, and case review.

Assessment

PSYC 850 Educational Assessment Practicum (1.5)

This is an on-campus, applied clinical experience that is designed to extend for the entire semester. Students will conduct educational assessments focused on learning disability determination and career counseling with clients in the Psychological Services Center.

PSYC 851 Geriatric Assessment Practicum (1.5)

This is an on-campus, applied clinical experience that is designed to extend for the entire semester. Students will conduct geriatric assessments focused on mood, mental status, and dementia evaluations. Over the course of the semester, students learn to administer, score, and interpret assessment measures and develop cogent screening reports. Students also learn to work with other disciplines and review empirical literature as it pertains to this population.

Intervention

PSYC 559 A,B Prepracticum (Variable Credit)

This prepares students for the practicum experience in the Psychological Services Center (PSC). It is designed to extend for the entire year, and involves 48 hours of observation of screenings, intakes, therapy sessions, and assessment procedures. Shadowing a practicum student may also be involved to learn the policies and procedures of the PSC. Students engage in weekly group and/or individual supervision to help prepare them as clinicians in practicum.

PSYC 564 Introductory Practicum (1.5)

For Doctoral Students (Psy.D.). This is an on-campus applied clinical experience (through the Psychological Services Center), designed to help students develop basic clinical skills. Students will provide clinical services to clients under the supervision of a faculty supervisor, building on skills learned through observation during pre-practicum. Students will also learn to measure the outcome of interventions, as well as the factors associated with effective psychotherapy.

PSYC 587 Practicum II (3)

This is an on-campus applied clinical experience that is designed to extend for the entire semester. Essentially it is a continuation of Practicum I. It is expected that students will carry on with clinical work that was started in the previous semester. This course carries the same structure, expectations, and opportunities as Practicum I. (Prerequisite: Practicum I)

PSYC 805 Interpersonal Intervention Strategies (3)

Provides an overview of the theory and technique associated with interpersonal psychotherapy. Object relations and interpersonal theory are reviewed to illustrate the development of psychopathology, followed by a focused review of applied intervention strategies. Emphasis is placed on mastering techniques which address the development of a therapeutic alliance, transference, counter-transference, interpretation, and termination.

PSYC 808 Behavior Change and Outcome Assessment (3)

Focus will be on psychotherapy interventions which are empirically-supported, with particular emphasis on techniques for commonly encountered client problems. Integration of assessment in psychotherapy and strategies for both single case outcome and program evaluation will be covered.

PSYC 815 Child Psychotherapy (3)

Examines research-informed, time-limited therapy interventions for children and adolescents. The focus will be on those conditions that are most frequently seen in outpatient settings: disorders of non-compliance (e.g., Oppositional Defiant Disorder and Conduct Disorder), ADHD, Anxiety, and Depressive Disorders. Most of the course will focus on behavioral and cognitive behavioral interventions. Some consideration will also be given to psychodynamically oriented play therapy. Various modalities will be considered including parent group training, family, and individual

therapy. Issues regarding ethical concerns and managed care will also be addressed. (Prerequisite: PSYC 532)

PSYC 840 Elective Practicum (0)

For Doctoral Students. This course is available as an elective for zero credits. This is an off-campus applied clinical experience that is designed to extend for one regular semester or two summer periods. Students will provide clinical services to clients under the supervision of a site supervisor, who must be a licensed psychologist. The site must provide weekly training experiences, and a faculty member will provide bi-weekly group case consultation on campus. The site must be approved by the Associate Director of Clinical Training for the Psy.D. Program.

PSYC 880 A,B Community Practicum I (1.5)

This is an off-campus applied clinical experience that is designed to extend for the entire year. Students will be expected to complete 120 hours at the site each semester. At least 30 of these hours must be spent doing face-to-face clinical work. Other required experiences will include weekly individual supervision with the primary site supervisor, multi-disciplinary consultation, didactic training at the site, and bi-weekly group case consultation with a faculty member on campus. Prerequisite: PSYC 587 (Practicum II)

PSYC 881 A,B Community Practicum II (3)

This is an off-campus applied clinical experience that is designed to extend for the entire year. Students will be expected to complete 180 hours at the site each semester. At least 45 of these hours must be spent doing face-to-face clinical work. Other required experiences will include weekly individual supervision with the primary site supervisor, multi-disciplinary consultation, and didactic training at the site. Prerequisite: PSYC 880 (Community Practicum I)

PSYC 897 A, B Internship (Predoctoral) (3, 3)

One year, full-time internship or two years, half-time internship in an approved setting.

Management/Supervision

PSYC 700 Professional Ethics (PSYC 530) (3)

Examination of the professional roles of the psychologist in various settings. Ethical and legal codes are considered in the context of professional dilemmas confronted in practice. Consideration of the historical development of ethical and legal issues in relation to current practice. Examination of current professional issues (e.g., prescription privileges, managed care) and roles in the context of ethical concerns.

PSYC 706 Supervision and Consultation Seminar (1.5)

Seminar taken in the third year designed to prepare the student for the role of psychotherapy supervisor. Relevant literature will be reviewed and supervision techniques will be practiced by supervising student role-plays. Various consultation settings will be considered.

PSYC 870 Practicum V (3)

This is an on-campus applied clinical experience that is designed to extend for the entire semester. The focus of this practicum is to train the student how to conduct clinical supervision. Each student will be assigned one supervisee. The supervisee will be a student enrolled in Practicum I. All supervised clinical work will occur with clients of the Psychological Services Center (PSC). Students will schedule at least five hours of activity per week. One hour a week will be spent in individual supervision with the assigned supervisee. One hour a week will be spent observing the clinical work of the supervisee. Three hours a week will be spent in group supervision with the course instructor; two of these hours will include students in Practicum I while the last hour will include only students in Practicum V. The student will be expected to complete 15 hours of individual supervision and 15 hours of live observation of the supervisee's clinical work. Other opportunities for learning may be added at the discretion of the course instructor.

PSYC 871 Practicum VI (3)

This is an on-campus applied clinical experience that is designed to extend for the entire semester. Essentially it is a continuation of Practicum V. It is expected that students will carry on with supervision work that was started in the previous semester. This course carries the same expectations and opportunities as Practicum V.

Electives

PSYC 811 Behavioral Medicine and Health Psychology (3)

Application of clinical psychology interventions in the context of medical problems and health maintenance. Focus on stress-related medical problems and the promotion of client behaviors that enhance physical well-being. Consideration of specific topic areas depending on student interest, including coping with medical procedures, compliance with medical advice, stress management in a medical setting, psychological factors related to response to medical problems, and recovery. Development of student expertise in specific areas of research and practice.

PSYC 812 Loss and Bereavement (3)

This course will provide an overview of theories, current research, and clinical implications pertinent to the understanding, assessment, and management of loss. In addition, the course will address the implications and application of appropriate clinical interventions intended to facilitate a healthy grieving process and to assist the clients in moving ahead with their lives with a stronger sense of self. Admission of master's level students to this course is by permission of the instructor. In addition, master's level students should have completed COUN 504, 518, 525, 544 or their equivalents.

PSYC 817 Family Systems: Assessment and Diagnosis (3)

Examination of the legal, ethical, and practical issues associated with the assessment and diagnosis of family dysfunction. Multimodal assessment procedures are explored within the context of family systems theory and through the review of recent research efforts.

SPEECH-LANGUAGE PATHOLOGY PROGRAM

Chair and Graduate Program Director: Andrea M. Novak, M.A. CCC-SLP

The program is designed to provide students with a variety of academic coursework and clinical practicum experiences, according to the standards set forth by the American Speech-Language-Hearing Association (ASHA), to prepare them, from a family-centered perspective, for professional careers as speech-language pathologists, serving children and adults who have communication disorders. The faculty of the Department of Communication Sciences and Disorders is dedicated to providing students with a quality education and opportunities to integrate theory and research into clinical practice.

Objectives of the Communication Sciences and Disorders Department

The five-year program leading to a Master's Degree in Speech-Language Pathology prepares students to:

- Acquire academic knowledge and develop clinical skills pertaining to the scientific study of human communication processes that are necessary to perform competent practice of speech-language pathology, according to the current ASHA certification standards.
- 2. Evaluate the etiologies, pathologies, social-emotional, cognitive, and educational factors associated with disorders of language, articulation-phonology, voice, fluency, swallowing, and hearing.
- 3. Exemplify knowledge of ethical, legal, regulatory, and financial aspects of professional clinical practice.

- 4. Critically evaluate and be sensitive to issues pertaining to cultural and linguistic diversity.
- 5. Become eligible to earn certification from ASHA and state licensure as a speech-language pathologist in Pennsylvania.
- 6. Pursue teacher certification from the Commonwealth of Pennsylvania Department of Education (optional).
- 7. Work in a variety of settings such as schools, rehabilitation clinics, hospitals, community clinics, nursing homes, and private practice.

American Speech-Language-Hearing Association (ASHA): Accreditation Status

The professional (graduate) phase of Marywood University's five-year program leading to a Master of Science degree Speech-Language Pathology is accredited by the Council on Academic Accreditation (CAA) in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association (ASHA), 2200 Research Boulevard #310, Rockville, Maryland 20850, 800-498-2071 or 301-296-5700.

Program Overview

This five-year program consists of two distinct phases: the Pre-Professional Phase (years 1-3) and the Professional Phase (years 4-5)

The Pre-Professional Phase

During this phase of the program, students take classes to meet the liberal arts core requirements as well as complete courses in basic human communication processes and some speech-language disorders to prepare them for application and admittance to the Professional Phase of the program.

The Professional Phase

This phase of the program concentrates on coursework in various communication disorders across the life span and provides clinical practicum experiences where students learn to apply knowledge and skills to children and adults who have various speech-language-swallowing disorders. An option to pursue teacher certification is also offered.

Program Flexibility – Multiple Points of Entry

- Enter as a Freshman Five-year program
- **Enter as a Transfer** Two-to-five year program based on approved credits for advanced standing
- Enter as a Graduate Student Those students with an in-field bachelor's
 degree from an accredited university may earn their master's in SLP in
 approximately two years; those with an out-of-field bachelor's degree from
 an accredited university may earn their master's degree in SLP in approximately
 three years.

Program Admission and Matriculation Requirements

- 1. A minimum SAT score of 1050 (M&V) is required for admission to the program (Pre-Professional Phase).
- 2. Enrollment is limited in any given academic year due to ASHA accreditation guidelines.
- 3. Upon completion of the first-year curriculum (freshman year), a minimum QPA of 3.25 in the CSD major is expected and a minimum cumulative QPA of 2.50 is required to remain in the program. For each subsequent semester, a CSD QPA and an overall QPA of 3.25 is expected in order to advance in the Pre-Professional Phase. Students must achieve a minimum overall and CSD QPA of 3.25 by the end of the third year curriculum in order to transition from the Pre-Professional to the Professional Phase of the program.
 - Students who do not maintain these QPAs will be placed on academic probation with a possible revised plan of study. An interview at the discretion of the CSD chair, and the student's advisor may also be required. After one semester if the overall and/or CSD QPA does not improve, students may be dismissed from the program. Advisement as to other career opportunities will be provided.
- 4. Students may earn one "C" letter final grade in a CSD pre-professional course. If a student earns a second "C" grade, a meeting with the CSD chairperson, academic advisor, and course instructor(s) will be held to determine which of those courses the student will be required to repeat. The student will be informed of the decision by their academic advisor and placed on academic probation until the course is repeated with a minimum grade of B-. Students who retake a course are only permitted to retake the course one time, and a revised plan of study will be determined. If a student fails to earn the minimum expected grade of B- once the course is repeated, he/she will be dismissed from the program. Advisement as to other career opportunities will be provided. Students who earn below a C grade in any CSD course will be required to repeat the course with a minimum grade of B-.
- 5. Students who have successfully met all requirements for the liberal arts core and CSD Pre-Professional Phase coursework may apply for admission to the Professional (graduate) Phase of the CSD five-year program during the spring semester of year 3. See Graduate Admissions for a CSD Transition Application to the Professional Phase and the due date for completion.
- 6. Students whose CSD QPA is between 2.33 and 3.24 and who meet the University's minimum overall QPA requirements to earn a degree may be granted an undergraduate degree in CSD, but will not be eligible to transition to the Professional (graduate) Phase of the five-year program.
- 7. Students who earn below a B- in any CSD graduate course/CSD practicum experience (Professional Phase) will be expected to develop an academic/clinical support plan with the course instructor/clinical supervisor in order to improve in those knowledge/skill areas in which the student is deemed deficient. An acceptable mastery level, based on formative assessment, must be demonstrated

in all knowledge and skills areas, according to the current ASHA certification standards. In addition, a grade of B- or better or an "S" for any practicum experience is required to advance to the next experience in the sequence.

8. For students entering the five-year program at the Professional (Graduate) Phase, who have earned their undergraduate degree from another accredited institution, the following is also required:

- -Submission of Graduate Record Examination (GRE) test scores and official undergraduate transcripts.
- -Two letters of recommendation from individuals who can comment on the applicant's academic and clinical skills and potential for successful graduate study (e.g., former professors, clinical supervisors).
- -Submission of a typewritten essay. See specific essay questions and requirements included in the Graduate Admissions Application Packet or online application.
- -A personal or phone interview at the discretion of the CSD department chair and/or graduate program director.

Note: Preference will be given to applicants who can attend the program full-time and take the full complement of courses offered within the context of a cohort model. Typically, students are admitted to the Professional Phase in the fall semester. Parttime students are also admitted on a case-by-case basis and are expected to carry nine credits per semester.

Transfer Students

Students who have started their graduate work in speech-language pathology at another ASHA CAA accredited program may be eligible to transfer up to six credits of academic coursework into the Professional Phase of the five-year program, provided they can demonstrate competency of knowledge and skills that are comparable to student learning outcomes expected of Marywood's CSD graduate students and based on formative assessment and the availability of space in the program. An interview with the CSD chair and/or graduate program director is required.

Admission to Degree Candidacy

Students are required to file an application for admission to candidacy with the CSD graduate program director in the spring semester of the 4th year curriculum (Professional Phase). In order to be eligible for candidacy, students must have completed 12 graduate credits with a "B" average. Students who have not matriculated through the five-year program must also verify they have taken the GRE.

Degree Conferral and Certification

Those students entering the program as undergraduates will be awarded a B.S. in Communication Sciences and Disorders upon completion of the fourth year. At the

end of the fifth year, these students and those entering with an in-field bachelor's degree who have successfully completed the Professional Phase (years 4 and 5) of the five-year program will be awarded a Master of Science degree in Speech-Language Pathology and are eligible to pursue ASHA certification and state licensure.

Prerequisite Course Sequence for Students with Out-of-Field Undergraduate Degree

Students with out-of-field undergraduate degrees are eligible to apply for the Professional (Graduate) Phase of the program and will be admitted provisionally. Enrollment in graduate level courses, however, requires the following:

- 1. Permission of the CSD chairperson and/or graduate program director.
- 2. Completion of 29 credits of an approved CSD undergraduate prerequisite course sequence at Marywood University with a minimum final grade of B.
- 3. Meeting the requirements in basic science, mathematics, and social science coursework according to current ASHA standards. These courses may be taken at any accredited institution. Any courses taken at institutions other than Marywood must be approved by the CSD department chair and/or graduate program director.
- 4. Completion of 25 observation hours directed by an ASHA-certified professional with appropriate documentation.

A plan of study will be developed by the CSD department chair and/or graduate program director, who will serve as the student's academic advisor. Students will be required to sign a statement regarding their plan of study, which reads: "The student named on this form understands that to be eligible to matriculate in the Professional Phase of the program, he/she must complete this plan of study with an overall minimum quality point average (QPA) of 'B.' The student must earn a minimum QPA of 'B' in the fall semester before being permitted to enroll for courses offered during the spring semester."

CSD PREREQUISITE COURSE SEQUENCE	
CSD 164 Phonetics	3
CSD 166 Anatomy and Physiology of Speech and Hearing	4
CSD 261 Speech Science	3
CSD 265 Speech and Language Development	3
CSD 265L Language Sample Analysis Lab	2
CSD 266 Introduction to Language Disorders in Children	3
CSD 270 Hearing Science	2
CSD 271 Introduction to Articulation and Phonological Disorders	3

Summer 2 (Session II)	
CSD 468A Introduction Clinical Practicum in Speech-Language Pathology	
(begins Summer I – 10 weeks)	2
Total: (2 UG CSD)	

NOTE: The Liberal Arts core requirements can be taken in a somewhat variable sequence. However, what is depicted is the optimal pedagogical sequence due to the interrelationship between Liberal Arts and CSD course content. Each student's specific plan of study regarding the Liberal Arts course sequence will be determined through the advising process.

NOTE: At the completion of the third-year curriculum (which includes Summers I and II) a total of 115 credits have been earned. The undergraduate degree can be granted with 120 credits, provided that a student completes an additional semester of five credits during the Fall IV semester (Fourth-year Curriculum).

This can be accomplished in one of two ways:

- If the student is not eligible to continue in the five-year program to earn the master's degree, he/she will complete at least five additional undergraduate credits during the Fall IV semester. These credits reflect a combination of Liberal Arts and other undergraduate elective coursework. The student and his/her academic advisor will determine an individual plan of study.
- 2. If the student is continuing for the master's degree in SLP, five CSD graduate credits that are earned during the Fall IV semester will be applied toward the completion of the undergraduate degree. Up to twelve CSD graduate credits can be applied toward the B.S. degree, which can be awarded at the end of the Fall IV semester (Fourth-year Curriculum).

Professional (Graduate) Phase

Fourth-year Curriculum: (39 or 41 CSD graduate credits for five-year students; 45–47 CSD graduate credits for two-year students) and (3–9 additional EDUC graduate credits if pursuing Teacher Certification and not previously taken)

ran IV Graduate
CSD 502 Aphasia
CSD 504 Language Learning Disorders in School-Age Children and Adolescents
CSD 506P Diagnostic Tests/Measurements and Scientific Clinical Writing
CSD 515 Dysphagia

NOTE: ****EDUC 597 may need to be offered in the Fall V Graduate semester depending on availability of placements and off-campus supervisors holding the appropriate credentials (i.e., a master's degree in SLP, the ASHA CCC-SLP, and a PA state license in SLP).

NOTE: Students taking EDUC 597 do not take CSD 520E, unless the required 400 ASHA clinical clock hours have not been accrued.

A minimum of 56 credits must be earned at the graduate level for the master's degree in SLP. Students are also encouraged to enroll in CSD 523: Independent Research Study.

Master's Speech Language Pathology Degree Requirements

In addition to completing a minimum of 56 graduate credits with a minimum QPA of 3.00, according to the plan of study developed by the student and his/her academic advisor, students must:

- 1. Complete the current required number of clinical clock hours, according to standards set forth by ASHA, at least one week prior to commencement in the semester the student expects to graduate;
- 2. Pass a comprehensive examination given by the CSD faculty;
- 3. Take the National Examination in Speech-Language Pathology prior to graduation and submit PRAXIS scores to the graduate program director;
- 4. Demonstrate mastery on all knowledge and skills competencies delineated in the CSD Formative Assessment Manual for the master's program in SLP with appropriate evidence verified; and
- 5. Complete an exit interview with the graduate program director to ensure that all paperwork regarding academic coursework and clinical practicum experiences (e.g., CSD Knowledge and Skills Acquisition form–KASA) required by ASHA are accurate and complete.

Courses (CSD)

The Pre-Professional Phase (undergraduate) Required Courses

CSD 163 Introduction to Communication Disorders (2)

Provides an overview of various speech-language and hearing disorders; discusses the role of the speech-language pathologist and audiologist in various work settings and exposes students to career opportunities.

CSD 164 Phonetics (3)

Motor and acoustic characteristics of speech, classification of phoneme types, and transcription of speech using the International Phonetic Alphabet. CSD majors or permission of CSD chair.

CSD 166 Anatomy and Physiology of Speech and Hearing (4)

Comprehensive study of the structure and function of the auditory, speech, and neurological mechanism as they relate to the communicative process. (Prerequisite: BIOL 130 Principles of Anatomy and Physiology; meets core requirement) CSD majors or permission of CSD chair.

CSD 241 American Sign Language I (3)

Introduction to American Sign Language. Provides intensive signed vocabulary development. Reviews variety of sign language systems with emphasis on American Sign Language.

CSD 261 Speech Science (3)

Physics of sound, perceptual and productive processes of speech, basic instrumentation, and the interrelationships of these areas to communication. (Prerequisites: CSD 164, 166) CSD majors or permission of CSD chair.

CSD 263 Linguistics for the SLP (3)

Designed specifically for students in communication sciences and disorders, this course introduces participants to the fundamentals of linguistic theory. Emphasis is placed on understanding concepts pertaining to pragmatics, semantics, and the internal structure of language (i.e., syntax/grammar, morphology, and phonology). Also addressed are several applied areas such as language processing, language variation, language change, and written language.

CSD 265 Speech and Language Development (3)

Study of the phonological, syntactic, semantic, and pragmatic aspects of normal communication, speech, and language development in children, ranging in age from birth through adolescence. Various theories of language acquisition will be discussed. Emphasis on functionalist models of language development and the social-communicative bases of the language-learning process. (Prerequisites: CSD 164, 166) CSD majors or permission of CSD chair.

CSD 265L Language Sample Analysis Lab (2)

Students will learn to analyze and interpret a pediatric language sample using the Bloom & Lahey content-form-use model. Emphasis will be placed on examining the semantic, syntactic, morphological, and pragmatic aspects of language from a socio-communicative functionalist perspective of the language development and learning process. Typical and atypical/delayed patterns of language development will be discussed within this LSA framework. (Co-requisite: CSD 263 and 265) CSD majors or permission of CSD chair.

CSD 266 Introduction to Language Disorders In Children (3)

An overview of the nature and causes of pediatric language disorders across clinical population and age groups. Provides a basic understanding of theoretical frameworks, identification protocols, and general assessment in intervention approaches. (Prerequisite: CSD 265 and 265L) CSD majors or permission of CSD chair.

CSD 270 Hearing Science (2)

Focuses on physical concepts, acoustics, measurement of sound; reviews anatomy and physiology of the ear and introduces concepts in psychoacoustics. CSD majors or permission of CSD chair.

CSD 271 Introduction to Articulation and Phonological Disorders (3)

The nature, causes, and treatment of articulation and phonological disorders and dysarthria. (Prerequisites: CSD 164, 166, 265, and 265L) CSD majors or permission of CSD chair.

CSD 361 Introduction to Clinical Methods and Processes in Speech Language Pathology (3)

Principles, methods, and procedures necessary for the development of clinical competencies required for a positive transition into the clinical practicum experience. CSD majors or permission of CSD chair.

CSD 362 Introduction to Clinical Methods and Processes in Audiology (3)

This course is an introduction to the clinical aspects of audiology: universal precautions, code of ethics, patient professional relationship, diagnostic testing, rehabilitative interventions (hearing aids, assistive listening devices), and counseling. Students will be prepared to participate in entry level clinical activities, under the supervision of a certified audiologist during their undergraduate experience.

CSD 363/363L Audiology/Audiology Lab (3+0)

Fundamental aspects of hearing measurement and the nature and prevention of auditory disorders. (Prerequisite: CSD 270) CSD majors or permission of CSD chair.

CSD 364 Auditory Amplification and Aural Rehabilitation (3)

Presents theory and practice of aural habilitation/rehabilitation. Contemporary practices regarding hearing aids, speech-reading, and auditory training. (Prerequisite: CSD 363 and 363L) CSD majors or permission of CSD chair.

CSD 366 Communication Disorders in Adults (3)

The nature, causes, and treatment of neurogenic communication disorders in adults. CSD majors or permission of CSD chair.

CSD 468A Introductory Clinical Practicum in Speech-Language Pathology (2)

Students conduct clinical work under supervision. Includes weekly discussion time. Prerequisites: 25 ASHA observation hours, 3.25 CSD and overall QPA, successful completion of CSD 361 with a minimum final grade of C, and permission of department chairperson.

CSD 469 Special Topics in Communication Disorders (1)

Varying topics, periodic offerings in specific areas reflecting contemporary needs and interests.

Elective Courses

CSD 242 American Sign Language II (3)

Continuation of signed vocabulary development. Studies the form and use of American Sign Language (ASL), the native language of deaf people. (Prerequisite: CSD 241)

CSD 470A,B Assistantship in Audiology (2)

Students observe and assist in the provision of audiology services. Goal is to learn first hand the varied activities involved in clinical audiology. (Prerequisites: 25

ASHA observation hours, 3.25 primary and overall QPA, and permission of department chair.)

CSD 499 Independent Study in Communication Sciences and Disorders (variable credit)

An option for developing an enriching experience by working with a faculty mentor. (Prerequisites: College-governed eligibility, consent of faculty, approval of department chair.)

CSD 499R Independent Study in Communication Sciences and Disorders – Research (variable credit)

An option for completing research in conjunction with a faculty member to include literature review, method, subject(s), procedure, data analysis, and discussion of a topic in communication sciences and disorders. (Prerequisites: College governed eligibility, consent of faculty, approval of department chair.)

The Professional Phase (graduate) Required Courses

CSD 500 Research Methods in Speech-Language Pathology (3)

Critical analysis of speech-language pathology literature with respect to design, methodology, data analysis and interpretation of results. (Prerequisite: Statistics)

CSD 501 Family Systems and Counseling: Multicultural Perspectives in Speech-Language Pathology (2)

Explores the role of the speech-language pathologist with regard to counseling individuals with communication disorders and their families. Emphasis on critical issues in clinical service delivery to individuals with diverse cultural background from a family system perspective.

CSD 502 Aphasia (3)

Advanced examination of issues related to aphasia. Study topics include etiologies of aphasia, neurogenics of language disorders, aphasic syndromes, assessment, and treatment principles and strategies.

CSD 503 Seminar in Phonological and Articulation Disorders (3)

Study of nature, assessment, and treatment of phonological and articulatory disorders in children. Emphasis on phonological processing theory and application.

CSD 504 Language Learning Disorders in School-Aged Children and Adolescents (4)

Advanced study of the nature, assessment, and treatment of language disorders in school age and adolescent populations. Emphasis is placed on the impact of language disorders on academic performance and curriculum-based assessment and intervention. (Prerequisite: coursework in normal speech-language development)

CSD 505 Augmentative and Alternative Communication Systems (3)

Explores basic aspects of augmentative and alternative modes of communication. Emphasis is placed on the cognitive, psycho-social, educational, physical, and

communicative-linguistic factors of individuals across the life span with little or no functional speech. Assessment, treatment, and management issues are considered. (Prerequisites: coursework in normal speech-language development and pediatric language disorders)

CSD 506P Diagnostic Tests/Measurements and Scientific Clinical Writing (3)

Explores the principles, procedures, techniques, and instrumentation used to assess speech and language function of individuals across the life span. Test selection, administration, scoring, interpretation of results, and clinical report writing/documentation will be discussed.

CSD 506L Language Sample Analysis Computer Lab: SALT (1)

Students will learn to input, analyze, and interpret pediatric language sample data by using computer-assisted language sample analysis (CALSA) software, specifically Systematic Analysis of Language Transcripts (SALT). (Prerequisite: CSD 506P or permission from graduate program director)

CSD 507 Voice Disorders (2)

Clinical assessment and treatment of organic and psychogenic voice disorders in children and adults. Exploration of clinical instrumentation.

CSD 508 Fluency Disorders (2)

Study of etiology, assessment, treatment, and management of children and adults who exhibit dysfluent speech patterns.

CSD 510 Communication Disorders in High-Risk Infants, Toddlers, and Preschoolers (3)

Assessment and intervention strategies emphasizing communication skills of these at-risk populations will be explored. Developmental outcome of high-risk infants and toddlers during the preschool years will be discussed. Family centered approaches and models of service delivery will be presented. (Prerequisite: coursework in normal speech-language development)

CSD 511 Pediatric Neuromotor Speech Disorders (2)

Exploration of the types and characteristics of motor speech disorders and oral motor/feeding deficits in children who exhibit neurological dysfunction. Normal and disordered processes of oral-motor/feeding will be presented. Emphasis will be placed on assessment and intervention of neuromotor systems necessary for speech production and vegetative functioning. Includes discussion of developmental verbal dyspraxia, childhood dysarthrias, and cerebral palsy. (Prerequisite: CSD 524)

CSD 513 Communication Disorders Related to TBI, Right Hemispheric Dysfunction, and Neuro Cognitive Disorders (3)

Communication impairments secondary to traumatic brain injury, dementia, and right hemisphere dysfunction will be addressed. Assessment procedures, treatment strategies, and educational/counseling considerations will be presented.

1

CSD 514 Adult Neurogenic Motor Speech Disorders (2)

Assessment and treatment of neurogenic motor speech disorders including dysarthria and apraxia will be addressed. Physiological, perceptual, and acoustic analyses of speech influencing intelligibility will be presented. (Prerequisite: CSD 524 or permission from graduate program director)

CSD 515 Dysphagia (3)

Evaluation and treatment of swallowing disorders in children and adults. Anatomy and physiology of the normal swallow will be discussed. Videoflouroscopic records of abnormal swallows will be reviewed.

CSD 517P Professional Issues in Speech-Language Pathology (1)

Focuses on professional issues and development as it relates to the transition into off-campus intern/externships and future employment in the field of speech-language-pathology. Emphasis will be placed on ethical issues, universal precautions, resume writing, interviewing, etc.

CSD 518P Independent Study in Clinical Methods and Processes (1)

Reviews the principles, methods, and procedures necessary for the development of clinical skills and competencies required for a positive transition into the clinical practicum experience. Emphasis will be placed on clinical documentation and writing used in the Marywood Speech-Language-Hearing Clinic. (Note: Only for incoming students accepted to the Professional Phase who have not completed CSD 361.)

CSD 524 Neuroscience (2)

Topics include functional organization of the brain, structures of the central, peripheral, and autonomic nervous systems, embryological development in the CNS, and brain imaging techniques. Emphasis is on the interconnectivity in the brain.

Elective Courses

CSD 512 Cleft Palate and Other Craniofacial Anomalies (2)

The study of craniofacial and orofacial dysmorphology and their related communication, speech, language and hearing deficits. Emphasis will be placed on cleft lip and palate and velopharyngeal insufficiency. Issues related to principles of assessment, treatment, and client management will be discussed. (Prerequisite: CSD 503)

CSD 523 Independent Research Study in Communication Sciences and Disorders (variable credit)

An elective (completed in conjunction with a faculty member) to include literature review, method, subject(s), procedure, data analysis, and discussion of an issue in communication sciences and disorders. (Prerequisites: Consent of faculty member and approval of graduate program director and CSD department chair)

CSD 525 Autistic Spectrum Disorders (2)

Study of etiology, assessment, treatment, and management of children with autistic spectrum disorders. (Prerequisite: Coursework in normal speech-language development)

Required Clinical Practicums

In regard to clinical practicum experiences, all students will be required to provide documentation of a minimum of 25 directed clinical observation hours under the supervision of an ASHA-certified clinician before enrolling in CSD 468A Introduction to Clinical Practicum in SLP (see Pre-Professional Phase) or CSD 516A Clinical Practicum in Speech-Language Pathology (see Professional Phase). All clearances and updated immunizations must be on file. Students must be available a minimum of ten hours per week in order to be scheduled for clinical/diagnostic practicum experiences. Students are required to complete a clinic practicum schedule, which must be adhered to, at the time they meet with their academic advisor for registration.

The Pre-Professional Phase

CSD 468A Introductory Clinical Practicum in Speech-Language Pathology (2)

Students conduct clinical work under supervision. Includes weekly discussion time. (Prerequisites: 25 ASHA observation hours, minimum 3.25 primary and overall QPA, successful completion of CSD 361 with a minimum final grade of C, and permission of department chair.)

The Professional Phase

CSD 516 A, B, C Clinical Practicum in Speech-Language Pathology (1, 1, 1)

Supervised clinical practice in the treatment of speech, language, and hearing disorders with various clinical populations at the Marywood Speech-Language-Hearing Clinic. Development of treatment plans and clinical reports will be required. Students will be provided with supervision appropriate to their level of experience and in accordance with ASHA standards. Students are expected to attend weekly meetings with their supervisor(s). (Prerequisite for CSD 516A: Documentation of 25 hours of observation of an ASHA certified clinician; Prerequisite for CSD 516B: Successful completion of CSD 516A with a minimum final grade of B-; Prerequisite for CSD 516C: Successful completion of CSD 516B with a minimum final grade of B-)

CSD 519I Clinical Internship in Speech-Language Pathology I (3)

Students are encouraged to seek placements in sites that offer experiences consistent with their clinical areas of interest. Placements must be approved by the Internship Coordinator, and a signed contract must be obtained prior to beginning the internship. Placements are arranged for students in various off-campus clinical facilities (e.g., rehabilitation facilities, schools, hospitals, clinics, private practices). Requirements for students include planning and implementing diagnostic and/or treatment procedures, data collection and analysis, and clinic report writing. Additional responsibilities such as participation in clinical staffing may be required by the off-campus supervising speech-language pathologist at the facility. Clinical

placements are arranged by the Marywood Internship Coordinator in conjunction with off-campus clinical supervisors. (Prerequisites: successful completion of CSD 516C or EDUC 597 [based on CSD grading form] and CSD 521 with a minimum final grade of B— and permission of graduate program director)

CSD 520E Clinical Externship in Speech-Language Pathology II (3)

Students are encouraged to seek placements in sites that offer experiences consistent with their clinical areas of interest. Placements must be approved by the Internship Coordinator, and a signed contract must be obtained prior to beginning the externship. Requirements for students include planning and implementing diagnostic and/or treatment procedures, data collection and analysis, and clinical report writing. Additional responsibilities such as participation in clinical staffings may be required by the off-campus supervising speech-language pathologist at the facility. (Prerequisites: Successful completion of CSD 519I with a minimum final grade of B— and permission of graduate program director)

CSD 521 Diagnostic Practicum in Speech-Language Pathology (2)

Supervised clinical experience in the principles and procedures necessary for assessment of speech and language disorders. Includes experience with obtaining case histories, collecting, analyzing, and interpreting assessment data for consideration of differential diagnosis. Clinical report writing is a component of this diagnostic practicum. Students will work on diagnostic teams which meet weekly with their supervisor. (Prerequisite: CSD 502, 504, 506P. To be taken either prior to or concurrently with CSD 501, 503, 506L. Successful completion of CSD 506P with a minimum final grade of B—.)

CSD 522 Audiology/Aural Rehabilitation Practicum (1)

Clinical practice in hearing testing and in the management of children and adults who have a hearing impairment or are deaf. Experience includes use of amplification, speech reading, American Sign Language, assistive listening devices, and auditory training techniques. Students must accrue clinical clock hours to meet current ASHA certification and PA state licensure requirements. (Prerequisite: Coursework in Audiology and Aural Rehabilitation)

Requirements for Post-baccalaureate Teacher Certification

(approximately 24 credits)

The Teacher Certification track is undertaken in addition to earning the master's degree in Speech-Language Pathology. Only matriculated CSD graduate students are eligible for this track. Alumni of the master's program in Speech-Language Pathology may be eligible for this track if an opening exists. Earning Teacher Certification from the PA Department of Education (DOE) is a separate certification from the ASHA Certificate of Clinical Competence. Therefore, students may need additional semesters to complete these requirements. Students interested in pursuing Teacher Certification must meet with either the CSD Graduate Program Director or the CSD Internship Coordinator to complete a plan of study for this additional track. A minimum QPA of 3.00 is also required. All coursework in education must be

approved by the Education Department chair and is subject to change based on PA Department of Education requirements.

Coursework and Field-Based Experience

PSYC 514 Human Development (3)

An examination of human development throughout the life span, with in-depth coverage of developmental theories and research methods. Critique of empirical studies required. Previous coursework in psychology suggested.

EDUC 523 Seminar: Psychology of Education (3)

This course deals with the dynamics of teacher-student-other relationships, with consideration of learning and classroom management. Analyzes individual differences of students in relation to the educative process. Emphasis on relating educational research to current school practice. Lesson plan and unit plan designs are covered.

EDUC 502 Multidisciplinary Foundations of Education (3)

Basic principles of educational theory derived from a study of major works and integrated theories from theology, philosophy, and social sciences. Research of social sciences on educational problems, processes, and value. Contemporary issues and practice explored.

EDUC 561 Methods, Materials, and Assessment in Teaching English as a Second Language (3)

This course will provide an in-depth look at practical application of instructional strategies, materials, tasks, and assessment techniques that effective teachers use to promote language and literacy development in a second language. Focus will be on methodologies of teaching reading, writing, listening, speaking, grammar, and culture of the Pre-K-12 ESL classroom.

EDUC 597 CSD Student Teaching Clinical Internship (12)

Involves full-time supervised practicum as a speech-language pathologist in a public school setting. Must be taken by students seeking certification as a speech-language pathologist (Pre-K-12) by the Pennsylvania Department of Education. Placements are made by the CSD Internship Coordinator in conjunction with the Education Field Placement Officer. (Prerequisites: Successful completion of 516C or 519I and 521 with a minimum final grade of B— and completion of all prerequisite Education courses)

Center for

Interdisciplinary Studies

INTERDISCIPLINARY PH.D. PROGRAM IN HUMAN DEVELOPMENT

Director: Deborah Hokien, Ph.D.

Program Philosophy

Human beings grow and develop as unique individuals within complex networks of familial, societal, and cultural structures; they grow physically, emotionally, spiritually, and socially. The study of the processes of human development is at once the most fundamental and the most far-ranging of exercises in which a scholar may engage.

Mission

Consistent with the mission of Marywood University, the Ph.D. program in Human Development has as its primary goal the development and mastery of the professional and leadership skills necessary for meeting human needs. Through a strong interdisciplinary focus, the program emphasizes the complexity of human development. Students are prepared to meet the challenges of the 21st century, providing unifying leadership in an increasingly interdependent world.

Program Goals

- Students will demonstrate an interdisciplinary understanding of human behavior that reflects the complexity of human beings from philosophical, physiological, psychological, spiritual, economic, social, and cultural dimensions.
- 2. Students will demonstrate an understanding of underlying interdisciplinary and discipline-specific ethics.
- 3. Students will demonstrate an ability to engage in interdisciplinary scientific inquiry to address the complex problems of today's society.
- 4. Students will develop depth of knowledge in their chosen disciplinary focus.
- 5. Students will demonstrate preparation and competence for leadership related to social change.

An Interdisciplinary Approach

The Ph.D. program in Human Development instills in students an interdisciplinary understanding of human development while allowing for depth in a disciplinary specialization. The program combines the knowledge and skills of more traditional

doctorates, including strong research and instructional skills, with a balanced interdisciplinary focus.

Marywood's Ph.D. program is unique in its interdisciplinary focus at the doctoral level. Emphasizing critical, multifaceted analysis of complex problems, the interdisciplinary approach enables students to make creative connections across disciplines and to learn from the synergy of multiple points of view. Furthermore, an interdisciplinary program allows for better exploration of the complex relationships inherent in the problems and issues of the 21st century.

Graduates of the Ph.D. program are well-prepared to provide leadership in a variety of settings. The cognitive flexibility and skill developed by learning to view challenges through an interdisciplinary lens apply readily to areas such as education, business, administration, health care, and government agencies.

Expert faculty from disciplines across the University are engaged in the Ph.D. program through teaching the interdisciplinary core courses, serving as dissertation mentors and committee members, and serving as qualifying examination evaluators. There are several specialization tracks that capitalize on the particular strengths of Marywood's faculty across a variety of disciplines.

Program Structure

This 60-credit post-master's program leading to the degree of Doctor of Philosophy (Ph.D.) has interdisciplinary and research courses as its core, to which discipline-focused areas of concentrated specialization are added.

Flexible program options enable students to earn their doctoral degree by choosing either a four-year or six-year curriculum plan and to design a program of studies geared to meet their professional objectives. The program does not require residency on campus, since core courses are offered on the weekday evenings and specialty elective courses are offered in a hybrid or online format to fit the hours of working professionals. Continuous registration each semester is required. Degree completion is expected within seven years of program entry.

Specialization Tracks

Organizational Leadership is recommended for those planning a career as a business or academic administrator or professionals who are engaged in organizational training and development.

College/University Teaching is recommended for those planning a career as a tenure-track faculty member at a public or private institution of higher education.

Health Promotion is recommended for those interested in administration, consultation, and evaluative research in health care and health promotion environments.

Curriculum

This 60-credit program leading to the degree of Doctor of Philosophy (Ph.D.) combines the core interdisciplinary and research courses common to all students

with applied interdisciplinary core and discipline-based areas of concentrated specialization.

The Interdisciplinary Core (12 credits)
D/HD 1021 Development and Change: Theoretical Foundations
The Research Core (12 credits) D/HD 1011 Advanced Statistical Analysis. 3 D/HD 1013 Advanced Correlation. 3 D/HD 1015 Qualitative Research. 3 D/HD 1017 Quantitative Methodology. 3
The Applied Interdisciplinary Core (12 credits) Choice of 4 courses D/HD 1005 Models of Teaching. 3 D/HD 1012 Communication Theory and Organizational Dynamics 3 D/HD 1030 Financial & Strategic Planning. 3 D/HD 1109 Law & Public Policy. 3 D/HD 1112 The Grantsmanship Process 6 D/HD 1140 Program Development & Evaluation. 3 D/HD 1150 Labor Relations & Human Resources 3 D/HD 1151 Academic Writing. 3 D/HD 1152 Mentored Teaching Internship (PRQ: D/HD 1005) 3
The Specialization Courses (12 credits)
Organizational Leadership 3 D/OL 1161 Perspectives on Entrepreneurial Leadership 3 D/OL 1162 Organizational Leadership Theory & Research 3 D/OL 1163 Policy Formulations & Analysis 3
D/OL 1164 Consultancy Project/Practicum
D/OL 1164 Consultancy Project/Practicum
D/OL 1164 Consultancy Project/Practicum

Qualifying Experience

Upon successful completion of 36 credits in the program (including the core interdisciplinary and research courses), students complete a Qualifying Examination, assessing both written and oral competency. The written component requires an integrative literature review, reflecting an interdisciplinary response to a complex question of the student's choice. This written work of approximately 20 pages is reviewed blindly by three university faculty. If the paper is deemed to be satisfactory, then students present their topic orally before the review committee and interested members of the University community. Successful completion of the oral competency qualifies the student for Ph.D. candidacy.

Transfer of Credits

Normally, no advanced standing nor transfer credits will be accepted, however in special circumstances where students have completed successfully a comparable doctoral level graduate course at another regionally-accredited college or university, a petition may be made to the Program Director after the student has matriculated in the Ph.D. Program for two (2) semesters.

Standards for Continuation

A cumulative QPA of 3.25 is the minimum for continuation in the program. Students who fail to maintain a 3.25 average in their coursework will be required to meet with the Ph.D. Program Director and a corrective action plan will be enforced. Typically one or two semesters will be allowed for the student to re-establish the required 3.25 average otherwise the student will be dismissed from the program. A minimum letter grade of B is also required for all coursework. Continuous registration each semester is required that includes summer session when in the dissertation phase, otherwise a student may be administratively withdrawn from the program. Students must successfully complete their Qualifying Experience and all coursework prior to registration for dissertation credits. Professional conduct is expected at all times.

Time Limitation Policy

All work must be completed within seven years of program entry. An extension of the terminal date is considered only when there is substantial evidence that the student has made regular and consistent progress toward completion of degree requirements. An extension will be granted only if either: (1) the student has been granted a leave of absence for medical or other acceptable reasons or (2) permission has been granted by the Program Director. Written application for extension, with full documentation of serious cause, must be made to the Program Director. It should be noted that this period of time is rarely extended and only in dire circumstances. An extension is only granted once.

Stop Out Policy

Matriculating students in the Interdisciplinary Ph.D. program who decide not to enroll in courses at Marywood during a term (Fall, Spring, and/or Summer) and want to maintain an active and continuous status with the program, will be required to pay a placeholder fee of \$250 per term. This fee will be applied in certain circumstances such as, but not limited to: (1) failure to register for courses after an unsatisfactory attempt in the qualifying experience and (2) not registering continuously for credits during the dissertation phase. To initiate the placeholder the student must consult with the Ph.D. Program Director and register for the stop-out (D/HD 1000 – Qualifying Experience or D/HD 1001 – Dissertation). For each subsequent term the student will be registered automatically for the stop-out with fee up to a maximum of two years after which time, the student will be administratively withdrawn from the program. Students who fail to fulfill the fiscal obligation associated with the continuous enrollment policy will move immediately to administrative withdrawal from the program.

Admission

Admission to the Ph.D. program in Human Development is competitive. The faculty are seeking a diverse student body, who manifest superior academic achievement, a sensitivity to interdisciplinary inquiry, and evidence of the potential for leadership in their respective careers. The admission requirements include:

- 1. A master's degree from a regionally-accredited college or university in a field related to the selected specialization track.
- 2. Recent coursework in Research Methodology and Statistics (at the graduate or undergraduate level).
- 3. Official undergraduate and graduate transcripts.
- 4. Three letters of recommendation (at least two from instructors or current supervisors) addressing in depth the academic achievement and professional accomplishments of the applicant.
- A reflective essay of approximately 1,000 words, addressing the personal and/or professional goals which would be met through participation in this interdisciplinary program.

- 6. Graduate Record Examinations (GRE) General Test scores taken within the past five years.
- 7. TOEFL (Test of English as a Foreign Language) score, if an international student.
- 8. Invited on-campus interview.

Interdisciplinary Core Courses

D/HD 1021 Development and Change: Theoretical Foundations (3)

A seminar style investigation of underlying theories and models of human nature, human development, and epistemology with emphasis on foundational assumptions of practice in students' respective disciplines. This course is part of the introductory interdisciplinary series required of all doctoral students.

D/HD 1031 Social and Economic Dimensions of Human Development (3)

This course introduces students to the systems model of human growth and development. In this model, it is posited that an understanding of individuals can only be derived from an understanding of the interactions/transactions occurring between the individual and his/her socioeconomic environment at various stages in the life-cycle. This course is part of the introductory interdisciplinary series required of all doctoral students.

D/HD 1041 The Physiological and Psychological Bases of Human Development (3)

This course will present current findings from psychology and other sciences to explore such issues as evolution, nature/nurture, intelligence and learning, the definition of life and development, physical and psychological health, spiritual needs, and the effect of scientific research on the future of human development. The goal of the course is to expand the students' awareness of the impact of scientific discoveries on their professional fields and personal lives. This course is part of the introductory interdisciplinary series required of all doctoral students.

D/HD 1051 Selected Topics: Dissertation Seminar (3)

This will be a capstone course that will provide the opportunity for students to integrate the major themes of the core interdisciplinary courses, the specialization courses taken to date, and the research component of the program. Content will be organized around the research interest of the student, explicating the interdisciplinary context in which their topic resides. Students will develop a dissertation research proposal that may be used in their dissertation.

D/HD 1100 Professional Ethics (3)

This course will approach ethics from an interdisciplinary perspective, with more directed focus on professional ethics relevant to each specialization track. The knowledge base of moral and ethical behavior will be highlighted. This course is part of the introductory interdisciplinary series required of all doctoral students.

Research Core Courses

D/HD 1011 Advanced Statistical Analysis (3)

This course teaches the principles and methods of conducting and evaluating empirical research. The course focuses on research methodology and advanced analysis of variance. Examines issues of complex experimental designs and planned contrasts.

D/HD 1013 Advanced Correlation (3)

The focus of this course is on advanced correlation procedures, multiple regression, factor analysis, meta-analysis, and research design for quantitative research.

D/HD 1015 Qualitative Research (3)

This course teaches design and methodology for qualitative research. The focus of this course is on participant observation, unstructured and life history interviews, and document analysis.

D/HD 1017 Quantitative Methodology (3)

This course provides coverage of quantitative research methodology. Primary emphasis is on correlational and experimental research, with some coverage of quasi-experimental methods. There is examination of probability theory, hypothesis testing, sampling, and measurement issues as the basis of inferential statistics.

Applied Interdisciplinary Core Courses

D/HD 1005 Models of Teaching (3)

This course will attempt to carefully integrate learning theory and the actual practice of instruction. Models of effective teaching will be explored, including methodologies and authentic assessment strategies. A major component of the course will be opportunities for actual college classroom teaching experience.

D/HD 1012 Communication Theory and Organizational Dynamics (3)

Stresses effective communication skills. Explores organizational systems and related social structures and stresses motivation theory and change dynamics.

D/HD 1030 Financial & Strategic Planning (3)

This course explores the financial management tools and budgeting techniques related to revenue policies, resource allocation, and other fiscal management concerns.

D/HD 1109 Law and Public Policy (3)

The analysis, development, implementation, and evaluation of policy will be the common theme of this course. Law and policy-making structures will be identified and examined.

D/HD 1112 The Grantsmanship Process (3)

Practical introduction to the process of securing grants from foundations, corporations, and government agencies. Emphasis is given to developing a comprehensive needs assessment, researching sources, planning, and proposal writing.

D/HD 1140 Program Development and Evaluation (3)

Presents a continuum of program development and evaluation methods, from more formative to more summative approaches. Emphasizes the systematic application of research methods to assess intervention programs.

D/HD 1150 Labor Relations & Human Resources (3)

This course will explore the topics of labor and management, collective bargaining, negotiation skills, and human resources management. Students will address workforce issues facing corporations, educational organizations, government agencies, and non-profit enterprises. Students will be exposed to the process of hiring, training, and retaining talented employees within an organization.

D/HD 1151 Academic Writing (3)

This course will expose second- or third-year doctoral students to the process of submitting a manuscript for publication. Students will use a research paper or proposal written in a previous course and reformat their paper according to the author guidelines of a suitable peer-reviewed journal. Students will learn the implicit rules of the peer-review publishing and the process of manuscript revision. This course will also address how to handle reviewer feedback and editorial decisions.

D/HD 1152 Mentored Teaching Internship (PRQ: D/HD 1005) (3)

An on-site, individually designed internship chosen in consultation with the Program Director that may include college classroom teaching, working in industry, working in administration, etc. The internship will provide the student with practical working experience related to their area of specialization.

Specialization Courses

D/OL 1161 Perspectives on Entrepreneurial Leadership (3)

This interactive course examines the history, theory, and practice of entrepreneurship with a focus on entrepreneurs as unique types of leaders engaged in the process and challenges of entrepreneurship. Topics include what it means to be an entrepreneur, sources of innovation, evaluation of opportunities, product and service development, sources of financing, business planning and development, deal structuring, valuation techniques, the start-up process, mentoring and leading entrepreneur teams, and social entrepreneurship.

D/OL 1162 Organizational Leadership Theory & Research (3)

This multi-disciplinary seminar course integrates classic and contemporary leadership theories and views with current-day practices in individual, team, and organizational settings. Through notable articles, biographies of world class leaders, and case studies, students will examine leadership issues in stable and turbulent situations from multiple perspectives. Topics include self-assessments and leader capacity

1

development, leading in team-based environments, promoting organizational learning and health, implementing motivational strategies, and leading organizational change.

D/OL 1163 Policy Formulations & Analysis (3)

This seminar course examines major theories and approaches to the broad framework embraced within the process of strategic planning and policy formulation by integrating concepts, theory, and current practice. It involves a comprehensive analysis and integration of all the functional areas throughout business entities. In addition to relevant article reviews, complex case studies in management and leadership from actual business and organizational situations allow students to test and extend their conceptual analytical skills.

D/OL 1164 Consultancy Project/Practicum (3)

This practicum experience allows students to apply their knowledge and skills to a real-world business problem. Students identify a project-based issue and a set of strategies to meet the projected goals; seek the assistance of a mentor in achieving the goals; and begin to implement strategies to achieve a solution to the issue or problem. The consultancy experience includes plan preparation and approval, implementation of the plan, presentation of results to clients, and an evaluation of the projects.

D/ED 1155 Theory & Applications of Instructional Design Models (3)

The focus of this course will be placed on the application of instructional design models to analyze systematically: instructional issues, design appropriate instructional strategies and tactics, and develop validated practical solutions.

D/ED 1156 Best Practices for Online Learning (3)

This course addresses effective techniques for planning, designing, implementing, and assessing an online course. This course examines emerging technologies and effective strategies that support student learning and engagement in the online environment.

D/ED 1157 Assessing Student Learning (3)

In this course, best practices in the assessment of student learning at the postsecondary level will be covered including the various assessment selections, developing learning outcomes, and interpretation of data. Reliability and validity, and accommodating students with disabilities are addressed.

D/ED 1158 Adult Learning Theory (3)

This course will cover theories of adult development, current research on adult learners, ways of assessing the needs and interests of adult learners, and ways of creating environments in which adult learners can thrive. Students will examine and critique theory in relation to experience and social contexts. Central to the course is the examination of varied cultural perspectives on adult learning theory and practice, through analysis and discussion among course participants.

D/HP 1102 Social Epidemiology (3)

In this course, the concepts and principles of epidemiology, to include the distribution and determinants of disease frequency in human populations from both the medical and social perspectives will be reviewed. Included are the applications of epidemiology to mental and physical health and social issues, concepts of public health, disease transmission, morbidity and mortality rate assessment and application, diagnostic and screening applications in epidemiology, natural history of disease, disease etiology, study design, strengths and limitations of study design, and epidemiology applications in the clinical setting.

D/HP 1103 Management of the Health & Human Services (3)

This course will identify the complexities and challenges of managing health and human service organizations. This class will focus on all models of management within varied settings. Includes leadership and motivation strategies, facilitation of change, organization culture and behavior, the decision-making process, POSCORB (planning, organizing, staffing, coordinating, reporting, budgeting) and project management.

D/HP 1120 Global Health & Multicultural Disparities (3)

Major global health challenges and programs will be reviewed. Global diversity of the determinates of health and disease are explored. Students will examine and analyze emerging global health priorities including infectious diseases, poverty, conflicts, disasters, and the health inequalities present in multicultural settings.

D/HP 1121 Public Health in Action (3)

This course will enable students to apply public health theory to the planning, implementation, and evaluation of National and Global Health goals as well as to the challenges of aging populations and the new health concerns arising from climate changes.

Insalaco College of Performing Arts

Dean: Collier Parker, M.F.A.

Mission Statement

- The Insalaco College of Creative and Performing Arts is a unique and progressive blend of programs focused on educating students to research critically, evaluate, and produce creatively.
- We develop highly skilled and ethical professionals who impact and influence a culturally diverse and interdependent society.
- We challenge our faculty and students to explore and cultivate both individual and collaborative avenues for creative expression and problem solving.
- We provide a variety of vehicles for the development of leadership, aesthetic sensibility, and creative expression including:
 - music and theatre performances
 - · art exhibits and galleries
 - therapeutic application of the creative arts
 - television, radio, and digital production
 - · original academic research
 - practicums and internships for profit and nonprofit organizations
- We are dedicated to providing a well-rounded education through a studentcentered and holistic approach, which prepares students to live responsibly in an interdependent world.

Goals and Objectives

The programs of study in the Insalaco College of Creative and Performing Arts are designed to help students attain full development as creative problem solvers through the integration of studies in their majors with a liberal arts education. Accreditation by the National Association of Schools of Art and Design (NASAD), the National Association of Schools of Music (NASM), the Council for Accreditation of Educator Preparation (CAEP), and the American Art Therapy Association enables students to acquire competencies necessary for a career in a variety of settings.

The programs in the Insalaco College of Creative and Performing Arts are designed to develop students' skills to successfully meet the continual challenge of a technological society and nurture values conducive to ethical and socially responsible behavior in the arts. In keeping with the mission and goals of

Marywood University, the comprehensive education of the programs in visual art, communication arts, theatre, dance, and music, provides a framework for students to master the professional and ethical leadership skills necessary for various careers in their fields of study, while at the same time enabling them to develop their highest human potential.

The opportunity for students to experience diverse creative processes through recitals, exhibits, production, internships, technology projects, and other results-oriented activities, promote student self-discovery, self-evaluation, research, and presentation of work.

The programs are designed to:

- Provide comprehensive quality education in art, communication arts, theatre, dance, and music so that students attain proficiency within their areas of study.
- Enable students to gain an understanding of key concepts within the areas of study offered through ICCPA, while learning to think critically and creatively.
- Raise students' awareness of creative activity throughout the entire university curriculum, and recognize the importance of a variety of aesthetic and cultural values.
- Enable students to demonstrate professional competence and ethical leadership skills that will be used in meeting the artistic and entrepreneurial needs of today, and are directed effectively toward an interdependent, diverse and socially responsible society.

Areas of Study

Communication Arts, Music, Theatre, Dance, and Visual Art.

COMMUNICATION ARTS PROGRAM

Chairperson: Michael Mirabito, Ph.D.

Philosophy Statement

In conjunction with the mission of the Insalaco College of Creative and Performing Arts, the M.A. in Communication Arts will prepare the student to assume a leadership role in numerous communications professions and settings. These include careers as public relations and/or advertising managers, communications directors, healthcare professionals, journalists, video producers, and other communication professionals who wish to enhance their skills. The program also serves individuals who are interested in entering the communications field or who wish to pursue an advanced graduate degree.

Program Information

The M.A. in Communication Arts consists of an 18 credit core and four 18 credit concentrations. A student selects one of four concentrations in consultation with an advisor. The department has adopted an interdisciplinary approach to graduate education in light of the communications field's interdisciplinary nature. Accordingly, specific program courses are offered in the Education, Health, Art, and Public Administration Departments for the concentrations. They will enable students to study computer applications and photography, management procedures, research and other specialized topics with academic and professional personnel who work in these fields. Some courses may also be taught on-line.

Admission Requirements

Applicants to the M.A. in Communication Arts program must meet the general admission requirements for the University. The program is designed to accommodate students with or without a communications degree or background.

Facilities and Technology

In Fall 2015, a new Center for Communication Arts opened on campus. Located in the Learning Commons, the Center provides for a wide range of media tools and physical spaces to work with and in. In conjunction with professors and classmates, students can: help publish an electronic newspaper; direct, produce, shoot or edit video and audio programming; create and publish a PR newsletter; work as an on-air television or radio talent, and create virtual sets and short animations.

Our facilities:

VMW-FM: Our award winning, on-air radio station, licensed by the FCC. The new facilities include a studio and control room for live programming; a production room; a sound booth and the capability to simulcast a live television program's audio feed. A student staff manages and operates the station's daily broadcasting schedule with a coverage area that encompasses northeastern Pennsylvania; affiliated with the Intercollegiate Broadcasting System.

Newsroom and Ad/PR Lab (*The Wood Word*): This computer-based lab primarily supports *The Wood Word* and specialized Ad/PR operations. Equipped with 16 Macs, the lab features Apple's Final Cut software and key components of the Adobe Suite, among other titles. A large screen monitor/television is used to project student works. *The Wood Word's* office is located just across the hall from the lab.

TV Marywood: Digital facilities with full audio and video production capabilities, including soundstage operations and virtual set design and implementation. A new DMX-based lighting system and instruments complement a wall-sized green screen; studio and portable cameras; a commercial audio board and a NewTek TriCaster. Professional audio and lighting kits, DSLRs and other equipment are used for digital filmmaking, news production and other operations. A Storage Area Network (SAN) ties the facilities together in a centralized information and communication system. Student management and operational staff direct live and taped programming, which is subsequently distributed via regional facilities of Comcast Cable; programming may also be produced for internal and external clients.

Seven Audio and Video Editing Rooms: Fully equipped editing rooms with Macs and a full range of production, design, and scriptwriting software, including Final Cut Pro and the Adobe Suite. Two rooms also support specialized audio production operations.

Communication Labs: The labs double as classrooms; the Audio Lab is equipped with a sound booth. The rooms have also been fully soundproofed to support production activities.

Transfer Credits

Please see the University statement for information. Depending on the course (e.g., media production) a student may be required to demonstrate additional, specific competencies to be granted transfer credit.

Master of Arts in Communication Arts

36 semester hours

I. CORE COURSES
18 Semester hours
COMM 501 New Communications Technology: Theory and Practice
COMM 502 Professional Writing
COMM 503 Public Presentation
COMM 595 Internship
EDUC 501 Research Theory
OR
COMM 522 Leadership in Communications
COMM Elective; including:
COMM 504 Film History
COMM 505 TV Criticism
COMM 506 Communications Law and Policy
COMM 531 Media Production I
COMM 561 Media Management
COMM 500 Independent Study
COMM 520 Health Communication
II. CONCENTRATIONS (Select one track with your advisor)
Concentration 1: Production
18 semester hours
COMM 531 Media Production I
COMM 532 Media Production II (Prerequisite: Media Production I)
Elective; choose from:
COMM 533 Advanced Media Production
COMM 534 Video Editing
COMM 535 PC-Based Media Production
COMM 536 Introduction to Theater Production
COMM 598 Special Topics (Digital Filmmaking)
A suitable production course in another department may be substituted with the
approval of your advisor and Chairperson. For example, the student can select
individual courses or one of the following sequences.
1. ART 541A Computer Aided Design I
ART 541B Computer Aided Design II
ART 541C Computer Aided Design III
OR
2. ART 512 Advanced Advertising and Illustrative Photography
ART 513 Advanced Color Photography
ART 515 Newspaper and Magazine Photography
Places Note: The student who selects seguence 2 must have undergraduate courses.

Please Note: The student who selects sequence 2 must have undergraduate courses/ experience in advanced and color photography or may be required to take prerequisite undergraduate courses.

Concentration 2: Media Management
18 semester hours
COMM 561 Media Management
COMM 562 Media Promotion and Publicity
PADM 507: Ethics
PADM 508: Communication, Strategic Planning, and Organizational Dynamics 3
Elective: Communication Arts elective selected with advisor
Elective: Public Administration or Business elective selected with advisor 3
Please note: A suitable management course in another department may be substituted with the approval of your advisor and the Chairperson.
Concentration 3: Health Communication
18 semester hours
COMM 520 Health Communication
COMM 522 Leadership In Communications
COMM 561 Media Management

D/HP 1102 Social Epidemiology
Concentration 4: Interdisciplinary
18 semester hours
The student designs her or his own program in consultation with the faculty advisor.
Sample concentration:
COMM 531 Media Production I
COMM 532 Media Production II
ART 541A Computer Aided Design I
COMM 561 Media Management
PADM 510 Fundraising and Grant Writing in Nonprofit Organizations
BUS 541 Organizational Behavior and Development
Please note for all concentrations: A substitute course(s) may be used in the
`
Production, Media Management and Health Communication tracks with the
Production, Media Management and Health Communication tracks with the approval of your advisor and the Chairperson. Since the Interdisciplinary concentra-

tion is already composed of elective courses, you will work with your advisor to

1

create your own course sequence.

Courses (COMM)

501 New Communications Technology: Theory and Practice (3)

Examines the applications and implications of the new communications technologies, including satellites, the Internet, non-broadcast video operations, digital technology/imaging and electronic social media developments. Intellectual property and other legal as well as ethical, economic, and aesthetic issues are covered.

502 Professional Writing (3)

Examines practical writing tools and techniques appropriate for varied institutional settings and publics. The tools and techniques may include an examination of desktop publishing, technical communications, scriptwriting, and traditional as well as electronic document design.

503 Public Presentation (3)

The course is designed to create an awareness of effective speech delivery for various media and audiences through lectures and practical exercises. The use of supplemental materials, including handouts and PC-based presentations, is also covered.

504 Film History (3)

Introduction to film history, aesthetics, and the relationship between film and society. In-class viewings supplement lectures, readings and discussions. The class focus can change on a semester basis.

505 TV Criticism (3)

Analyzes television, cable and other electronically distributed programming with respect to their form and content. The role of the media critic, the basis for criticism, and the relationship between the media and society are also examined. In-class viewings supplement lectures, readings, and discussions.

506 Communications Law and Policy (3)

Examines legal topics relevant to the communications field. Subjects include the FCC, regulation and deregulation, libel and slander, privacy, and copyright issues. Both traditional and emerging media are covered.

520 Health Communication (3)

This core course of the Health Communication Track will introduce students to the field's fundamental principles. It includes an in-depth look at the delivery of health-care systems and communication issues that affect them. These include an overview of health communication practices, its societal impact, and the tools a practitioner can use to reach diverse audiences and integrative medical systems. Selected readings will be assigned and students will engage in hands-on activities.

522 Leadership in Communications (3)

This course introduces the student to the principles and dynamics in leadership. It will also provide motivation for the student to view the organization from a holistic and global point of view applying their skills of facilitation, mediation and

1

clarification of the organization's process message. It provides a sound basis for the acquisition of leadership skills, including both management and administration.

531 Media Production I (3)

Introduces students to studio and single camera production equipment and operations, including basic scriptwriting and video editing. Students serve as producers, directors, writers, and crew for a variety of productions. In-class exercises supplement lectures; students may be required to spend additional hours outside class to complete various projects.

532 Media Production II (3)

Continues the study of Media Production I, including more complex techniques and special effects. Digital filmmaking and editing skills are also emphasized. Students may be required to spend additional hours outside class to complete various projects. (Prerequisite: COMM 531.)

533 Advanced Media Production (3)

Examines advanced production techniques. Topics can range from lighting to aesthetics to digital film production. The class focus can change on a semester basis. Students may be required to spend additional hours outside class to complete various projects. (Prerequisites: COMM 531; COMM 532.)

534 Video Editing (3)

Examines advanced video editing and underlying aesthetic principles. Students may also be required to spend additional hours outside class to complete various projects. (Prerequisites: COMM 531; COMM 532.)

535 PC-Based Media Production (3)

Examines production techniques geared for a computer environment. Topics include PC-based video editing, digital compression options, graphics, and audio integration, selecting the appropriate medium for a specific task and available production outlets. Students may be required to spend additional hours outside class to complete various projects.

538 Web Page Design and Communication Perspectives (3)

Provides students with the skills and abilities to write and design web pages for the WWW from a creative standpoint, as well as a tool for advertising, publicity, and public relations purposes.

540 Complementary Healthcare (3)

This course will focus on fundamental issues that underline complementary health-care including alternative medicine, legal policies, reimbursement, training, and educational opportunities for those involved in complementary healthcare. Students will examine the theoretical basis of Complementary or Holistic Healthcare, its history, its current status, and its future potential.

561 Media Management (3)

Examines administrative principles and procedures relevant for broadcast and non-broadcast media operations. Topics include staffing issues, management styles, and how to remain competitive in a highly volatile environment.

562 Media Promotion and Publicity (3)

Introduces students to integrated techniques for effectively conveying an organization's messages to relevant clients, including internal constituencies and the public. Various promotion and publicity techniques are also covered. Hands-on activities supplement lectures, readings, and discussions.

595 Internship (3)

Involves practical experience under the direction of qualified professionals at cooperating communications organizations and institutions. Internships may also be held at appropriate departments at Marywood University, such as Marywood's TV studio and Public Relations Office.

598 Special Topics (variable credit)

To meet the growing needs of both the communication and media industries, we are constantly researching and updating a unique set of courses designed to enhance the knowledge base and skill level of our graduate students. Special Topics courses will in most cases serve as electives and include courses for our media management, production health communication, and production tracks.

599 Independent Study (variable credit)

Designed for the individual student's interests under faculty direction. Course descriptions for the graduate courses in Art and Public Administration may be found in the respective program sections of this catalog.

MUSIC PROGRAMS

Chairpersons: F. David Romines, D.M.A. Rick Hoffenberg, D.M.A.

Philosophy Statement

The 36-credit Master of Arts degree program in music education provides academic and practical training based on current issues and best research practices. This program addresses philosophical, historical, and psychological foundations of music learning, in addition to music PK-12 teaching methods. Students may choose concentrations in vocal, instrumental, or general music/music history.

Accreditation

This program is accredited by the National Association of Schools of Music (NASM).

Admission Requirements General

Candidates for the M.A. degree program must meet general requirements for University admission as an education major. Applicants must audition and take entrance exams in music theory and history. The Pennsylvania Department of Education requires a 3.00 undergraduate QPA for admission to teacher education programs. Requirements for teacher certification are subject to change according to Pennsylvania Department of Education guidelines. Courses are offered in fall, spring, and summer sessions. Some courses are also offered online.

1

Master of Arts in Music Education

Applicants for the M.A. in Music Education must have an undergraduate degree in music education and be certified to teach PK-12. Applicants seeking initial teacher certification should possess an undergraduate degree in music.

Degree Candidacy

36 semester hours

Upon completion of 12 graduate credits with a minimum B average, graduate music students file a formal application for admission to degree candidacy with the department co-chairs.

Professional Contribution

At the completion of required academic credits, the candidate must complete a Professional Contribution (PC) capstone project. Degree candidates work under the guidance of a faculty mentor in designing and implementing the Professional Contribution (master's thesis, research project, or lecture-recital performance). Candidates choosing the thesis or research project give a public presentation of the Professional Contribution.

Course Descriptions

MUSC 501 Computers and Technology for the Musician (3)

Hands-on approach to computer-based technology in the general music classroom and rehearsals.

MUSC 502N Music Educator/Therapist and Special Learner (3)

Examines legislative updates, terminology, inclusion, and how these impact current practices in situations that involve children with disabilities. The course explores learning styles, designing Individual Educational Profiles (IEP), experiencing leadership in hands-on adaptation of materials and methods, and classroom techniques.

MUSC 506 Psychology of Music (3)

This course addresses the nature of musical behaviors related to learning in the K-12 setting. Topics include an introduction to developmental learning theories, testing and authentic assessment issues, and research studies applied to music teaching.

MUSC 507 Music in the Middle Ages (3)

This course covers Western European monophonic and polyphonic music from the ninth through fourteenth centuries.

MUSC 511 Analytical Techniques (3)

This course analyzes music of various genres from the Middle Ages through Modernity.

MUSC 512 Music in the Renaissance (3)

This course covers sacred and secular music from the fifteenth through seventeenth centuries.

MUSC 513 Music in the Baroque Era (3)

This course covers various genres of vocal and instrumental music from the seventeenth through mid-eighteenth centuries.

MUSC 515 Improvisation and Transposition (3)

This course covers various styles, idioms, and performance practices specific to improvisation and transposition.

MUSC 516 Music in the Classical Era (3)

This course covers various genres of vocal and instrumental music from the mideighteenth through early nineteenth centuries.

MUSC 517 Music in the Modern Era (3)

This course covers major developments and concepts from the twentieth century through the present.

MUSC 518 Music in the Romantic Era (3)

This course covers various genres of nineteenth-century vocal and instrumental music.

MUSC 519 Seminar in World Music (3)

This seminar investigates both classical and popular musical traditions of selected non-Western societies. It examines performance venues, relationships to other traditions, and the unique meanings of music within different cultures.

MUSC 520 Instrumental Literature and Conducting (3)

This course is an advanced study of instrumental literature. It includes conducting techniques for orchestra, winds, and percussion.

MUSC 521 Seminar in Elementary Education (3)

This course examines current research practices in music education and curricular design for elementary general music PK-6.

MUSC 522 Seminar in Secondary Education (3)

This course examines current research practices in music education, interdisciplinary arts, and curricular design for secondary general music 7-12.

MUSC 525 Administration and Supervision of Music Education (3)

This course studies contemporary pedagogical and administrative issues affecting music PK-12 programs, including arts advocacy, scheduling, and mentoring novice teachers in the field.

MUSC 526 Care and Repair of Instruments (3)

This course addresses practical solutions in the area of instrumental care and repairs.

MUSC 527 History and Philosophy of Music Education (3)

This course addresses the changes and issues that have shaped American music education from the 1950s to the present.

MUSC 530 Choral Arranging (3)

This course offers techniques in arranging for vocal ensembles of various configurations.

MUSC 531 Choral Literature and Conducting (3)

This course is a survey of choral literature from the Renaissance to the present. It includes advanced rehearsal and conducting techniques.

MUSC 536 Instrumental Arranging (3)

This course offers techniques in arranging for instrumental ensembles of various configurations.

MUSC 537A Ensemble Participation: Wind Symphony (0)

MUSC 537B Ensemble Participation: Orchestra (0)

MUSC 537C Ensemble Participation: Concert Choir (0)

MUSC 537D Ensemble Participation: Jazz Ensemble (0)

MUSC 537E Ensemble Participation: String Quartet/Chamber Music (0)

MUSC 541 Composition (3)

This course offers compositional techniques for vocal and instrumental works in small and large forms.

MUSC 543 Introduction to Music Bibliography and Research (3)

This course is an introduction to basic research methodology appropriate to music studies.

MUSC 545, 546 Seminar in Vocal Pedagogy I, II (3, 3)

These vocal seminars emphasize physiology of the voice and application of proper vocal technique for training and conducting choirs. It includes sessions on the International Phonetic Alphabet (IPA) and Alexander Technique. MUSC 545 is a prerequisite for MUSC 546.

MUSC 550 Applied Music—Voice (variable credit)

MUSC 551 Applied Music—Piano (variable credit)

MUSC 552 Applied Music—Organ (variable credit)

MUSC 553 Applied Music—Strings (variable credit)

MUSC 554 Applied Music—Woodwinds (variable credit)

MUSC 558 Applied Music—Brass (variable credit)

MUSC 555 Professional Contribution (0)

MUSC 555R Professional Contribution: Recital (0)

MUSC 555T Professional Contribution: Thesis (3)

MUSC 599 Independent Study (variable credit)

This is a project or course designed for individual student interests and needs through self-directed learning. Prior approval of department co-chairs and dean is required.

VISUAL ART PROGRAMS

Chairpersons: Pamela Parsons, M.F.A. Stephanie Wise, M.A.

Philosophy Statement of the Degree and the Department

In conjunction with the mission of the Insalaco College of Creative and Performing Arts, Marywood's Department of Visual Arts offers the Master of Arts and Master of Fine Arts degrees.

The Master of Arts program in Studio Art is intended for graduates of schools and departments of art/art education who want to develop their talents as studio artists. Study with outstanding practitioners in these fields acts as springboard for further professional growth and education.

There are two areas of concentration within the M.A. Studio Art program. In the 2-D area, students may work in the following media: painting, photography, or printmaking. In the 3-D area, students may work in: sculpture or ceramics.

The Master of Arts program in Art Therapy is designed to help meet the need for trained professionals in the mental health field and in education, to assist in the development of persons through self-discovery, self-awareness, and personal growth, using art as a catalyst for healing and self-actualization. The personal development of the graduate student as therapist is essential to this program. Students use art therapy in collaboration with the approaches described by psychologists. Through a course of study combining theory and practice, the program follows guidelines for art therapy training recommended by the American Art Therapy Association.

The Master of Arts Program in Art Education is intended for graduates of schools and departments of art/art education who are certified to teach. The program is designed to enrich the scope of their professional work and to extend their academic status.

1

The Master of Fine Arts Program in Visual Arts is designed to provide professional emphasis for persons with an intense commitment to their art who intend to become serious professional artists. There are four areas of concentration: 2-D, 3-D, Graphic Design, and Illustration. In the 2-D area, students may work in the following media: painting, photography, or printmaking. In the 3-D area, students may concentrate in ceramics or sculpture, working with a variety of media.

Each program is supported by accomplished, professional faculty, visiting artists of acclaim, impressive exhibit offerings, and excellent academic and technical resources. In certain programs, there are both requirements and opportunities for internships/practica, museum research, and study tours—all designed to provide experiences of breadth and depth for matriculating graduate students.

Students may apply to study at Studio Art Centers International through the Marywood/SACI program for a semester or summer session and may choose from a full curriculum of offerings. This program also includes organized field trips to many important locations throughout Italy. All courses are taught in English, and the program is geared toward an assimilation of Italian culture.

Application Requirements

Applicants to the M.A. and M.F.A. degree programs must meet the general requirements for admission to the Insalaco College of Creative and Performing Arts. In addition, applicants must satisfy the following:

M.A. Degrees in Studio Art and Art Education Requirements

- A baccalaureate degree in art or art education or an equivalent credit background in art that would support master's degree work. Any student who, in the judgment of the department, lacks adequate undergraduate preparation must arrange to make up the deficiency.
- 2. A portfolio of eighteen to twenty examples of artwork (slides, jpeg or pdf file format on CD, or original work). The portfolio will be judged on its demonstration of both conceptual ability and technical competency.

A maximum of twelve graduate credits may be accepted for transfer.

A student must file an application for candidacy when twelve credit hours of studio work have been completed. Acceptance as a candidate will be decided after the following:

- l. For the Art Education program only, successful completion of the Graduate Record Examination or the Miller Analogies Test.
- 2. Maintenance of a "B" or 3.00 quality point average or better in twelve studio credits taken at Marywood.
- 3. Submission of a portfolio of work from the studio courses taken at Marywood.
- 4. Approval of the student's potential as a graduate student by a committee from the departmental faculty.

Upon completion of 36 credits, a student must register the intention to bring the program to completion by means of a written comprehensive examination (for the Art Education program only) and execution of a Professional Contribution.

M.A. Degree in Art Therapy Prerequisites

- 1. A baccalaureate degree with a major in art education or studio art, OR a baccalaureate degree in a related field (e.g. psychology, social work, counseling, special education). Students entering the Art Therapy program with either degree must have at least eighteen credits in studio art (drawing, painting, figure-drawing/modeling, and 3-D media) and twelve credits in psychology (general psychology, abnormal psychology, development psychology).
- 2. Presentation of a portfolio of art, including significant examples of work in the media noted above.
- 3. A brief essay on the topic of why you have chosen to pursue art therapy education.
- 4. Evaluation of each candidate's individual competencies by an art therapy admissions committee. In addition, a personal interview may be required.

A student must file an application for candidacy when eighteen credit hours have been completed. Acceptance as a candidate will be decided after the following:

- Successful completion of the Graduate Record Examination or the Miller Analogies Test.
- 2. Maintenance of a "B" average or better in eighteen credits taken at Marywood University.
- 3. Successful completion of 400 hours of practicum experience.

M.F.A. Degree Prerequisites

- 1. A Bachelor of Arts or a Bachelor of Fine Arts degree.
- 2. Completion of at least eighteen undergraduate credits of upper division work in the area of concentration chosen and a "B" or 3.00 quality point average in that area. Students who possess outstanding or unusual qualifications that promise a significant contribution to the Master of Fine Arts program, but do not meet the 3.00 or credit requirements, may petition for a special review by the Art Faculty.
- 3. A portfolio of studio work indicative of above-average or exceptional ability. Submit twenty images of current work (slides, or CD jpeg or pdf file format). The majority of these should be in the area of the applicant's interest, but the portfolio also should include a lesser emphasis in related areas. All slides and digital images must be labeled with the applicant's name, date of execution, size and medium.
- 4. A statement of purpose, 150-200 words in length.

In addition, a personal visit to talk to a chairperson or instructors in your field and view the facilities is highly recommended.

If a student in Marywood's M.A. Studio Art program is considering application to the M.F.A. Visual Arts program he/she should make an application no later than after his/her successful completion of 9 credit hours. Transfer of graduate credits from the M.A. to the M.F.A. program may be limited to 9 credit hours. All credit transfers are subject to review by the art faculty admissions committee. Students must reapply following the general requirements for admission to the Insalaco College of Creative and Performing Arts. The M.F.A. Visual Arts programs (Ceramics, Painting, Photography, Printmaking, Sculpture) require full-time study to be completed within 2-3 years.

Students within these programs are advised to take a minimum of 12 credits per semester. Within the M.F.A. program there are four reviews of work in progress and student development. These reviews are held after completion of 12, 24, 36, and 48 semester hours of coursework and are designated as follows: (a) Initial Review; (b) Candidacy Review; (c) Progress Review; (d) Exit Review.

An Exit Review will take place after the final draft of the thesis project (Artist's Statement) and during the exhibit.

Failure to satisfy two consecutive reviews will result in dismissal from the program.

Upon completion of 60 credits, a student must register his or her intention to bring the program to completion. Thesis statement and exhibit are required.

Course of Study

Master of Arts in Studio Art

36 semester hours

I. CORE COURSES

9 semester hours

ART 546 Design Research	. 3
ART 600 Seminar	
ART 642 Art Criticism or 549 Aesthetics	. 3
ART History Elective	. 3

II. CONCENTRATION IN STUDIO ART

18 semester hours

At least eighteen semester hours must be taken in the chosen studio field.

III. ART ELECTIVES

9 semester hours

The remaining nine semester hours may be chosen from courses offered in studio areas other than the field of concentration.

IV. PROFESSIONAL CONTRIBUTION (NO CREDIT)

ART 555E: required of each student at a designated time prior to graduation. This must be an exhibit in the art gallery of Marywood University.

Certificate in Sequential Art and Storytelling

As part of the "Get Your Master's with the Masters" MFA Program for Educators and Working Professionals, a low-residency 26-credit Certificate in Sequential Art and Storytelling is offered. By the end of the second Summer, students will produce a publishable full-length graphic novel. In addition, students within the "Get Your Master's with the Masters" Program may choose this line of study with their concurrent program.

REQUIRED COURSES:

First Summer:

ART 642W Rendering Ideas	
Fall Independent Study:	
ART 560A Creative Problem Solving I	. 3.5
ART 560B Creative Problem Solving II	. 3.5
Spring Independent Study:	
ART 560C Creative Problem Solving I	. 3.5
ART 560D Creative Problem Solving II	. 3.5
Second Summer:	
ART 644W The Children's Book	3
ART 646W Communication Concents	3

MFA Degree in Visual Arts With Opportunity for Study in Florence, Italy

Marywood/SACI MFA Option

The Marywood M.F.A. program offers an option for graduate students in the fine arts to complete a portion of their M.F.A. degree requirements by studying in Florence, Italy. This opportunity is offered through collaboration with Studio Art Centers International (SACI) in Florence. The Marywood/SACI option offers a traditional M.F.A. from Marywood University in Visual Arts, but with a separate eighteen-credit track of study available from SACI in the disciplines of Ceramics, Painting, Photography, Printmaking, and Sculpture. The 60 credit hours of this M.F.A. option are distributed as follows:

Semester I (Fall) = 12-15 credits at Marywood

Semester II (Spring) = 12 credits at SACI

Summer Sessions (Late Spring) = 6 credits at SACI Semesters III and IV (Fall & Spring) = 27-30 credits at Marywood

Of the 18 credits taken at SACI, 9 credits may be in the student's area of concentration, and 3 credits may be in Art History. The remaining SACI credits will be studio electives which can be selected from a full range of offerings including: Drawing, Painting, Fresco, Etching, Lithography, Sculpture, Ceramics, Photography and Video.

Studio Arts Centers International (SACI) is an Independent American university-level school for the arts, located in the very center of Florence, Italy. SACI is recognized as one of the leading overseas institutions in the areas of studio art and art history. The SACI studios are situated only a moment's walk from many of the greatest works in all of Western Art. Integrated into the SACI program are frequent organized trips that offer access to important cultural sites throughout Italy. All SACI courses are taught in English.

The successful completion of this 60-credit program will earn the degree of Master of Fine Arts in Visual Arts from Marywood University.

Courses (ART)

Asterisk (*) indicates courses restricted for students enrolled in the "Get Your Master's with the Masters" MFA Program for educators and working professionals.

*500 W History of Graphic Design (2)

A survey course of the little known and great graphic artists of America and their style and impact on the American public.

502 History of Photography (3)

A critical evaluation of the development of photography. Study of photographers, techniques, and aesthetics.

504 History of Printmaking and Graphics (3)

A survey of the historical development of printmaking—its media, techniques, and masters.

507, *507W Contemporary Art (3)

A review of the major movements since World War II and an emphasis on post modernism from the sixties to the present. *507W is restricted to students in the "Get Your Master's with the Masters" MFA Program for educators and working professionals.

509, *509W History of American Illustration (3,2)

A survey course of the little known and great illustrative artists of America and their style and impact on the American public, from early years to the present. 509W is specifically designed for the illustrator. (2)

510 The Art of Calligraphy (3)

A study of the evolution of handwriting that transmits ideas and inspires beauty, with practical development of a personal style of beautiful lettering.

511 Photography for the Art Educator (3)

Analysis of photographic principles and theory and development of a study of the photographic field as a vehicle for learning. Each student will master basic photographic skills.

512 Advanced Advertising and Illustrative Photography (3)

Lecture and laboratory leading to a body of specialized work representative of the artist in the production of photographs for advertising and magazine illustration.

513 Advanced Color Photography (3)

The course investigates the expanded potential of color in image processing and advancements in color printing. Advanced techniques in color management, adjustments, and grading, aesthetics, and communication in color as it relates to the photographic medium.

514 Contemporary Photography (3)

Study of the accelerating dynamics of contemporary photography in art and media, the personal and professional, and through the exploration of issues raised by other photographers and application of personal discoveries and directions.

515 Newspaper and Magazine Photography (3)

Comprehensive study of journalistic photography. Similarities and differences will be explored through research and development of distinct bodies of work.

516 Experimental Photography (3)

Course designed for students who already possess an understanding of the inherent characteristics of the medium and an interest in the use of the vocabulary of imagery processes. Experimentation with silver, non-silver, and/or digital processes. Independent research.

517 View-Camera Photography (3)

Exploration of the use of the view camera and capitalizing on its inherent strengths as a tool of photographic expression. Technical instruction includes use and mastery of sheet film, exposure and development related to use of the zone system, and hybrid processes of digitization and file processing. A foundation of wet darkroom printing experience and some knowledge of digital imaging software is required.

518 Problems in Photography (3)

Advanced work on problems and projects in various areas of photography. Permits the student to concentrate on and to master an area of personal interest.

519 Research in Photography (3)

Research course focusing on professional practice and commitment to the field of photography. The advanced student is expected to conduct both technical and creative research that deals with the student's primary photographic commitment.

520 A, B Survey of Printmaking (3, 3)

A course intended as introduction and review. A study of the various media and techniques printmaking involves, including its historical development and current trends in the major areas of lithography, relief, screen process/serigraphy, and intaglio, with studio application in most. Recommended for art educators.

522 Relief Printmaking (3)

An in-depth study of the relief processes. (Prerequisite: ART 520 or equivalency).

524 Serigraphy (3)

An in-depth study of the fine art of serigraphy and commercial screen process. (Prerequisite: ART 520 or equivalency.)

526 Intaglio (3)

An in-depth study of the intaglio process. Prerequisite: ART 520 or equivalency.

527 Lithography (3)

An in-depth study of the planographic processes using stone, metal, and paper plates.

530 A, B Figure Drawing I, II (3, 3)

Individual and unique interpretations of the human figure, using live models and varying techniques and materials, such as pencil, conté, pastel, ink, washes, collage, and paint.

531 A, B Book Illustration (3, 3)

Theory and history of the illustrated children's book; workshop in creating the art for an illustrated book.

532 A, B, C Advanced Drawing I, II, III (3, 3, 3)

Development of drawing skills, with emphasis on transmission of ideas.

539 A, B, C, D Advanced Painting I, II, III, IV (3, 6, 3, 6)

Advanced problems in painting, with emphasis on individual creative search and idea development.

540 Batik (3)

Study of the ancient art of painting on cloth, using the resist techniques of wax and dyes.

541 A, B, C Computer Aided Design I, II, III (3, 3, 3)

Use of contemporary technology for creating art. Artists are provided the hands-on opportunity to explore a variety of computer systems. An historical overview and a focus on the current state of the art will be explored. Programming language is not required for this class. Use of Adobe Photoshop in digital photo imaging is the primary content of Art 541C. Programming language is not required for these classes.

541G Alternative/Digital Imaging (3)

An advanced course for photographers and artists in other media who are interested in refining their skills with Photoshop and exploring alternatives to simple digital editing and printing. Lens-based image fabrications and advanced retouching form the foundations of the course. Hybrid processes of input and output are explored. This course introduces a means of marrying the newest and oldest of photographic technologies and has applications in collage, printmaking, and mixed media. Prior Photoshop experience required.

543 Green Piece (3)

In-depth examination of connections between art and natural history in America from the time of the early explorer naturalists to contemporary earth artists. This jointly taught studio and art history course combines fieldwork with historical readings and discussions. (This number registers the student for a studio elective.)

546 A, C, D, E, F, H, *546W Design Research (3, 3)

Focuses on an advanced design research problem, individually developed by the student with the approval of the instructor. Special emphasis on the student's major area of interest. A) Clay, C) Painting, D) Photography, E) Fibers, F) Printmaking, H) Sculpture. 546W is specifically designed for illustrators and advertising designers.

547 A, B, C Jewelry—Metals I, II, III (3, 3, 3)

The design and creation of body adornment, hollowware, and objects of art made primarily of metal.

549 Aesthetics (3)

A seminar course examining theories both of art and of the aesthetic experience from Plato and Aristotle to contemporary writers on aesthetics. Issues include the nature of art, the nature of the aesthetic experience, creativity and inspiration, art and nature.

*549 W Aesthetics (2)

A lecture series and dialogue exploring the fine arts, music, architecture, film, sculpture, dance, the written and spoken word and their relationship to present day design, advertising, and illustration concerns.

550 Directed Reading (variable credit)

A program of individually directed reading to provide for the special needs of the student. Conference with members of the department and a written report of the work covered are both required. Taken only with the permission of the chairperson of the Graduate Art Department and prior approval of the dean.

551 A Study Tour in Art (3)

When initiated by faculty, these study tours will specify goals, objectives, and assessment procedures. When initiated by a student, the study tour plan must adhere to program specifications/documentation/assessment and be approved by the director.

*551 W, *552 W, *553 W, *554 W Professional Practices I, II, III, IV (2.5, 2.5, 2.5)

These study tours provide ad design and illustration students with exposure to the major centers of applied art in America. During these sessions, students are exposed to the professional practices of masters in the field. Experiences include: visitation

of museums, galleries, artists' studios, design agencies, (AIGA, S of I, etc.); lectures; slide shows; critiques on previous assignments.

552 Study Tour in Art (Europe or Americas) (3)

555 Professional Contribution (0)

This Professional Contribution will take the form of a research paper.

*555 W Professional Contribution (0)

This Professional Contribution will involve the student with a creative project involving historical/descriptive research.

555 E Professional Contribution (0)

All M.A. studio arts candidates are required to participate in a closure exhibition of their graduate work, usually a group exhibition in either the Mahady or Suraci Gallery dependent on availability, timing, and number of requests. An "Intent to Exhibit" form (acquired from the gallery director) must be completed and on file in the Art Gallery office at least 18 months in advance of when the student desires to exhibit. Exhibitions are scheduled each academic year typically in late fall and late spring semesters. The exhibit must be completed during coursework, prior to graduation. For M.A. Art Education students, an exhibition is one of three closure options for professional contribution (see ART 555 and ART 555W).

557-A, B, C, D Sculpture I, II, III, IV (3, 6, 3, 6)

Development of personal creative directions in selected materials and processes which involve students in making a visual statement. Studies in form, concepts, and environment.

559 Three Dimensional Design (3)

Focus on fundamentals of designing works in three dimensional format. A foundation for students who want to develop a background for continued study in package or product design, crafts, industrial design, or sculpture and the theory and practical application of good design.

560-A, B, C, D, E Creative Problem-Solving (3.5, 3.5, 3.5, 3.5, 3)

Independent exercises done during the fall, winter, and spring months designed to further the participants' knowledge and research resources in areas of their individual interests. (A, B, C, D, E-restricted to students in the "Get Your Masters with the Masters" M.F.A. Program for educators and working professionals.)

563-A, B, C, D Ceramics I, II, III, IV (3, 6, 3, 6)

Physical properties of clay and methods of hand construction and/or wheel throwing. The application of clay art and production pottery. 563 A, B specifically appropriate for the art educator.

564 Nineteenth-Century Art (3)

Critically surveys nineteenth-century art and the roots of modernism within diverse historical, social, and cultural contexts.

565 Twentieth-Century Modern Art (3)

Critically examines avant-garde movements from the turn of the 20th century to the 1950s within their diverse historical, social, and cultural contexts.

570 Design: A Study Through Weaving (3)

Design research involving the theories of design seen through a study in weaving. Study and execution of a variety of weaving techniques, each linked with elements and principles of design.

571 A Utilitarian Weaving I (3)

Individual preference in weaving pursued to produce purposeful art works. Previous experience in weaving recommended.

574 Collage: Exploration in Paper, Cloth, and Related Media (3)

Study in the use of unusual media for the artist and art educator. Use of cloth, fibers, and paper for various projects aimed toward an understanding of design and the intrinsic nature of the media.

575 W Off-Loom Weaving (3)

A course based upon the use of looms from primitive origins. Includes exploration of backstrap, "card," rigid heddle, and frame looms. Applications in art education (K-12) will be explored.

576-A Nonutilitarian Weaving I (3)

Focuses on creation of pictorial and nonobjective weavings. Emphasis placed on development of skills related to tapestry and manipulation of fibers.

590 Current Trends in Art Education (3)

Considers new directions, educational trends, and opportunities; introduction of alternative concepts and the functions of art education within the context of general education and the contemporary culture milieu.

592 Professional Practice Skills in Art Education (3)

A focus on each of the four art disciplines: historical, critical, aesthetic, art production; the manner in which they differ and relate and the way in which the integration of these disciplines enhances comprehensive learning in the visual arts. This course will emphasize multi-cultural education.

600A, B, C, D, E, F M.F.A. and M.A. Seminar (0)

Open to all M.F.A. and M.A. students; features activities for building a graduate student community of working artists.

606 Studies in Art History (3)

In-depth study in specific art history topics. The format of the course will be research and scholarly discussion, providing the graduate student with both depth and breadth.

606l Green Piece (3)

In-depth examination of connection between art and natural history in America from the time of the early explorer naturalists to contemporary earth artists. This

jointly taught studio and art history course combines fieldwork with historical readings and discussions. (This number registers the student for an art history elective.)

606J The History of Art Education (3)

Inquiry into the meaning and impact of art education trends in America from the first introduction as a formal part of public school education in the late 1800s to contemporary time. The course will encompass a review and analysis of the discipline's level of development within philosophical and sociopolitical contests, inclusive of community organizations and cultural institutions. Restricted to M.A. Art Education majors.

606K Studies in Roman Art (3)

This seminar course will introduce students to Roman art and architecture from the time of the Republic to the Late Empire. It will examine the role of art and architecture in the society of ancient Rome, with a special focus on the art of the non-elites.

610, 611, 612, 613 Graduate Studio/Painting I, II, III, IV (6, 9, 6, 9)

Courses allowing for the development of personal, creative directions in painting. Includes exploring additional two- or three-dimensional media to broaden visual vocabulary in conjunction with chosen medium. In close work with the instructor, involves private and weekly group meetings for critique, special topics, and a forum for current and related issues. Emphasis on challenging students in becoming professional career artists. Regular visits by other faculty and artists, along with periodic trips to galleries and museums. Restricted to M.F.A. Painting students.

615, 616, 617, 618 Graduate Studio/Ceramics I, II, III, IV (6, 9, 6, 9)

The sculpture media/ceramics courses are designed to encourage and assist the graduate student to explore, examine, and compile information and experiences that will add to his/her knowledge of material, technique and creative self-expression. Students' interests and direction will be supported by the faculty and implemented via available studio facilities. All aspects of clay as a material for expression will be encouraged. Restricted to M.F.A. Ceramics students.

620, 621, 622, 623 Graduate Studio/Sculpture I, II, III, IV (6, 9, 6, 9)

Sculpture courses at this level offer the serious and dedicated student opportunities to experience challenging activities focused on sculpture and/or three-dimensional design. An intense personal, creative, and technical investigation is emphasized. Directions and activities are self-prescribed and independently directed under the supervision of the advisor. Restricted to M.F.A. Sculpture students.

636 A, B Practicum I, II (3, 3) Ceramics/Sculpture/Painting/Printmaking/Photography

Working with the instructor, the student will assist in the preparation and presentation of studio classes. Emphasis on both aesthetic and technical criteria will make up equal components of the assignment. A workshop of the student's design or a museum or gallery-related project may also be considered.

1

Gallery

In conjunction with the gallery coordinator, the student will experience the preparation for a visiting artist gallery exhibition in the student's area of study. Through this experience the student works directly with the artist and curator on publicity, research, production of gallery poster, exhibit administrative duties, and the set-up and display of the actual exhibits.

639 A, B Thesis Project and Exhibit (0, 0)

- (A) A thesis statement on a particular aspect of the student's concentration in connection with a research project of actual experience, presented to the instructor at the completion of the second-year residency. (B) An exhibit, presented in the art gallery. Successful completion of (A) thesis project and (B) exhibit is requisite for graduation.
- (B) M.F.A. Studio Arts candidates [3-D (Ceramics, Sculpture) and 2-D (Painting, Printmaking and Photography)] are required to participate in a closure exhibition of their thesis work. A group exhibition in either the Mahady or Suraci Gallery is conducted under the auspices of the Marywood University Art Galleries. An "Intent to Exhibit" form (acquired from the Gallery Director) must be completed and on file in the Art Gallery office at least 18 months in advance of when the student desires to exhibit. Exhibitions are scheduled each academic year, typically in late fall and late spring semesters. The exhibit must be completed during coursework prior to graduation.

642 Art Criticism (3)

Art Criticism is a seminar course to encourage the practicing artist to engage in the process of thinking, writing, and talking about art. Students will review and critique samples of writing from newspapers, national news magazines, and professional academic journals in order to develop their own unique styles for converting ideas to paper.

*642 W Rendering Ideas (3)

Individual and unique interpretations of the human figure, using live models, nature, and still life objects with varying techniques and materials, such as pencil, pastel, paint, and markers, to visualize ideas better and to further drawing skills.

*643 W Conceptual Exercises (3)

Emphasis is on the development of basic creative thinking methods, such as symbol and icon combining, investigation of form and basic copy analysis techniques as they apply to a variety of real world projects.

*644 W The Children's Book (3)

The theory, history, and production of the illustrated children's book. A workshop in which each participant is required to produce a children's book suitable for presentation to publishers.

*645 W Visual Solutions (3)

An analysis of current advertising, design, editorial, and illustration problems. Emphasis is on the participants' finding and furthering their own creative solutions.

*646 W Communication Concepts (3)

Further application and study of conceptual thinking techniques as they apply to current visual communication needs.

*647 W Graphic Perspectives (3)

Advanced approaches to the complex creative problem-solving process used by today's top professionals—why some succeed and others don't.

*648 W Marketing Your Art (3)

Research and application of the methods and procedures on the business side of illustration and design. These include getting exhibited, writing and negotiating contracts, getting published, and making yourself and your work saleable.

649 Art World Study Tour (3)

An interactive investigation of the contemporary art world, including prevailing ideas and attitudes, prominent and emerging artists, institutions, and seats of influence. This course takes the form of a traveling seminar with an integrated studio component, and includes trips to galleries and museums in New York City and elsewhere, in addition to on-campus research and studio work. The course is designed to give studio majors an overview of contemporary art theory and practice, and is open to students in all majors.

660, 661, 662, 663 Graduate Studio/Photography (6, 9, 6, 9)

Courses offer students a chance to explore photographic expression through commercial, photojournalistic, or fine art approaches. Students are expected to challenge themselves to understand the full potential of the medium by going beyond the mere craft of photography. Through philosophical, critical, historical, and aesthetic study of photography, students will develop the skills and ideas necessary to become professional photographers who seek to use the medium for personal expression. Restricted to M.F.A. Photography students.

670, 671, 672, 673 Graduate Studio/Printmaking (6, 9, 6, 9)

Courses provide the facility and means of production to explore various possibilities of self-expression in relief, screen, intaglio, planographic, mixed media, and monoprint applications. Study is individually focused to enhance personal strengths, interests, and major discipline development objectives. Students are encouraged to balance an appreciation for traditional forms of printmaking with an awareness and investigation of contemporary views, methods, and material. Restricted to M.F.A. Printmaking students.

Art Therapy (AT)

520 Introduction to Art Therapy (3)

Study of the historical and philosophical bases of art therapy. Emphasis on theories of art therapy. Seminars, lectures, and study of artistic productions in a therapeutic milieu.

1

521 Expressive Arts Workshop (3)

An interdisciplinary approach to therapy conducted by specialists in art, music, dance, and psychodrama. Participation in group sessions designed to develop the individual while preparing for a team approach in expressive arts.

527 Trauma and Resiliency in Art Therapy (3)

This course presents the development of trauma theory and resiliency perspectives within the practice of art therapy. The approach to the provision of counseling and art therapy to address Post Traumatic Stress Disorder and other traumatic sequelae of clients is based upon most current principles of trauma theory.

528 Psychology of Art (3)

Study of perceptual and motivational theories, with particular focus on symbols, expressions, and related behavioral manifestations. Emphasis on theories of Arnheim, Piaget, and Lowenfeld.

529 Ethical Issues in Art Therapy (3)

Ethical Issues in Art Therapy focuses on philosophic and practical questions relevant to the art therapy profession. Attention will be given to basic principles of ethical thought, the Ethical Standards of the American Art Therapy Association, and ethical concerns of related disciplines.

530 Art in Special Education (3)

Study of the art of the exceptional child. Slides and visual materials presented.

531 Introduction to Family Art Therapy (3)

Study of principles and practices of family art therapy as treatment and evaluation of family dynamics. An overview of family therapy.

533 Art-Based Research and Assessment (3)

A course designed to stimulate thought and discussion of the historical and practical bases of art based research assessment in the art therapy discipline. Essential philosophic and pragmatic questions related to these issues will be explored through lecture, discussion, research, and art-making experiences. (Prerequisites: AT 545 Developmental Dynamics in Art Therapy, AT 520 Introduction to Art Therapy.)

534 Multicultural Issues in Art Therapy (3)

This course is designed to stimulate awareness of racial, ethical, political, and gender biases inherent in society at large and, more specifically, in the mental health field. The student is instructed in the development of culture-specific methods of art therapy treatment for culturally diverse client populations.

536 Studio in Art Therapy (3)

Studio art experiences designed to develop the professional growth of the artist and provide opportunities for creative use of art media to be used in therapeutic settings.

537 Group Process in Art Therapy (3)

Course explores diverse theories and models for group art therapy through instruction and experiential processes. Preparation of students for utilizing group counseling processes in various settings will be emphasized.

540 A, B, C, D Practicum/Group Supervision in Art Therapy (3, 3, 3, 3)

Extends over four semesters and requires at least 800 hours in the field. On-the job supervision and supervision by a member of the art therapy faculty are required. Group meetings are held with the Marywood supervisor (a registered art therapist), involving student presentations and discussions of clinical experiences.

545 Developmental Dynamics in Art Therapy (3)

This course will present art therapy concerns and approaches relevant to the abilities and needs of individuals throughout the life-span.

560 Art Therapies in the Treatment of Addictions (3)

This course is designed to educate the student about the dynamics of addictions, including the cycle, resistance, and recovery from such addictions as: drugs, alcohol, sexual addiction, eating disorders, self-cutting, and gambling. The use of art therapy in treatment will be the essential focus; however, the use of poetry, drama, movement, and music will also be explored. Essential philosophic and pragmatic questions related to the issues of addiction will be explored through lecture, discussion, research projects, and art-making experiences.

561 Introduction to Jungian Sandplay

This course is designed to introduce students to the theory and practice of Jungian Sandplay. The history and development, tools, practice, and process of Jungian Sandplay will be explored through lecture, discussion, case studies, art making, and experiential Sandplay. Through active participation in class discussion, as well as experiential group and collaborative Sandplay sessions, students will gain a handson understanding of Jungian Sandplay theory and practice.

595 A, B, C Professional Thesis (1, 1, 1)

Research leading to the completion of the thesis requirement for the Master of Arts degree in Art Therapy.

606A Art Therapy in Alternative Settings

This course presents the history, implementation, and use of art therapy in schools, medical settings, and community-based facilities. The past and current uses of art therapy at these sites will be addressed through lectures, readings, guest speakers, videos, group discussion, art exercises, and presentations. Confidentiality and ethical dilemma issues will be explored in depth.

Course descriptions for the graduate Psychology courses, core and electives, in the Art Therapy program may be found in the Psychology program section of this catalog.

SCHOOL OF ARCHITECTURE

Dean: Jim Sullivan, M.ARCH., A.I.A.

Mission Statement

The mission of the School of Architecture is to educate a new generation of architects and interior architects who engage the world passionately and intelligently. As a professional school in a liberal arts university, we endeavor to contextualize a rigorous studio-based curriculum within an educational environment that encourages critical thinking, collaboration, and speculation.

From interior objects to urban environments, we value architecture as a disciplined practice, which we define as a medium through which the world is engaged at a range of scales with conceptual and formal clarity, disciplinary awareness, social agency, and material speculation. We believe that architecture offers ways of making and thinking that enable architects and interior architects to do good in the world through their design work. Our shared values enable differences between and among our programs to become opportunities for productive exchange, collaboration, and growth.

Goals

The School of Architecture offers two post-professional graduate programs: a Masters of Arts in Interior Architecture (M.A.); and a Master of Architecture (M.Arch.). These two programs offer one-year degree tracks that are intended for highly self-motivated students who hold professional degrees in architecture or interior architecture/design. The programs emphasize disciplinary-focused independent thesis work with the goal of cultivating specialized interests and expertise within the disciplines. To this end, students: enroll in courses that focus on research

methodology and presentation/publication; work with members of the faculty to develop a relevant and structured research agenda; enroll in program electives that support their research agenda; and develop and present a research project in an area of interest.

Application Requirements

Applicants for graduate study in either Architecture or Interior Architecture must meet the general requirements for admission to the University.

In addition, applicants must submit and/or satisfy the following:

- 1. A Statement of Purpose, 150-200 words in length.
- 2. Three letters of recommendation (only one of which may be from a Marywood University faculty member).
- 3. If requested, a personal interview with the School's Graduate Admissions Committee.
- 4. A portfolio of design projects, with narrative descriptions, submitted no later than one month before the last official registration date. The School's Graduate Admissions Committee will evaluate the portfolio for its diversity of project types, the complexity of programs resolved, and the quality of visual and written presentation and communication. The purpose of this review is to determine if the student is suitably prepared to meet the rigors of advanced professional study.
- 5. Any applicant who, in the judgment of the School's Graduate Admissions Committee, lacks adequate undergraduate preparation to pursue this degree program, will be required to take additional coursework, thereby extending the program completion period beyond one year. The extent and nature of this coursework will be determined by the Graduate Admissions Committee after reviewing all required application materials.
- 6. For students holding a Marywood undergraduate degree in the discipline, a minimum QPA of 3.0 (or "B") is required for admission to the program. For those holding undergraduate degrees from other institutions, a minimum overall QPA of 3.0 (or "B") is expected. Individuals who do not meets this minimum QPA requirement (or other requirements), but demonstrate outstanding or unusual qualifications that promise significant contributions to the program, may petition for a special review by the School's Graduate Admissions Committee.

Architecture Degree Track: Master of Architecture (M. Arch.) (Post-Professional) Program Director: James Eckler, M.Arch., M.S.; Pedagogy

The School of Architecture offers a Master of Architecture (M.Arch.) postprofessional degree track. This 36-credit program will typically require one summer session of study followed by a minimum of two consecutive semesters in which the student pursues studies related to the research, design, and documentation of a self-formulated Thesis Project.

The M.Arch. post-professional degree track is available to students who have completed an accredited professional degree in Architecture and can demonstrate that they are academically prepared to pursue advanced professional studies.

Depending on the content, scope, and quality of work presented in the applicant's Design Portfolio (mandatory for admission to this program), students may be required to take additional design studios and/or other courses beyond the standard program requirements.

Applicants are advised to consult with the Architecture Program Director to ascertain the total number of credits and length of study that will be required to complete the program.

Students in the Bachelor of Architecture (B.Arch.) professional degree track at Marywood University are eligible for advanced standing in the M.Arch. program with a maximum of nine (9) credit hours of non-studio courses from the B.Arch. program applied to the M.Arch. degree. In this track, the program remains a one-year course of study but with a minimum of 27 credit hours rather than 36.

Students in the M.Arch. degree track typically pursue a two-semester Design Thesis exploring an issue and/or proposition involving architecture and discipline-related technology. Program core courses and professional electives augment focused design studies to establish a broader context for research and creative inquiry and project formulation.

Accreditation

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree that, when earned sequentially, constitutes an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The post-professional M.Arch. offered by Marywood University is not an accredited degree. It is intended to enable those holding a professional degree in architecture to pursue further studies at the graduate level.

Course of Study (Typical)

rear 1: Summer 11 Session	
ARCH 595 Thesis Research	3
Total	3

Year I : Fall	
ARCH 610 Design Thesis I	6
ARCH 5XX Program Elective (Grad level)	6
Total	. 12
Year I: Spring	
ARCH 620 Thesis Documentation	6
ARCH 621 Thesis II	3
ARCH 5XX Program Elective (Grad level)	3
Total	. 12
Total 6th-year Credits	. 27
Advanced Standing: 500-level credits from B.Arch. degree at Marywood	9
Total M.Arch. credits:	. 36

NOTE: Students with an accredited B.Arch. degree from other institutions may be eligible for advanced standing and have credits applied toward the M.Arch. degree track. Advanced standing status will be determined after a review of the applicant's portfolio by the School of Architecture's Graduate Admissions Committee.

Courses (ARCH)

ARCH 595 Thesis Research (3)

Examines research methods to assist in the formulation of the thesis undertaken in the final design project (ARCH 610). Case studies, investigations of professional literature, and readings from primary sources serve as primary research instruments.

ARCH 610 Design Thesis I (6)

The terminal project in which students will be required to formulate a well-reasoned, clearly articulated position on an architectural, urban design, or technical issue based on the research pursued in ARCH 595. After developing an overall design strategy, each student is expected to thoroughly test his/her position through in-depth investigation and project synthesis in the design studio.

ARCH 620 Thesis Documentation (3)

After the student's final thesis presentation to the school, each thesis project is assembled in the form of a book fully describing and illustrating the project research, the thesis underpinning the project, the design process and methodology, and the final design (the project synthesis). At the conclusion of the documentation, the book is presented to the school's Thesis Library, where it becomes part of an expanding repository of research for all students.

ARCH 621 Design Thesis II (6)

The terminal project in which students will be required to formulate a well-reasoned, clearly articulated position on an architectural, urban design, or technical issue based on the research pursued in ARCH 595. After developing an overall design strategy, each student is expected to thoroughly test his/her position through in-depth investigation and project synthesis in the design studio. This course is a continuation of content explored and developed in ARCH 610.

Interior Architecture Degree Track: Master of Arts in Studio Art (concentration in Interior Architecture/Design)

Program Director: Maria McDonald, M.A. in Interior Arthitecture

The M.A. program in Interior Architecture at Marywood University is one of a limited number of graduate Interior Architecture programs in the United States.

This 36-credit degree is available to students who have completed a four-year baccalaureate degree in Interior Architecture or Interior Design, or Architecture from an accredited NASAD, CIDA, or NAAB program. The degree is intended for those who wish to pursue more advanced studies in Interior Architecture with an emphasis on adaptive reuse of existing structures.

This degree track is a full-time program consisting of an initial intensive summer session (6 credits), followed by a sequential two-semester, 30-credit course of study (Fall: 15 credits; Spring: 15 credits).

One of two degree options may be pursued:

A. 4+1 Fast-Track Option

This track is designed for those students who have received their four-year Bachelor of Fine Arts (Interior Architecture/Design) undergraduate degree from Marywood. Course content for this graduate degree is formulated to build sequentially on this earlier degree track.

For information on graduate application requirements, please see the School of Architecture's Application Requirements section in this catalog.

B. One-Year Option

This track is designed for individuals who have completed a four-year undergraduate degree in an accredited Interior Architecture/Design program and can demonstrate sufficient evidence that they are academically prepared to pursue advanced professional studies.

Accreditation

The Master of Arts in Studio Art (concentration in Interior Architecture/Design) degree is accredited by the National Association of Schools of Art and Design (NASAD).

Courses (IARC)

IARC 510 Design Thesis I (6)

A self-formulated comprehensive interior architecture project involving an existing abandoned building in need of new life and function within the community. Students will continue the research that began in IARC 513, further documenting existing conditions, developing realistic building programs, and creating comprehensive schematic design alternatives for the reuse of the building they have selected to explore. Independent research and the development of thesis designs are supported by a Thesis Committee consisting of a Chair and two faculty members from the School of Architecture.

IARC 512 Leadership in Energy and Environmental Design (LEED) (3)

An introduction to conceptual and technical approaches to the design of sustainable environments and building practices. Specific building assessment guidelines such as the LEED standards will be addressed, along with sustainable construction practices with which to produce buildings that are healthy, productive places to work, less costly to operate and maintain, and will have a reduced environmental footprint. The course uses the LEED Green Associates Exam as the framework for its content.

IARC 513 Thesis Research (3)

Introduces research methods to assist in the formulation of the Design Thesis project undertaken in the final year of study. Includes case studies, investigations of professional literature and other primary sources, and extensive building documentation, including measured drawings.

IARC 514 Issues in Contemporary Interior Architecture (3)

An examination of emerging issues in the field of Interior Architecture. Emphasis is on innovative technologies to achieve sustainable interiors, as well as the everchanging design challenges facing the profession.

IARC 516 Visual Culture and the Built Environment (3)

An examination of the ways in which historic and contemporary architecture and urban development is shaped by diverse world cultures, social and economic differences, universal design approaches, and other factors.

IARC 520 Design Thesis II (6)

A continuation of IARC 510 (Design Thesis I), with a focus on more expansive and detailed design explorations. This phase of the Design Thesis will result in a completed design project focusing on adaptive reuse strategies with an emphasis on sustainable design principles.

IARC 522 Detailing Interior Architecture (3)

This course explores the detail as an expression and extension of design intention. Interior detailing involves the focused examination of how materials are selected, joined, manipulated, and applied. Materials research and other studies will aid in the technical awareness of the student. Drawings will be developed at large scales (1:1, 1:2, 1:5) to better understand specific detailing methods. Mock-ups of prototypical details will be created to help refine the development process and emphasis will be placed on sustainable building materials and fastening systems. Details resulting from these explorations may become integral aspects of the Design Thesis.

IARC 525 Thesis Documentation (3)

Each graduate student will assemble a Thesis Document fully describing and illustrating the research, thesis underpinning the project, the design process and methodology, and the final design (the project synthesis). At the conclusion of this documentation, the book will be added to the School's Thesis Library, as part of a research repository for all faculty and students.

IARC 599A Principles of Adaptive Reuse (3)

A course exploring the specific architectural, construction, and professional practice issues related to the repurposing of existing/historic structures.

1

College of Health and Human Services

Dean: Mark E. Rodgers, D.S.W., L.C.S.W., B.C.D.

Mission Statement

The mission of the College of Health and Human Services is to educate undergraduate, graduate, and doctoral students in an atmosphere of respect, individuality, and flexibility for best collaborative practices to address current and emerging health and human service needs in a multicultural, interdependent, global environment, and to promote nationally and internationally recognized community service and scholarship.

Areas of Study

Nutrition and Dietetics: The mission of the Department of Nutrition and Dietetics is to provide dedicated faculty, quality facilities, and a diverse environment which support nationally recognized undergraduate and graduate education, research, and service in the areas of nutrition, dietetics, and sports nutrition/exercise science.

Physician Assistant Program: The Physician Assistant (PA) Program at Marywood University is committed to providing students with an exceptional education in a supportive and nurturing environment. This professional education will include the knowledge necessary to diagnose, treat, educate, and empower patients in a variety of settings across the lifespan. We acknowledge that patients are more than their physical body so the program is dedicated to teaching the students the appreciation of the patients' spirit, as well as caring for their body. The Program is committed to preparing the student to deal with the changing health care environment while promoting the PA profession. The Marywood University PA Program has an awareness of the need for quality health care both regionally and globally, and this program will assist our students in carrying out Marywood's goal for all students — learning to live and practice responsibly in an interdependent world.

School of Social Work: The Master of Social Work Program is designed to prepare graduates for advanced social work practice. It is a 60-credit course curriculum accredited by the Council on Social Work Education (CSWE). The program offers flexibility of part-time and full-time programs. In addition, the program is offered at four locations in Northeastern Pennsylvania. Advanced standing is available for B.S.W. graduates. Our students become practitioners who are resourceful, culturally and ethically competent, and committed to social justice.

NUTRITION AND DIETETICS PROGRAMS

Chairperson: Lee Harrison, Ph.D., R.D., L.D.N., F.A.N.D.

Mission

The mission of the Department of Nutrition and Dietetics is to provide dedicated faculty, quality facilities, and a diverse environment, which support nationally recognized graduate education, research, and service in the areas of nutrition, and sports nutrition/exercise science.

Philosophy

The program promotes scholarship with a central focus on current research and advanced education. By providing a supportive environment, the program seeks to enable students and faculty to produce, synthesize, interpret, and apply research for the advancement of their discipline and improvement in their practice.

Goals and Objectives

The overall goals of the graduate nutrition programs are to develop proficient professionals who will be proactive in scholarship and leadership in their respective fields.

The objectives of the programs are:

1. To foster a learning environment that leads to quality teaching and learning.

- 2. To prepare students who can think critically in the theoretical and practical areas of nutrition, exercise science, and sports nutrition.
- 3. To promote student commitment to lifelong learning, professional development, and community service.

General Program Requirements

M.S. in Nutrition

Applicants to the program leading to a degree in Nutrition are required to have earned a degree in nutrition, foods, or dietetics from an accredited undergraduate institution. Individuals with other degrees are encouraged to apply with the understanding that they need to have at least 3 credits in chemistry and 6 credits in anatomy and physiology as prerequisite to satisfy the departmental admissions committee. If they wish to meet the academic requirements for an RD, other prerequisites will be necessary which vary depending on what the applicant has taken as an undergraduate. GREs are required for admission into the program. The M.S. in Nutrition is a 36-credit program requiring 9 credits in core nutrition courses, 9 credits in the research sequence, and 18 credits of electives. In addition to the required courses, the candidate must successfully complete and defend an original research project or complete ND 596 capstone. If students decide to do a thesis, they will select a member of the Nutrition/Dietetics faculty as a mentor. The mentor and two other committee members will work with the candidate on an individual basis throughout the research project.

Program of Study

36 semester hours

CORE COURSES 9 semester hours	
ND 560 Biochemistry of Nutrition and Exercise	3
ND 581 Advanced Nutrition: The Energy Nutrients and Alcohol	
ND 582 Advanced Nutrition: Vitamins and Minerals	
RESEARCH SEQUENCE	
9 semester hours	
ND 590 Research Methodology	3
ND 591 Statistical Analysis	
ND 595 A, B and C Research Thesis (1 credit each)	3
NON-THESIS	
ND 596 Capstone Experience	3
ELECTIVE COURSES	
18 semester hours	
ND 502 Exercise Testing and Nutrition Assessment (with lab)	3
ND 503 Endocrine Disorders, Nutrition, and Exercise	3
ND 504 Nutrition and Gerontology	3

ND 505 M	Auternal and Child Nutrition	3
ND 506 N	Tutrition and Human Behavior	3
ND 507 In	nternational Nutrition	3
ND 520 R	ecent Trends in Normal Nutrition	3
ND 523 In	mmunology, Exercise, and Nutrition	3
ND 525 C	Clinical Nutrition: Pharmacology and Fluid-Electrolyte Balance	3
ND 530 H	ealth Promotion	3
ND 534 P1	rivate Practice in Nutrition, Exercise Science, and Health Promotion	3
ND 536 C	ommunication Techniques in Nutrition and Exercise	3
ND 541 N	Tutrition and Women's Health	3
ND 549 Sp	ports Nutrition	3
ND 575 N	Jutrition and Exercise for Weight Management	3
ND 599 In	ndependent Study	3

These courses are examples of electives that might be available during a student's program. Students cannot be guaranteed that a particular elective course will be available. Electives are offered on an approximately three-year rotation.

Additional courses from the core or electives in the M.S. in Sports Nutrition and Exercise Science may be selected with permission of the department Chairperson. Other courses may be acceptable from Gerontology, Psychology, or other departments with permission of the chairperson.

M.S. in Sports Nutrition and Exercise Science

The M.S. in Sports Nutrition and Exercise Science is jointly administered by the Department of Nutrition and Dietetics and the Department of Athletic Training/Exercise Science. Applicants to the program leading to a degree in Sports Nutrition and Exercise Science usually have an undergraduate degree in nutrition/dietetics or an exercise-related field. Individuals with other backgrounds are encouraged to apply with the understanding that they will need at least one year of anatomy and physiology (minimum six credits) and one chemistry course (minimum three credits) and one exercise physiology course (minimum three credits). These courses may be completed at Marywood during the first year of graduate coursework. GREs are required for admission into the program. The M.S. in Sports Nutrition and Exercise Science is a 36-credit program requiring 21 credits in core nutrition and exercise science courses, 9 credits in the research sequence, and 6 credits of electives. In addition to the required courses, the candidate must successfully complete and defend an original research project. Students, after consultation with the chairperson, will select a member of the Nutrition/Dietetics or Athletic Training/Exercise Science faculty as a mentor. The mentor and two other committee members will work with the candidate on an individual basis throughout the research project. A non-thesis option is also available.

These courses are examples of electives that might be available during a student's program. Students cannot be guaranteed that a particular elective course will be available. Electives are offered on an approximately three-year rotation.

Additional courses may be selected from graduate courses offered in Nutrition, Athletic Training/Exercise Science, or other departments with permission of the advisor.

Dietetic Internship (DI)

The Department of Nutrition and Dietetics at Marywood University offers a Dietetic Internship leading to achievement of the Accreditation Council for Education in Nutrition and Dietetics (ACEND) Competencies/Learning Outcomes with a Health Promotion and Wellness Concentration. The Marywood University Dietetic Internship is an accredited ACEND program. A copy of the accreditation approval standards and/or the commission's policy may be obtained by contacting ACEND staff at the Accreditation Council for Education in Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606, telephone number (312) 899-0040.

Mission Statement of the Dietetic Internship (DI)

The mission of the Dietetic Internship (DI) program is to prepare future leaders of the Academy who have experience, competences and values necessary not only for successful entry into today's job market but also needed for the possibilities for future specializations or academic studies.

This intent supports the mission of the College of Health and Human Services to prepare graduate students "to respect individuality and exhibit flexibility for best collaborative practices in emerging health and human service needs in a multicultural, interdependent, global environment" together with the mission of Marywood University that "calls upon students to seek their full potential and invites all to engage in a lifelong process of learning."

Program Goals and Outcomes

Goal 1: The DI program will prepare high-quality registered dietitians for employment in entry-level positions.

- 1a. Eighty percent of students enrolled in the DI program will complete all program requirements within 150 percent of the time planned for completion, which is 1.5 years (18 months).
- 1b. Over a five-year period >70 percent of program graduates who sought employment in dietetics will be employed within 12 months of the program's completion.
- 1c. Over a five-year period the program graduates, which includes the onsite, distance, and ISPP track, will have an 80 percent or above first-time pass rate on the RDN examination.
- 1d. On the one-year post-completion survey, 90 percent of the program's graduates will indicate they agree that they would recommend Marywood University's internship to others.
- 1e. Upon completion of the self-evaluation, >90 percent of the learning outcomes will be selected as at least moderately effective generating, a median value of >3.0.
- 1f. On the post-completion preceptor's survey, >90 percent of the preceptors will state the DI program compared favorably to other internship programs.
- 1g. One hundred percent of the students will achieve a pass rate of >80 percent or better on the program final exam.
- 1h. On the one-year post-completion employer survey, 90 percent of the knowledge/skill area will have a mean value of 2.0 or greater.

Goal 2: The DI program will prepare dietetic professionals for expanded professional opportunities and/or for further academic studies.

2a. On the five- and ten-year post-program completion survey, 90 percent will be professionally employed or enrolled in an academic program.

- 2b. On the five- and ten-year post-program completion survey, 10 percent of the respondents will have demonstrated professional leadership by being involved in the Nutrition and Dietetics profession.
- 2c. One hundred percent of the students will present an acceptable student portfolio and a course binder after each completed rotation.
- 2d. One hundred percent of the interns will develop and implement at least one health promotion/wellness program (such as a health fair, eating disorder education program, diabetes treatment, weight maintenance, etc.)

Admission to the Dietetic Internship

Students who have completed a didactic nutrition program approved by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) are eligible to apply. The DI program has 3 tracks:

- Onsite track.
- 2. Distance track. Students who live more than 125 miles from Marywood University are eligible to apply.
- 3. Individualized Supervised Practice Pathway (ISPP) which follows all the criteria and guidelines for the Distance Track.

Admission to the program is competitive. Ten students are usually selected each year in the onsite track, 15 students in the distance track, and two (2) students for the ISPP track.

The Marywood University Dietetic Internship program is participating in the Dietetic Internship Centralized Application System (DICAS) for the spring computer matching process.

Applicants to the Marywood University DI must participate in the April computer matching. Students must register for this online at: www.dnddigital.com, select dietetic internship priority, and pay the D and D Digital fee with a credit card, on or before the deadline date. Refer to D and D matching timeline at: www.dnddigital.com.

Contact information for D and D Digital Systems Inc.: 304 Main Street, Suite 301, Ames, Iowa 50010; Phone: 515-292-0490; Fax: 515-663-9427; E-mail: dnd@sigler.com.

The admissions decision is based on: 1) A completed Dietetic Internship Centralized Application (including GRE scores for the onsite track); 2) Marywood University graduate admission application; 3) registration online for D and D digital computer matching at www.dnddigital.com; 4) Additionally, distance track applications need signed preceptor agreement statements from all individuals who have agreed to precept planned experiences. Back-up preceptors are strongly encouraged. All students must be accepted by Graduate Admissions. Acceptance into a graduate program may come prior to internship decisions. Acceptance into an M.S. program does not guarantee internship acceptance.

Retention in the Dietetic Internship Program

Required maintenance of:

- 1. A satisfactory (B–) grade in all courses with a supervised practice component and at least a competent score in all learning outcomes.
- Satisfactory completion of all other required coursework with at least a B-average in all courses other than supervised practice. If the student intends to complete an M.S. degree, a B or 3.0 average is needed for degree conferral.
- 3. A student must have at least a B- average to receive a Verification Statement.

Completion

On successful completion of all the internship requirements, students will be awarded a Marywood University certificate of completion and a signed verification statement of internship completion. The DI verification statement is required to take the RDN Exam administrated by the Commission on Dietetic Registration (CDR).

Curriculum

The Dietetic Internship at Marywood University offers experiences in clinical dietetics (MNT), food systems management, long term care, and community nutrition. The supervised practice requires utilizing many health care facilities which, for the onsite track, are located in the greater Scranton/Wilkes-Barre area and, for the distance track, are located in the home area of the student.

The onsite internship requires 33 credits for completion. The distance track requires 18 credits. The cost per credit is listed in Marywood University Financial Facts.

The distance track provides modules/planned experiences through Moodle. The Moodle-based course complements the supervised practice with discussion forums, chat rooms, and web links.

Additional Costs After Acceptance

- 33 graduate credits for onsite and 18 graduate credits for distance and other posted fees.
- books for three semesters
- transportation for 3 semesters a car is necessary
- clothing for professional components
- medical exam and immunizations
- field trip expenses
- criminal background check
- FBI fingerprint check
- · child abuse check
- medical insurance
- a drug screen may be required by some facilitities
- malpractice insurance

Call Program Director for details.

Courses **Onsite Track** Summer II - 7 credits Fall Semester – 12 credits ND 566 Supervised Practice: Food Systems Management 6 **Spring Semester** – 14 credits *Didactic Component of Program **Distance Track** ND 565 Supervised Practice: Community Nutrition......4 **Program Calendar** Onsite Track Program begins in late June and lasts until early May - 10 months. January - March Staff Experience Rotation Mid March - Early April Distance Track The required course sequence is: ND 565 Supervised Practice: Community Nutrition ND 566 Supervised Practice: Food Systems Management ND 568 Supervised Practice: Clinical Dietetics/ MNT including Long Term Care (LTC)

ND 500 Professional Practice in Dietetics/Staff Relief

Courses (ND) and (SNES)

500 Professional Practice in Dietetics/Staff Relief (2)

Course includes the Dietetic Internship's Staff Relief Experience and the program's final exam, along with review of the CDR's domains for the registration examination. (Prerequisite: admission to the DI.)

501 Recent Trends in Medical Nutrition Therapy (3)

Study of recent advances and trends in medical literature which impact on the relationship of diet and nutrition to disease. Includes application of research, using case studies which involve integration of pathophysiology in disease with use of therapeutic diets.

502 Exercise Testing and Nutritional Assessment (3)

A review of techniques/procedures used during exercise testing and nutritional assessments. The course will include lectures in the classroom and demonstrations in the Human Physiology Lab, where students will correctly calibrate and use the lab equipment to assess the physical and nutritional status of clients.

503 Endocrine Disorders, Nutrition, and Exercise (3)

Study of recent developments in the dietary treatment of endocrine disorders, including mechanisms of action, interpretation of lab tests, pathophysiology of organ systems, and appropriate therapies with their application to nutrition and exercise.

504 Nutrition and Gerontology (3)

A study of physiological and biochemical changes of aging persons, nutrition requirements, and dietary management of the geriatric patient with special emphasis on nutrition management of individuals in a long-term care setting.

505 Maternal and Child Nutrition (3)

Nutritional needs during pregnancy and lactation for the normal growth and development of the fetus and infant. Dietary requirements postnatally for growth and development from infancy through the adolescent years.

506 Nutrition and Human Behavior (3)

An examination of the effects of diet on human behavior. Special emphasis on nutrition and central nervous system function including effects of diet on neurotransmitter synthesis.

507 International Nutrition (3)

An examination of the world food situation: analysis of current problems with presentation of possible solutions for both developed and developing nations.

509 Principles of Strength and Conditioning (3)

This course will provide an introduction to basic concepts of strength and conditioning, including the physiological adaptations to strength training, the design of appropriate strength and conditioning programs, and proper lifting and spotting

techniques. Classroom lectures will focus on the current body of knowledge within the field and will be complemented by experiences in the weight room.

510 Biomechanics (3)

This course provides the application of mechanical concepts to movement problems in sport, rehabilitation, and fitness. Anatomical and mechanical principles that effect human movement will be addressed.

511 Environmental Nutrition (3)

An examination of testing technology for evaluating the safety of substances applied to, or included in, foods; food-borne illness; toxicants occurring naturally in foods; pesticide contamination of food; toxicology of food additives and various commercial food processing technologies.

513 Exercise and Aging (3)

An analysis of the role of exercise and nutrition in the aging process. Course will include specific recommendations for healthy aging and the role of exercise in relations to various health conditions.

520 Recent Trends in Normal Nutrition (3)

A review of the medical literature and research pertaining to normal nutrition throughout the life cycle. Exploration of the relationship between food and health.

523 Immunology, Nutrition, and Exercise (3)

Examination of the interrelationships between diet, exercise, and immune function. Review of current scientific literature as it applies to nutritional and physical activity impact on the immune system.

525 Clinical Nutrition: Pharmacology and Fluid-Electrolyte Balance (3)

Basic concepts of pharmacology with special emphasis on drug and nutrient interactions. Maintenance of cell homeostasis through the interaction of water and electrolytes.

530 Health Promotion (3)

An overview of current health promotion/wellness techniques and programs designed to facilitate behavioral change. Emphasis on review of current scientific literature concerning the development, implementation, and evaluation of health promotion programming.

534 Private Practice in Nutrition, Exercise Science, and Health Promotion (3)

An examination of the various areas required to establish and maintain a successful private practice in nutrition, exercise, and health promotion.

536 Communication Techniques in Nutrition and Exercise (3)

Importance of modern and effective communication skills in management, teaching, and directing of students, clients, and employees. Special focus on the needs of the adult learner.

1

541 Nutrition and Women's Health (3)

The study of nutrition issues affecting women's health; focuses on normal and preventative nutrition and chronic diseases.

549 Sports Nutrition (3)

The interrelationships between physical fitness, athletic performance, nutrient intake, and nutritional status. Dietary recommendations for enhancement of human performance.

560 Biochemistry of Nutrition and Exercise (3)

Biochemical and physiological basis of nutrition at the cellular and organelle levels. Chemistry of carbohydrates, fats, proteins, nucleic acids, and enzymes with special focus on metabolic interrelationships and their effects on exercise.

565 Supervised Practice: Community Nutrition (6)

In-depth experiential course emphasizing various public and private resources for the delivery of nutrition education information to all stages of the life cycle. (Prerequisite: admission to DI.)

566 Supervised Practice: Food Systems Management (6)

In-depth experiential course emphasizing management theory and functions. Includes quantity food ordering, receiving, inventory, storage and production, tray assembly and delivery, equipment cleaning and maintenance, non-patient food services, manpower and scheduling, regulatory compliance, policies and procedures, labor management and training, and financial management. (Prerequisite: admission to the DI.)

568 Supervised Practice: Clinical Dietetics (6)

In-depth experiential course emphasizing nutrition care services in acute and long-term care facilities. Includes the roles of dietitians in patient care, practitioner skills in patient/client interviewing, and therapeutic approaches in treating disease. (Prerequisite: admission to the DI.)

572 Sports Psychology (3)

Introduction of psychological concepts relevant to competitive and recreational athletes. Topics will include motivation, aggression, skill acquisition and development of confidence. Special attention will be paid to those psychological techniques to speed recovery from injury and interventions to enhance performance.

574 Exercise Physiology (3)

Examination of physiological concepts related to exercise. Analysis of scientific basis underlying the relationship of metabolism, environmental stress, and body composition to optimal human performance.

575 Nutrition and Exercise for Weight Management (3)

Analysis of theories of eating behavior and weight control. Evaluation of various weight reduction and maintenance modalities. Special focus on the development and use of scientifically-based diet/weight control programs.

578 Sports Supplements (3)

An in-depth examination of dietary supplements used by athletes to enhance performance. Course will focus on evaluating current scientific literature, bridging the gap between laboratory findings and real-world athletics, and establishing recommendations for sport.

581 The Energy Nutrients and Alcohol (3)

Review of literature on carbohydrates, proteins, lipids and alcohol chemistry, digestion, absorption, and utilization. Examination of current issues involving energy nutrients and alcohol.

582 Vitamins and Minerals (3)

Physiological basis of the utilization of vitamins and minerals. Review of current scientific literature.

590 Research Methodology (3)

Introduction to methodology, design, and statistical applications in health science research. This course is intended to make the student a more informed consumer of the nutrition/dietetics research literature and to provide sufficient information for the design of a theoretically and methodologically sound study.

591 Statistical Analysis (3)

Application of statistics to data analysis and use of SPSS.

595 A, B, C Research Thesis (1, 1, 1)

The practical application of research design and statistical analysis related to the field of foods and nutrition. An individually-directed, in-depth research project. (Prerequisite or corequisite: approved research course and prior topic approval by department faculty.)

596 Capstone Experience (3)

Latest research on specific topics of present interest is synthesized, presented, and discussed. Course requires independent work and active participation in class discussions.

599 Independent Study (3)

A course or project designed to meet an individual student's interests and needs through primarily self-directed learning. Permission of chairperson is necessary prior to enrollment.

1

PHYSICIAN ASSISTANT PROGRAM

Director: Lori E. Swanchak, Ph.D., PA-C

Mission

The Physician Assistant (PA) Program at Marywood University is committed to providing students with an exceptional education in a supportive and nurturing environment.

This professional education will include the knowledge necessary to diagnose, treat, educate, and empower patients in a variety of settings, across the lifespan.

We acknowledge that patients are more than their physical bodies and so the program is dedicated to teaching students the appreciation of the patients' spirit, as well as caring for their bodies.

This program is committed to preparing the student to deal with the changing health care environment while promoting the PA profession.

Marywood's PA Program will emphasize the importance of sharing knowledge with future PA students, while providing leadership in the community. The Marywood University PA Program has an awareness of the need for quality health care, both regionally and globally: and this program will assist our students in carrying out Marywood's goal for all students — learning to live and practice responsibly in an interdependent world.

PA Program Objectives:

1. To provide students with the knowledge, skills and experience to be successful, competent Physician Assistants.

- 2. To prepare students to participate as effective members of an interdisciplinary healthcare team in the promotion of health, prevention of illness, and care of diverse populations across the lifespan.
- 3. To develop effective interpersonal and communication skills within the medical community.
- 4. To encourage students to incorporate Marywood University's goal of learning to live and practice medicine responsibly in an interdependent world.
- 5. To develop as professionals and leaders at local, state, and national levels, shaping future policy and legislation to promote Physician Assistant practice.

Academic Flexibility

Multiple Points of Entry:

- Enter as a *Freshman* Five-year program
- Enter as a *Transfer* Two- to five-year program based on approved credits for advanced standing
- Enter as a *Graduate Student* Those with a B.S. may earn their master's degree in PA studies after 24 months.

Program Overview

The five-year program consists of two distinct phases: The *Pre-Professional Phase* (years 1-3), and the *Professional Phase* (years 4-5). The curriculum for the Professional phase is further divided into a Didactic and Clinical period.

The Pre-Professional Phase

During this phase of the program students undertake a period of study to meet the liberal arts core requirements and the science requirements to prepare for admittance to the Professional phase of the program. A description of this program can be found in the undergraduate catalog.

The Professional Phase

This consists of 24 months of continuous study in the clinical sciences. The first 12 months are **didactic** and include classroom and laboratory work in basic and applied medical science. The final 12 months are **clinical** rotations. These are performed at local, regional, and national clinical sites such as hospitals and medical offices, providing experiences in the areas of pediatrics, surgery, orthopedic surgery, obstetrics and gynecology, psychiatry, and emergency room medicine. During this phase students will be required to complete a Professional Contribution paper/project or Thesis.

Clinical Concentration/Specialty Track Options

In the **fifth year** of the program, eligible students will be able to apply for specialty tracks to focus their clinical exposure and acumen. These tracks are General

Medicine (Primary Care), Orthopedics/Sports Medicine, Hospitalist (In-patient Medicine), Pediatrics, General Surgery, and Emergency Medicine. Students will have to apply to the Specialty track of interest, and enrollment will be limited. The tracks serve to allow students an opportunity to refine their clinical abilities within an area of specialization. These tracks do not make a student a specialist. No certification is conferred beyond that of the M.S. in PA Studies.

The Professional Phase Requirements:

The successful completion of the Pre-Professional Phase at Marywood University or a bachelor's degree from another college or university.

- A minimum overall OPA of 3.00
- A minimum overall QPA of 3.00 in the following required science courses:
 - 2 semesters of General Chemistry with labs
 - 2 semesters of General Biology with labs
 - 1 semester of Microbiology with lab
 - 2 semesters of Anatomy and Physiology with labs
 - 2 semesters of Organic Chemistry with labs
 - Medical Terminology course
 - In most cases these courses must have been completed within the last seven years
- GRE scores
- Three letters of recommendation
- A minimum of 500 documented direct patient care hours
- A minimum of 50 hours shadowing a PA is recommended
- Completion of Technical Standards (upon acceptance to the program)
- Submission of an application through CASPA (Centralized Application Service for Physician Assistants). The application deadline is November 1.
- Successful interview by the Physician Assistant Selection Committee. Final acceptance to the Professional Phase is ultimately based not only on performance in the prerequisite sciences and overall academic performance but also on the student's desire for and understanding of the profession, clinical experience, demonstration of maturity, self-confidence, and good interpersonal skills.
- Marywood University currently does not accept transfer credits from other Professional PA Programs nor does Marywood offer advanced placement or credit for experiential learning.
- Due to Affiliation Agreements with clinical sites, several background checks and screenings are required.

Degree Conferral and Certification

Those students entering the program as undergraduates will be awarded the B.S. in Pre-Physician Assistant Studies upon successful completion of the PA curriculum

through year four. Students successfully completing the Professional Phase (years four and five) of the PA Program are awarded the Master of Science degree in Physician Assistant Studies and are eligible to take the Physician Assistant National Certifying Examination (PANCE) administered by the National Commission on Certification of Physician Assistants. Once a candidate passes the examination, he/she is certified to perform a broad range of diagnostic and therapeutic services under the supervision of a licensed physician.

Accreditation and Memberships

Marywood University's Physician Assistant Program is fully accredited by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA). We are institutional members of the Association of Physician Assistant Programs (APAP) and The American Academy of Physician Assistants (AAPA), the only national organization that represents physician assistants in all specialties and all employment settings.

Courses (PA)

501 Clinical Correlations I (2)

This course will include presentations and discussions by guest lecturers on end-of-life care, cultural diversity, HIPAA, ICD-10 coding/billing, dealing with the stress of illness/injury, counseling families, and legal issues. Case studies, readings, and group discussions will be used to focus on issues of concern to physician assistants. Community clinical experiences will be assigned in conjunction with the course.

502 Clinical Correlations II (2)

This course will include presentations and discussions by guest lecturers on end-of-life care, cultural diversity, HIPAA, ICD-10 coding/billing, dealing with the stress of illness/injury, counseling families, and legal issues. Case studies, readings, and group discussions will be used to focus on issues of concern to physician assistants. Community clinical experiences will be assigned in conjunction with the course.

503 Culturally Competent Medicine and Underserved Populations (2)

This course will begin with an examination of the concepts and principles of epidemiology, the medical science that focuses on the distribution and determinants of disease frequency in populations. This course will discuss cultural competence and examine disparities in health among protected populations and identify the potential impact on clinical decision making. Students will develop an understanding of principles and practice of medical ethics in research, to include the Professional Code of Ethics. Students will also learn about changes that are associated with the elderly and geriatric population. Emphasis will be placed on the normal changes associated with aging, so that the student may appreciate abnormal findings and develop appropriate treatment and management plans. Lastly, this

1

course will analyze the impact of racial, ethnic, religious, gender, sexual orientation, and socioeconomic health disparities in health care delivery and management.

510 Clinical Assessment and Diagnosis I (4)

This course is designed to provide students with the background and skills needed to make accurate assessments and diagnoses using detailed history-taking and an appropriate and thorough physical exam. The course will be taught using a system-based approach, incorporating lecture, audio-visual aids, teaching models, and clinical laboratory sessions. Practical experience will enable the student to become more proficient in the technique of history-taking and physical examination findings.

511 Clinical Assessment and Diagnosis II (4)

A continuation of PA 510. The PA student will further develop and refine skills in history-taking and physical examination. This course will include systems not covered in PA 510, and signs and symptoms of disease processes relevant to these systems. Clinical assessment skills will continue to be developed.

512 Clinical Assessment and Diagnosis III (2)

This course is a continuation of the detailed instruction of history-taking and physical examination techniques, as well as the formulation of differential diagnoses. The student will further integrate interviewing skills and examination techniques, through patient simulation and case studies.

520A Pathophysiology I (2)

Disease processes will be presented with regard to definition or description of the disease, etiology, pathogenesis, pathology, clinical features, and therapy or prognosis.

521A Pathophysiology II (2)

Disease processes will be presented with regard to definition or description of the disease, etiology, pathogenesis, pathology, clinical features, and therapy or prognosis.

522 Medical Anatomy and Physiology (4)

Course delivered at The Commonwealth Medical College

Medical Anatomy and Physiology is an intense ten-week course that will take the student through the anatomical and physiological aspects of the human body via a systems-based approach. The instructional material will be presented in a multidisciplinary format to foster the integration of the basic disciplines of Gross Anatomy (full cadaver dissection), Histology, Embryology, Clinical Anatomy (which will include the surface anatomy and the physical examination), Radiological Anatomy, and Case-based Physiology. The integration of these disciplines requires lectures, tutorials, and clinical case lectures as well as active learning with full cadaver dissection experiences in the Gross Anatomy Laboratory. Students will also learn how to "read" and interpret normal medical images and locate important geographic landmarks within the body.

530 Clinical Medicine I (3)

This course includes instruction in disease processes as they relate to specific organ systems. Signs and symptoms of various diseases, diagnostic procedures, and therapeutic measures used in treating diseases will be covered. Instruction will be received in common disorders of the skeletal system.

531 Clinical Medicine II (2)

This course includes instruction in disease processes as they relate to specific organ systems. Signs and symptoms of various diseases, diagnostic procedures, and therapeutic measures used in treating diseases will be covered. Instruction will be received in common disorders of the skeletal system.

533 Clinical Medicine III (3)

This course is a continuation of Clinical Medicine I and II. The purpose of the Clinical Medicine III course is to introduce the student to clinical conditions commonly encountered in practicing medicine to people across the lifespan. Lectures will emphasize the epidemiology, pathophysiology, presentation, disease course, diagnostic methods, treatment modalities, and prognosis of each medical topic. This course teaches all listed diseases by system and specialty. Topics for the course will include the following: gastroenterology, endocrinology, neurology, and urology/nephrology.

540 Medical Microbiology (1)

Medical microbiology will review the basics of bacteriology and virology. This course will instruct the student in common infectious agents in each of the systems of the human body. There will be a review of human immunodeficiency virus (HIV) and acquired immune deficiency syndrome (AIDS).

542 Laboratory Medicine I (1)

Developing an understanding of various laboratory tests used in the diagnosis of disease including disturbances of the hematologic system, the coagulation system, immunohematology, and medical microbiology.

543 EKG Interpretation (1)

Interpretation of 12 lead EKG including electro-physiology, axis, rate and rhythm, as well as differential diagnosis of arrhythmias.

544 Radiology (1)

Introduction to diagnostic imaging with radiographic studies, CT scan, and MRI. Recognition of normal and abnormal findings and rationale for ordering appropriate studies.

545 Laboratory Medicine II (1)

This is a continuation of PA 542. Developing an understanding of various laboratory tests used in the diagnosis of disease including disturbances of the hematologic system, the coagulation system, immunohematology, and medical microbiology.

1

547 Critical Care Medicine (1)

Covers acute and critical care medicine, emphasizing cardiac and pulmonary disease processes, treatment and management in the ICU setting.

550 Pharmacology I (1)

Pharmacology I includes pharmacokinetics, mechanisms of action, therapeutic use, adverse effects of major drug classes and prescription rationale.

551 Pharmacology II (3)

Pharmacology II will continue to instruct students in therapeutic regimens related to drugs classes.

552 Emergency Medicine (1)

Emergency medicine covers recognition of emergent conditions, complaints, signs and symptoms, examination findings, diagnostic modalities, differentials, treatment, and management plans. The Surgery course will cover commonly encountered surgical protocols of common diseases with an emphasis on surgical anatomy, pre, intra-, and post-operative care, surgical approaches, and considerations.

553 General Surgery (1)

The Surgery course will cover commonly encountered surgical protocols of common diseases with an emphasis on surgical anatomy, pre-, intra-, and post-operative care, surgical approaches and considerations.

554 Medical Nutrition (1)

Medical nutrition includes basics of nutrition, needs and issues throughout the lifespan, and caloric and nutritional needs of the ill.

562 Psychiatry (1)

The Psychiatry component covers the recognition, assessment, diagnosis, treatment, referral, and education of patients with behavioral and mental disorders encountered in a primary care setting.

563 Professional Practice (2)

This course will explore the contemporary problems in medicine, trends, and the history of the PA profession. It will also assist the student in examining all facets of the current issues in medicine, organization, administration, and function of health care systems and the health care team. In addition, students will explore ethical issues in the context of human values and conduct as they relate to the health sciences and allied health fields. The research methods section of this course is designed to introduce the physician assistant student to the utility, interpretation, and application of medical research methods.

571 Pediatrics I (1)

Pediatrics I will review systems, history, and examination techniques, disease processes, diagnosis, differentials, and treatment of infants, children, and adolescents.

573 Pediatrics II (1)

Pediatrics II will continue to instruct the students on pediatric development, disease presentation and processes, diagnosis, treatment, referral, prognosis, and education.

574 Obstetrics and Gynecology (1)

Ob/GYN will introduce lifestyle changes, pregnancy, delivery, gynecological disorders, diagnosis, treatment, and education.

Clinical Phase

Involves 10 clinical rotations.

Rotations are clinical courses that provide the PA student with experience in inpatient and/or outpatient medicine in the areas of Emergency Medicine, Orthopedics, Pediatrics, General Surgery, Women's Health, Psychiatry, and an elective. The student will be assigned to the department or facility and work directly with the supervision of the preceptor. The student medically evaluates patients and follows their progress; thereby developing the ability to elicit historical and physical findings, correlate those findings along with the patients' physiologic and biochemical data and emotional state, in order to develop an appropriate treatment plan for patient management. The ability to analyze, synthesize, and make decisions is one of the primary objectives of these clinical experiences. The student is given opportunities to develop skills and demonstrate competency in performing and interpreting certain medical procedures and tasks.

600 Clinical Rotation 1

609 Clinical Rotation 10

COLLEGE OF HEALTH AND HUMAN SERVICES SCHOOL OF SOCIAL WORK

SOCIAL WORK PROGRAMS

Director: Stephen C. Burke, Ph.D.

Master of Social Work Program

Mission Statement

The Marywood University School of Social Work M.S.W. Program, rooted in the University's core values of Catholic identity, respect, empowerment, service, and excellence, is committed to an accessible education which prepares advanced, ethical social work practitioners and leaders. Utilizing a social justice lens and global perspective, the program prepares culturally responsive social work practitioners to provide competent, evidence-informed, interprofessional collaborative services to diverse client systems, with particular attention to the oppressed and marginalized. The program is dedicated to creating an inclusive learning environment which values diversity and difference.

Curriculum Structure

The Master of Social Work curriculum is organized as an integrated whole, including foundation and advanced content. It is designed to prepare graduates for advanced practice. Each semester builds upon knowledge from the previous semester, and the completion of the foundation content is preparatory to advanced content with opportunities for specializations.

A system of organizing principles threads throughout the curriculum to form a foundation based upon the ecological perspective, social work values and ethics, appreciation of diversity, social and economic justice, the strengths perspective, professional use of self, systematic mode of inquiry, and populations at risk.

The Master of Social Work (M.S.W.) is a 60-credit program and can be earned in two years of full-time study or three years of part-time study. The program has been accredited by the Council on Social Work Education (CSWE) since 1969.

Course of Instruction

The courses of the M.S.W. degree curriculum may be classified generally into two categories: those in the foundation curriculum and those that provide opportunity for advanced study. Listed below are the course descriptions for the foundation curriculum and information about elective courses. The School of Social Work reserves the right to modify or change the courses of instruction.

500 number courses are in Social Work Practice and include field education.

600 number courses are in the area of Human Behavior and the Social Environment.

700 number courses are in the Social Work Research curriculum area.

800 number courses are in Social Welfare Policy and Services.

900 number courses are in areas of practice or fields of practice or indicate courses that are interdisciplinary.

Foundation Curriculum

SW 500 Professional Foundations: Educating for Tomorrow's Practice	. 3
SW 501 Practice I: Social Work Practice with Individuals and Families	. 3
SW 502 Practice II: Social Work Practice with Groups	. 3
SW 503 Practice III: Social Work Practice with	
Communities and Organizations	. 3
SW 591 Field Education I: Foundation Field	. 3
SW 592 Field Education II: Foundation Field	. 3
SW 601 Human Behavior I	. 3
SW 621 Social Work Perspectives on Psychopathology	. 3
SW 701 Research I	
SW 702 Research II	. 3
SW 801 Social Justice, Welfare Policy, and Professional Legacy	. 3
SW 971 Ethical Issues in Social Work Practice	

Advanced Curriculum

As students move to more advanced levels of their studies, more specialized courses are offered to assist in the acquisition of knowledge and skills in greater depth.

In addition, students may elect a specialization in Behavioral Health, Child and Family Studies, or Administration by choosing specific electives and completing a field placement offering experience in that practice area.

Advanced Curriculum

SW 504 Practice IV: Advanced Social Work Practice with	
Individuals and Families	. 3
SW 505 Practice V: Administration in Social Work	. 3
SW 506 Practice VI: Culminating Integrative Seminar	. 3
SW 595 Field Education III: Advanced Practice	. 3
SW 596 Field Education IV: Advanced Practice	. 3
SW 802 Social Policy Advocacy	. 3

Electives

Electives allow study of a particular intervention methodology or area of significance for social work and usually follow completion of foundation coursework. The M.S.W. Program offers a range of elective choices to respond flexibly to priority concerns and emerging issues in social welfare, in accord with faculty resources and student interests.

SW 535 C	Child Welfare Practice and Services	3
SW 536 S	Social Work Practice with Children	3
	Family Focused Social Work Practice	
	Supervision in Social Work Practice	
	Critical Issues in Chemical Dependence	
	Social Work Thesis	
	Social Work Perspectives on Trauma	
	Vomen's Issues in the Practice of Social Work	
SW 920 S	Spiritual and Religious Dimensions of Social Work Practice	3
SW 925 C	Critical Issues in Ethnic and Racial Experience	3
SW 940 C	Current Issues in Developmental and Physical Disabilities for	
Social Wo	orkers	3
	Concepts and Issues in Gerontology	
	ndependent Study	
SW 950I I	International Independent Study	Variable
	Human Sexuality: Issues for Social Work	
	Global Perspectives on Social & Administrative Practice	

Advanced Standing

Students who have earned a B.S.W. in a CSWE-accredited program may be eligible for advanced standing. Based on the review of the student's undergraduate transcript, up to 21 credits may be applied to the foundation year of the M.S.W. program. Students must have earned a minimum grade of "B" for the individual course to be considered for advanced standing.

Independent Study

Independent study is open to students who have completed one year of full-time or the equivalent part-time study in Marywood's Master of Social Work program. A 3.50 quality point average is required in order to be eligible. No more than two independent study courses may be taken by non-advanced-standing students, or one by advanced-standing students during their Master of Social Work programs. Only one independent study may be taken per semester, and no more than one independent study may be taken with any given faculty member.

Independent study courses may be taken for variable credit (one-, two- or three-credit hours). The exact number of credits assigned to a particular course is determined by the faculty member who agrees to monitor and evaluate the student's performance. The determination of credit hours is consistent with the purpose, the nature, and the extent of the proposed independent study. All independent

study courses must be of comparable rigor to other courses in the curriculum of similar value.

Field Education

In addition to classroom courses, Field Education is an essential and integral part of the M.S.W. program. Through the Field Education experience students engage in experiential, collaborative, and integrative learning through practice in a field placement setting, under the supervision of a qualified Field Instructor and with the support of a Faculty Field Liaison from the M.S.W. program. The Field Education experience provides students with the opportunity to bridge and apply classroom theory, knowledge, and practice skills in real-life practice situations while developing professional competence and a professional identity.

Students complete a total of 920 hours of Field, 440 hours over two semesters in their Foundation Field placement (first-year Field) and 480 hours over two semesters in their Advanced Practice Field placement (second-year Field). Students with a B.S.W. degree who receive Advanced Standing status for Foundation Field complete a total 480 hours in an Advanced Practice Field Placement. Foundation Field placements must be taken concurrently with core practice methods courses, since a primary objective of the field experience is to facilitate the integration of practice learning with theoretical content. Advanced Practice placements are normally taken concurrently with Advanced Theory and Practice courses.

Placement decisions involve collaboration between the Director of Field Education for the student's respective program and the student in order to select a field setting that meets the student's interests, provides appropriate learning opportunities, and whose location and operating hours are accessible to the student. Students do not arrange their own field placements.

The M.S.W. Program has field placement opportunities throughout Pennsylvania, the Southern Tier and upstate New York, and New Jersey, providing a variety of social work practice experiences. Assignment of placements is at the discretion of the Director of Field Education.

Students with full- or part-time employment have the opportunity to do employer-based placements which utilize field learning opportunities through their employer. This option may be available for those who work in agencies able to provide the equivalent of a social work experience that is different from the student's employment responsibilities. The student must have been employed by the agency for a minimum of six months.

Approval for an employer-based field placement is based on the Field Education Department's evaluation of a comprehensive plan submitted by the student and the agency as part of the placement process.

The Field Education Office **requires** all students registering for field experience to obtain Criminal Background Check, FBI Clearance, and Child Abuse Clearance. Students in the M.S.W. Program should recognize that a negative information report in any background check may:

- disqualify a student from placement at a field education site of his/her choice.
- bar a graduate of the program from obtaining a license to practice as a social worker.
- Inability to obtain an appropriate placement may lead to dismissal from the program or otherwise prevent the student from obtaining a degree.

Students should be aware that state licensing boards, many employers, and many Field education placement agency administrators require background checks for M.S.W. students and professional social workers. These checks include State Police, FBI, child abuse, current health, or other requirements particular to the work the student or social worker may be expected to do.

Students with circumstances in their backgrounds that may emerge during background checks are encouraged to discuss the potential implications of these circumstances with the Director of Field Education for their program.

In addition, many agencies require medical exams, immunizations, and drug testing. Students are required to comply with individual agency requirements and are responsible for any associated costs in completing the requirements. Agency requirements must be met prior to the beginning of a field placement.

Standard for Ethical Behavior

The **National Association of Social Workers** (NASW) Code of Ethics is the established standard of ethical behavior for professional social workers. Students in the Social Work Program are preparing for positions of professional responsibility, and their conduct while students is guided by this code. Students are referred for further information about the Code to the Student Handbook, to the Field Manual, and to the NASW publication, "Code of Ethics," available from NASW online.

Suitability for Professional Social Work

An Academic and Professional Standards Review Committee is established when concerns arise pertaining to the academic or professional performance of individual students. The committee is responsible for gathering and evaluating information concerning the student's academic and professional performance for the purpose of formulating recommendations to the director for resolution of these situations. Recommended resolutions may include: 1) continuation in the program in good standing without remedial action; 2) continuation in the program in good standing contingent on successful completion of remedial action; and 3) dismissal from the program. The committee does not reconsider grades.

Formal review by an Academic and Professional Standards Review Committee will occur for any of the following reasons:

- 1. Alleged violation of the Code of Ethics of the National Association of Social Workers by written report from the field instructor, faculty liaison, educational coordinator, faculty member, or peer.
- Alleged violation of the Code of Academic Honesty of Marywood University by written report from the field instructor, faculty liaison, educational coordinator, faculty member, or peer.

- Alleged failure to demonstrate the capacity to engage in appropriate social work roles, by written report from the field instructor, faculty liaison, educational coordinator, faculty member, or peer.
- Attainment of an F or U grade in a course or field placement or a semester GPA 2.85 or below.

Academic and Professional Standards Review procedures are detailed in the School of Social Work Student Handbook.

Program Plans

The M.S.W. Program at Marywood has developed full- and part-time program plans for persons seeking the degree: Standard full-time and part-time and Advanced Standing full-time and part-time. All plans have the same standards and require both classroom study and field education, working under supervision in a social work setting.

Full-time programs are available on weekdays at Marywood University in Scranton, and evenings in the Lehigh Valley Center at DeSales University. Part-time programs are available on Saturdays in Scranton at Marywood University, evenings in the Lehigh Valley at DeSales University, and Saturdays in Central Pennsylvania at Bloomsburg University and in the Pocono Pennsylvania area at East Stroudsburg University.

Dual Degree Programs: M.S.W./M.P.A., M.S.W./M.H.S.A., M.S.W./M.S. Gerontology

These programs are designed for those who wish to combine the development of administrative and managerial expertise in defined service areas—public or non-profit agency administration, health services administration, or gerontological services administration—with the knowledge, skills, and values of the social work profession. The joint focus prepares students for a range of professional options and opportunities. Participation in a dual degree program permits the student to earn the M.S.W. degree with the M.P.A., M.H.S.A., or M.S. Gerontology at Marywood University in a manner that expedites the time required, by crediting some work earned for one degree to the requirements of the other.

M.S.W./Master in Clinical Counseling and M.S.W./Master in Divinity

Dual degree programs have been established with Moravian Theological Seminary. Students must apply to each school separately and be accepted by each. Several courses taken in each program are credited to the degree requirements in the other, allowing persons to earn either pair of degrees jointly with fewer credits than if taken separately.

Home and School Visitor Certification

Pennsylvania Department of Education (PDE) Home and School Visitor Certification coursework can be completed in combination with the M.S.W., Post-

M.S.W., or through a separate Home and School Certification program only, which is a 40-credit course of study. The certification curriculum is presented as an interprofessional preparation for social work practice in elementary and secondary schools in Pennsylvania.

Students develop the competencies required for certification through coursework in both the School of Social Work and in the Education Department of the Reap College of Education and Human Development. A total of six specific education courses are required (18 credits) in addition to the M.S.W. coursework.

Preparation for certification includes a minimum 360 hours of supervised social work practice in school settings. M.S.W. and HSV Certification only candidates will accomplish the practice requirement through first-year field placements; Post-M.S.W. certification candidates who have completed a school-based field placement have met the requirement or can complete a 360-hour field placement in a school setting.

International Study Opportunities

The Marywood University M.S.W. Program offers students opportunities for international social work with various agencies. To qualify, a student must have completed the equivalent of half of the M.S.W. program, be returning the following September, and have a QPA of 3.50 or higher. The placement agencies have education and experience requirements. The positions are all volunteer, and travel and any other costs are at the student's own expense. The following September, the student registers to complete an independent study under the supervision of a member of the M.S.W. faculty, based upon some aspect of the international experience. The independent study fulfills an elective requirement.

It is possible to earn field education credit in an international placement. The requisite coursework may be arranged to be taken concurrently at a university in the country where the student is placed. Placement can be developed for well-qualified students in a variety of international settings, but fluency in the language of the client system of the field placement is essential.

Transfer of Credits and Credit for Life or Work Experience

Only credits earned in CSWE-accredited schools of social work are accepted for transfer. Prior to enrolling in the Marywood University M.S.W. Program, a student may request the transfer of up to twenty-one (21) credits.

When an applicant requests transfer of credits from another accredited M.S.W. program, the following considerations will apply. Each application will be evaluated on its own merits. Credits may be transferred provided the work is at the level of 3.00 or better on a 4.00 point scale, at least three graduate level credits, deemed relevant to the student's area of concentration, and completed not more than five years prior to the date of application. All decisions regarding the acceptability of courses transferred into the M.S.W. Program from another institution will be the responsibility of the Director in consultation with appropriate faculty in the area of the curriculum in which the course falls. It is the responsibility of the applicant to

have an official copy of the transcript, listing the courses for which transfer credit is sought, sent to the Admissions Office along with a detailed description, or syllabus, of the courses in question.

Once enrolled in the M.S.W. Program, a student may request transfer of up to six (6) credits of electives that were earned in accredited schools of social work subsequent to the student's enrollment at Marywood. The same grade requirements as above must be met.

The School of Social Work does not grant academic credit for life or work experience.

Courses (SW)

Foundation Courses

500 Professional Foundations: Educating for Tomorrow's Practice (3)

This course will employ community agency-based case studies as vehicles to explore connections between foundation practice behaviors and the practice behaviors characteristic of the Advanced Concentration curriculum of the M.S.W. Program. Additionally, the course itself will be a learning experience as class sessions will be conducted as a task—centered learning group with the discussions, presentations, and projects serving as material for reflection and demonstration of group process.

Course-pack materials, journal articles, media content, instructor/student presentations, team interactions, and class projects will be utilized to illuminate how ethics, a policy advocacy role, and foundation practice skills inform the assessment, engagement, and evaluation practice behaviors characteristic of the Advanced Concentration curriculum of the M.S.W. Program. (For new Advanced Standing Students Only)

501 Practice I: Social Work Practice with Individuals and Families (3)

This course introduces the student to conceptual frameworks that encompass practice with all levels of client systems. Students use critical thinking skills to assess client systems, develop intervention strategies, and evaluate practice using a scientific mode of inquiry. Professional relationship, ethical practice, diversity, social and economic justice, professional use of self, problem-solving process, and organizational context for practice are stressed. Focus is on work with individuals and families. This course is taken concurrently with SW 591 and integrates practice experience and course learning. (Prerequisites: SW 601, SW 801; Co-requisite: SW 591.)

502 Practice II: Social Work Practice with Groups (3)

SW 502 Practice II is the second course in Practice Core Content Area. Following the foundation knowledge presented in SW 501 Practice I, this course continues to focus on the utilization of conceptual frameworks, including the ecological perspective (i.e., Life Model), interactional approach, and strengths perspective to assess support, therapy and task groups. This course is taken concurrently with SW

Field 592 and integrates practice experience and course learning. (Prerequisites: SW 501 and SW 591.) (Co-requisite: SW 592)

503 Practice III: Social Work Practice with Communities and Organizations (3)

SW 503 Practice III focuses on the theories relevant to understanding the macro functions of communities, organizations, and institutions from a generalist perspective. This course enables students to: 1) understand and apply theories, 2) analyze social organizations and community's needs, and 3) apply phases and skills of developing strategies of the change process in community practice, in collaboration with communities and organizations. In addition, students will be encouraged to examine how their own learning and values impact their understanding of and practice at the mezo, exo, and macro levels. (Prerequisites: SW 601)

591 Field Education I: Foundation Field (3) and 592 Field Education II: Foundation Field (3)

Students must complete a total of 440 clock hours in the foundation year of field practice in an approved field setting. The goal is to foster understanding of the organizational context and social, economic, environmental, and cultural factors with which client systems interact. Students learn the fundamental role of social work values and ethics, identify issues of social and economic justice for oppressed and at-risk persons, and develop a professional identity as they engage in competency-based social work practice learning. The field experience allows the student a social work practice opportunity to promote the development of knowledge, skills, and values of social work and fosters the integration of classroom theoretical learning. SW 591 is taken concurrently with SW 501 and SW 592 with SW 502. (Prerequisite for 591: SW 601 and SW 801 or taking SW 601 and SW 801 concurrently. Prerequisite for 592: SW 591.)

601 Human Behavior (3)

This is an introduction to biopsychosocial-spiritual factors important to understanding and assessing human growth, personal development, and behavior over the life span. Focus is on interactions among individuals, families, groups, and the social system, and diverse, vulnerable, and oppressed populations.

SW 621 Social Work Perspectives on Psychopathology (3)

This course allows students to identify and develop an understanding of the issues inherent in the study and assessment of individual behavior. The course reviews several explanations of causes of "abnormal" behavior and ways in which such behavior can be classified. One of the major tensions in this area is whether abnormal behavior is learned or has a physio-chemical basis. Major diagnostic groups are addressed within the framework of the DSM V TR classification system. PIE will be introduced as an alternative framework. The inclusion of the strengths perspective counters an obvious shortcoming of DSM V. (Prerequisite or Corequisite: SW 601)

701 Social Work Research: Design and Methodology (3)

This course introduces principles and methods of conducting and evaluating social research, the importance of ethical issues related to research, and qualitative and quantitative methodologies. It includes examination of selected literature relevant to issues of social and economic justice, diversity, and systems of various sizes.

702 Social Work Research: Implementation and Analysis (3)

Overview of the role and function of qualitative and quantitative analyses in addressing research questions and testing hypotheses. Examines approaches to qualitative analysis and the logic behind the application of descriptive and inferential statistical analyses. Examines analytical techniques and the unbiased interpretation of results as they relate to issues of diversity, oppression, and populations at risk. Students learn to use statistical software for processing data and apply theoretical and methodological materials in a required research report. (Prerequisite: SW 701.) Students must take both courses with the same professor.

801 Social Justice, Welfare Policy, and Professional Legacy (3)

This is the first of two required policy courses. Examination of the history and development of U.S. social welfare programs and policies as they pertain to marginalized groups of people and populations-at-risk. Present day policies are analyzed through the lenses of history and contemporary economic, social, political, value, and spiritual milieus. By using professional ethics and value and cross-cultural knowledge as foundation, the rich contribution and strengths of a diverse range of individuals and groups, in particular women and people of color, are brought to bear in evidence-based analyses of historical and contemporary policy.

971 Ethical Issues in Social Work Practice (3)

This course has been designed to foster sensitivity to ethical concerns and to provide knowledge and experience in ethical decision-making. Students will become familiar with the philosophical base of Social Work ethics and the profession's Code of Ethics. Ethical principles and models of ethical decision-making grounded by critical thinking will be presented in relation to case materials reflecting a variety of issues, levels of practice, a diversity of populations, and social justice concerns.

Advanced Curriculum

504 Practice IV: Advanced Social Work Practice with Individuals and Families (3)

This course presents theories and techniques applicable to social work practice with individuals and families, including those from diverse and at-risk populations. Field education experiences serve as basis for integration and application of theories, assessment of the cultural competence of their interventions with specific populations, examination of strengths and limitations of evidence-based practice, and articulate a personal practice stance. This course is taken concurrently with SW 595. (Prerequisites: SW 501, SW 591, SW 592, SW 592, SW 503.)

505 Practice V: Administration in Social Work (3)

Focus on social work practice from an administrative perspective, including theories and principles of culturally competent management and organization issues in administration, within the context of professional social work. Includes consideration of social and economic justice and ethical imperatives and influences of funding patterns, legislation, organizational culture, and structure on program planning and implementation. (Prerequisites: SW 501, SW 502, SW 503, SW 591, and SW 592.)

506 Practice VI: Culminating Integrative Seminar (3)

This course builds on foundation content and theoretical perspectives explored in SW 504. It offers advanced skills in differential interventions with a variety of systems and focuses on post-modern and trauma-informed practice, in addition to theories of loss and grief, as theoretical bases for assessment, intervention, and evaluation. As well, it promotes self-reflective practice and a knowledge of supervision. The course examines discrimination and oppression and the complex interface between individual, family, and group needs within an organizational context. (Prerequisite: SW 501, SW 502, SW 503, SW 504, SW 591, SW 592, SW 595, SW 601, SW 701, SW 801, SW 971.)

595 Field Education III: Advanced Practice (3) and 596 Field Education IV: Advanced Practice (3)

Students must have successfully completed SW 591 and SW 592 as this field education placement in the advanced curriculum builds on the knowledge and skills gained in the foundation field education placement. Students gain additional experience working with individuals, families, small groups, communities, and organizations within the political, social, administrative, and cultural context of the setting as they engage in advanced competency-based social work practice behaviors. Students experience social work practice around issues of social and economic justice within organizational and community contexts and address these issues around policy or program development and evaluation. Students must complete 480 clock hours in the advanced practice year in their field setting. This field experience would be in a different setting than the one in the foundation year and allows the student another social work practice opportunity to continue the development of knowledge, skills, and values of social work education. (Prerequisite for SW 595: SW 592) (Co-requisite: SW 504) (Prerequisite for SW 596: SW 595) (Co-requisite: SW 506)

802 Social Policy Advocacy (3)

This course teaches policy practice skills that enable students to use evidence-based data to frame for intervention social issues that affect the lives of marginalized groups of people and populations-at-risk. Using professional values and ethics and the employment of critical thinking skills as a base, students will demonstrate their ability to evaluate the effectiveness of culturally competent policy practice interventions. (Prerequisites: SW 502, SW 503, SW 504, SW 505, SW 591, SW 592, SW 595, SW 601, SW 801, SW 701, SW 702, SW 971.)

Electives

532 Advanced Administration in Social Work Practice: Program Development and Evaluation (3)

This course develops additional management competencies, with emphasis on the role of middle management and its relationship to social and economic justice, especially internal and external resource development. The course examines issues of cultural and social diversity as they affect the constituency served by the agency in relation to its mission. Students apply research and evaluation principles in examining access to service, quality of service, and cost/benefit of services. Includes a review of nonprofit fiscal management, budgeting, social marketing, and resource development as a component of program development and evaluation. (Prequisites: SW 501, 502, 503.)

535 Child Welfare Practice and Services (3)

The course provides an historical and theoretical framework for understanding the ecological context of child welfare practice. The societal values which shape current policy and legislation are considered in addition to the concepts of strength and resilience as underlying philosophies of effective, family-focused interventions. The course also examines evaluative research in child welfare and differential intervention for culturally competent child welfare practice.

536 Social Work Practice with Children (3)

This course builds upon the basic skills, values, and knowledge introduced in other areas of the curriculum and, particularly, in the human behavior and practice foundation courses. The course focuses on the application of theories, concepts, and research to guide empirically-based social work practice with children and young adolescents. The course is designed for students who have an interest in working directly with children, their caregivers, and their families. Case materials illustrate the ethical and practice challenges in working with a variety of children including those who live in out-of-home placements, in substance-disordered families, in families affected by illness and death, in nontraditional families, and those who are victims and witnesses of family violence. The special circumstances surrounding children at risk, as well as those with special needs and social/ emotional issues, are also addressed. A range of therapeutic approaches and modalities is presented, including individual, family, and group interventions, developmental, non-directive, and cognitive/behavioral play therapy, as well as interdisciplinary collaborative and psycho-educational approaches. A strengths perspective is highlighted as an approach to intervention, and attention is given to development of student self-awareness around children's issues. (Prerequisites: SW 501, SW 591.)

561 Family Focused Social Work Practice (3)

Builds on the history and traditions of family intervention in the basic social services. This course examines pertinent practice issues, family therapy concepts, and approaches used in contemporary social work intervention, with an emphasis on family resilience. Family intervention concepts are applied to families under economic stress, families within vulnerable populations and with diverse family structures, and current research. A strengths perspective is highlighted as an approach to treatment. (Prerequisites: SW 501, SW 591.)

571 Supervision in Social Work Practice (3)

This course provides the requisite knowledge and skills for assuming basic responsibilities of supervision. The course examines the purpose, principles, and methods of supervision applicable to many social work settings and the demands upon the supervisor and supervisee. Emphasis is on the supportive, educational, and administrative elements of supervision. Issues specific to women and other minority groups are also addressed. (Prerequisites: SW 501, SW 591, SW 502, SW 592.)

625 Critical Issues in Chemical Dependence (3)

The course provides an overview of the major psychoactive drugs of abuse, the role of drugs in today's society, theories of causation, actions on the central nervous system, and the pharmacology of individual substances. Using systems and strengths perspectives and bio-psychosocial understandings, this course examines the roles of the individual and society with respect to development of chemical dependence. The course also addresses intervention with individuals, families, and groups; policy issues; prevention efforts, and the relationship to HIV/AIDS.

705 Social Work Thesis (3)

The elective component of the research sequence, this course is recommended especially, but not exclusively, for those students who plan to pursue doctoral-level education. The course is designed to strengthen the student's overall research knowledge and skills through the development and presentation of individual research projects related to practice issues. The course offers students the opportunity to refine and implement a research proposal designed prior to admission to the course, and supports student research designs and data analysis, advanced statistical analysis, and multivariate analyses. (Prerequisite: SW 702.)

900 Social Work Perspectives on Trauma (3)

Contemporary knowledge about psychological trauma will be analyzed in terms of its relevance for social work. This will include the examination of human responses to stress on a continuum of adaptation and ways in which trauma can impact human development and social functioning. Forces within individuals, families, communities, and institutions that influence clients' abilities to cope with critical events will be explored. Specific populations studied will include crime victims, refugees, veterans of war, and survivors of natural disaster; however the focus will be on the commonality of these groups in their responses to unmanageable stress. Typical diagnoses accompanying trauma (such as PTSD) will be described and the role of psychopharmacology will be touched on. The impact of social attitudes toward victims of trauma will be examined in relation to victims' healing processes; in addition, students will be encouraged to explore their own acceptance of stigmatizing cultural myths. Approaches to treatment, related to general social work practice principles and ethical stances, will be explored. These will include client self-determination, strengths, advocacy, and cultural competency. In addition, the

impact of vicarious traumatization on social workers and the development of effective coping strategies will be explored. (Prerequisites: SW 501, SW 591, SW 601, SW 502, SW 592.)

908 Women's Issues and the Practice of Social Work (3)

Women's Issues is an elective course that examines how we as social workers and other direct service professionals can develop a practice perspective that is most suited to building on the strengths and meeting the particular needs of clients who are women. Practical issues and the unique experiences of girls and women of all ages, races, classes, and other diversities will be discussed. Topics specific to women or with distinctive nuances for women such as reproductive rights, sexual assault and domestic violence, addiction for women, mental illness, physical health, wellness, illness, and aging will be examined in relation to social work practice. Students can expect to finish the class with a strong theoretical understanding of gender, women's development, and sexism, as well as having a foundation in the values, ethics, and skills needed to be effective practitioners with girls and women. The class will be hands-on, using interactive methodologies based on real case examples from a variety of social work and other practice settings. Guest speakers with direct practice experience working with women and a variety of teaching approaches will make this a very informative class.

920 Spiritual and Religious Dimensions of Social Work Practice (3)

This course allows for an in-depth, comprehensive concentration on spirituality and religion in social work services to individuals, families, groups, and communities. Reviewing major religious as well as non-religious spiritual practices in the United States and the world, students gain an understanding of the diversity of religious and spiritual traditions that frame clients' lives. Students learn to incorporate an examination of religion and spirituality as part of social work assessment, intervention, and evaluation. (Prerequisites: SW 501, SW 591, SW 601.)

925 Critical Issues in Ethnic and Racial Experience (3)

An examination of the nature of devaluing attitudes toward others, and the ethnocentrism, prejudice, bias, discrimination, and racism in society. The course explores the ways in which racial and ethnic attitudes have shaped the experiences of selected groups in the U.S. Culturally competent social work practice is stressed, with particular emphasis on the role of diversity in practice, policy, and research. Literature related to the development of social policies and research related to diverse groups is also examined.

940 Current Issues in Developmental and Physical Disabilities for Social Workers (3)

This course examines the life course issues among people with developmental and physical disabilities, including the collaboration of families and community, and the role of social workers and other professionals. It also presents general issues related to service delivery systems, advocacy movements and social policy. The role and responsibility of social work professionals in shaping, delivering and evaluating support services will be considered. The impact of both the physical and social

environment on the lives of people with physical disabilities, both lifelong and acquired through trauma, will be addressed.

941 Concepts and Issues in Gerontology (3)

Reviews social gerontological theories, social policy issues of aging, and skills integration with the bio-psychosocial processes of middle and late lifespan development impacting individuals, families, and groups. Special attention is given to the strengths perspective, poverty, elder abuse, and cultural and gender issues as they relate to racism, sexism, and ageism in populations at risk.

950 Independent Study (3)

An independent study course planned by the student and a faculty mentor that focuses on a specific program of readings or field experience. The student is responsible for developing a proposal that addresses specific learning objectives and incorporates current social work theories and literature. The student is evaluated on a measurable project or paper. The faculty mentor guides the student's progress through approximately five tutorial sessions for a three-credit study.

950l International Independent Study (3)

This independent study course is based on international practice experience. The student is responsible for developing a proposal that addresses specific learning objectives and incorporates current social work theories and literature. The student is evaluated on a measurable project or paper. The faculty mentor guides the student's progress through approximately five tutorial sessions for a three-credit study.

965 Human Sexuality: Issues for Social Work (3)

An overview of the theoretical perspectives on the development process of human sexuality. The course covers the biological, psychological, and sociological aspects of sexual development across the life span including contemporary issues and their implications for social work practice, policy, and research. Particular attention is given to the wide range of beliefs and behaviors related to sexuality. Issues of discrimination and oppression are addressed as they apply to various groups (e.g. gays, lesbians, bisexuals, women, elderly, disabled, etc.). Social work and related literature is examined to assess the ways in which we develop knowledge of human sexuality and the limitations of research regarding sexual issues. Ethical dilemmas related to human sexuality are considered throughout the course.

989 Global Perspectives on Social and Administrative Practice (3)

This course will examine the need for international social work, given the global context and concerns. The course will also examine four perspectives, namely: global perspective, human rights perspective, ecological perspective, and social development perspective, which are crucial for international social work practice. An important requirement of this course will be a study abroad program during spring/summer break, intended to enhance students' understanding of human rights, social, and economic justice issues and social problems, and also the strategies followed in the host country in dealing with such issues. (Prerequisite: SW 601.)

Munley College of Sciences

Dean: Frances M. Zauhar, Ph.D.

Mission Statement

In support of the Mission, Goals, and Core Values of Marywood University, the Munley College of Liberal Arts and Sciences aspires to foster in its students a conscious understanding of the complexities, enduring themes, and problems that are central to human experience.

- We prepare students for a lifetime of achievement, leadership, and service by
 offering courses that provide them with the knowledge and understanding
 necessary to respond effectively to the needs and challenges of an interdependent
 world.
- We enable students to think critically, examining relationships between the individual and the community, between the self and society, between the person and the world.
- We encourage students to develop fully their ethical sensibilities and to contribute to the well-being of our common humanity.

MCLAS currently offers Master's degrees in Biotechnology, Business, and Criminal Justice, as well as a Master of Science in Information Security that will begin in 2017.

Areas of Study

- **Biotechnology:** For those seeking education and training in this broad field which encompasses discovery/molecular research, medicine, pharmaceuticals, and ecology, all of which profoundly affect society. This interdisciplinary program combines contemporary research in science with management and business understanding.
- **Criminal Justice:** For those wishing professional preparation in fields related to the administration and management of criminal justice agencies.
- **Information Security:** The Information Security Program develops the technical and leadership skills to succeed in the rapidly growing field of cybersecurity. The stand-alone Master of Science program will begin in fall 2017.
- **Public Administration:** For those seeking professional preparation in fields providing public, health, and human services.
- School of Business and Global Innovation: The M.B.A. degree enables students to acquire and further develop their managerial and leadership competencies, to successfully meet the dynamic challenges of a knowledge-based society, and to nurture values conducive to ethical and socially responsible behavior.

MUNLEY COLLEGE OF LIBERAL ARTS AND SCIENCES DEPARTMENT OF SCIENCE

BIOTECHNOLOGY PROGRAM

Chairperson: Michael C. Kiel, Ph.D. Program Director: Lisa Antoniacci, Ph.D.

Mission, Philosophy, and Goals

The Science Department's mission is to produce open-minded professionals with specific knowledge and technical skills that relate to the natural world and to provide an in-depth understanding of scientific advances that affect society. We now live in the post-genome era, where genome sequencing and use of genetic information to cure diseases and improve health is commonplace. Expertise in this broad area is critically important for society, as advances in discovery research routinely cross over into healthcare, pharmaceutical, and chemistry professions. Genomic medicine, DNA sequencing, and bioinformatics continue to be at the crest of cutting-edge research and affect society on many levels; therefore, Marywood University provides a specialized education to those interested in these important fields. Our science graduates are encouraged to utilize their scientific education and talents in a globally responsible manner.

M.S. in Biotechnology

The M.S. Biotechnology program prepares students for careers in a number of fields such as biotechnology, pharmaceuticals, healthcare, chemistry, and environmental science. The curricula blend modern science education with management skills in business and technology. The job market for scientists with this type of training remains strong because companies are looking to hire highly qualified scientific researchers who can serve in managerial positions. Our M.S. Biotechnology degree is ideal for entry-level technical/laboratory researchers or mid-level professionals looking to advance their careers. In addition, many students with an M.S. Biotechnology degree go on to medical, professional, or doctoral schools.

Program Design/Points of Entry

The M.S. Biotechnology program is composed of two basic curriculum tracks, depending upon point of entry. Marywood University undergraduates in their junior year can apply for admission into the program and enter our five-year B.S./M.S. curriculum. Applicants who already possess a B.S. or a B.A. in the life sciences can enter the two-year, stand-alone M.S. track. The graduate component is essentially identical for both tracks, and neither track requires a written thesis.

Admissions Requirements

Marywood University undergraduate students: General screening by an admissions committee from the Department of Science for this track typically takes place

during year three if the student is a Biotechnology major. If accepted into the five-year program, students will take graduate level Biotechnology courses in their fourth year. Students in good academic standing (GPA of 3.00 minimum) are candidates for the graduate component in the fourth and fifth year.

Post-baccalaureate entry: A B.S. or B.A. in an undergraduate major related to the life sciences is required. An undergraduate GPA of 3.00 or higher is expected. Prerequisite courses for the M.S. Biotechnology include:

- One year of: General Biology with lab, General Chemistry with lab, Organic Chemistry with lab
- One semester of Microbiology with lab
- A 200+ level mathematics course (e.g. Calculus)
- One semester of upper-level biology or chemistry with lab (e.g. Immunology, Genetics, Biochemistry)

A completed application must include:

- Official, unopened transcripts from all undergraduate institutions attended.
- · A GRE score.
- Two letters of recommendation from professional references (former professors, work supervisors etc.).
- A minimum TOEFL score of 81 or a minimum IELTS score of 6.5 (if applicable).
- An essay (1-2 pages) describing the candidate's career objectives and how the M.S. Biotechnology degree will assist with such goals.
- A professional résumé.

To be considered for the program, applicants are required to submit an application for admission at least one semester prior to the planned summer or fall semester start date, along with application fee. Each application is reviewed by the Department of Science Graduate Admissions Committee, and notification of the committee's decision is communicated by the Marywood University Admissions office.

Courses

BIOL 501 Cell Culture (3)

This course is designed to provide students with fundamental skills in cell and tissue culture. The techniques include media preparation, sterile technique, primary culture establishment, cell growth and maintenance, transfection, and cloning of cultured cells. Three hours lecture and lab.

BIOL 502 Bioinformatics (3)

This course will train students in computer technology to understand and interpret biological and biochemical data. We will focus on database and sequence comparisons, genomics and proteomics analysis, computer simulation and modeling, utilization of software and hardware, and laboratory data collection and analysis.

BIOL 520 Literature Review (2)

This selected topics course will provide an in-depth review and discussion of important current publications related to modern science and industry. The course will focus on several broad areas of biotechnology. In several instances it will include readings that relate basic advances in modern science to biomedicine and industry. M.S. Biotechnology majors. A public presentation is also required.

BIOL 521+L, 522 Biochemistry I and II (4,3)

Biochemistry concepts, including structure, reactivity of proteins, lipids, and carbohydrates. A brief overview of carbohydrate metabolism, including the ETS and oxidative phosphorylation processes are covered. Lab component involves advanced analytical skills related to lecture topics. BIOL 521+L is three hours lecture, three hours lab. BIOL 522 is three hours lecture. Organic chemistry is a prerequisite.

BIOL 532, 532L Immunology (4)

Studies immune responses in the human body, as well as current approaches to disease diagnosis and treatment using immunology. Three hours lecture, three hours lab.

BIOL 540+540L Molecular and Cellular Biology (4)

Provides a working understanding of DNA, RNA, proteins associated with eukaryotic (e.g. mammalian) cells. Emphasis on recent advances in molecular biology and biotechnology. Three hours lecture, three hours lab. Lab designed to provide experience in DNA and RNA manipulation, PCR, gene cloning.

BIOL 595 Research (1) or (2)

Provides the student with a hands-on laboratory project or bioinformatics-based project. Can involve elements of biology, chemistry, environmental science, et al. Formal write-up of findings and public presentation required.

ENVS 520+L Ecology (4)

Investigates the relationship between living organisms and their natural environment. Emphasizes the existence of natural species and their interactions with other life forms. Three hours lecture, two hours lab.

CRIMINAL JUSTICE PROGRAM

Director: Patrick M. Seffrin, Ph.D.

The graduate Criminal Justice Program combines a strong background in criminal justice with the management skills needed for an administrative position in a criminal justice agency. The program is designed for those who wish to assume, or already hold, a criminal justice management position, as well as for those who wish to pursue doctoral work elsewhere after completing their Marywood degree.

Coursework in the program provides:

- a background in American criminal justice institutions;
- a knowledge of the causes of delinquency and crime, the effectiveness of rehabilitation programs, and the research on which this knowledge is based;
- an evaluation of contemporary criminal justice research and policy;
- · experience with appropriate management tools;
- opportunities to communicate complex ideas orally and in writing, and to further develop analytic and critical skills.

Program faculty combine strong academic credentials with extensive experience of criminal justice agencies at the state and federal levels. Classes are small, typically seminars, in which students assume responsibility with the instructor for the presentation of material. The program offers substantial opportunities for students to explore their individual interests in criminal justice and closely related fields.

Financial aid, including the opportunity to work closely with program faculty as a graduate assistant, is available.

Admission Requirements

An undergraduate major in criminal justice, sociology, or a related field is recommended, but not required. (Students without an undergraduate course in criminology, delinquency, or deviance and those without an undergraduate course in statistics or social research will be asked to complete an undergraduate course before taking advanced, graduate work in these areas.) An undergraduate GPA of 3.0 or better is required.

A completed application must include:

- official, unopened transcripts from all institutions attended, including Marywood;
- two letters of recommendation from college or university faculty (these may be supplemented with recommendations from supervisors in a criminal justice agency);
- an essay discussing the applicant's career objectives and the way in which the CJ Master's program will contribute to these objectives.

Master of Science Degree in Criminal Justice 36 semester hours

Programs.

Courses (C J)

503 Criminal Justice Administration (3)

Familiarizes students with the internal segments, functions, and mission of the criminal justice system. Emphasis is on the internal problems confronted by the administrator.

505 Financial Management (3)

Study of financial management tools and budgeting techniques applicable to the public sector. Students deal with cases and other assigned materials focusing on budgeting and financial decision-making.

507 Criminal Justice Research Methods (3)

This course introduces students to the research methods employed in criminal justice, including survey methodology, quantitative methods, and data analysis using analytic software. Prerequisite: at least one undergraduate or graduate course in social research and/or social statistics. Previous undergraduate or graduate coursework in criminal justice, sociology, or criminology is recommended, but not required.

522 Criminology (3)

An advanced seminar in Criminology; classical and contemporary theories of crime are examined in original sources. (Prerequisite: Prior undergraduate or graduate coursework in criminology, deviance, or delinquency.)

524 Sex, Drugs, and Crime (3)

Prostitution and drugs are often associated with criminal violence. This course will explore legal and illegal social worlds of sex workers, drug users, and others to evaluate current explanations for their persistence and interconnections with violent crime — in the US, abroad, and at different class levels.

526 Race, Ethnicity, and Criminal Justice (3)

The over-representation of racial and ethnic minorities in criminal justice processes has been noted for well over 100 years, yet the explanation for it remains unclear. This seminar will explore the extent of these disparities and the possible reasons for them. Prerequisite: an undergraduate course in criminology, delinquency, deviance, or intergroup relations is required.

528 Youthful Offenders (3)

This course provides a detailed examination of the social, psychological, and biological factors associated with juvenile delinquency and related risky youth behaviors. Major areas of study include family and community dynamics, peer networks, neurological and genetic risks, and age-graded changes in antisocial involvement.

530 Criminal Justice Policies (3)

An advanced seminar that explores the historical and contemporary policy approaches of criminal justice systems (i.e., policing, courts, and corrections). Major areas of study include the war on drugs, juvenile justice and street gangs, incarceration and prisoner reentry, U.S. border control, and terrorism.

533 Crime over the Life Course (3)

This course traces the development of criminality from birth into old age. Drawing upon longitudinal studies of delinquent and adult offenders in the United States and elsewhere, biological, psychological, and social correlates of criminal onset, persistence and desistance are examined.

540 The Constitution and Criminal Justice Policy (3)

Stresses the effect of court decisions and the law on policy-making, planning, and administrative discretion in the criminal justice system.

544 Staff Supervision in Criminal Justice (3)

This course examines the role of a staff supervisor in criminal justice settings. It focuses on five functions of an effective supervisor: planning, organizing, staffing, directing, and controlling, and the tools that facilitate them. It reviews also the principles of effective leadership and their application in criminal justice agencies.

560 Urban Crime Patterns (3)

This seminar introduces students to the spatial patterns of crime and their relationship to other features of the urban environment. It examines the classic studies of the Chicago School and the theories of urban crime developed there. Current studies applying and extending these theories will be reviewed. Finally, the seminar will review the use of GIS to document urban crime patterns. Participants will have an opportunity to conduct basic GIS analyses of urban data. Data and examples will be drawn whenever possible from the Scranton, Philadelphia, or New York metropolitan areas.

569 Media and Crime (3)

This course provides an introduction to the relationship between media and crime in modern society. Topics include patterned images of crime in news and entertainment media; economic, political, and cultural factors that influence how media present crime; the relationship between media content and fear of crime; and how crime in the media influences crime policy and the criminal justice system.

576 Corrections (3)

This course places a major emphasis on the historical and social contexts of corrections. It presents the views of victims, reformers, prison officials, and others. The student is taken inside the role behavior of the probation officer, warden, et al., to determine what constitutes an effective and satisfactory job. Dialogue concerning controversial probation issues is encouraged to provoke thought and balance.

578 Community Corrections (3)

The course combines theoretical and practical considerations of the philosophy, goals, problems, treatment approaches, and developing trends in the area of community corrections. Major topics include defining the mission of community corrections, historical development, probation/parole, pretrial services, boot camps, halfway houses, work release programs, electronically-monitored home confinement, drug/alcohol treatment programs, community service, and job training/placement programs.

595 Thesis (3)

Original research in Criminal Justice executed by the student under the supervision of a thesis director in Criminal Justice and at least one additional faculty member. This opportunity is intended for students who plan to continue their education in a doctoral program in Criminal Justice or a related field. It is normally taken in the last semester of master's level work.

597 Management Project/Internship (3)

Students employed in a criminal justice agency will complete a management project demonstrating their ability to use the knowledge and skills they have acquired in the program to identify, document, and resolve a management problem selected in concert with their agency and Marywood project supervisors. Students who are not so employed will complete a 240-hour internship in a criminal justice agency in which they integrate features of their classroom learning with their experiences as an intern in the field. A major paper is required in either case. This course must be completed, normally within nine (9) credits of graduation, by all degree candidates, except those completing a Master's Thesis.

598 Special Topics in Criminal Justice (3)

This seminar offers an in-depth examination of a topic of interest to the criminal justice community.

INFORMATION SECURITY PROGRAM

Chairperson: Thomas F. Kent, Ph.D.

Mission, Philosophy, and Goals

Students in the M.S. Information Security program will develop the technical and leadership skills needed to succeed in the rapidly growing field of cybersecurity. As all facets of society become more dependent on the internet, there is a growing demand for individuals with a background in information security. Skilled persons are needed who are capable of both detecting security holes in networks, as well as securing networks from unwanted intrusion. Students in this program are kept abreast of the latest developments in information security so they will be well prepared to meet the network security demands of the $21^{\rm st}$ century.

The stand-alone M.S. Program begins in Fall 2017.

Post-baccalaureate Entry

A B.A. or a B.S. in computer science or a closely related field is required. An undergraduate QPA of 3.00 or higher is expected.

A complete application will include:

- Official, unopened transcripts for all undergraduate institutions attended.
- Two letters of recommendation from professional references (former professors, work supervisors, etc.)
- An essay of 1-2 pages in length describing career objectives and how the M.S. in Information Security will assist the applicant in achieving such goals.
- · A professional resumé.

To be considered for the program, applicants are required to submit an application for admission at least one semester prior to the planned summer or fall semester start date, along with the application fee, along with all accompanying documents and fee, if appropriate. Each application is reviewed by the Department of Mathematics and Computer Science Graduate Admissions Committee, and notification of the committee's decision is communicated by the Marywood University Admissions office.

Program Course Requirements

I. INTERDISCIPLINARY	
BUS 500+ Graduate Business (MBA)	3
CJ 500+ Graduate Criminal Justice	
Interdisciplinary Total Credits	6
II. INFORMATION SECURITY	
INSC 510 Legal Issues in Information Security	3

INSC 520 Introduction to Computer Security	. 3
INSC 530 Network Security	. 3
INSC 540 Introduction to Cryptography	. 3
INSC 545 Security Policies and Implementations	. 3
INSC 550 Digital Forensics	. 3
INSC 560 Applied Cryptography and Secure Communication	. 3
INSC 565 Operating System Security	. 3
INSC 5XX Graduate program Elective	. 3
INSC 5XX Graduate program Elective	. 3
Information Security Total Credits	30
Total Number of Credits:	36

Courses (INSC)

510 Legal Issues in Information Security (3)

This course is an introduction to the legal and regulatory issues in the field of information security. Federal laws and regulations, including OMB and NIST standards, are examined. Moral and ethical issues for professionals in the field are also considered.

520 Introduction to Computer Security (3)

This course is an introduction to the fundamental principles and common practices of computer and information security. It provides an overview of such topics as cryptography, network intrusion and detection, software and operating system security, VPN etc. Prerequisite: CS 242, CS 322 at Marywood or equivalent

530 Network Security (3)

The course is an introduction to the field of network security. The course covers network security services such as authentication and access control, integrity and confidentiality of data, firewalls and related technologies, Web security, and privacy. Prerequisite: CS 322 at Marywood or equivalent

540 Introduction to Cryptography (3)

This course is an introduction to the theory and practice in the field of cryptography. Topics include classic and modern ciphers (DES, AES, RSA etc.), digital signature, message digest, key exchange protocols, and PKI. Prerequisite: CS 150, MATH 323 at Marywood or equivalent

545 Security Policies and Implementations (3)

This course provides an overview of the best practices of developing and implementing effective organizational policies and programs on information security. Topics include privacy, contingency response, infrastructure reliability, risk assessment and management, and organizational roles and responsibilities.

550 Digital Forensics (3)

This course introduces students to the field of digital forensics, and it will focus on the contemporary policy issues and applied technologies. Topics to be covered include: legal and regulatory issues, investigation techniques, data analysis approaches, and incident response procedures for Windows and UNIX systems. Prerequisite: CS 242, CS 245 at Marywood or equivalent

560 Applied Cryptography and Secure Communication (3)

This course studies real world cryptographic systems and examines their strength and weaknesses. Some commonly deployed cryptosystems will be used as examples in this course. Prerequisite: INSC 440/540

565 Operating Systems Security (3)

This course covers the fundamental theory and practice in Operating System security. OS level security architectures and mechanisms will be studied. Topics include OS level security architectures and mechanism, OS security policies, and basic OS security techniques. Prerequisite: CS 344 at Marywood or equivalent

590 Special Topics in Information Security (3)

Special topics that are not available in other courses may be covered when there is enough interest among students and faculty.

620 Cloud Computing Security (3)

This course investigates the security issues related to cloud computing, such as confidentiality, integrity, and availability of data and computations. Practical applications of secure cloud computing will be explored, current research publications will be the focus of this course. Prerequisite: INSC 420/520

630 Data Protection and Recovery (3)

In this course, students will study computer file storage systems, with the focus on data protection and recovery. Topics include data backups, diversification, RAID systems, disaster response and recovery etc. Prerequisite: INSC 420/520

640 Mobile System Security (3)

This course will investigate security issues in mobile systems. When devices such as smart phones and tablets are carrying more and more personal as well as business data, security threats from mobile systems must be dealt with by developing consistent security policies and implementing effective security programs across all platforms. Both policy and technical considerations will be covered in this course. Prerequisite: INSC 420/520

650 Corporate Information Security (3)

This course examines information security in the corporate environment. Common sources of security threats are identified and addressed. Technological, human behavioral, and policy solutions are considered. Further topics include incident response, legal issues, and public relations. Prerequisite: INSC 410/510

MUNLEY COLLEGE OF LIBERAL ARTS AND SCIENCES DEPARTMENT OF SOCIAL SCIENCES

PUBLIC ADMINISTRATION PROGRAM

Program Director: Alexander Dawoody, Ph.D.

Master of Public Administration (M.P.A.) Program

Program Objectives

The MPA program at Marywood University is a completely online program. The general purpose of the program is the administrative training of men and women concerned with public policy and administration issues on local, state, national, and international levels. Specifically, the program strives to:

- Expose participants to a wide range of public affairs and administrative issues, as well as processes, practices, and responsibilities involved in providing public service.
- 2. Train public administrators on local, national, and international levels within cooperative networks through active engagement in problem solving.
- 3. Train public managers and administrators on all levels to adapt ethical responses toward issues of public service.
- 4. Identify problems and issues among groups, organizations, and nation-states in order to arrive at realistic and non-violent approaches to both local and global issues through cooperative association.
- 5. Develop collegial and supportive associations within the profession to share resources and expertise on local, national, and international levels.
- 6. Prepare participants in planning, organizing, staffing, implementing, and administering public service.

- 7. Facilitate the participant's understanding and command of theories of management and supervision and applied social science theory related to the delivery of public service.
- 8. Help participants develop analytical and evaluation skills and techniques leading to effective managerial decision-making applied to the complex task of providing public service.
- 9. Help participants develop an awareness of equity and public interest concerns and the political process through which they arise.
- 10. Provide advanced education in management issues related to the provision of public service, especially in the areas of public policy and administration, state and local government, the federal government, international relations and foreign policy, national security, disaster management, and nonprofit leadership.

The Master of Public Administration (M.P.A.) provides entry-level, post-entry-level, and mid-career participation from a variety of public, private, and nonprofit settings on local, state, national, and global levels with cutting-edge education in administrative sciences involved in research, theory, case studies, assimilations, group discussion and analyses, interpersonal development exercises, audiovisual media, field observation, and intensive coursework.

The M.P.A. at Marywood University is engaged in network development on local, regional, national, and international levels to promote practical approaches to administrative systems in the public sphere. Rather than focusing on the institutionalization of outdated policy and administrative issues, the program focuses on developing cooperative efforts to engage in networking and promote social justice, peace, and ethical leadership. The program seeks to give voice to the global. The program also seeks engagement and cooperation with NGOs on the global level.

The Master of Public Administration program (M.P.A.) at Marywood University is involved in researching issues of public and administrative affairs, nonlinear dynamics, homeland security and disaster management, and peace and non-violence in resolving conflicts and comparative international administrative systems. Accordingly, the program is engaged in the development of the following activities:

- 1. Coordinating and organizing annual and periodic conferences on public affairs and administration through international dialogue. These conferences will include local, regional, national, and international participants.
- 2. Publishing a peer-reviewed journal on public policy and administration as a tool for peace studies, security, public service, dialogue, and conflict resolution.
- 3. Offering workshops to local governments and nonprofit organizations on public management.
- 4. Integrating research as critical part of both the education and network dimensions of the program.

Degree Program Overview

The M.P.A. at Marywood University follows the National Association of Schools of Public Affairs and Administration (NASPAA)'s guidelines. It bridges theory and practice while developing research and analytical skills, all of which students need to become effective administrators. The program is an exclusively online graduate degree. The program welcomes mid-level practitioners in public and nonprofit agencies, in addition to full- or part-time students of both genders and all ages, nationalities, and experiences. The curriculum presents the cutting edge in public policy and administrative studies, while emphasizing interconnectedness, globalization, sound governance, and care for the environment. The online classroom dynamic reflects discussion, analysis, and studies of various administrative, political, and public affairs issues in various parts of the world in comparison with those in the United States. The program offers six specializations: General Public Administration, Nonprofit Leadership, Homeland Security and Disaster Management, Health Service Administration, Social Work, and Criminal Justice.

Departmental Admissions Requirements

- 1. Online application
- 2. Statement of purpose (500-1000 words): Identify your educational goals, expectations from the program, and background. All applicants should also demonstrate any experience in public or nonprofit organizations that involve administrative skills in areas such as planning, organizing, staffing, directing, coordinating, reporting, or budgeting. Lack of administrative skills will not impact admission but provides the program with useful information on how to provide the student with internship projects once admitted to the program.
- 3. Professional résumé: Current résumé including job responsibilities, relevant experience, and educational history.
- 4. Two letters of recommendation: From individual(s) with either academic or professional knowledge of your capabilities, such as a faculty member, current employer, mentor, or colleague.
- 5. Official transcripts of prior education, including undergraduate degree documentation.
- 6. Proof of English language proficiency: Only for students for whom English is not their primary language and who did not graduate from a university at which the language of instruction was English.
- 7. No general tests are required.

Any applicant who lacks administrative experience must pursue a three-credit-hour internship. Internships consist of up to twelve weeks of full- or part-time assignments in an agency (minimum of 20 hours per week).

The Capstone is a closure requirement which provides the student with an opportunity to work with faculty on a LEAD research project. The Capstone applies

theoretical knowledge to a practical situation. Refer to detailed guidelines for project requirements.

M.P.A. students who are interested in specialization in Social Work, Criminal Justice, and Health Service Administration may take (with approval of their advisors) four Social Work, Criminal Justice, and Health Service Administration courses as electives. Elective courses in Social Work, Criminal Justice, and Health Service Administration, however, are offered within the respective departments and are not online. Only General Public Administration, as well as Homeland Security and Disaster Management, and Nonprofit Leadership elective courses (as well as the M.P.A. required courses) are offered online.

The M.P.A. PROGRAM (30 Semester Hours; Online)

I. REQUIRED COURSES: 15 semester hours	
PADM 501 Principles of Public Administration	. 3
PADM 502 Public Policy Analysis	. 3
PADM 503 Human Resource Management	. 3
PADM 504 Research Methodology	. 3
PADM 505 Public Budgeting and Finance	. 3
II. ELECTIVE COURSES: 12 semester hours	
PADM 506 Law and Public Affairs	. 3
PADM 507 Ethics	
PADM 508 Communication, Strategic Planning,	
and Organizational Dynamics	. 3
PADM 509 Introduction to the Nonprofit Sector	
PADM 510 Fundraising and Grants Writing in Nonprofit Organizations	. 3
PADM 511 Program Assessment and Evaluation	. 3
PADM 512 Issues in National Security	. 3
PADM 513 Introduction to Homeland Security	. 3
PADM 514 Domestic and International Terrorism	. 3
PADM 515 International Relations and Globalization	. 3
PADM 516 American Foreign Policy	. 3
PADM 517 Intelligence for Homeland Security	. 3
PADM 518 Natural Disasters	. 3
PADM 519 Crisis Mapping for Humanitarian Action	. 3
PADM 520 Emergency Management and Geographic Information Systems	. 3
PADM 521 Negotiation, Mediation, and Facilitation	. 3
PADM 522 Information Security, Technology, and Risk Management	. 3
PADM 596 Internship	. 3
III. CAPSTONE COURSE: 3 semester hours	
PADM 600 LEAD Project.	. 3

Master of Public Administration/Master of Social Work Overview

The Department of Social Sciences (Master of Public Administration) and School of Social Work offer a dual-degree program designed to assure the acquisition of

both management and social work skills necessary for competence as a manager/administrator in the social work field. Today, social workers must be knowledgeable in managerial and administrative problems, processes, practices, and responsibilities in their role as middle managers, administrators, department heads, and in other similar capacities. The M.P.A. curriculum follows National Association of Schools of Public Affairs and Administration guidelines and the M.S.W. program is accredited by the Council on Social Work Education. Upon successful completion of the M.P.A./M.S.W., a graduate will be qualified to accept a middle management position such as social work director or administrator in a community program.

Admission to the M.P.A./M.S.W. program is selective. Prerequisites and admission processes adhere to all guidelines and policies of the College of Health and Human Services, the Munley College of Liberal Arts and Sciences, the Department of Social Sciences, and the School of Social Work.

A Capstone is required as an application of the theoretical base to a practical situation. The guidelines for the Master of Social Work and Master of Public Administration will be followed.

Master of Public Administration/Master of Social Work Dual Program

81 semester hours (combination of 51 Social Work and 30 Public Administration semester hours)

This program is designed for those who wish to combine the development of administrative and managerial expertise with knowledge, skills, and values of the social work profession. The joint focus on public interest, policy, and management prepares students for a range of professional options and opportunities. Participation in the dual degree program permits a student to earn the Master of Public Administration degree and the M.S.W. degree in a manner that expedites the time required by crediting work undertaken for one degree to the requirements of the other.

Interested students must make application for admission to both programs.

Social Work Classroom Credits	39
MSW Classroom Credits (36 semester hours)	
SW 501 Practice I: Social Work Practice with Individuals and Families	. 3
SW 502 Practice II: Social Work Practice with Groups	. 3
SW 503 Practice III: Social Work Practice with Communities and Organizations	. 3

MPA Capstone (3 semester hours):	
PADM 600 LEAD Project.	. 3

Master of Public Administration (MPA) Courses

PADM 501: Principles of Public Administration (3)

Provides an overview of the field of public administration in its economic, political, and social dimensions and an orientation to public administration as a profession.

PADM 502: Public Policy Analysis (3)

Explores the policy-making processes important to an administrator. Develops skills necessary for formulation and analysis of policy problems and the implementation of public policies.

PADM 503: Human Resource Management (3)

Survey course of personnel practices used in the public sector. Discusses all human resources phases, from recruitment to retirement. Special emphasis on unionization, personnel problems, and leadership styles.

PADM 504: Research Methodology (3)

Introduction to the methodology of research-historical, descriptive-survey, experimental design, critical interpretation, and case study techniques, with attention to specialized data-gathering procedures, such as the questionnaire, the interview, and observation. Introduction to statistical concepts. Directed toward the writing of the Capstone as a degree requirement.

PADM 505: Public Budgeting and Finance (3)

Study of financial management tools and budgeting techniques applicable to the public sector and to the private, nonprofit sector. Students deal with cases and other course work materials regarding various forms of output budgeting and financial decision-making with regard to revenue policies, resource allocation, cash flow, borrowing, and other fiscal management concerns.

PADM 506: Law and Public Affairs (3)

Deals with the processes and problems of law as they affect the administrator, including important cases, precedents, and future implications.

PADM 507: Ethics (3)

Provides an introduction to the field of ethics and an opportunity to increase understanding, knowledge, and competence in dealing with the ethical challenges and dilemmas that are found in the public, private, and nonprofit employment sectors. Course materials will focus on individual as well as corporate systems of responsibility and accountability and the ethical dimensions of public as well as private life.

PADM 508: Communication, Strategic Planning, and Organizational Dynamics (3)

Stresses the behavioral aspects of organizational communication, such as impact of power, persuasion, values, status, and role of the communication process; barriers to communication; conflict management, and group communication. The courses will also look at the theory and practice of strategic planning applied in the private, nonprofit sector. Students study several planning models, including strategic planning models, and apply specific elements of the strategic planning process to an actual case. The components of study will include environmental scanning, problem identification, SWOT analyses, strategy formulation, implementation planning, and various sub-elements of the process such as the construction of scenarios. The course will provide students with the opportunity to apply the strategic planning model as a tool for sustaining and strengthening organizational achievement. Finally, the course examines what a supervisor needs to know about human behavior in a work setting. Stressed are the subjects of work motivation, power and

control, communication, impact of work/organization design, and management-by-objectives using a case analysis/discussion format.

PADM 509: Introduction to the Nonprofit Sector (3)

Provides an overview of the issues and trends within the nonprofit and voluntary sector in order to lay a strong foundation of knowledge and comprehension for those who are pursuing careers in the voluntary sector and/or working in fields that intersect with nonprofit organizations. The course will consider the historical and philosophical roots of voluntarism, the structure of the sector, operational dynamics, and current and future trends.

PADM 510: Fundraising and Grants Writing in Nonprofit Organizations (3)

Examines the principles and techniques of fundraising and development for different types of NPOs, including foundation, corporate, government, and individual solicitation. Topics include (but are not limited to) special events, capital campaigns, membership, profit-making ventures, and deferred giving programs. The course will also introduce practical processes for securing grants from foundations, corporations, and government agencies. Emphasis is given to developing a comprehensive needs assessment, researching sources, planning, and proposal writing.

PADM 511: Program Assessment and Evaluation (3)

This course will present the concepts, techniques, and applications of program assessment and evaluation in public and nonprofit organizations. The course will include topics such as the role of program assessment and evaluation, methodologies, operational and ethical issues of program assessment, and evaluation as practiced in public and nonprofit organizations.

PADM 512: Issues in National Security (3)

Examines the changes in American policy fostered by the terrorist attacks of September 11, 2001. Studies the organizations and resources developed since that time to defend national security. Also examines the role played by all the components of the criminal justice system in providing for the security of the nation. Explores the policies and practices that have been developed for this purpose by the various agencies that represent the criminal justice system. Specifically studies the adjudication process as it relates to issues of national security and the correctional practices employed to maintain national security.

PADM 513: Introduction to Homeland Security (3)

This course provides foundational knowledge about homeland security, including policy, organization, and legal issues in the American context. The course also provides an overview of the essential ideas that constitute the emerging discipline of homeland security. Has two central objectives: to expand the way participants think, analyze, and communicate about homeland security; and to assess knowledge in critical homeland security knowledge domains, including strategy, history, terrorism, fear management, crisis communication, conventional and unconventional threats, network leadership, weapons of mass destruction, lessons learned from other

nations, civil liberties and security, intelligence and information, homeland security technology, and analytics. The course is organized around an evolving narrative about what homeland security leaders need and how the United States Department of Homeland Defense helps address those needs. The course will also provide a foundation for understanding homeland security history, the development of its policies and organizations, and current management approaches.

PADM 514: Domestic and International Terrorism (3)

Provides an overview of the domestic and global issues related to homeland security. The course also includes a general introduction to the overt as well as underlying ideology, history, reasons, and causes of terrorism. Both domestic and international terrorism are discussed. Domestic hate groups also receive particular attention. The roles of politics and the media are discussed. Students are exposed to the philosophies of terrorists and terrorism. Counterterrorism is also discussed at length.

PADM 515: International Relations and Globalization (3)

A survey of traditional and contemporary conceptual frameworks and theoretical approaches for the analysis of international relations and the role of public administration in increasingly globalized dynamics.

PADM 516: American Foreign Policy (3)

Principles of American foreign policy; processes of policy formulation; roles of the President, Congress, the State Department, and other government agencies.

PADM 517: Intelligence for Homeland Security (3)

This course examines key questions and issues facing the U.S. intelligence community and its role in homeland security. Students have an opportunity to fully address policy, organizational, and substantive issues regarding homeland intelligence support. Course reference materials provide an overview of diverse intelligence disciplines and how the intelligence community operates. Course emphasis is on issues affecting policy, oversight, and intelligence support to homeland security and national decision-making. The 2004 Intelligence Reform and Prevention of Terrorism Act is addressed, and the course is shaped to focus on homeland intelligence support issues at the state/local/tribal levels.

PADM 518: Natural Disasters (3)

Case studies of the causes and consequences of natural disasters; analysis of disaster impact in different economic, cultural, and social conditions.

PADM 519: Crisis Mapping for Humanitarian Action (3)

Theories and methods used to introduce students to key trends and challenges faced in the humanitarian field today. Training modules are designed to familiarize students with (1) commercial satellite imagery analysis applied in a conflict setting; (2) digital crowd-sourced methods to map real-time crisis management and social media-based geographic information; and (3) mobile data collection survey tools to generate population, health, and event-based information. The objective is to learn

how to perform crisis mapping in the real world and reflect on ethical, political, and practical challenges that come from working in this field.

PADM 520: Emergency Management and Geographic Information Systems (3)

Explores how emergency management activities can best utilize Geographic Information Technologies (GIT) to solve real-world issues in emergency management. This includes planning and response for both natural disasters and manmade events (accidental and terror-related incidents). Through the use of a variety of tools and analytical techniques, the nexus between emergency management and GIT is demonstrated and explored. Students are exposed to an understanding and appreciation for that relationship as well as the tools and skills for appropriate utilization of them.

PADM 521: Negotiation, Mediation, and Facilitation (3)

Introduces the techniques of dispute resolution. Emphasizes the processes of mediation, facilitation, and negotiation. Examines techniques suggested by practitioners and researchers regarding best practices for effective negotiation. A central part of the course requires students to participate in and evaluate negotiation simulations.

PADM 522: Information Security, Technology, and Risk Management (3)

Government agencies in today's Information Age are more dependent than ever on technology and information sharing. This course offers students a broad overview of crisis management technology, information systems, inspection and surveillance technology, communication, and knowledge management. The course will focus on technology as a tool to support crisis management personnel regardless of functional specialty. The methodology used in the course frames technology in terms of its contribution to deterrence, preemption, prevention, protection, and response after a manmade or natural disaster. The course also provides students with a comprehensive understanding of the multifaceted nature of information security and examines the fundamental elements of crisis, disaster, risk, and emergency management.

PADM 596: Internship (only for students lacking administrative work experience) (3)

A Management Project/Internship is required to increase knowledge and skills in theoretical application. The student, upon completion of course work, must do either a research oriented management project or an internship. Students are to consult with their advisers early in the program to determine the internship to pursue. The objective is to develop research skills, capacity to improve organizational effectiveness, and the development of leadership potential, including stimulating creativity as well as interpersonal and communication skill development.

1

PADM 600: Learning, Experiencing, Applying, and Discussing (LEAD) Project (3)

Students will follow up on work completed during the Research Methodology course in having a proposal that outlines the student's project title, problem statement, background of the problem, literature review, research questions, type, design, and theory, as well as bibliography. IRB approval must be obtained prior to the collection of data. Learning: Students will integrate the substance of previous courses in order to develop a capacity for strategic management based on the role of the professional manager in the policy making process. Experiencing: Students develop a holistic perspective in their projects to emphasize the leadership role of the professional manager in defining the basis for an ethical approach toward problem solving or capacity development. Students' learning outcome then must be complimented with their own experiences, reflecting on assessing the substantive issues within an administrative setting. Applying: Students make the next logical step in the project by applying a sound resolution to the issues that they are examining in their projects based on a comprehensive and strategic plan that applies ethical standards and a logical, theoretical and research-based model. Discussion: Finally, students need to arrive at a set of recommendations that address the analyzed issues. They need to discuss each recommendation and their rationale for choosing them, as well as their impact on the administrative practices of the involved agency.

SCHOOL OF BUSINESS AND GLOBAL INNOVATION

Executive Director: Art Comstock, Ph.D.

Mission Statement

The School of Business and Global Innovation at Marywood University is committed to improving the world by inspiring and equipping students to acquire and develop their leadership competencies to meet the dynamic challenges of a knowledge-based global society and by nurturing values conducive to ethical and socially responsible behavior. Our educational programs promote academic excellence and scholarship through applied, experiential learning that emphasizes entrepreneurial solutions to business problems and that fosters strong leadership qualities of integrity, accountability, and a disciplined work ethic in service to others.

Accreditation

The School of Business and Global Innovation (SBGI) is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

General Information and Prerequisites

The following master's degrees are offered by the Marywood University SGBI: Master of Business Administration (MBA)

Master of Science in Management Information Systems (MS-MIS)

Master of Science in Financial Information Systems (MS-FIS)

There are also opportunities for students to pursue advanced degrees in Health Services Administration and/or in Gerontology.

The Master of Business Administration degree provides the student with a common body of knowledge in business administration via the required core courses and undergraduate prerequisites for the degree. Students must take 36 credit hours of graduate level courses. Prerequisites include: Accounting Concepts, Business Economics, Computer Technologies for Management, Financial Tools, Managerial Concepts, Marketing and Sales Concepts, Legal Environment of Business, and Business Statistics. Those who do not have the needed undergraduate credits may be able to fulfill the requirements through equivalency exams (DSST and/or CLEP) or through one-credit modules offered by the Business faculty. For further information, contact the School's Executive Director. In addition, if a student is pursuing the MBA degree in Management Information Systems, prerequisites also include two programming languages.

The Master of Science degree programs are designed to prepare candidates for career advancement by providing the graduate student with an area of specialization in Management Information Systems or Financial Information Systems. Students seeking the M.S. degree in Management Information Systems or Financial Information Systems will have to satisfy the Common Professional Component (CPC) through the one-credit modules offered in the MBA program, or take the DSST and/or CLEP exams and achieve a satisfactory score. In addition, prerequisites for Management Information Systems also include two programming languages.

General Requirements

Scores on the Graduate Management Admission Test (GMAT) are encouraged to be submitted as part of the application for admission, but they are not required.

Students are required to file an application for degree candidacy after completing twelve graduate business credits in addition to the undergraduate prerequisites specified on their letters of admission. A final comprehensive examination must be passed prior to conferral of degree.

Areas of Concentration

Courses and Objectives

1. Finance and Investment

The area of concentration in Finance and Investment is designed to (1) provide a working understanding of the financial decision-making process in profit and nonprofit organizations and (2) introduce the candidates to the functions of the financial market. This concentration is for career-oriented students in commercial and investment banking, corporate planning and treasury functions, and short-range and long-range domestic and international financial planning. Financial tools and

techniques in acquisitions, divestments, and investment analysis for domestic and overseas operations are some of the skills provided by this area of concentration.

2. General Management

The area of concentration in General Management is designed to provide professional preparation for careers in middle- and upper-level management. In addition, it further develops the abilities of those currently employed in these positions by providing them with current trends in the field of management. Case studies are utilized to develop analytical and problem solving competencies in the various functional areas of business and in their interdependencies. Courses in this area may cover Human Resources Management, Production Management: Quality Approaches, Labor Relations and Collective Bargaining, Management of International Business Organizations, etc.

3. Management Information Systems

The area of Management Information Systems promotes the development of vital competencies appropriate to professional management in the field of information science. It prepares the candidate for the evaluation, development, and deployment of information systems within and across organizations. The student develops skills in evaluating existing systems and in designing and implementing strategies to harness the power of information technologies and information systems to bring about improvement in business situations. Students are asked to select four courses in this area of concentration. Possible course selections include: Systems Analysis and Design: Industrial Problem-Solving, Database Management Systems, Accounting Information Systems, Telecommunication Systems, Managing an Organization in the Marketspace, etc.

Master of Business Administration

Each candidate for the Master of Business Administration degree must select an area of concentration. Twelve credits are required in the concentration. Students taking additional concentrations in the MBA program can cross-reference one course or three credits. The available areas and core requirements are as follows:

36 semester hours

I. CORE COURSES
24 semester hours
BUS 531 Advanced Topics in Management Information Systems
BUS 541 Organizational Behavior and Development
BUS 542 Financial Planning and Management
BUS 548 Operation Analysis and Management (Quantitative Methods)3
BUS 568 Legal Aspects of the Administrative Process
BUS 570 Marketing and Strategic Planning
BUS 590 Research Methodology
BUS 554 Policy Formulation and Strategy Management
(Capstone course: to be taken after completion of at least 24 graduate credits.)

Core courses that are prerequisite to concentration courses must be completed prior to taking the concentration course.

II. CONCENTRATIONS (Select one)

Master of Science

36 semester hours (plus the required prerequisites)

Management Information Systems (MIS)

The Master of Science degree program in Management Information Systems provides maximum flexibility in the education of the professional information systems person. In this program, the student has the opportunity to select three courses, in addition to the required courses. These courses may be advanced work in the Management Information Systems concentration, or they may be courses that complement the Management Information Systems concentration. The electives must be approved by the Executive Director or the graduate student's advisor.

The MS-MIS degree prerequisites include satisfaction of the CPC through the one-credit modules offered to graduate students, through undergraduate courses, or through successful completion of the DSST and/or CLEP exams. Prerequisites will also include two programming languages. For further information, contact the Executive Director.

Courses (BUS)

509 Leadership (3)

This course is designed to provide students with an overview of current and emerging leadership theories, best practices in organizations, cases, and learning experiences relevant to the development of their individual and team leadership potential. Students' leadership styles and competencies are assessed, and feedback is offered to give students the opportunity to understand and better develop their leadership competencies.

510 Management Role of the Information Professional (3)

This course is designed to provide students with theories, frameworks, and best practices to enable robust understanding of the management and technology issues and challenges they will confront in organizations as information professionals. Topics include current and emerging trends in management and technology, competencies and best practices of effective managers, learning organizations, change management, knowledge creation and management, information ecology, and communities of practice.

513 Web-based Marketing (3)

This course provides students with frameworks, concepts, and tools to effectively design, deploy, and evaluate web-based networking and marketing strategies aimed at increasing traffic, sales, and brand visibility online. Topics include web technologies, web-based networking, and marketing models, consumer behavior in the marketspace, customer acquisition and retention, search engine optimization, and web-analytics.

514 Web-based Systems Development (3)

The demand for web-based systems and applications that deliver complex arrays of functionality to large numbers of diverse groups of people, performance, reliability, quality, and usability has become of paramount importance. This course is designed to provide students with multi-disciplinary approaches, methodologies, techniques, and tools to assess needs and to effectively develop and maintain web-based systems and applications that meet business and user requirements.

531 Advanced Topics in Management Information Systems (3)

This course is designed to provide students with theories, frameworks and best practices for understanding the interrelationships of strategy, organizational architecture, and information technology. Course examines how collective intelligence and information technology, within and across organizations, can be harnessed to bring about rapid improvement to complex problems. Topics include

current and emerging trends and challenges in technology and management, industry structure and business landscape analysis, strategy, technology infrastructure, functional information systems, enterprise solutions, knowledge management, business analytics, ethics and information security and business.

534 Business Intelligence (3)

Organizations are gathering and storing more and more data. The amount of data in the world is doubling approximately every year. This data is of little benefit unless it can be turned into useful information and knowledge. Business Intelligence (BI) is the new discipline that combines all of the tools to gain data inferences. This course thus provides an integrative foundation in the field of business intelligence at the operational, tactical, and strategic levels. BI components such as value chain, customer service management, business process analysis and design, transaction processing systems, management information systems, and executive information systems are brought together, as well as other topics relevant to the field of Business Intelligence. Additionally, this course is designed to provide students with a fundamental understanding of how Business Intelligence and Data Warehousing with Data Marts support a Knowledge Management environment. It also introduces the basic principles of Knowledge Management, focusing on the need for and use of information.

535 Data Mining and Warehousing (3)

Data mining is a relatively new term used in the academic and business worlds, often associated with the development and quantitative analysis of very large databases. Its definition covers a wide spectrum of analytic and information technology topics including a set of techniques that have been designed to find interesting pieces of information or knowledge in large amounts of data most efficiently. Association rules, for instance, are a class of patterns that tell which products tend to be purchased together. There is currently a large commercial interest in the area, both for the development of data mining software and for the offering of consulting services on data mining, with a market for the former estimated in the billions of U.S. dollars. In this course we explore how this interdisciplinary field brings together techniques from databases, statistics, machine learning, and information retrieval. We will discuss the main data mining methods currently used, including data warehousing, denormalization, data cleaning, clustering, classification, association rules mining, text indexing and searching algorithms, how search engines rank pages, and recent techniques for web mining.

541 Organizational Behavior and Development (3)

Investigation and critique of contemporary theories of organization and administration with respect to their scientific support and practicality for increasing rationality, prediction, and control in business administration. Examines such topics as: motivation, interpersonal and organizational communications, work group dynamics, intergroup interaction and leadership, as well as organizational structure and effectiveness.

542 Financial Planning and Management (3)

This course concentrates on the principles and techniques for effective use of business capital and on the decision-making ability developed for short-range and long-range financial planning. Financial theory, institutions, and capital markets as they affect national, multinational, and transnational corporations are discussed. Readings and case studies are utilized.

543 Human Resources in Management (3)

This course examines the Human Resource Management function and its strategic role in the corporate structure. Recruitment, selection, training and development administration, performance appraisal, succession planning, global aspects of HRM, and current trends in Human Resource Management are among the topics included in the readings and class discussions. Case studies and role play related to HRM have a role in the learning process. At least one speaker from the industry is invited to class each semester as a means of connecting the student to the "real world" application of Human Resource Management. A comprehensive final project/paper is written and presented at the end of this class. Students are encouraged to write research papers suitable for submission to appropriate journals.

546 Managing the Organization in the Marketspace (3)

A profound consequence of the ongoing information revolution is its influence on how value is created and extracted when information about a product or service can be separated from the product or service itself. This course explores various conceptual frameworks and best practices for maximizing opportunities in the marketspace. This course also examines how organizations utilize marketplace and marketspace environments to their best advantage to achieve and sustain competitive advantage. (Prerequisite: BUS 531, or permission of the Executive Director.)

548 Operation Analysis and Management: Quantitative Methods (3)

The importance of operations management has increased dramatically in recent years. Fierce global competition, shorter product and service life-cycles, better educated quality-conscious consumers, and the capabilities of new and emerging technologies have placed increasing pressures on the operations function to improve productivity while providing a broader array of quality products and services. This course examines problems encountered in planning, operating, and controlling production of goods and services. Topics include: waiting-line management, quality assurance, production systems, project management, and inventory management. Computer and quantitative models used in formulating managerial problems.

549 Labor Relations – Manpower and Collective Bargaining (3)

An analysis of collective bargaining and the negotiation process. Factors affecting the negotiation between management and the labor unions are discussed. Cases are utilized to illustrate impact of statutory law on private enterprise.

550 Production Management: Total Quality Management (3)

Production and inventory planning and control systems. The design of production facilities, location, capacity, and assembly line production are covered. Cost factors,

including labor, standards, preventive maintenance, product planning, manpower planning. All are part of the resources used in a total quality management scenario. TQM presents methods, tools, technologies, and case studies for product, process and service quality improvement. The emphasis is on prevention through quality engineering, design, and implementation. The ISO 9001:2000 standard is a keystone aspect of this course, as it serves as a must for quality audits and certifications.

551 Management of International Business Organizations (3)

An in-depth study of international business organizations, with an emphasis on the social systems within countries as they affect the conduct of business from one country to another. Through case studies the alternatives for overall corporate policy and strategy that accommodate global operations will be explored. A research project on doing business in another country is part of the course requirement.

553 International Marketing (3)

The methods and systems of international marketing are discussed. International promotion, marketing intelligence, advertising, distribution in foreign markets, and global logistics, as well as international product policies, are discussed.

554 Policy Formulation and Strategy Management (3)

This course is designed to provide students with an exposure to the broad framework embraced within the process of strategic planning and policy formulation. It is a comprehensive review and integration of all the functional areas covering business entities. Specifically, the course blends concepts, theory, and current practice. These elements are coordinated with selected case studies from actual business and/or organizational situations supported by executive presentations that are coordinated by student groups. Complex cases allow the students to test and extend their conceptual analytical skills. (Prerequisite: completion of at least 24 graduate credits.)

556 Business Venture and the Entrepreneur (3)

Provides the student with practical knowledge of the entrepreneurial mindset covering evaluation of opportunities, sources of financing, business planning and development, deal structure, and valuation techniques. This course will include case analyses and require students to develop a business plan which will be presented and analyzed in class.

562 Systems Analysis and Design: Industrial Problem-Solving (3)

Effective business solutions begin with an appropriate understanding of business situations and requirements. As organizations strive to bring about an improvement in business performance and sustainability, analysis and design play a critical role in ensuring timely delivery of effective solutions. This course examines the nature of the various problems confronted in business and how systems thinking and systems development concepts, methodologies, tools, and techniques can effectively deal with them. Topics include characteristics of complex, ill-structured, problematic situations; appreciative systems; systems thinking; inquiry systems, decision traps; constituency identification; problem formulation; requirements determination;

project definition and system study; design and implementation; and project management. (Prerequisite: BUS 531)

563 Information and Database Management Systems (3)

The course introduces database management and database management systems (DBMS). Students will acquire technical and managerial skills in planning, analysis, logical design, physical design, implementation, and maintenance of a database. Students will be provided hands-on training in database design, development, and implementation using relational DBMS software. Emphasis is placed on designing and developing reliable databases to support organizational management. (Prerequisite: BUS 531 or permission of the Executive Director)

564 Accounting Information Systems (3)

This course examines the information system's role in accomplishing the objectives of financial accounting, managerial accounting, tax accounting, and auditing. Systems covered include manual accounting, computerized accounting, and Internet electronic commerce applications. Additional topics include internal controls, systems analysis, systems design, and systems implementation.

566 Telecommunications and Networking Systems for Business (3)

This course provides a comprehensive coverage of technologies, enabling processes and approaches vital for the effective assessment, design, management, and security of business telecommunications and networking systems.

568 Legal Aspects of the Management Process (3)

The course examines the growing importance of legal aspects as they relate to corporations, partnerships, and limited partnerships. Topics covered include: agency and employment, limited liability, managers' legal obligations, shareholders' rights, capital structure, and duties and powers of directors and officers.

569 Management of Innovation and Technology (3)

The innovation process and its management have been examined by scholars and practitioners for many years from the perspectives of a wide variety of disciplines. This course is designed to provide students with a robust framework that brings together a vast array of concepts, issues and challenges, cases, and best practices related to progress in the study and practice of innovation and technology and its management. Course also provides students with tools and techniques needed to understand, construct, and deploy a model of innovation that can be employed in many practical business and non-business settings.

570 Marketing and Strategic Planning (3)

This course examines marketing as a major part of an organization's strategic plan. Readings and discussion for this class include the basic functions of marketing, segmentation of markets, marketing research techniques, and advertising and PR as part of the marketing campaign. Students work in marketing teams to analyze cases and produce a strategic marketing plan. Each semester, at least one team produces a marketing plan for a particular local organization in need of greater visibility. A speaker from the industry visits the class to give the students real world insights into

marketing as a major part of the organization's strategic plan. Discussions also include aspects of both ethical and unethical marketing.

581 Acquisition and Divestment (3)

The course covers the theory and practice of strategic acquisitions and divestments. In addition, it discusses structure of Leverage Buy Out (LBO) and the role top management plays in the process. Furthermore, the course utilizes financial analysis techniques applied in the economic evaluation of consolidation, merger, liquidation, and reorganization. It reviews the transaction needed to complete an acquisition and gives defensive mechanisms used by management to deter a raider. Case studies and business reports are utilized.

582 Business Taxation (3)

Comprehensive, detailed study of federal tax law with emphasis on the formation, operation, and dissolution of corporations, limited liability companies, partnerships, and sole-proprietorships.

583 Retirement and Estate Planning (3)

This course covers all the major retirement-related issues including plan design and flexibility, social security, and Medicare. Techniques for achieving various financial goals and structuring investment portfolios will be discussed. In addition, the course examines legal, financial, and practical considerations in the creation, management, and conservation of an estate. Various types of property interests (joint tenancy, tenancy in common, community property) are reviewed and the use of revocable and irrevocable trusts, gifts, powers of attorneys, retirement, and custodial accounts are discussed. The influence of federal estate and gift taxation and state taxation rules on estate planning techniques is examined. Ultimately, students will gain a thorough understanding of the process for developing a comprehensive financial plan.

584 Managerial Economics (3)

Coverage includes the economic theory in managerial decisions. Emphasis is placed on the application of these economic techniques within the business environment.

Topics include estimation of supply and demand, forecasting and trend analysis, production and cost functions, and pricing strategies in various market structures.

585 Risk Management and Insurance (3)

Effective risk management is essential in today's uncertain business environment. Derivatives are standard instruments for managing financial risk with more than 90 percent of the Fortune 500 companies using fixed income derivatives to manage interest rate risk exposure. Thus, this course develops tools for valuing and modeling an organization's risk exposures, and it explores key issues in fixed income, financial engineering, and risk management. The sources of risk information are examined, business risks are analyzed, and the alternative methods of handling risks evaluated. Criteria for selection of proper insurance coverage and selection of carriers and intermediaries are also reviewed.

586 SEC and the Financial Markets (3)

Operation and regulatory management of various financial markets such as Money Markets, Capital Markets, and Derivative Markets, etc., are discussed. A discussion of various instruments in addition to the involvement of various institutions (such as SEC, FDIC, FHLBB, FOMC) in each of these markets is also included. Recent regulatory changes (such as SOX and the Dodd-Frank Act) are analyzed and debated as to their impact on financial firms and markets.

587 International Trade and Investment (3)

The objective of this course is to assist students in achieving a better understanding of the multinational corporation in our increasingly interdependent world. Topics include: the determination of foreign exchange rates in a stable and variable rate system; the management of currency risk; and international portfolio investments. Trade relations and policies toward multinational enterprises are also discussed.

588 Portfolio Theory and Capital Markets (3)

A comprehensive survey of theories relating to construction of optimum portfolios, including discussion of the determinants of selecting securities within each portfolio. Institutions involved in the investment process as administrators or investors will be studied and performance evaluation criteria for investment houses discussed. (Prerequisite: BUS 542 or permission of the Executive Director)

589 Advanced Topics in Real Estate Management (3)

The focus of this course is the practical skills and judgment that contribute to creating and delivering successful projects in the real estate environment. It provides an advanced survey of modern residential and commercial real estate financing techniques from the perspective of the borrower and the lender. Although special entrepreneurial opportunities are considered, the course also recognizes that almost every executive is likely to be a significant user of real estate as a corporate leader, member of government, or trustee of a nonprofit. And, for most organizations, building projects are significant decisions whose execution is critical to overall sustainability and growth. Thus, this course provides the applied skills and techniques to make that decision a responsible and successful one and to appreciate

the complex design and construction that contribute to a building's functionality, aesthetics, and overall value. Topics include: real estate contracts and regulations; financing methods and techniques, institutional sources of funds for real estate, appraisals and risk analysis; and real estate financing decision-making. The course includes lectures, demonstrations, spreadsheet software exercises, and guest speakers.

590 Research Methodology (3)

This course is designed to provide students with a thorough coverage of Qualitative and Quantitative Methods in business research topics backed by solid theory. Our approach blends a discussion format related to methodological and procedural issues with practical application through research projects performed in real-life settings. The course also addresses ethical issues, the role of the researcher, and strategies for reporting results.

592 Web Application Design and Development (3)

A growing number of businesses are concerned with increasing the strategic exploitation of technology and are using the web in rapidly changing and increasingly complex and critical ways. Generally, this course is about the development of web-based applications; it is not a Web page design class. Thus, the focus is not on the client tooling but the server side such as scripting languages, database interfaces, XML, web services, PHP, and Web application design concepts. The course includes a survey of current web business practices to help the student gain an appreciation of the tools and web technologies necessary for business application design and development. The student will also learn to specify and design identity management and security requirements for web services and to apply appropriate tools and techniques to design an e-business system. Additionally, the student will learn the ethical, legal, and professional issues in the development of web business applications.

593 Business Information Security and Continuity (3)

Manmade and natural incidents happen within and across interconnected organizations every day. Many of these events are caused by security breaches and can cascade out of control to become crises and disasters that can threaten the very existence of organizations. Topics include a systems-wide and strategic perspective of information security; technical and administrative aspects of information security and assurance; approaches and methods for protecting information assets, determining the levels of protection, and response to security incidents; designing a consistent, reasonable information security system, with appropriate intrusion detection and reporting features; and information security and staffing functions.

594 ERP Systems (3)

ERP systems enable organizations to improve processes and to consolidate data and resources from all its units into one enterprise-wide accessible resource. Organizations are increasingly relying on ERP systems to better manage their enterprise, business intelligence, supply chain, customer relationships, and business operations. This course provides students with a comprehensive coverage of various

modules and functionalities of an ERP software and a hands-on platform to learn and develop expertise vital for installing, administering, and maintaining ERP software solutions in a corporate enterprise environment.

595 Graduate Internship (3)

Places the student in a profit/nonprofit organization to receive on-the-job administrative training related to the student's area of specialization. The student must log 250 hours of work experience to receive the three hours of credit.

598 Special Topics (variable credit)

Courses and seminars, short-term and semester-long, offered in a variety of course delivery modalities, to address various topics to meet current and emerging trends that impact business.

599 Independent Research (variable credit)

Designed for students performing in-depth research in a particular field or subject. Research may include, but is not limited to, tasks and analysis in service to the Pacer Investment Fund.

Master of Health Services Administration (MHSA) Overview

A management career in Health Services Administration allows students to gain proficiency in management skills and can improve the delivery of health services in a community. This proficiency contributes to highly successful health care delivery committed to quality. In turn, the consumers benefit from effective and efficient health care services.

The MHSA provides graduate education in health care administration for persons seeking careers in the management and administration of health care facilities/organizations and other healthcare settings. This degree also provides opportunities for individuals in health services to seek career improvement and development.

The MHSA provides health care managers with a framework for decision-making in the constantly changing health care environment. At the same time the degree provides a background of operational resources for managers in the field.

This program course will enhance the administrative training of students concerned with the provision of health care and the current health care reform. Students' needs and goals are met, bringing the application of management skills from a theoretical model. This degree will be a step in meeting the needs of those professionals currently practicing and also will prepare the health service administrators of tomorrow.

Health Services Administration Five-Year Degree Option

Advanced standing in Marywood University's graduate Health Services Administration Program is available to qualified majors for a five-year degree option.

The undergraduate Health Services Administration major prepares students for entry-level positions in health. The program provides the knowledge and skills necessary for administrative positions in nursing homes, hospitals, rehabilitation facilities, managed care, and the many other organizations providing health care in American society. A special track focuses upon health care delivery to the elderly. This major integrates courses in the social sciences (36 credits) as well as the liberal arts (43-46 credits). An important program component is an internship in a nursing home, hospital, managed care, public health agency, or other organization during the senior year. Advanced standing is available to qualified majors. A Gerontology major is also available. Contact the program director for more information.

This program will enhance the administrative training of students concerned with the provision of health care and the current health care reform. Students' needs and goals are met, bringing the application of management skills from a theoretical model. This degree will be a step in meeting the needs of those professionals currently practicing and also will prepare the health service administrators of tomorrow.

Students must meet undergraduate core curriculum requirements. See undergraduate catalog or curriculum guides available from the Program Director.

Courses (HSA)

506 Research Theory (3)

Introduction to the methodology of research—historical, descriptive-survey, experimental design, critical interpretation, and case study techniques—with attention to specialized data-gathering procedures, such as the questionnaire, the interview, observation, etc. Introduction to statistical concepts. Directed toward the writing of a thesis or a professional contribution (PC) as a degree requirement.

507 Organizational Dynamics (3)

What a supervisor needs to know about human behavior in a work setting. Stressed are the subjects of work motivation, power and control, communication, impact of work/organization design, and management-by-objectives using a case analysis/discussion format.

508 Human Resources Administration and Personnel Systems (3)

Survey course of personnel practices used in the public sector. Discusses all human resources phases, from recruitment to retirement. Special emphasis on unionization, personnel problems, and leadership styles.

510 Concepts and Issues in Gerontology (3)

The process of aging and surviving into the "later years" results from a complex interplay of social forces, human systems, and social policies, which impinge upon groups and individuals. This course examines components of social gerontology that view aging as an expression of a societal-institutional structure that "creates" and sustains human beings.

511 Ethics in Management (3)

The course provides an introduction to the field of ethics and an opportunity to increase understanding, knowledge, and competence in dealing with the ethical challenges and dilemmas that are found in the public, private, and nonprofit employment sectors. Course materials will focus on individual as well as corporate systems of responsibility and accountability and the ethical dimensions of public as well as private life.

518 Policy and Program Analysis (3)

This course explores the policy-making processes important to an administrator. Develops skills necessary for formulation and analysis of policy problems and the implementation of public policies.

520 Introduction to Health Services Administration (3)

The course provides a background on the United States health care system in areas of administration, history and philosophy of public health, politics, health policy and strategic planning, finance and evaluation, and assessment of medical care in the context of the social, legal, and regulatory environment of the delivery of personal health services.

524 Health Care Systems Analysis (3)

A comparative analysis of health care delivery systems and the application of systems analysis and design concepts for designing and evaluating health care delivery systems. A study of the elements of personal health services systems which encompass the various ways of delivering personal health services with regard for their evolution, governance, financial structure, organization function and structure, changing characteristics and relationships, and mechanisms for quality assessment and social accountability. A study of individual social and environmental determinants of health, disease, and disability including the field of medical sociology.

525 Health Care Economics (3)

This course deals with the macroeconomics and microeconomics context of health care finance; the basics of health care accounting and of demand and utilization of health care services; and pricing of health care services.

527 Geriatric and Gerontological Services Administration (3)

This course examines the role of disciplines/professionals providing health services to the aged. Special topics will be addressed such as spiritual, religious, and psychological needs in long-term care. The economic, political, legal, ethical, and social issues which affect the administration of human service organizations will be studied. Emphasis will be placed on administrator application in health care services in U. S. and other countries.

528 Administration of Long-Term Care (3)

An evaluation of long-term care institutions as a health care delivery subsystem; comparative evaluation of types of long-term care institutions; government regulations, long-term care facility organization and management.

529 Health Care Services for the Elderly (3)

This course acquaints students with the planning process and resources available for meeting the needs of the elderly. Additionally, provides broad knowledge of health care services for the aged and their implementation.

532 Legal Aspects Clinical and Health Care Organizations (3)

The course covers topics which include the role and liabilities of the hospital administrators, the governing board and the medical staff. Nursing services and hospital liabilities encountered by health care delivery are discussed. Disclosure of patient information and the legal consideration related to this disclosure are covered. Labor law and the complex issues among management, labor, and the community are part of this course.

533 Research Methods

An introduction to methodology, design, and statistical applications in health science research. This course is intended to make the student a more informed consumer of the nutrition/dietetics research literature and to provide sufficient information for the design of a theoretically and methodologically sound study.

537 Managerial Decision-Making in Health Care Organizations (3)

This course examines operational concerns in the area of institutional administration. Included are project planning and constraints, work-load forecasting, patient scheduling, facility staffing, quality assurance, utilization review, control mechanism, applications of institutional resources. Includes application of management and administrative skills for the hospital administrator.

538 Institutional Budgeting and Planning (3)

The course will address the unique aspects of managing the financial resources of health care institutions. Focus will be on topics such as capital budgeting, sources of revenue, the impact of reimbursement on financial decisions, and the evaluation of fund sources. Analytical tools to aid in financial decision-making within health institutions will be examined.

539 Overview of Managed Care (3)

This course provides an overview of health care insurance and finance by addressing the issues surrounding conventional delivery. The background and development of managed care, contracting, and legal issues in managed care and the general management requirements in managed care organizations are covered in three modules.

555 Professional Contribution (0)

This is the last program requirement to be fulfilled by the candidate before graduation. This is not a structured classroom course, but rather a semi-independent experience, such as a thesis, and similar to the comprehensive examination requirement. Participants should consult with their mentors early in the program to develop an acceptable Professional Contribution agenda.

580 Epidemiology/Environmental Health (3)

Studies the field of epidemiology including concepts, principles, and models. Descriptive epidemiology relative to person, place, and time will be analyzed and interpreted. Human health and the environment, some research needs, and planning in environmental health science is reviewed.

583 Marketing and Strategic Planning (3)

The science of marketing centers and the creation of a marketing strategy in order to achieve corporate goals and deliver the product to the ultimate consumer are discussed. The course explores market segmentation, strategic marketing, and the role that advertising, pricing, and packaging play in market planning. Harvard Business Cases and other cases are utilized to illustrate the theory covered.

1

595 Independent Study

Student interest and self-directed learning. See program director.

596 Internship (3)

After completion of class coursework, a candidate must take the Practitioner's Seminar. Any candidate who cannot demonstrate a clear record of administrative responsibility must pursue a three-credit-hour field internship in addition to and in conjunction with the Practitioner's Seminar. A field internship must be arranged six months prior to its intended commencement. Internships in public, human, and health service agencies each consist of up to twelve weeks of full-time employment or their equivalency on an extended, part-time basis.

597 Management Project (3)

A Management Project is structured to increase knowledge and skills in theoretical application. The student, upon completion of coursework, must do either a research oriented management project or an internship. Students must consult their mentors early in the program to determine the administrative project or internship to pursue. The objective is to develop research skills, skills in improving organizational effectiveness, and in the development of leadership potential, including stimulating creativity and interpersonal and communication skill development.

599 Practitioner's Seminar in Administration (3)

Seminar format designed to develop management skills, including work programming and time management; also covers experiential application of public administration theories and principles with emphasis on observation, analysis, reporting, and communication skills. Career development component directs participants in the process of self-analysis to formulate career goals and strategies.

THE GERONTOLOGY INSTITUTE

Director: Alice McDonnell, M.P.A., Dr. P.H.

Marywood University established the Gerontology Institute in 1978 to provide interdisciplinary graduate education focused on the issues of aging. The Gerontology Institute offers graduate students the opportunity to focus their educational experiences on the problems of aging in American society and to develop specialized skills that will enable them to better serve the large and growing population of elderly.

Students may elect to take courses within the institute to augment their graduate programs. Because needs are so varied, each student's course of study is designed with consideration for individual goals, academic background, and professional experience. Courses of study will be planned in close consultation with the Program Director of the student's master's program to ensure meeting all requirements.

Advisory Board

The Advisory Board of the Gerontology Institute of Marywood University functions to involve constituents and other interested parties in the programming of the Gerontology Institute and to help the University develop and implement an educational program that is responsive to the needs of professionals working with the elderly. The Advisory Board acts as a network of support and information which is directed toward addressing the continuing education needs of those who work with the elderly. The membership includes individuals who represent the disciplines of counseling, nursing, nutrition, psychology, social work, and others interested in serving the needs of the elderly.

MS in Gerontology

A master's degree in Gerontology will offer students an opportunity to be better prepared for a career in health care fields related to the elderly. It will offer health care professionals the knowledge and ability to make continuous changes and improvements in care for the elderly. Health care providers and administrators with gerontology backgrounds will be very valuable in the changing market place.

This program will provide the opportunity for students in the fields such as health care administration, nursing, nutrition, social work, public administration, and counseling/psychology to gain knowledge of the needs of the geriatric population—to care properly for the geriatric patients in both social and health care environments. The curriculum will prepare graduates to work more creatively and do so in an ethical and moral fashion. As the population ages, it will be important for health care workers to adapt to their changing responsibilities and to feel comfortable that the risks they take for attempts at improvement are based upon a solid education and background.

Program Objectives

- 1. To provide students with concepts and theories related to aging.
- 2. To assist students in understanding ethical issues and values pertaining to aging.
- 3. To assist students to effectively identify and make informed decisions in the application of theory to practice.
- 4. To provide students with an understanding of concepts/theories of aging in order to evaluate policy and research needs.
- 5. To expose students to a wide range of administrative and managerial problems, processes, practices, and responsibilities involved in providing gerontological health services.
- 6. To prepare students for planning, organizing, staffing, implementing, and administering gerontological health services administration.
- 7. To facilitate the student's understanding and command of basic theories of management and supervision and applied social science theory related to the delivery of gerontological health services administration.
- 8. To help students develop analytical and evaluation skills and techniques leading to effective managerial decision-making applied to the complex task of providing gerontological health services administration.

36 credits are required for this degree including:	
GER 510 Concepts and Issues in Gerontology	3
GER 511 Ethics in Management	3
GER 520/PSYC 540 Psychological Perspectives on the Aging	3
GER 525 Aging Changes and Health	3
GER 590/N D 590 Research Methodology	3
GER 591/N D 591 Statistical Analysis	3

GER 596 Internship	. 3
GER 599 Practitioner's Seminar in Administration	. 3
GER 527 Geriatric and Gerontological Services Administration	
GER 528 Administration of Long-Term Care	
GER 529 Planning Health Care Services for the Elderly	
GER 555 Professional Contribution	
GER 583/BIOL 583 Emerging Medicines and Technologies	

Courses may be substituted with approval of the program director.

AGHE, the Association for Gerontology in Higher Education, was consulted for curriculum guidelines and standards. Marywood's former Certificate in Gerontology received an AGHE Program of Merit accreditation, making it the only school in the Northeast to offer such a program.

The Research Theory course, Internship, and Professional Contribution must focus on gerontology research and practice. The program director must approve and mentor these activities. The internship should be within an organization and/or facility which includes experiences with both well-functioning older persons and those with disabilities/diseases common to the aging process.

For the internship, learning objectives must be submitted initially, followed by a conference among student, program director, and external preceptor. Once all learning objectives are clarified and reviewed, the student may register for the experience.

For degree requirements, the Professional Contribution requires a written proposal submitted to the Program Director for approval, followed by a conference prior to registration. Each student participates in the Practitioner's Seminar to integrate/apply knowledge and practice. Please refer to Internship Guidelines and Professional Contribution, which are available in the School of Business and Global Innovation.

Courses (GER)

506 Research Theory (3)

Introduction to the methodology research—historical, descriptive-survey, experimental design, critical interpretation, and case study techniques—with attention to specialized data-gathering procedures, such as the questionnaire, the interview, observation, etc.; introduction to statistical concepts. Directed toward the writing of a minor thesis as a degree requirement.

510/SW 941 Concepts and Issues in Gerontology (3)

The process of aging and surviving into the "later years" results from a complex interplay of social forces, human systems, and social policies, which impinge upon groups and individuals. This course examines components of social gerontology which view aging as an expression of a societal-institutional structure that "creates" and sustains human beings.

511 Ethics in Management (2)

Topics include treating AIDS and HIV-positive patients, withholding life-support treatment, and ethical issues in geriatric care.

520/PSYC 540 Psychological Perspectives on the Aging Process (3)

Provides students with an overview of the variety of psychological theories of aging. Places special emphasis on the adjustment factors of old age.

525 Aging Changes and Health Problems (3)

Introduces students to the primary and secondary biological aging changes. Covers anatomical and physiological changes of all body systems, with special emphasis on health problems arising from these changes and on related social and psychological phenomena.

527 Geriatric and Gerontological Services Administration (3)

Examines the role of disciplines/professionals providing health services to the aged. Special topics will be addressed such as spiritual, religious, and psychological needs in long-term care. The economic, political, legal, ethical, and social issues which affect the administration of human service organizations will be studied. Emphasis will be placed on administrator application in health care services in U.S. and other countries.

528 Administration of Long-Term Care (3)

Focuses on the evaluation of long-term institutions as a health care delivery subsystem; comparative evaluation of types of long-term care institutions; government regulations; long-term organization and management.

529 Planning Health Care Services for the Elderly (3)

Acquaints the student with the planning process and resources available for meeting the needs of the elderly. Provides the student with a broad knowledge of health services for the aged and their implementation.

530/ND 504 Nutrition and Gerontology (3)

A study of physiological and biochemical changes of aging persons, nutrition requirements, and dietary management of the geriatric patient.

531 Communicating Across Generations: Oral History (3)

This course will focus on the techniques, planning, organization, implementation, and evaluation involved in conducting oral historical research as applied to a geriatric population. Students will select a research topic in consultation with the professors and complete at least five oral history interviews, transcribe these interviews, and present their research in the form of a paper. This research will analyze the topic at hand using the content of the oral interview as well as traditional research. Each study should attempt to offer some significant data and conclusions about the topic. Research will be presented in seminar for peer critique and evaluation. Interviews/ research may deal with such topics as: food habits, health issues and concerns, and personal histories (ethnicity, local history, and autobiography).

555 Professional Contribution (0)

This is the last program requirement to be fulfilled by the candidate before graduation. This is not a structured classroom course, but rather a semi-independent experience, such as a thesis, and similar to the comprehensive examination requirement. Participants should consult with their mentors early in the program to develop an acceptable Professional Contribution agenda.

575 Counseling the Aged (3)

Provides students with behavioral techniques and theory for providing counseling services to the elderly and their families.

583/BIOL 583 Emerging Medicines and Technologies (3)

This course will focus on new discoveries that affect, or promise to affect, mankind. Advances in science and medicine are providing hope for treatment of deadly and debilitating diseases; however, such advances impact society on many levels. The emerging medicines we will consider include gene therapy, anti-obesity and antiaging drugs, mental illness treatments, genetic testing, and cancer research topics. An understanding of the biological basis of each emerging medicine will be focal. Science majors and Marywood University graduate students. Prerequisites: BIOL 435, 435L, CHEM 331, 331L, 332, 332L.

590/ND 590 Research Methods (3)

Introduction to methodology, design, and statistical applications in health science research. This course is intended to make the student a more informed consumer of the nutrition/dietetics research literature and to provide sufficient information for the design of a theoretically and methodologically sound study.

591/ND 591 Statistical Analysis (3)

Application of statistics to data analysis and use of SPSS.

595 Independent Study (variable credit)

Allows students to work intensively on an individual basis with a faculty member in pursuing specialized gerontological content not found elsewhere in the curriculum.

596 Internship (3)

An internship is required to increase knowledge and skills in theoretical application. Students must consult their mentors early in the program to determine the internship to pursue. The objective is to develop research skills, skills in improving organizational effectiveness, and in the development of leadership potential, including stimulating creativity and interpersonal and communication skill development.

597 Management Project (3)

A Management Project is structured to increase knowledge and skills in theoretical application. The student, upon completion of coursework, must do either a research oriented management project or an internship. Students must consult their mentors early in the program to determine the administrative project or internship to pursue. The objective is to develop research skills, skills in improving organizational effectiveness and in the development of leadership potential, including stimulating creativity and interpersonal and communication skill development.

599 Practitioner's Seminar in Administration (3)

Seminar format designed to develop management skills, including work programming and time management; also covers experiential application of public administration theories and principles with emphasis on observation, analysis, reporting, and communication skills. Career development component directs participants in the process of self-analysis to formulate career goals and strategies.

DEPARTMENTAL FACULTY AND THEIR RESEARCH

Architecture

Miguel Calvo-Salve, Assistant Professor of Architecture, 2013; M.Arch, Escuela Tecnica Superior de Arquitectura Universidad Polictechica de Madrid. R. A. (Spain). Building with natural light and new materials.

Andrew Doyle, Instructor in Architecture, 2015; M. Arch., Norwich University, 2011. Applied digital media, analytical techniques related to design thinking.

James Eckler, Assistant Professor of Architecture, 2010; M.Arch, University of Florida, 2008. Urbanism and place-making. Architecture as it directs the development of cities and cultivates community. Pedagogy, design teaching methodology: analysis, synthesis, and tectonic logic in generating space.

Gabriel Fuentes, Assistant Professor of Architecture, 2013; M.Arch., Florida International University, 2005; M.S.AUD., Columbia University, 2010. Architectural design; urbanism; Architectural history, theory, and criticism; Cultural Theory (Aesthetics and Politics).

Stephen Garrison, Clinical Assistant Professor of Art, 2007; M.F.A., Savannah College of Art and Design, 1999. Allegorical figure painting, mural painting, furniture.

Maria MacDonald, Clinical Assistant Professor of Interior Architecture/Design, 2006; M.A., Marywood University, 2006; Applications in Sustainable Design, Applications in Architecture and Interior Design.

Patrick Martin, Instructor in Architecture, 2013; M.Arch, Norwich University, 2012. Digital fabrication, design-build as iterative exploration.

Margaret McManus, Assistant Professor of Architecture, 2013; M.Arch, University of Pennsylvania, 2005. Digital representation, structural integration in architecture.

Kate O'Connor, Assistant Professor of Architecture, 2011; M.Arch, Tulane University, 2010. Socially responsible architecture, structures in architectural pedagogy.

Robert Petrie, Assistant Professor in Architecture, 2015; M. Arch., Cornell University, 2004. Architectural representation and delineation, foundation design.

Jayashree Shamanna, *Pro Rata* Instructor in Architecture, 2012; M.SC. Arch., Texas A&M University, 1994. Historic Preservation, adaptive re-use.

Athletic Training and Exercise Science

Jason Edsall, ATC, LAT, CSCS, Director of Athletic Training Program, 2015; M.ED., Salisbury University, 2004; Functional movement screening, Injury prevention.

Angela Hillman, Assistant Professor of Exercise Science; Ph.D., University of Hull, 2011, Certified Exercise Physiologist (EPC), Exercise Physiology and biochemistry, thermoregulation, oxidative stress.

Shelby W. Yeager, ATC, LAT, NASM-PES, FMSC, Chair of Athletic Training and Exercise Science, 2004; M.Ed., East Stroudsburg University, 1994. Functional movement screening, shoulder injury evaluation.

Communication Arts

Douglas Lawrence, Professor of Communication Arts, 2001; Ph.D., Union Institute. The impact of student development through the use of all forms of mass communication, including oral interpretation, written delivery, and technology. Exploration and development of critical theory relative to expressing clarity in message delivery through the communication process.

Michael Mirabito, Chair and Professor of Communication Arts, 2000; Ph.D., Bowling Green State University, 1982. New communication technologies, space exploration, communication systems, digital imaging, photography, and Holocaust and genocide studies.

Paul J. Sevensky, Assistant Professor of Communication Arts and Director of Advertising/Public Relations Program, 2013; M.A., Marywood University, 2011. Crisis communications, public relations case problems, advertising copy and communications graphics.

Lindsey L. Wotanis, Associate Professor of Communication Arts and Director of Broadcast Journalism Program, 2015; Ph.D. University of Maryland, 2011. Research interests include community and collegiate journalism, rhetoric, gender, and social media.

Communication Sciences and Disorders

Academic and Clinical Faculty

Amanda Bennett, Clinical Instructor of Communication Sciences and Disorders, 2015; M.S., Marywood University, CCC-SLP, ASHA. Dysphagia, Adult neurogenic communication disorders, and apraxia.

Lauren Burrows, Assistant Professor of Communication Sciences and Disorders, 2014; Ph.D., University of Memphis, 2014; CCC-SLP, ASHA. Phonology, bilingualism, child language, and literacy.

Mona R. Griffer, Associate Professor of Communication Sciences and Disorders, 1997; Ed.D., Nova Southeastern University, 1997; CCC-SLP, BRCLS, ASHA. Child language development/disorders, early intervention, multicultural issues, pediatric oral-motor/feeding, and the supervisory process.

Renee S. Jourdanais, Clinical Instructor of Communication Sciences and Disorders, 2000; M.S., Nazareth College, 1998; CCC-SLP, ASHA. Craniofacial anomalies, genetic syndromes, adult neurogenics, developmental apraxia of speech.

Marla Kovatch, Clinical Instructor of Communication Sciences and Disorders, 2013; M.A., University of Maine, 1997; CCC-SLP, ASHA. Language/Literacy, cognitive disorders, AAC, and ESL/accent modification.

Mary Margaret Mazzaccaro, Clinical Instructor of Communication Sciences and Disorders, 2001; M.S., Florida State University, 1992; CCC-SLP, ASHA. Adult neurogenics, child language disorders.

Andrea M. Novak, Clinical Assistant Professor of Communication Sciences and Disorders, 2000; M.A., Edinboro University, 1995; CCC-SLP, ASHA. Adult neurogenics, phonology, supervisory process, and dysphagia.

Vijayachandra Angalli Ramachandra, Associate Professor of Communication Sciences and Disorders, 2005; Ph.D, Bowling Green State University, 2007. Neuroscience, articulation and phonology, child language development/disorders, and cognitive-linguistic deficits.

Sheri Skrutski, Clinical Instructor of Communication Sciences and Disorders, 1994; Au.D., University of Florida, 2001; CCC-A, ASHA. Aural rehabilitation, hearing aids, assistive listening devices.

Bruce A. Wisenburn, Assistant Professor of Communication Sciences and Disorders, 2009; Ph.D., University at Buffalo, 2005; CCC-SLP, ASHA. Acquired neurogenic communication disorders and augmentative/alternative communication.

Criminal Justice

Brian A. Monahan, Associate Professor of Sociology and Criminal Justice, 2012; Ph.D., University of Delaware, 2006. Introduction to sociology, social problems, media and society, deviant behavior, crime in the media, criminological theory, social control, social movements.

Patrick Seffrin, Associate Professor of Criminal Justice and Sociology, 2009; Ph.D., Bowling Green State University, 2009. Criminology, adolescence, poverty, quantitative methods, violence, drugs, and alcohol.

Education

Patricia S. Arter, Associate Professor Special Education Program (2011); Ed.D., Johns Hopkins University, 2005. Inclusionary Practices, Universal Design for Learning, best practice and transition for young adults with autism.

Tammy B.H. Brown, Associate Professor, Graduate Reading and ESL Programs, (2003); Ph.D., Rutgers University, 2008. Struggling beginning readers, new literacies, socio-cultural factors affecting literacy.

Christine L. Fryer, Chair (2015), Assistant Clinical Professor of Education (2007); Ed.D. Indiana University, 2013. Curriculum Instruction, reflective practices, science curriculum.

Bernice Lukus, Clinical Faculty of Education (2010). M.S. Marywood University, 1974. Special Education, administration in special education.

Joseph A. Polizzi, Associate Professor of Education and Educational Leadership, (2013); Ph.D., Pennsylvania State University, 2007. Experiential and transformational learning, school leadership, small schools, preparation and professional development of new teachers.

Mathematics and Computer Science

Dhanapati Adhikari, Associate Professor of Mathematics, 2011; Ph.D. Oklahoma State University, 2011; Nonlinear Partial Differential Equations.

Craig Johnson, Professor of Mathematics, 1994; Ph.D. Purdue University, 1989. Topology.

Thomas Kent, Associate Professor of Mathematics, 2008; Ph.D., University of Wisconsin, Madison, 2005. Computability Theory.

Music, Theatre, and Dance

Jennifer Cowgill, Associate Professor of Voice, 2012; D.M., Florida State University, 2004. Applied voice; vocal pedagogy; Italian, German, and French vocal diction; art song literature.

Chuck Gordon, Associate Professor of Theatre, 2015; M.F.A., University of Oklahoma, 1998. Director of Theatre Program. Directing, acting, script analysis, dramatic literature.

Rick Hoffenberg, Associate Professor of Choral Studies, 2007; D.M.A., Yale University, 2009. Coordinator of vocal and keyboard studies, director of choral ensembles, choral conducting, applied vocal performance, piano performance, opera performance, vocal coaching.

David R. Jumper, Assistant Professor of Jazz Studies and Trumpet, 2009; M.M., University of New Orleans, 2006. Jazz studies coordinator, applied trumpet, and music theory.

Sr. Joan McCusker, IHM, Associate Professor of Music Education, 2005; Ph.D., Eastman School of Music, 2001. Music cognition, emerging musical literacy, preservice teacher education, professional development, and K-12 music partnerships.

F. David Romines, Associate Professor of Music Education, 2009; D.M.A., University of Southern Mississippi, 2000. Coordinator of instrumental music studies, director of band ensembles, instrumental conducting, instrumental methods, pre-service teacher education.

Sophie Till, Clinical Instructor of Violin, 2010; M.M., University of Massachusetts, Amherst, 2001. String pedagogy, string performance, chamber music, Taubman/Golandsky approach for string education.

D. Charles Truitt, Assistant Professor of Music, 1980; D.M.A. in Music Education, Boston University, 2015. Applied classical guitar, analytical techniques, music cognition, history and sociology of music.

Nutrition

Helen Battisti, R.D.N., C.D.N., Assistant Professor of Nutrition and Dietetics, 2013; Ph.D., Marywood University, 2010. Childhood and geriatric obesity.

Jessica Rae Bodzio, Clinical Assistant Professor and DPD Program Director in Nutrition and Dietetics, 2011. M.S., Marywood University, 2010. Life cycle nutrition; International service learning; Cultural awareness and competence; Interprofessional learning.

Diane M. DellaValle, R.D.N., Associate Professor of Nutrition and Dietetics, 2015; Ph.D., Cornell University 2011. Impact of nutrition status on human physical and cognitive performance, iron deficiency, obesity and weight management, assessment of mineral concentration and bioavailability traits of staple food crops eaten around

the world within the context of commonly-consumed meal plans, demonstrating the effectiveness of medical nutrition therapy (MNT) provided by the R.D.N. in both outpatient and inpatient care settings.

Maureen Dunne-Touhey, R.D.N., L.D.N., Director, Dietetic Internship Program, 1992; M.S., H.H. Lehman College of the City University of New York, 1983.

Lee Harrison, Professor of Nutrition and Dietetics, 2001; Ph.D., New York University, 1984. Personality type (MBTI) and its effects on career choice, competence and ability to predict success; nutrition support/critical care; food habits; health promotion; gerontological nutrition; children's health.

Erin O'Hora, D.H.Sc., R.D.N., L.D.N., Assistant Professor of Nutrition and Dietetics, 2014; D.H.Sc., Nova Southeastern University, 2014. Sports nutrition, health promotion, the relationship between body image and body fat percentage of cross-country runners, nutrition education, and weight management/weight management for college students.

Physician Assistant Studies

Stanley Blondek, D.P.M., M.D., Medical Director, Physician Assistant Program 2008, pediatrician, Director of Pediatrics for Physician's Health Alliance.

Marie S. Bonavoglia, Clinical Coordinator, Physician Assistant Program; Clinical Assistant Professor; Ph.D., Marywood University, 2013. Geriatric routinization, and health promotion.

Abigail P. Davis, Clinical Coordinator/Clinical Assistant Professor, Physician Assistant Program, 2014; M.S., Marywood University, 2005. Emergency medicine, hands-on skill training, exam preparation, and interprofessional education.

David J. Isgan, Principal Faculty, Physician Assistant Program, Clinical Instructor; M.H.S., Drexel University, 2013; Clinical assessment, gastroenterology/hepatology, interprofessional education, and trends in Physician Assistant Education.

Justine Samanas, Clinical Director, Physician Assistant Program, Clinical Assistant Professor, 2014, M.P.A.S., King's College, 2007. Psychiatry, clinical education, and interprofessional education.

Lori E. Swanchak, Program Director Physician Assistant Program; Clinical Assistant Professor; Ph.D., Marywood University, 2010. Trends in Physician Assistant Education, cardiology, and geriatric medicine.

Heather W. Walters, Academic Coordinator, Physician Assistant Program; Clinical Assistant Professor, 2016; M.P.A.S., University of Nebraska, 2006. Trends in Physician Assistant Education and exercise and health.

Psychology/Counseling

Shamshad Ahmed, Associate Professor of Counseling, 2011; Ph.D., North Carolina State University, 2005. Multicultural counseling, cross cultural perspectives on anxiety and depression, mental health issues, stress management; couples issues, and issues with race, gender, sexual identity challenges, diversity and ethnicity, marriage and family issues.

- **Jennifer S. Barna**, Associate Professor of Counseling, 2009; Coordinator, Counseling Program. Ph.D., Virginia Polytechnic Institute and State University, 2009. School Counselor identity development, school counseling programs and accountability, leadership, and advocacy, the impact of personal/social development on academic achievement.
- **Richard Joseph Behun,** Assistant Professor of Counseling, 2014; Ph.D., Duquesne University, 2013. Child maltreatment, focusing in the area of child sexual abuse; mandated reporting law; civil liability and tort law for counselors, focusing on negligence and the standard of care; moral reasoning; and human sexuality counseling.
- **Sr. Gail Cabral, IHM,** Professor of Psychology, 1991; Ph.D., Catholic University of America, 1978. Myers-Briggs Type Indicator, gender differences, social-cognitive development, particularly in the area of friendship relations; relationship of psychology and religion.
- **C. Estelle Campenni**, Associate Professor of Psychology and Counseling, 2000; Ph.D., Adelphi University, 1987. Cultivating mindfulness in daily life, implicit cognitive performance and mindfulness, well-being and mindfulness.
- **Brooke Cannon,** Professor of Psychology and Counseling, 2000; Ph.D., Binghamton University, 1990. Neuropsychology, dementia, facial affect perception, psychology of film.
- **Renae Courtney**, Clinical Assistant Professor, Director of Psychological Services Center.Psy.D. and Post-Graduate Certificate in Marriage and Family Therapy from the School of Professional Psychology at Forest institute, Springfield, MO. Licensed psychologist in the state of PA and MO. Participant engagement in therapeutic environments.
- **Edward J. Crawley,** Associate Professor of Psychology and Counseling, 1999, Coordinator, Psychology Program; Ph.D., Binghamton University, 1999. Auditory perception, spoken word recognition, and music cognition.
- **Francis J. DeMatteo**, Director of School Psychology Program, Associate Professor of Psychology and Counseling, 2009. Ed.D., Indiana University of Pennsylvania, 2005. Nationally Certified School Psychologist, 1999. Delivering multidisciplinary evaluation results to parents; family school relations; transition, learning outcomes assessment.
- **Bradley Janey,** Chair and Professor of Psychology and Counseling, 1999; Ph.D., Kansas State University, 1999. Psychological test construction, cross-cultural variations in masculinity, counseling males, international training in Clinical Supervision.
- **Janet L. Muse-Burke,** Psy.D. Program and Associate Professor of Psychology and Counseling, 2005; Ph.D., Lehigh University, 2004. Spirituality and religion, supervision and training, psychotherapy process and outcome, test construction.
- **Edward J. O'Brien,** Professor of Psychology and Counseling, 1992; Ph.D., University of Massachusetts at Amherst, 1980. Cognitive and behavioral therapies; cognitive and experiential approaches to self-esteem change; stress and coping; outcomes assessment in higher education and mental health; effects of technological innovations in higher education.

David J. Palmiter, Jr., Professor of Psychology and Counseling, 1998; Ph.D., George Washington University, 1989. Child and adolescent disruptive behavioral disorders, psychological testing.

Tracie L. Pasold, Assistant Professor of Psychology and Counseling, 2012, Ph.D., University of Toledo, 2006. Developmental Psychopathology and issues of childhood and adolescence; pediatric psychology; education/training of medical residents/professionals. Specific variables of interest: eating disorders, emotional intelligence, quality of life, parenting, interpersonal functioning, and personality/temperamental characteristics as these relate to symptomatology.

Robert S. Shaw, Associate Clinical Professor of Psychology and Counseling (2009); Director of Counseling/Student Development Center, 2009; Psy.D., Immaculata University, 2000. Diplomat in Clinical Psychology, American Board of Professional Psychology. Psychological testing, interaction of psychology and spirituality.

Public Administration

Alexander Dawoody, Associate Professor of Public Administration, 2009, Ph.D., Western Michigan University. International relations, Middle Eastern studies, United States foreign policy, peace and conflict resolution, nonlinear dynamics, and complexity systems studies.

School of Business and Global Innovation

James B. Biagi, Assistant Professor of Accounting and Business Law, 2013; JD, State University of New York at Buffalo School of Law, 1990; CPA and Attorney-at-Law, Accounting, federal and state taxation, and business law.

Arthur B. Comstock, Executive Director and Associate Professor of Finance, 2000; Ph.D., Lehigh University, 2000. Investment and portfolio management; corporate financial planning; international economics.

U. Rex Dumdum, Associate Professor of Information Systems and Leadership, 2001; Ph.D., State University of New York – Binghamton, 1993. Leadership in computer-mediated environments, transformational leadership, technology insertion and adoption in organizations, sensemaking and judgment support in individual and team settings.

Monica Law, Assistant Professor of Management and Marketing, 2013; Ph.D., The Pennsylvania State University, 2004. Leadership, emotional intelligence, medical errors

Charles Lipinski, Assistant Professor of Hospitality Management, 1994; D.B.A., Nova Southeastern University, 1990. Management and hospitality management.

George Marcinek, Assistant Professor of Accounting, 1986; M.B.A., University of Scranton, 1981, C.P.A. Accounting, ethical issues in accounting.

Alice Elaine McDonnell, Program Director and Professor of Health Services Administration and Gerontology, 1982. Gerontology; long-term care, role of hospice and other community resources in treatment of older cancer patients, Alzheimer's disease, quality assurance, and geriatric Health Services Administration.

Kerimcan Ozcan, Assistant Professor of Marketing, 2014; Ph.D., University of Michigan, 2004. Marketing, strategy, analytics, co-creation.

Murray Pyle, Clinical Assistant Professor of Management, 2011; Ph.D., University of Michigan, 2010. Operations management, new product development.

Chris Speicher, Associate Professor of Business and Managerial Science, 2007; Ph.D., Temple University, 1997. International business, organizational behavior, entrepreneurship and marketing.

Science

Lisa Antoniacci, M.S. Biotechnology Program Director and Associate Professor of Biology, 2007; Ph.D., Lehigh University, 2005. Characterization of nuclear/chromatin processes, immunology and vaccine development, microbiology and biotechnology.

Christopher W. Brey, Assistant Professor of Biology, 2010; Ph.D., Montana State University, 1999. Functional genetics, molecular biology, and cellular localization of gene expression and regulation in the fat metabolic pathway of Caenorhabdidtis elegans.

Jay P. Clymer III, Associate Professor of Biology, 1983; Ph.D., Lehigh University, 1978. Competitive interactions and resource partitioning among salt marsh killifishes, Family Cyprinodontidae, Aquatic Biology, limnology, community trophic analysis, saltmarsh ecology.

Robin P. Ertl, Assistant Professor of Biology and Chemistry, 2011; Ph.D., Louisiana State University, 1997. Biochemical-toxicology and biochemical-evolution of xenobiotics (chemicals foreign to the body), examining the long term effects of classic pollutants and greenhouse gases on whole organisms and stem cells.

Deanne Dulik Garver, Assistant Professor of Chemistry, 2010; Ph.D., Virginia Commonwealth University, 1984. Organic chemistry, toxicology, analytical mass spectrometry, mechanisms of drug metabolite toxicity.

Mary Lynn Grayeski, Assistant Professor of Chemistry, 2015; Ph.D., University of New Hampshire, 1982. Analytical chemistry, strategy development based on luminescence and microfluidics for applications in environmental and clinical measurements, and chemical education.

Deborah Hokien, Professor of Chemistry, 1997; Ph.D., Lehigh University, 1995. Visiting Associate Professor, University of California Davis. Analytical chemistry, biochemistry, synthetic chemistry (organometallic and polymer), phytoremediation and bioremediation studies, water quality chemistry and red wine polyphenols.

Michael C. Kiel, Science Department Chair and Associate Professor of Biology, 2004; Ph.D., University of Toronto, 2000. Human genome analysis with respect to disease and evolution; mechanisms of protein synthesis; control of gene expression, particularly at the translational level; protein/protein and protein/RNA interactions.

Monica Pierri-Galvao, Associate Professor of Physics, 2009; Ph.D., Penn State University. Medical physics, physics involved in the radiation treatment for cancer; mathematical physics, investigation on the quantum geometry of the space-time.

Social Work

Phyllis Black, Professor of Social Work, 1994; Ph.D., Catholic University of America; C.M.F.C.* Ethical issues in social work practice and education, integrating genetics into social work practice and education, gatekeeping in social work education, grade inflation, social work education curriculum development.

Stephen Burke, Professor of Social Work, 1994; Ph.D., University of Minnesota. Faith-based organizations and implications for social work education, economic safety-net issues.

Lea M. Dougherty, Lecturer of Social Work, 2011; M.S.W., Marywood University. Women's issues, domestic violence, sexual assault, poverty, homelessness, oppression, and resiliency.

Christina C. Gigler, Clinical Instructor of Social Work, 2007; B.A., Shippensburg University; M.S.W., University of Maryland at Baltimore. Clinical social work practice with children, adolescents and families; child welfare issues; clinical supervision; crisis intervention; field education; and ethics.

B. Lynn Hutchings, Assistant Professor of Social Work, 2011; Ph.D., Rutgers University. The built environment, person-environment fit, physical and developmental disabilities, and aging.

Diane Keller, Associate Professor of Social Work, 1999; B.S., Wilkes University; M.S., University of Scranton; M.S.W., Marywood University; Ph.D., Syracuse University. Individuals with disabilities or chronic illness and their families; children and their families; women and leadership; program evaluation studies.

Christine Kessen, Associate Professor of Social Work, 2007; B.A., M.S.W., University of Illinois; D.S.W., Columbia University. Contemplative practices and social work education.

Sister Angela Kim, IHM, Associate Professor of Social Work, 2010; Ph.D., Catholic University of America. Children and adolescents, multicultural education, cultural competency in social work education and practice, bicultural ethnic identity development among immigrant children and their family members and international social work practice.

Lloyd L. Lyter, Professor of Social Work and Public Administration, 2003; B.A., East Stroudsburg State College; M.P.A., Temple University; M.S.W., Marywood University; Ph.D., Rutgers University. Behavioral health, substance abuse prevention, HIV disease, international social work.

Karen Rich, Associate Professor of Social Work, 2007; B.A., SUNY New Paltz; M.S.W., Wurzwieler; Ph.D., SUNY Albany. Formal and informal responses to crime victims, coping skills of victims with disabilities, sexual assault victim interviewing by police officers; stigmatization and coping skills of crime victims with disabilities.

Sunny Sinha, Assistant Professor of Social Work, 2012; Ph.D, University of South Carolina, Columbia. HIV presentation programs among at risk populations, human trafficking, women's access to health care.

Kimiko Tanaka, Assistant Professor of Social Work, 2010; Ph.D., Columbia University. Clubhouse model for psychiatric recovery, resilience and support.

Patricia Weldon, Assistant Professor of Social Work, 2014; Ph.D., University of Albany. Psychological trauma, disaster mental health, and crisis intervention.

Visual Arts

Steven Alexander, Professor of Visual Art, 2013; M.F.A., Columbia University, 1977. Abstract paintings examining the metaphorical resonance of color, physicality and scale.

Steven Brower, Assistant Professor of Visual Art, 2011; M.F.A. National University, 2007; B.A. Graphic Design, California State University, Fullerton (1984). Designer, author, and lecturer on the subject of design and popular culture.

Ann Marie Castelgrande, Instructor of Art, 2008; M.A., Marywood University, 1976. Research of the history of art education.

Peter T. Hoffer, Associate Professor of Visual Art, 1981; M.F.A., Cranbrook Academy of Art, 1968. Traditional printmaking with possibilities of computer applications and papermaking.

Christa Irwin, Assistant Professor of Art History, 2015; Ph.D., Graduate Center, City University of New York, 2014. Renaissance and Colonial Latin American Art.

Niko J. Kallianiotis, Assistant Professor of Visual Art, 2013; M.F.A., School of Visual Arts, 2013, M.A., Marywood University, 2011; Editorial, Street, and Documentary photography, with emphasis on visual narrative.

Sue Jenkins, Clinical Assistant Professor of Visual Art, 2012; M.F.A., Marywood University, 2011. Web and graphic designer, photographer, illustrator, and author.

Christine Medley, Assistant Professor of Visual Art, 2007; M.F.A., University of Maryland, 1995; Bachelor of Journalism, University of Nebraska-Lincoln, 1985. Design, printmaking, and distance learning.

John Meza, Associate Professor of Visual Art, 1998; M.F.A., University of Oregon, 1988, M.F.A., Memphis State University, 1986. Investigation of software programs for applications in the fine and applied arts. Research in sustainable design.

Samuel Olfano, Assistant Professor of Visual Art; 1995; M.F.A., University of Cincinnati, 1995. Photography, both product and process, as a visual language expressive of our linear thought and non-linear being.

Barbara Parker-Bell, Associate Professor of Art, 2001; Psy.D., M.S., Clinical Psychology, Philadelphia College of Osteopathic Medicine, 2008; M.A., Lesley College Graduate School, 1985. Expressive Therapy, LPC-Licensed Professional Counselor #PC00315, Commonwealth of Pennsylvania, 2003. A.T.R.-BC (Board Certified Art Therapist) 1996, A.T.R. (Registered Art Therapist) 1988. Professional caregiver coping. Integration of cognitive behavioral therapy and technology with Art Therapy.

Pamela M. Parsons, Associate Professor of Visual Art, 2001; M.F.A., Indiana University, 1990. Oil Painting.

Linda Dugan Partridge, Associate Professor of Art History, 1993; Ph.D., University of Delaware, 1992. Art of the United States; 19th century art of natural history and John James Audubon.

Mark Webber, Assistant Professor of Visual Art, 2008; M.F.A., Parsons School of Design, 1983. Figure painting, Italian Renaissance, Modernism and its debt to the past.

Stephanie Wise, Clinical Assistant Professor of Art, 2007; M.A., New York University Graduate Art Therapy Program, 2001; Licensed NY State Creative Arts Therapist #000028, 2005. ATR-BC (Registered Art Therapist 2004 – Board Certified 2005). Exploration of the value of art and drama therapy utilized in the classroom by Jordanian teachers as a means to help teachers help Iraqi children traumatized by war. Trauma, with particular emphasis on PTSD, in working with war veterans.

ADMINISTRATIVE ORGANIZATIONS

Board of Trustees

Lisa A. Lori, Esquire, Chair of the Board

Mary Ann Conaboy Abrahamsen, Esquire

Colonel Lorraine R. Breen

Sister Mary Ann Cody, IHM

Susan Cognetti

Lee A. DeHihns, III, Esquire

Sister Suzanne Delaney, IHM

Frank A. Epifano

Pia Ferrario

Dr. Patrick J. Fricchione

James G. Gavin

Maria C. Gogal

Sister Nancy Hawkins, IHM

Ann R. Henry, Ph.D.

Richard P. Kane

Sister Andrea J. Lee, IHM

William R. Lynett

Mary Ellen McDonough

Sister Mary Ellen Merrick, IHM

Marion Munley, Esquire Catherine G. Quinnan

Mary Kay Rotert

Patrick W. Sandone, III

Paula Shields

John P. Sweeney, Sr.

Monsignor David L. Tressler

Trustee Emeriti

Michael Insalaco Virginia P. Shields

Ex-Officio Trustees

Sister Ellen Maroney, IHM President of the Congregation of the Sisters, Servants of the Immaculate Heart of Mary, Scranton, Pennsylvania

Sister Mary Persico, IHM, Ed.D. President of Marywood University

Executive Officers

Sister Mary Persico, IHM, Ed.D. President of the University

TBA

Provost

William McGarry, M.B.A.
Interim Vice President for Business
Affairs and Treasurer

Renée Zehel, Ph.D.

Vice President for University

Advancement

Ann Boland Chase

Vice President for Enrollment Services

and Student Success

Mary Theresa G. Paterson, J.D. Secretary of the University and

General Counsel

Administrative Officers

Frances M. Zauhar, Ph.D. Dean, Munley College of Liberal Arts and Sciences

Mark E. Rodgers, D.S.W., L.C.S.W., B.C.D.

Dean, College of Health and Human Services

Collier Parker, M.F.A. Dean, Insalaco College of Creative and Performing Arts

Terri Peters, Ph.D. Dean, Reap College of Education and Human Development

James J. Sullivan, M.ARCH., RA, AIA Dean, School of Architecture

Additional Administrators

Meghan C. Cruciani, M.S. Assistant Vice President for Student Success

Patricia E. Dunleavy, Ph.D., C.M.F.C.* Associate Vice President for Human Resources/Coordinator of ACT 504 and Title IX

Peter Kilcullen, B.A. Associate Vice President for Marketing and Communications

Amy Paciej-Woodruff, Ph.D. Assistant Vice President for Student Life

Kathleen Ruthkosky, Ph.D. Associate Vice President for Planning and Institutional Effectiveness

Wendy Yankelitis, M.B.A. Assistant Vice President for Buildings and Grounds

Faculty

Dhanapati Adhikari (2011) Associate Professor of Mathematics. B.S., M.S., Tribhuvan University, Nepal; M.S., Ph.D., Oklahoma State University. Shamshad Ahmed (2005)
Associate Professor of Counseling (2011). B.A., M.A., University of Madras; Ph.D., North Carolina State University. National Certified Counselor, Licensed Professional Counselor

Steven Alexander (1993) Professor in Art (2013). B.A., Austin College; M.F.A., Columbia University; C.M.F.C.*

Lisa Antoniacci (2007) Associate Professor of Biology (2012). Program Director in Biotechnology. B.S., M.S. University of Scranton, Ph.D., Lehigh University.

Patricia S. Arter (2005)
Director of SOAR (Students On-Campus Achieving Results) (2007) and Associate Professor of Education. B.S., Towson State University; M.S., Ed.D., Johns Hopkins University.

Amanda Avery (2012) Assistant Professor and Outreach and Assessment Librarian. B.A., University of Pittsburgh; M.L.S., Syracuse University.

Jennifer S. Barna (2009) Associate Professor of Counseling (2009). B.S., Kutztown University; M.Ed., Ph.D., James Madison University.

Helen Battisti, (2013) Assistant Professor of Nutrition and Dietetics (2013). B.S., State University of New York at Binghamton; M.S., Ph.D., Marywood University; R.D.N., C.D.N.

Richard Joseph Behun (2014)
Assistant Professor of Counseling
(2014). B.A., California University of
Pennsylvania; M.S.L., The University of
Pittsburgh School of Law; M.S.Ed.,
Duquesne University; Licensed
Professional Counselor (Pennsylvania),
National Certified Counselor, Approved
Clinical Supervisor.

Amanda Bennett (2015) Clinical Instructor of Communication Sciences and Disorders (2015). B.A., West Chester University; M.S., Marywood University; Certificate of Clinical Competence in Speech-Language Pathology, American Speech-Language-Hearing Association.

James Biagi (2013)
Assistant Professor of Accounting and
Business Law (2013). B.B.A., Pace

University; J.D., State University of New York at Buffalo School of Law.

Phyllis N. Black (1988) Professor of Social Work (1994). B.A., M.S.W., McGill University; Ph.D., Catholic University of America; C.M.F.C.*

Stanley Blondek, D.P.M., M.D., Medical Director Marywood University Physician Assistant Program and Athletic Training Education Program (2008). B.S., Rutgers University; D.P.M., Illinois College of Podiatric Medicine; M.D., Spartan Health Science University; Director of Pediatrics Physicians Health Alliance.

Jessica Rae Bodzio (2010) Clinical Assistant Professor; DPD Program Director in Nutrition and Dietetics (2011). M.S. Marywood University.

Marie S. Bonavoglia (2008) Clinical Assistant Professor, Clinical Coordinator Physician Assistant Program (2008). B.S., University of Scranton; M.S., Marywood University; Ph.D., Marywood University

Christopher W. Brey (2010) Associate Professor of Biology (2015) B.S., University of Wisconsin-Milwaukee, M.S., South Dakota State University, Ph.D., Montana State University. Steven Brower (1995) Assistant Professor of Art (2011). B.A. California State University, Fullerton; M.F.A. National University.

Tammy B. H. Brown (2008) Director of Reading Program and Associate Professor of Education. B.S., M.S., Marywood University; Ph.D., Rutgers University.

Stephen C. Burke (1990) Director of the School of Social Work and Professor of Social Work (2005). B.A., M.S.W.; Ph.D., University of Minnesota; C.M.F.C.*

Lauren Burrows (2014)
Assistant Professor of Communication
Sciences and Disorders (2014). B.A.,
M.A., Temple University; Ph.D.,
University of Memphis; Certificate of
Clinical Competence in SpeechLanguage-Pathology, American
Speech-Language-Hearing Association.

Sister Gail Cabral (1968)
Professor of Psychology and Counseling (1991) and Administrative Studies in Gerontology. A.B., M.S., Marywood University; Ph.D., Catholic University of America; Certified School Psychologist; Licensed Psychologist; C.M.F.C.*

Miguel Calvo-Salve (2013) Assistant Professor of Architecture (2013). M.Arch, Escuela Técnica de Arquitectura de Madrid.

C. Estelle Campenni (1994) Associate Professor of Psychology and Counseling (2000). B.A., Pennsylvania State University; M.A., Ph.D., Adelphi University; C.M.F.C.* Brooke J. Cannon (1996)
Professor of Psychology (2000).
B.A., M.S., University of Scranton;
M.A., Ph.D., Binghamton University;
APA-Approved Internship in Clinical
Psychology, West Los Angeles VA
Medical Center; Post-Doctoral
Fellowship in Clinical
Neuropsychology, Norwalk Hospital,
Licensed Psychologist.

Ann Marie Castelgrande (1988) Instructor of Art (2008). B.A., M.A., Marywood University; further study, Marywood University, University of Scranton, Penn State University.

Leslie Worrell Christianson (2012) Assistant Professor and User Services Librarian. B.A., Notre Dame of Maryland University, M.L.I..S., Catholic University of America.

Jay P. Clymer, III Associate Professor of Biology (1983); B.S., University of Rhode Island, M.S., Ph.D. Lehigh University., C.M.F.C.

Arthur B. Comstock (2000) Executive Director, School of Business and Global Innovation and Associate Professor of Finance (2005). B.S., Ph.D., Lehigh University.

Dennis Corrigan (1990) Assistant Professor of Art (2000). B.F.A., Philadelphia College of Art; M.F.A., Tyler School of Art, Temple University; C.M.F.C.*

Renae Courtney (2014) Clinical Assistant Professor (2014). Director of Psychological Services Center. B.A, Salisbury University; M.A., Hood College; Psy.D. and Post-Graduate Certificate in Marriage and Family Therapy, Forest Institute. Jennifer Griffith Cowgill (2012) Associate Professor of Voice (2012). B.M., Oberlin Conservatory; M.M., Peabody Conservatory of Johns Hopkins University; D.M., Florida State University.

Edward J. Crawley (1999) Associate Professor of Psychology and Counseling (1999). B.A., M.A., State University of New York at Albany; Ph.D., Binghamton University.

Abigail P. Davis (2014) Clinical Coordinator/Clinical Assistant Professor, Physician Assistant Program (2014). B.S., Marywood University; M.S., Marywood University. Certified Physician Assistant.

Alexander Dawoody (2009)
Associate Professor of Public
Administration. B.A., Human Service
Management, University of
Massachusetts (Boston); B.A.
Philosophy, University of Massachusetts
(Boston); M.Ed., Cambridge College;
M.P.A., Suffolk University; M.H.A.,
Suffolk University; M.A., Philosophy,
Western Michigan University; Ph.D.,
Western Michigan University.

Diane M. DellaValle (2015) Associate Professor of Nutrition and Dietetics (2015). B.S., Marywood University; M.S., The Pennsylvania State University; Ph.D., Cornell University; Registered Dietitian Nutritionist.

Francis J. De Matteo (2009)
Associate Professor of Psychology and Counseling (2014). Director, School of Psychology Program (2009). B.S., University of Scranton; M.Ed., Ed.S., Ed.D., Indiana University of Pennsylvania. Pennsylvania Certified School Psychologist. Nationally Certified School Psychologist.

Lea M. Dougherty (2011) Lecturer of Social Work (2011). B.S.W., M.S.W., Marywood University.

Andrew Doyle (2013) Instructor in Architecture (2015). B.S., M.Arch., Norwich University.

U. Rex Dumdum, Jr. (2001) Associate Professor of Leadership and Information Systems (2001). B.S.C.E., University of Mindanao, Philippines; M.E., Asian Institute of Technology, Thailand; M.S., Advanced Technology/ Information Systems; M.B.A., Ph.D., State University of New York-Binghamton; C.M.F.C.*

Maureen Dunne-Touhey (1993) Director, Dietetics Internship (1993). M.S., H.H. Lehman College-The City University of New York; Registered Dietitian, Nutritionist.

James Eckler (2010) Associate Professor of Architecture (2015). M.Arch., University of Florida

Jason Edsall (2015)
Director of Athletic Training Program (2015). B.S., Slippery Rock University; M.Ed., Salisbury University.

Robin P. Ertl (2011) Assistant Professor of Biology and Chemistry (2011). B.S., Rochester Institute of Technology, Ph.D., Louisiana State University.

Annette M. Fisher Associate Professor and Information Literacy Librarian. B.A., Marywood University; M.L.S., Kutztown University; M.P.A., Marywood University; further graduate study, Clarion University; C.M.F.C.*

James J. Frutchey University Archivist and Monograph Acquisitions Librarian. B.A., Albright College; M.A., University of Scranton; M.A., Indiana University of PA; M.S.L.S., Clarion University. Christine Fryer (2004)
Chair and Assistant Clinical Professor of Education. B.S., Marywood
University; M.S., Wilkes University;
Ed.D. (cand.), Indiana University of Pennsylvania.

Gabriel Fuentes (2013) Assistant Professor of Architecture (2014). B.A., M.Arch., Florida International University; M.S., Columbia University.

Stephen Garrison (2002) Clinical Assistant Professor of Interior Architecture/Design (2007). M.F.A., Savannah College of Art and Design.

Deanne Dulik Garver (2010) Assistant Professor of Chemistry (2010). B.A., College of Notre Dame, Maryland; Ph.D., Virginia Commonwealth University.

Zhong Geng Associate Professor/Electronic Resources and Systems Librarian

B.S., Shanghai Maritime Institute; M.I.L.S., University of Tennessee-Knoxville.

Christina C. Gigler (2007) Clinical Instructor of Social Work. B.A., Shippensburg University; M.S.W., University of Maryland at Baltimore.

Chuck Gordon (2015) Associate Professor of Theatre (2015). B.A., Park College; M.F.A., University of Oklahoma.

Mary Lynn Grayeski (2015) Assistant Professor of Chemistry (2015). B.S., King's College; Ph.D., University of New Hampshire. Mona R. Griffer (1997)

Associate Professor of Communication Sciences and Disorders (2002). B.S., M.S., Brooklyn College, CUNY; Ed.D., Nova Southeastern University; Certificate of Clinical Competence in Speech-Language Pathology and Board Recognized Child Language Specialist, American Speech-Language-Hearing Association.

Lee Harrison (1974)

Professor of Nutrition and Dietetics (2001). B.S.H.E., Marywood College; M.S., Indiana State University; Ph.D., New York University; Registered Dietitian; C.M.F.C.*

Angela Hillman (2012) Assistant Professor of Exercise Science (2012). B.S., M.S., University of New Mexico; Ph.D., University of Hull.

Rick Hoffenberg (2007)

Associate Professor of Choral Activities (2013). A.B., Princeton University; M.M., Westminster Choir College of Rider University; M.M.A., Yale University; D.M.A., Yale University.

Peter T. Hoffer (1973)

Associate Professor of Art (1995). A.B., George Washington University; M.F.A., Cranbrook Academy of Art; further study, Rochester Institute of Technology; C.M.F.C.*

Deborah Hokien

Director of Center for Interdisciplinary Studies and Professor of Chemistry (1997). Ph.D., Lehigh University; Visiting Associate Professor, University of California, Davis.

B. Lynn Hutchings (2011) Assistant Professor of Social Work (2011). M.Arch., New Jersey Technology College of Architecture and Design; M.F.A., Rutgers University Mason Gross School of the Arts; Ph.D., Rutgers University. Christa Irwin (2015)

Assistant Professor of Art History (2015). B.A., Temple University; M.A., Williams College; Ph.D., Graduate Center, City of New York.

David J. Isgan (2012)

Clinical Instructor, Principal Faculty, Physician Assistant Program (2012). B.S., Marywood University; M.H.S., Drexel University.

Thomas Jackson (1990) Associate Professor of Political Science (1990). B.A., St. Josephs' University; J.D., Ph.D., Temple University; C.M.F.C.*

Bradley Janey (1999)

Chair and Professor of Psychology and Counseling (1999). B.M., Coe College; M.A., Adams State College; Ph.D., Kansas State University, National Certified Counselor, Licensed Professional Counselor (Pennsylvania).

Joseph Jaworek (2012)

Assistant Professor of Art (2012). B.S., Northwestern University; M.A., New York University; ATR-BC, (Registered Art Therapist, 2007, Board Certified, 2008).

Phil Jenkins (2007) Associate Professor of Philosophy (2011). B.A., University of Texas, Ph.D. Temple University.

Sue Jenkins (2012) Clinical Assistant Professor of Visual Art (2012). B.A., San Francisco State University; M.F.A., Marywood

University.

Craig M. Johnson Professor of Mathematics. B.S., University of Illinois; M.S., Ph.D., Purdue University. Renee S. Jourdanais (2000)
Clinical Instructor of Communication
Sciences and Disorders/SpeechLanguage-Hearing Clinical Director
(2013). B.S., Marywood University;
M.S., Nazareth College; Certificate of
Clinical Competence in SpeechLanguage Pathology, American SpeechLanguage-Hearing Association.

Niko J. Kallianiotis (2013) Assistant Professor of Art (2013). B.A., M.A., Marywood University, M.F.A., School of Visual Arts.

Diane Keller (1999)
Associate Professor of Social Work (2003). B.S.N., Wilkes University;
M.S., University of Scranton; M.S.W.,
Marywood University; Ph.D.,
Syracuse University.

Thomas Franklin Kent (2008) Associate Professor of Mathematics (2013). B.S., Truman State University; M.S., Ph.D., University of Wisconsin

Christine Kessen (2001) Associate Professor of Social Work (2007). B.A., M.S.W., University of Illinois; D.S.W., Columbia University.

Michael C. Kiel (2004) Chair of Science Department and Associate Professor of Biology (2004). B.S., Towson State University; Ph.D., University of Toronto.

Sister Angela Kim, IHM (2010) Associate Professor of Social Work (2015). B.S.W., Marywood University; M.S.W., Ph.D., Catholic University of America.

Marla Kovatch (2013) Clinical Instructor of Communication Sciences and Disorders (2013). B.S., Marywood University; M.A., University of Maine; Certificate of Clinical Competence in Speech-Language Pathology, American Speech-Language-Hearing Association. Monica Law (2013)

Assistant Professor of Management and Marketing (2013). B.S., M.E., University of Nevada; Ph.D., Pennsylvania State University.

Doug Lawrence (2001) Associate Professor of Communication Arts (2001). B.A., Antioch University; M.A., Marywood University; Ph.D., Union Institute.

Alan M. Levine (1978) Professor of Nutrition and Dietetics (1993). B.A., Hofstra University; M.A., Ph.D., New York University; Registered Dietitian; C.M.F.C.*

Charles Lipinski (1994) Assistant Professor of Hospitality Management (1994). M.B.A., University of Scranton; D.B.A., Nova Southeastern University.

Bernice P. Lukus (2005) Clinical Faculty in Education. B.A., M.S., Marywood University.

Lloyd L. Lyter (1995) Professor of Social Work (2003). B.A., East Stroudsburg State College; M.P.A., Temple University; M.S.W., Marywood University; Ph.D., Rutgers University; C.M.F.C.*

Maria MacDonald (2002) Clinical Assistant Professor of Interior Architecture/Design (2006). B.F.A., B.I.A., Rhode Island School of Design; M.A., Marywood University.

George Marcinek (1986) Assistant Professor of Accounting (1986). B.S., M.B.A., University of Scranton; C.P.A.; C.M.F.C.*

Patrick Martin (2011) Instructor in Architecture (2013). M.Arch, Norwich University. Mary Margaret Mazzaccaro (2001) Clinical Instructor of Communication Sciences and Disorders (2013). B.S., Marywood University; M.S., Florida State University; Certificate of Clinical Competence in Speech-Language-Pathology, American Speech-Language-Hearing Association.

Scott McAllister (2004) Lecturer in Administrative Studies (2004). B.A., Temple; M.P.A., Ph.D., Marywood University.

Sister Joan McCusker, IHM (2000) Associate Professor of Music Education (2005). B.M., Marywood College; M.M., Ithaca College; Ph.D., Eastman School of Music, University of Rochester.

Alice Elaine McDonnell (1980) Professor of Health Services Administration and Gerontology (1991). B.S., Columbia University; M.P.A., Marywood College; Dr. P.H., Columbia University; C.M.F.C.*

Maggie McManus (2013) Assistant Professor of Architecture (2013). B.S., University of Virginia; M.Arch., University of Pennsylvania.

Christine Medley (2003) Assistant Professor of Art (2007). Bachelor of Journalism, University of Nebraska-Lincoln, 1985; M.F.A.-Printmaking, University of Maryland, College Park, 1995.

Marywood University, Scranton, Pennsylvania, prepares students to have a positive impact on society at regional and global levels while providing each student with the foundation for success in an interdependent world. Marywood University is an independent, comprehensive, Catholic institution of more than 3,000 students, committed to the integration of liberal arts and professional studies in the context of ethical and religious values. Founded by the Congregation of the Sisters, Servants of the Immaculate Heart of Mary in 1915, Marywood offers a wide variety of bachelor's, master's, and doctoral degree programs, as well as continuing education programs, designed to place men and women of all backgrounds and ages at the forefront of service, knowledge, and technology.

Marywood University, in accordance with applicable provisions of federal law, does not discriminate on grounds of race, color, national origin, sex, age, or disability in the administration of any of its educational programs or activities, including admission, or with respect to employment. Inquiries should be directed to Ms. Patricia Dunleavy, Assistant Vice President for Human Resources, Coordinator for Act 504 and Title IX, Marywood University, Scranton, PA 18509-1598. Phone: (570) 348-6220 or e-mail: dunleavy@marywood.edu.

Directions

Marywood is conveniently located off U.S. Interstate 81. The campus is located 120 miles west of New York City and 125 miles north of Philadelphia and is easily accessible by a network of interstate highways.

- From Philadelphia take NE Extension of PA Turnpike (I-476) north to Wyoming Valley Exit #37 to I-81 north
- From Baltimore take I-83 north to I-81 north
- From the West take I-80 east to I-81 north
- From the North take I-81 south
- From the East (Connecticut & New England) take I-84 west to I-380 north (formerly west) to I-81 north
- From New York City & Northern New Jersey take I-80 west to I-380 north (formerly west) to I-81 north

Take Exit 188 from I-81; follow directional signs at the end of the exit ramp toward Dunmore (347S), which becomes Blakely Street, to traffic light at Drinker Street. Turn right onto Drinker Street, which merges with Electric Street. Proceed to second traffic light. At this intersection, turn right onto North Washington Avenue, and proceed four blocks. At third stop sign on North Washington, turn right onto Seminary Street. Proceed up the hill to the Memorial Arch. Parking areas are located near the Memorial Arch and on other designated sections of campus.
